## How Do Vapex E Cigarettes Work?

The product is a battery operated. As you push a button the atomizer is activated turning the **electronic cigarette** liquid in to vapor. The heater is controlled by a microprocessor that regulates the amount of vapor created. The whole process is optimized to give you a smoking sensation far more enjoyable than a normal cigarette.

## How is an E Cig Different from Regular Cigarettes?

### Tobacco Cigarettes :

- Are Filled with Cancer Causing Chemicals
- Are Over Priced
- Lead to awful odor
- Lead to Yellow Teeth
- Give you a bad breath

### Vapex *electronic cigarette*:

- Carbon Monoxide Free
- Tar and ash free
- Prevents second-hand smoke
- Saves you money
- Does not cause yellow teeth or bad breath
- Does not cause an awful odor

## Is Vapex Safe?

Vapex E Cigs contain high purity nicotine solution in liquid form, so you do not

need to inhale thousands of harmful chemicals to get the only one you really desire, the nicotine. There is no smoke inhaled, only vapor, so you avoid the toxic byproducts of tobacco combustion that are consumed when inhaling a normal cigarette.
