SPECIAL REVIEW: New Shocking Study on E-Cigarettes leaves Health Risk Critiques Speechless.

This Review was created by The Health Review to expose the truth behind e-cigarettes

(Health Review) -If you haven't already heard, [Electronic cigarettes](#) have grabbed the attention of countless tobacco users worldwide. Everyone from movie stars to your neighbors are using them. But are they really a healthier and cheaper alternative to traditional cigarettes?

New study finds no health concerns in e-cig vapor

Can they really help you quit smoking? Creators and product users now say you can enjoy a cheaper, healthier cigarette without the bad smells, second-hand smoke, or cancer causing chemicals. With these huge claims, we decided to uncover the electronic cigarette for our readers.

A few of the benefits claimed from using the electronic cigarette:

- No tar, tobacco, carbon monoxide, or ash.
- Get the same amount of nicotine as a regular cigarette.
- Each cartridge costs less than \$2 and is equivalent to an entire pack of cigarettes.
- The typical consumer can expect to save over \$1,000 each year.
- You won't "smell" like a smoker any longer.
- Different flavors are available.
- No more second-hand smoke.

We decided to see what expert medical doctors and product users had to say about [electronic cigarettes](#), and the results were surprising. In fact, **Joel Nitzkin, Chair of the Tobacco Control Task Force for the American Association of Public Health Physicians** concluded that "...if we get all tobacco smokers to switch from regular cigarettes to electronic cigarettes, we would eventually reduce the US death toll from more than 400,000 a year to less than 4,000, maybe as low as 400."

"Celebrities have turned away from deadly cigarettes and are picking up electronic cigarettes as a healthy alternative. Kathryn Heigl (above) smoking her e-cigarette on the David Letterman show."

"I have tried other brands of the electronic cigarettes and none them come close to the Regal Cigs "satisfaction action" of inhaling a tobacco cigarette. The Regal Cigs last longer than the other brands too, and you can choose the strength and flavor you want too. So forget the rest and get the best, Regal Cigs." V.G.

Regal e-Cig: RISK FREE STARTER KIT

PAY ONLY FOR SHIPPING! Just \$4.95 For A Limited Time

We have received loads of testimonials of people whom previously long time smokers have made the switch to healthy vapor. And with recent studies shedding the light on the safety of these devices, we feel its only a matter of time before the traditional cigarette is put out for good.

Trials of these products are limited. Expires on Friday, May 01, 2015

What Others Are Saying

I have smoked a pack a day for 10 years and I am the last person you would think would make the switch to electronic cigarettes. But after reading your article and trying the Regal ecig, i have to say i was hooked. My wife loves how much money i save and i love that i get to keep smoking without the damage to my body. win win

Cigarettes are toxic to your health and new studies show that switching to an e-cig may be the healthy answer you have been looking for after all. Critiques are claiming health concerns but studies show otherwise.

Fox News Special Notice - FDA Cannot find a reason to Ban E-Cigs

(Click on Video to Play)

John Cameron, James Cameron's brother defends electronic cigarettes in this video from Fox News! FDA cannot find good reason to ban electronic cigarettes.

It has even been suggested that while utilizing the [electronic cigarette](#), there is virtually no risk of getting cancer. These conclusions come from studies which show that nicotine is anatomical.

Four very well known doctors, from the popular TV show "The Doctors", have also studied the electronic cigarette and was featured as one of their top 10 key health trends.

"If you're one of the millions of people out there, you're addicted to smoking, there may finally be some hope for you... the electronic cigarette.

It gives you nicotine but it doesn't

give you any of the other 4000 chemicals that can cause cancer among other problems." - Dr. Travis Stork from "The Doctors" Saphire is not endorsed specifically by the doctors, but is a by far superior product.

We also learned that the [electronic cigarette](#) is not encompassed by most smoking bans and regulations. With the lack of second-hand smoke, smokers are excited to find that many businesses, bars, and even air planes allow them to smoke e-cigarettes indoors. Many electronic cigarette users have also received special permission from their employers to smoke e-cigarettes in the work place.

In the United States alone, over 700,000 smokers have already switched to [electronic cigarettes](#). The Doctors also interviewed Beverly, one of the many whose life has dramatically changed thanks to the electronic cigarette. She said that she smoked for over 15 years, and she thought that she would never quit. To her surprise though, when she tried electronic cigarettes she was able to quit smoking regular cigarettes two days later. *"I was suspicious at first but I have to say I am now convinced. The real harm in traditional cigarettes comes from the tobacco smoke and the hundreds of additional additives. Regal e cigs are a great alternative, it still gives you the action of smoking. I would as a smoker, recommend it to smokers that are trying to give up (smoking)."* - Beverly

We have received a number of positive testimonials such as this one and we feel that as more and more Americans are made aware of this new technology, that more and more smokers will make the switch. Our interviews and research have found that the electronic cigarette will quickly become the #1 choice for smokers looking to lead a healthier lifestyle. With the high cost of smoking traditional cigarettes, and with the danger cigarettes bring to your health, we give our recommendation and "thumbs up" to anyone looking to give these devices a try.

While conducting this research, we found that [Regal E-Cig's™](#) is offering a limited time Electronic Cigarette Risk Free Trial kit, along with 14 nicotine cartridges (a month's supply). While supplies last, you only pay \$4.95 for shipping and handling costs by using our link to see if this new breakthrough will help improve your life.

We thank [Regal E-Cig's™](#) for providing the chance to "try it before you buy it" and a chance for thousands of smokers to make the switch. We encourage readers who currently smoke to give E-Cigarettes a try for their health and for the health of their friends and family. Make sure to order before November 22, 2013 tomorrow, to be guaranteed your Risk-Free Trial Kit. [Click Here](#) for all the details.

"After purchasing and analyzing the Regal E-Cig for ourselves we learned quickly that not only is it a great tasting quality product but it also meets our quality and safe ingredient checklist."

I have tried 100 ways to quit smoking. I hated smoking but couldn't break the habit no matter what I tried. I hated the taste, the smell in my clothes, the smell on my fingers...I am finally off smelly cigarettes and enjoying vapor! Truly a life saver!

I tried your cigarette, and after trying others, I was impressed with yours. It had more of a "real cigarette" feel to it. I was actually thinking of ordering the minty menthol, and was telling all of my co-workers, friends and family how pleased I was with your cigarette!!!

Posted by Liz

I quit smoking real cigarettes and I started Regal experience and I honestly have to say I'm amazed by how real this product is, and I'm

not hurting myself nor am I hurting anyone else around me. My children are so proud of me. Please try this product I never thought in a million years that I would be able to stop smoking even with family and good friends that I have lost to lung cancer. I wish this product was around then they would still be here today. I have to say thank you Regal cigs.

Posted by Sharon

I will definitely order from Regal...I tried a couple others and they were not the quality of Regal.

Posted by John

I have tried other brands and I can tell you that the taste of Regal's mint is very satisfying and way above the others I have tried. I will be ordering other flavors to try and will be a customer for a long time. Let me assure you that Regal will be getting much more sales from me in the future.

Posted by Tom

I received your product Friday and was impressed by the packaging, and appearance. I have used it daily to date and have not "smoked" any cigarettes after a 2 1/2 pack a day habit.

Posted by PAT

I've tried several different e-cigs and yours is the best by far!! i have several friends at work who are interested in starting to use an e-cig. i have told them to try your's because they are the best around.

Posted by Mike

Regal offers the best tobacco flavor and battery design, which is by far better than what blu offers. I do own that system as well, but will be looking to sell it now.
