TOP 3 PLACES TO INSTALL BATHROOM GRAB BARS TO HELP PREVENT FALLS

September 12, 2012

CLEARFIELD, UTAH – Making a home safe for aging seniors is a key to enhancing mobility and ensuring independent living. Fortunately, installing safety grab bars in strategic areas can make it easier to safely maneuver around the bathroom. Grab bars provide extra support for seniors through unique anchoring systems that can support up to 500lbs of pressure, depending on the manufacturer. CLEARFIELD, UT – Just put it in the garage for now, may seem like a solution to cleaning and organizing the home. But does it make sense to have an immaculate home attached to a garage in shambles? The garage is just as much a part of the home as any other room and when used as a storage space for everything else, it can become more of a liability and an eyesore than a resource.
