Q & A

The Deluxe Workshop™ is the ultimate toy tool workshop for a child's play room. Children will make believe they are a carpenter or designer as they create wooden masterpieces with Durafoam™. Children can pretend to be a handyman or handywomen as they use their toy tools. This large toy workshop for kids is large with plenty of space and accessories for multi-child play. **Made in USA of US and imported parts. Durafoam™ made in Taiwan and some accessories made in China.**

- Large work surface of the toy tool workshop includes screw holes, recesses for nut, and screw storage
- Realistic Durafoam™ "wood" is easy for children to put together to create birdhouses and other "wooden" projects
- Features tool chest looking cabinet where kids can place their pretend tools and screws
- Slide in/out drawer and hanging jars of the kid's tool workshop is another place where children can store their tools
- Parts bin underneath the work surface of the large toy workshop for kids is an ideal place to store the "wood" pieces once playtime is over
- Pretend shop vacuum teaches children the importance of clean-up after creating a project
- Electronic drill (batteries required) children's imaginations as they interact with a realistic toy tool
- Electronic overhead shop light (batteries required) provide children with more light when they put together their "wooden" creations
- 50-piece accessory set included (includes drill bits, screws, nuts, saw, hammer, vise and much more)
- Requires two "AA" and three "AAA" batteries (not included)
- Minimal adult assembly required

**Play Tip:** If set up in your child's bedroom, use the overhead light as a night light
