Why Should I Make the Switch?

Smoke Anywhere

Say goodbye to second-hand smoke and odor. E-Cigarettes do not produce smoke, ash or tar; e-cigs only emit a harmless water vapor.

Rechargeable & Refillable

All of the 7's Booster Packs are rechargeable. All refillable cartridges can be refilled with 7's E-Liquids.

Save Money

Save as much as 85% over tobacco by making the switch to electronic cigarettes.

Satisfy Cravings

The liquid that is vaporized in your e-cigarette includes Nicotine (in various strengths) that may satisfy your tobacco cravings.

What our customers are saying...

★★★★★ *"43 year smoker here -- I can't tell you how overwhelmed I have become with the success of the E-Cigarette. For the first time in my life I feel free. Maybe now I can get over my addiction to nicotine with this product. I was a 2 pack a day smoker, and now I don't even crave a real cigarette. I am feeling... [\[read more\]](#)*

★★★★★ *"This product is great. I tell everyone I know about E-Cigarettes. I wish I had known about them when they first came out. I chose your product because it had the E-liquid where I could refill cartridges myself. I have back problems and a great deal of chronic pain. I take large amounts of pain meds. When smoking cigarettes I was falling ... [\[read more\]](#)*

TESTIMONIALS

"I am happy to report that I have not had a real tobacco cigarette since starting SS Choice e-cigarettes on Christmas day. I am thrilled not to smell like smoke, and to have safer access to nicotine. My kids are so proud of me. My husband is still working on getting used to his but all in good time. His atomizer seems to be a little tempermental at times. I think the secret is just putting down the real ones, and committing to this method of smoking."

- **Stephanie McDonald**

"I love e-cigs better for my health, the smell of my car/home/self gone. And helping me quit real cigarettes. Where were you 5 years ago when I started smoking? Anyways thanks for your product. :) "

- **Jonathan Riley**

"I love this product!!! My goal is to use the e-cig 100% of the time and never smoke real cigarettes again. As of now, I'm only using e-cig about half the time -- but even so, I can breath a lot easier. All smokers should make the switch."

"I just had to say that their customer service is GREEEAAAATTTT!! They took care of my problem immediately, super friendly, and to my complete 100% satisfaction. Their products are great and the best price I could find anywhere. Why deal with anyone else?"

- *John Ehrenberg*

"I just received my e cigarette starter kit today. It's great. I found myself trying to ash it at first. It took awhile to get used to the fact that it wasn't burning and that I could leave it alone for a half hour and just take a few more puffs on it. They had the feeling in both my hand and on my throat of a true cigarette. Being vapor, I was suprised at the flavor. I ordered more than one flavor, and they are both great. Having been used to the real version of a cigarette, I had forgotten that tobbaoco really is a pleasant flavor. And it's great to "smoke" and really taste it. After a few hours, I felt the desire, for some reason, to try my "old" cigarettes. They were not as good. My personal thought is that I did not need them. The flavor was not as intense and the smoke seemed a bit too harsh. Thanks for a great product. I've spent most of this evening on the phone telling friends how great these are."

- *Carl Stenholm*

"I had purchased the E-Cigarette about 2 weeks ago and I wrote yesterday that I was having problems producing vapor, but I had figured it out. Since last night the E-Cigarette has been amazing. This definitely will replace the regular smelling cigarette. I would recommend purchasing the E-Liquid to get the full effects. I was smoking Marlboro Lights which only has 7 mg of nicotine, but I had purchased the 16 mg of nicotine E-Liquid to make sure that I would get the full effect. Excellent Product!"

- *David Wise*

"My wife has emphysema and has had seven heart attacks. But she still could not quit smoking. Until we received the e cigarettes from you. The first day she laid down the tobacco cigarettes and now is feeling much better. Thank you for your extremely fast service and for a product that has helped my wife beyond belief."

- *John Ehrenberg*

"I want to tell you that you are a wonderful company to do business with. You honor the quality of your products, you charge a small shipping fee, and your mailings are always on time. Your email notices of shipping out are also greatly appreciated. Keep up the good work and you will always be on top of the others. Thank you."

"For the last 2 years the doctors have been telling my mom to quit smoking, that it was imperative. Her oncologist (Dr. Elvis Donaldson) had especially been telling her as she had survived another form of cancer that had been directly related to smoking. As her child that lives with her, I knew that if I didn't quit also, that she probably would never do it either. So, we started the whole regimen of the prescriptions, drugs, over-the-counter stuff, anything that you could use (and usually work for most people) we tried to no avail. We are die-hard smokers. Tha bad thing is we love to smoke. So, one day I was talking to my brother on the phone about how hard this was and if we didn't succeed this time, that mom, at 74, just wasn't going to be able to sustain this type of lifestyle for long without severe repercussions. He told me to google "E-cigarettes", he went on to tell me that he had heard of a high success rate with them. Even tho we would still get a small amount of nicotine, that we

would have the same satisfaction with them as you would a cigarette, just without all the carcinogens. So, I googled, ordered, they came in the mail, we tried them, love them, have not had a real cigarette in 2 months. Now, that may not sound like a big deal to you, but yesterday I went to the Dr. for a cold and he said my lungs were "clear as a bell". I haven't heard that in 20 years. My mom is a different person since quitting. Her coloring is back, which I didn't even know was gone, she doesn't have to use breathing treatments anymore, and you have given us back our mom. In a billion years, I can't thank you enough. we have given them to all our friends who smoke, hoping they, too can achieve what my mom & i achieved, and together we smoked for 98 years. Thank you so much, with all my heart!!!

"I got my SS Choice 7's Micro three days ago, and love it. I was smoking as much as two packs of cigarettes a day, and now have had a total of seven tobacco cigarettes since receiving my e-cigarette. Three of those were only because I got myself stuck without charged battery. My wife isn't making me smoke outside anymore, and my boss appreciates me taking less "self-appointed" breaks at work. Additionally, I already physically feel a lot better. I'm breathing easier, have more energy, and surprisingly, I'm constantly in a much better mood than I was smoking tobacco cigarettes. The 7's micro isn't exactly like a tobacco cigarette, but close enough for a heavy, stubborn smoker like me to make the switch effortlessly."

- Johnny Vox

"I started using this product about a month ago. I am totally satisfied. My health has clearly improved already. I tried the nicotine replacement products, but they did not satisfy my craving for cigarettes like these do. I don't use the e-cigarette nearly as much as I used to smoke cigarettes either. I highly recommend these for anyone who wants to improve their health,

but can't or doesn't want to go cold turkey."

- **Sue Bickford**

"I used to smoke with a drink. The two went hand in hand. I was not a smoker any other time. I would end up feeling horrible in the morning from smoking too much. Now if I go out with my friends this satisfies me. I no longer smell of smoke, I don't have to stand outside in the cold alone, my skin looks better, my eyes are clear, my fiance can sit next to me and not get upset if I accidentally blow in his direction, I am helping the environment with no waste product(only if you use the liquid and recycle the bottle), I feel better, I can do other things while smoking...need both hands? Put the E-cig down anywhere!, I can have a cleaner home, no more worries while driving in inclement weather because I can keep the window up, I don't have to freak out that I have no cigarettes and go out in the cold to get them, my pets health will be better, no burns, no stains, no concern for dropping it while doing any activity, more social acceptance(I am no longer a disgusting smoker), smoke anywhere you wish(just explain to the manager first what it is), and happy that no nicotine if I choose, but same feeling! A better life all around! No longer a stunted life from a dirty addiction! Please do not forget health insurance...you are no longer a smoker(if a nicotine gum chewer is not a smoker than neither are you)! I love this E-cig!"

"You guys really do support our troops and I thank you for supporting me. Best military discount ever thank you. I'll be ordering all my refills from you. You ship at sonic speeds too. thank you"

Chris Holle

"I LOVE THIS PRODUCT!! I strongly recommend this for any

smoker. I was one of those people who only smoked about a pack to 2 packs a week. I figured this would be perfect because it still gave me the sensation that I was smoking a cigarette. It truly works. I have no desire to smoke a regular cigarette, the electronic one satisfies me completely ;) Thank you to whoever came up with this product!"

Sabrina

"I recieved my kit last week, and have gone from 2 packs a day to 1/2 pack a day. Very impressed with this product. Would highly recommend to everyone looking to quit or just cut back on real cigs. Thanks e cig."

Joe Duchane

"This product is great. I tell everyone I know about the E-Cigarettes. I wish I had known about them when they first came out. I chose your product because it had the E-Liquid where I could refill cartridges myself. I have back problems and a great deal of chronic pain. I take large amounts of pain meds. When smoking cigarettes I was falling asleep while smoking and burning holes in things. I hated smelling like a cigarette all the time. I have totally quit smoking cigarettes now that I have the E-Cigarettes. I am thrilled with them. I have called the company a couple of times and have never had better customer service. I can't thank you enough."

Cindy Pless

"43 year smoker - I can't tell you how overwhelmed I have become with the success of the e-cigarette. for the first time in my life i feel free. maybe now i can get over my addiction to nicotine with this product. i was a 2 pack a day smoker, and now i don't even crave a real cigarette. i am feeling better than i have in years. i can't stress enough how well this product works."

THANK YOU-THANK YOU-THANK YOU"

Veronica Harmer

"My experience with 7's has been amazing. I have not had a cigarette in two weeks. The second week involved driving 1500 miles and not craving it was great. My only regret is that I didn't do it sooner. My hairdresser is trying it and my dad a two pack a day smoker for 60 years is going to try it. This really works don't wait to stop smoking and start smoking 7's E-cigarettes."

Ronald Shurtleff

"I just received my E-Cig from you all today. I was smoking almost a pack and a half a day. I have taken a few puffs from my e-cig and man what a different feeling. I got a feeling I will be putting my actual cigs down and not go back to them. Ready to feel better and save some money. Thanks E-cigs."
