F.A.Q

About AquaVaporCig eCigarettes

e-Cigarettes can be used legally almost anywhere and everywhere even in places that are affected by the strict no smoking laws. The e-Cigarette is not lit and smoke is not produced. The smoke that you see is strictly a vapor mist, and therefore is perfectly legal to smoke indoors, in malls, etc. **You can now walk around the mall, restaurant or airport puffing on your Electronic Cigarette and you're fully within your rights to do so as long as there are no specific laws prohibiting the use of Electronic Cigarettes.**

The e-Cigarette is a completely non-flammable electronic device. There is no danger of fire, or anything burning. There is absolutely no substance in it that gets lit.

The e-Cigarette comprises of a rechargeable Lithium Ion Battery that you can recharge over and over again. Every e-Cigarette starter kit contains two rechargeable batteries (except mini sets) so that you can be sure to get a never-ending smoking experience. You can add accessories to your starter kit like car chargers, designer carrying cases, extra cartridges, etc.

The e-Cigarette is not a tobacco product, there is no burning, no smoke, and virtually no smell. You can now enjoy the habit without all the hassles of traditional cigarettes.

e-Cigarettes are an electronic smoking device or an electronic cigarette as it is sometimes referred to. It is a completely non-flammable product that uses state of the art advanced micro-electronic technology to provide users an innovative alternative to traditional smoking. It feels like and tastes like a real cigarette, yet it isn't a cigarette, it is so much more.

The Difference

- They provide a smoking alternative without all the hassles of traditional cigarettes.
- You can smoke e-Cigarettes anywhere as long as there are no specific laws prohibiting the use of Electronic Cigarettes.
- Produces a virtually odorless vapor
- It is non-flammable
- No disposing of cigarette butts and no nasty ash trays to deal with.
- No more burn holes in your car

The Leading Reasons People Use eCigarettes

- **Freedom to smoke anywhere when there are no specific laws prohibiting the use of Electronic Cigarettes**
- Virtually odorless
- No lighting and no ashes
- Rechargeable and refillable
- Convenient to use
- **Lower cost smoking**

Selecting the Right eCig can be Overwhelming - So Many Sites, So Many Models!

Premium Electronic Cigarette eLiquid: Various Flavors, Nicotine Levels

Electronic cigarettes, or eCigarettes (eCigs), have seen a dramatic rise in popularity in the past few years, although the concept has actually been around since the early 1960s. While it's true that the ban on the use of burning tobacco in most public places has spurred the public into switching to these electronic devices that resemble cigarettes in appearance, sensation and taste, that's only part of the reason for the incredible growth of the industry. The huge selection of flavors now available through a wide assortment of ejuice/liquid that can be added to enhance an eCig's taste have convinced many that there's more to smoking than just regular or menthol. Some of the flavors of eLiquid now available include:

- Fruit varieties such as apple, mango, cherry, grape, peach, watermelon and banana.
- Drink varieties like Irish Cream, Pine Cola, Kahua, Cappuccino, rum and coffee.
- Candy flavors such as chocolate, butterscotch, vanilla, and almond/caramel.

There is also a line of ejuice that mimics conventional tobacco brands such as Regular, Cuban Cigar, Winston, Salem Menthol, Virginia Blend and Havana Select.

For soft drink fans, there's Dr. Pep, cola and root beer. Try them. You'll like them.

AquaVaporCig carries a wide selection of premium electronic cigarette eLiquids. You can choose from over 30 different flavors ranging from fruit to Havana tobacco. Our classic tobacco mixes offer the taste and feel of the highest quality leaf. Our fruit flavors and specialty blends offer a refreshing break any time of the day.

Still can't decide? Get a 10-flavor sample pack that offers our best sellers.

- Our eLiquid comes in four levels of nicotine:
- High Nicotine (Full Strength) - 24mg
 - Medium Nicotine (Light Strength) - 16mg
 - Low Nicotine (Ultra Light Strength) - 11mg
 - No Nicotine - 0mg

We have the highest quality eLiquid, with the best prices and best selection of premium eLiquid. Order today!
