[2,391,558](#) | [656](#) - At 70+, 6 women are looking better than ever. They look even more radiant and youthful than they did when they were years younger! Many have tried to discover their secret: is it botox, face lifts, or just good lighting?

The truth is much simpler (and cheaper!) than that. It isn't their makeup that's causing them to look decades younger. After many years of trying, our sources finally uncover the truth behind the anti-aging secret that has taken Hollywood by storm - and it's one that clever women around the world have been secretly using too.

"The Miracle Anti-Aging Breakthrough - Because It Works!"

The Best Skin Solution You've Never Heard Of

Instead of throwing away precious dollars on expensive anti-aging skin creams that make big promises and don't work, one reader has discovered a skin product that erases years off her face for only a few dollars. Read on to find out how it works!

"Lauren di Fiore was able to remove over 20 years of aging from her face with just one simple product!"

Lauren, a 72 year-old grandma from Louisville, KY, is a perfect example of how a little smart thinking and ingenuity can help you avoid unnecessary health risks and save you thousands of dollars in doctors' bills.

Like most women, Lauren didn't have the extra cash to try out every celebrity endorsed anti-aging "miracle cream" out there, let alone splurge on expensive elective medical procedures, like plastic surgery or facelifts.

Before trying this simple trick, she admits she used to spend almost an hour every day on an extensive skincare regimen consisting of over 6 different products, with seriously disappointing results. Each product made big claims promising to erase wrinkles and return her youthful skin; and while Lauren followed all their usage instructions to the letter, she saw no real results.

Frustrated and let down, she considered going so far as to take out a substantial loan for Botox injections, and even contemplated a highly risky and very expensive facelift procedure. But the high cost (ranging anywhere from \$5000 - \$20,000+) and the horror stories of unfixable botched procedures convinced her that cosmetic treatments were not the solution she was

looking for. She was determined to find a safe and affordable anti-aging solution that would give her real results and not leave her digging her way out of a hug

Lauren's Solution:

After a year of doing thorough research and speaking to other women about their skincare habits, she learned of a product that were yielding real results in the mirror. After just two weeks the proof was staring her right in her real results.

After only a few days of adding Neutratorne to her daily skin routine in the mirror. After just two weeks the proof was staring her right in her real results.

Using Neutratorne, Lauren's results were noticeably better than what she would have achieved for \$5,000 or more. This removed virtually 90% of all her wrinkles; tightened her face and neck, removing all signs of sagging, aging, and she was able to see these dramatic anti-aging results simply by using it for only 14 days.

Her friends, husband, and family were all shocked. They were convinced she was getting Botox, because her skin looked 20 years younger almost overnight. It was around as her friends starting using Lauren's method, and not long after she was featured on The Doctor Oz Show!

Lauren is now one of hundreds of women that share the same incredible method, she effectively erased 20+ years from her skin. It's change that has astonished everyone around her, even total strangers!

How does it Work?

Through her research, Lauren discovered that the real secret to Neutratorne's ingredients:

- Swiss Apple Stem Cell
- Matrixyl 3000 Peptides

These are both natural ingredients that work together to drastically reduce wrinkles and lines at the cellular level - below the surface of the skin - which is why they are so effective.

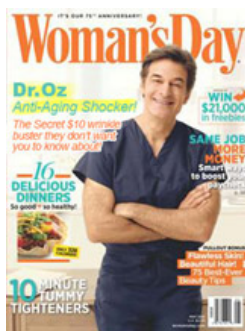

Swiss Apple Stem Cells: Delay the effects of aging and boost collagen production to keep your youthful skin with significantly reduced fine lines and wrinkles.

Matrixyl 3000 Peptides: Unparalleled for collagen synthesis and a major wrinkle fighter. Two peptides synergize to repair, restore and maintain your skin's youthful look.

People Everywhere Are Talking

"I'm 48 yrs old and my face has unfortunately been showing signs of age, dark spots and wrinkles. I decided to give this product a try as the reviews were so good, but I had reservations because I've been disappointed with things that have had good reviews in the past. This stuff works. I don't know if it's because my face was in such horrible condition that just two nights of use and I could tell the difference in the size of my pores, my skin tone was more even, and my face was smoother and not so bumpy looking. I definitely would continue

Neutratorne was recently featured and is being called **The Secret Wrinkle Buster** they don't want you to know about.

Neutratorne comes highly recommended by celebrity doctors and mom's alike.

Healthy Mom Daily has gotten it's readers a **special discount** on Neutratorne through our friends at Woman's Day.

- **Lannie Semira** from Lakewood, New York

"I am 57 years old and I do NOT expect any lotion or cream to make me look as I did in my 20's; however if I use Neutratorne on a regular basis I absolutely can tell a difference in my skin tone and the overall appearance of my complexion. I checked out and the reviews online and they were great so I decided to give them a try. Neutratorne is light, fragrance free, & non-greasy. It has a fair amount of retinol, green tea, and Vitamin E plus it is packaged properly so that the beneficial ingredients are not exposed to the light, air, & bacteria that destroys them. The free trial was great, it allowed me to try them before I bought them.."

- **Zoe Clara** from Miami, Florida

"Better than ANY other face cream I have ever tried. Don't spend your money on expensive department store crap. Your paying for advertising and packaging! This cream is the best and cheapest. Have been using it ever day for the past year and I'll keep using it. I Wish I could give them 10 stars."

- **June Witwicky** from Los Angeles, California

Dr. Richard Peters, a prominent dermatologist based in Beverly Hills, California, revealed to us that Neutratorne is the celebrity secret to youthful skin because both products contain the purest and most powerful ingredients. Best of all the products are all-natural, perfectly safe for all skin types, and have no nasty side effects.

What Swiss Apple Stem Cell and Peptides do is get rid of all the old, dead layers of skin and help your skin generate fresh new ones. Tests show that you can drastically reduce almost 20 years off your face in less than 14 days. But the key is to choose the creams and serums that contain the highest and purest quality ingredients, since they're not all the same.

Lauren's Story & 14 Day Neutratorne Results:

"The trick is that Neuratone contains high concentrations of pure Stem Cell and Amino Acids (Peptides) in just the right concentrations. I also discovered that Neuratone also has Hyaluronic Acid, which helps your skin stay hydrated and plump. Neuratone also has high levels of anti-oxidants, vitamins and nutrients to really improve the overall quality and health of your skin. Neuratone is a consolidation of six of the most effective anti-aging ingredients currently available. Truly an amazing product!

The instructions were easy to follow but very specific: they're important to follow precisely because it does make a visible difference. You apply just a light coat of Neuratone on your face and neck after washing and drying your face, and gently pat before bed time. I saw results almost overnight, but after 14 days, the results were literally shocking. I looked how I used to look 20 years ago!" - **Lauren**

Day 1:

After the first day of using Neuratone, I was surprised at how wonderful they both made my skin feel. It felt like every last pore on my face was being tightened and pulled by a gigantic vacuum cleaner.

I don't know how else to describe it! I could feel a warm tingling sensation on my cheeks, around my eyes, and on my forehead. I looked in the mirror and saw that my face looked a bit rosy - the result of revitalizing blood rushing to the surface of my skin to renew my face. After Neuratone was absorbed into my skin, my face looked firmer and had a beautiful glow to it.

Day 5:

After five days of using Neuratone, I was shocked at the drastic results.

The lines, dark spots, and wrinkles - without question - were visibly reduced in size right before my eyes!

I was astonished by the results, and literally felt 20 years younger again. It was like watching all my wrinkles and fine lines vanish right off!

Day 14:

After 14 days, not only had all my doubts and skepticism absolutely vanished - **SO DID MY WRINKLES!**

The lines on my forehead, the loose, sagging skin on my neck, my crows' feet - even the age spots on my face had COMPLETELY disappeared. I've never felt or seen anything tighten my skin with this kind of force before, no matter how expensive the product!

After the 2 weeks, my skin not only stayed that way, it actually improved every day until it became as beautiful and radiant as it was 20 years ago. **By this point, all my friends and family were shocked. They couldn't believe the difference, and were convinced I was lying about not getting botox!**

Will This Work For You?

There are plenty of skincare gimmicks out there, and most of them are ridiculously expensive. With so many options it's only natural for you to be skeptical about the results, and so I challenge you to do what I did: **try it for yourself!** Conduct your own study and see the incredible results in your mirror at home. **You won't believe YOUR before and after!**
