## NicStick Electronic Cigarette Testimonials

Not convinced yet? Read reviews from our many satisfied customers.

*I just wanted to leave a review on an awesome customer experience I've had with Nicstick! I'd had an issue with my points that I needed resolved, as well as a specific Nicstick battery I was loving that I needed replaced. After calling Nicstick, everything was resolved at lightspeed in the friendliest manner possible! I was also re-sent a discount code that my email had missed in order to get the best value on my most recent purchase which I greatly appreciated.*

*Thank you for such a wonderful customer service experience- it truly made my whole week! To top it off, Nicstick does have such wonderful products. My Dad and I would not have been able to kick our smoking habits without you, and I will only ever use Nicstick Ego batteries and chargers due to the incredible value and performance of the product. You guys rock- keep up the awesomeness! - Holly N.*

*"Thank you so much for your help Juliann. The service I have received so far from this company far surpasses that which I got from V2 and Blu combined. I never would have imagined this considering today is the first time I have ever even heard of Nicstick." - Scott.*

*"Svetlana, I got my package in the mail today and that was the nicest thing anybody has done for me as long as i can remember . I was not expecting so much you dont know how much this means to me this is a potential life changing thing i want to thank you so much from the bottom of my heart my wife thanks you my grandson thanks you now i can quit smoking and no excusses this shows what customer service is all about i will tell people on ecf and facebook you changed my life THANK YOU again i will be your customer and bring others with me , - David G.*

*"Nicstick is the best company I have ever dealt with. Product is 5 star. Price is 5 star. Service is off the chart! This is what makes America move forward. Great job. - Thomas R. M.*

*"Words cannot express how much I love nicstick products and the nicstick company. I tell everyone that mentions electronic cigarettes that if you are serious about using them and if you want the best, nicstick is the ONLY one that delivers it all. I don't even look or even think of looking or getting other brands, even if I were to run out. None compare, its that simple. Nicstick has become a part of my life. The products are truly astounding and extremely satisfying and the customer service is the best I've seen. Thats why I am staying with nicstick as long as I use my E-cigs!" - Stephen M.*

*"I was working outside road side using my nicstick to sustain. I'm actually quitting for myself and for my 4 year old and 7 year old's sake, and this tool is just enough to take off the edge. I ended up losing it on the road and finding it the next day after about a thousand vehicles drove over it. I thought my quitting smoking was over but oh no. Fail me not, got home, charged the battery for roughly 20 mins and it persevered. Im puffing away..." - Marvin*

*"I have never had an internet co. with your concerns about their customers. I will be a customer for life. I would like to thank the young lady who called me to inform me of an error I had made on my order. It is a breath of fresh air to know there is still a company which has their customers best interest at heart. I am 62 years of age and thought the age of integrity had passed. I am wrong, Maintain this integrity and you will go far. Thanks again" - Wayne*

*"I'm impressed, Your product arrived quickly and worked perfectly" - Brenda*

*"Fantastic Product, Great Service, my order was upgraded to priority shipping at no additional cost and you actually answered the*

phone when i called, Thank You" -Paul

"Thank you for the expedited order, it was just in time, I am sooo tired of tar and cigarettes. Thank you so much, I will be placing another order in about 1 1/2 weeks as I am almost off of the Salems, and it will be pay day. Thank you again. I have ordered alot of different brands but am very happy with your service and help. - Sonya G.

"Thank you for the prompt service and the extra cartridges. I mailed the old batteries back today. Again thank you for resolving my issue so quickly. " - Ryan

"Since I have been using my NicStick 302, I have not smoked any more tobacco cigarettles Great product and great service from NicStick!" - Mikyle T.

"NicStick Team, I wanted to send this email to thank you for the excellent service you provided in getting me my order. I especially want to THANK YOU for the car charger. I am totally satisfied with your product and service." - Deborah T.

"This is the best e-cig I have tried yet. Hands down the best customer service and the best product." - Emily C.

"I have been able to save over 600 dollars by smoking the NicStick cigarette." Marcia F.

"When I first heard about this I was skeptical, but now I can't live without my NicStick 510." - Joseph W.

## How does an Ecig work?

An Electronic Cigarette or E-Cigarette is a cigarette-shaped and -sized tube, which has a LED colored light on one end, encompassing a battery and an atomizer cartridge that converts the liquid into vapor. Every time a user attempts to smoke, the pressure-activated switch makes the mini heating element function and generates a vapor that looks similar to smoke. When the user stops smoking, the smoke will stop appearing, and the cigarette will return to stand-by mode. As the cigarette is battery-operated, it can be charged with the equipment provided and used over and over again.

The vapor of the ecigarette is basically the same kind of smoke one usually sees at concerts, pubs and live entertainment shows, which are used for special effects. Further, the vapor can consist of nicotine in doses set by the user and in a range of different flavors like chocolate, apple, mint, tobacco, and a lot more. Users can buy the flavor of their choice and also, their brand of cigarettes.

Nicotine quantities in the cartridges are available in low, medium, high, and zero. The high quantity cartridge contains the same nicotine amount as that found in a regular cigarette, although a few have been seen to exceed it, which is not recommended for your health safety. Few brands also allow you to create your own custom flavors and adjust the nicotine level yourself.

From a physical sensation point of view, E-cigarettes and regular cigarettes are very much alike, and that is why they are such a brilliant replacement to tobacco smoking, but the biggest challenge is changing over from tobacco cigarettes to E-cigarettes with will power. Also, the users have to be well-prepared, in terms of keeping the battery charged for the entire day. It is advised to keep a spare battery on them at all times. **E-cigarettes last almost 20 times longer than a standard cigarette, and are much cheaper than tobacco cigarettes.**
