Testimonials

Ryan - Los Angeles, CA

"I started vaping about a year ago and have tried so many different brands I've lost count. I've always been let down by the lack in vapor and weakness in flavor and never really found a brand I've wanted to stick with. I loved AER's message of giving back to the environment so I thought I'd give your starter kit a try. WOW! I am absolutely blown away by the amount of vapor it creates. Customer for life!"

Stephanie - Boise, ID

"I've been a pack a day smoker for over 10 years and have desperately been looking for a better alternative. I recently made the switch to your cig and I absolutely love it! I'm never smoking a traditional cigarette ever again."

Adam - White Plains, NY

"I can't tell you enough how much I enjoy my AER cigarette. I can pull it out of my pocket while in my office, take a few puffs, and head into a meeting without the fear of my suit or breathe reeking like smoke. Fantastic product. Keep up the good work."

Nicholas - Las Vegas, NV

"It's so refreshing to find a company that not only makes a great product, but that also cares about its impact on the environment. I hope more companies follow in your footsteps."

Avery - Westchester, PA

"You guys are the best! I'm really impressed with your level of service. I purchased a starter kit for my boyfriend and I off your site and it showed up 3 days later. No fuss no muss. Looking forward to trying all your flavors."

Dave - Miami, FL

Great products. Simple ordering and quick delivery. Thank you!

Mandy - Fresno, CA

I have been smoking for 15 years. I was a 2 1/2 pack a day kinda girl. Ive tried everything to stop smoking. Patches, chantix, gum, other electronic cigs, none which have worked. I got really sick in December and swore i needed to find a way to quit. My mom and dad had just been to California on a vacation and she brought them home raving about them. I decided to give it a try. I honestly never believed this would actually work. I was very wrong. I love them. It was so easy making the switch. I really enjoyed smoking, but I dont miss it a bit. I already feel better. I would highly recomend the aer cig to anyone who wants or needs to quit. Just like myself you wont believe how easy it is to do just that!! Esp., with flavors like melon and coffee. Ummm! You cant go wrong.
