Bull Smoke, Inc - Company Information

Bull Smoke is the originator of the unique 2-piece design electronic cigarette that provides smokers with an exciting new alternative.

Our electronic cigarettes offer the most authentic look and feel of a traditional cigarette while running on a unique rechargeable battery and microprocessor design. There is no need to light up. Customers inhale the highest quality nicotine and full bodied flavoring through a full-bodied vapor that is just as potent as real smoke but leaves no ash.

Bull Smoke has several advantages over traditional cigarettes:

- No ashes or flames to deal with.
- High quality and flavorful Vapor for a Smoke-Like Feeling, without the messy ashes and residue.
- No offensive odors that stick to linen, clothing, furniture walls or your office, house or car.
- Save tons of money compared to highly taxed traditional cigarettes.
- Smoke your electronic cigarette virtually anywhere, inside many restaurants, bars, airports and in many places where traditional smoking is restricted or prohibited. After all, it is just vapor and leaves no lingering effect.

At Bull Smoke we strive to provide our customers with friendly, knowledgeable and effective customer service. We value your opinions, comments and concerns. So please feel free to contact us for any reason whatsoever at 1-855-GET-BULL.

YOU MUST BE OF LEGAL SMOKING AGE TO BUY AND/OR USE ANY BULL SMOKE PRODUCT.

WARNING: This product is not intended for use by persons under legal smoking age, nonsmokers, women who are pregnant or breastfeeding, or persons with or at risk of heart disease, high blood pressure, diabetes, or taking medicine for depression or asthma. This product contains nicotine. If you are allergic to nicotine, propylene glycol, or any combination of inhalants, if you are pregnant or breast-feeding, or if you have a heart condition, diabetes, high blood pressure or asthma, consult your physician before using any Bull Smoke products. Discontinue use and consult a physician if you experience nicotine misuse symptoms such as nausea, vomiting, dizziness, diarrhea, weakness and rapid heartbeat.

Our products do not treat, diagnose, or cure any disease, physical ailment, or condition. Keep out of the reach of children and pets as ingestion of certain pieces can present a choking hazard. Nicotine can be toxic if inhaled or ingested in large doses, and may cause irritation to eyes and skin if exposed. Wash immediately with soap and water upon contact. Nicotine is highly addictive and habit forming.

CALIFORNIA PROPOSITION 65 Warning: This product contains nicotine, a chemical known to the state of California to cause birth defects or other reproductive harm. Bull Smoke products are not marketed for use as a smoking cessation product. Just like traditional tobacco cigarettes, Bull Smoke Electronic Cigarettes are not approved by the American FDA.

Press and Media

CNN

Tobacco smoke causes nearly 90 percent of lung cancer deaths, according to the American Cancer Society. "If it is a choice between smoking tobacco product or a nicotine replacement — of course, keep taking the nicotine," Dr. Steven Schroeder said. "It is a heck of a lot healthier than tobacco smoking."

CNET

Basically, the E-Cigarette offers a real smoking experience without any of the unpleasant side-effects of traditional tobacco smoking.

ABC

Because no burning is involved, makers say there's no hazardous cocktail of cancer-causing chemicals and gases like those produced by a regular cigarette. There's no secondhand smoke, so they can be used in places where cigarettes are banned.

MSNBC

Manufacturers have touted the products as a healthier alternative to smoking because no burning is involved, and there's no hazardous cocktail of cancer-causing chemicals.

CBS NEWS

Smokers say it has the taste, the feel, the draw of a real cigarette. It's delivered in water vapor, not in harmful smoke. Looks like a real cigarette. Gives you the sensation of real smoke. You're not getting all the things that are killing you, such as carcinogens, chemicals, poisons, tars.

LOS ANGELES TIMES

It uses a small lithium battery that atomizes a liquid solution. What you inhale looks like smoke, but it's a vapor similar to stage fog. It even has a red light at the tip that lights up with each drag.
