FAQs

Improve your memory with Prevacen®*

Prevagen can improve memory*

Prevagen was tested in a large double-blind, placebo-controlled study using computers to assess brain performance. 218 adults over 40 years old participated in the three month study. Prevacen significantly improved learning and word recall.*

Around the age of 40, our brain begins to need more cognitive support.* Prevacen can improve memory within 90 days.*

Common examples where Prevacen may help

- **Walk into a room and forget why.**
- **Spend extra time looking for car keys or purse.**
- **Trouble remembering names or faces.**

These are everyday examples of normal memory challenges that can come with aging. Prevacen has been tested and shown to improve memory.*

Prevagen is a safe and effective supplement

Only Prevacen contains the patented [ingredient apoaequorin](#), a unique protein originally obtained from a specific species of jellyfish called *Aequorea victoria* found in the Puget Sound. Apoaequorin is a protein our brains need for healthy function but is diminished in the aging process.

Prevagen is very safe and extremely well-tolerated. There are no known contraindications with any supplements or medications.

Supplement Facts		
Serving Size: 1 capsule		
Servings per container: 30		
Amount per capsule	% Daily Value	
Apoaequorin	10 mg	†
† Daily Value not established.		

Other ingredients: white rice flour, cellulose, salt, vegetable sourced magnesium stearate, acetic acid.

Manufactured & Distributed by
Quincy Bioscience Holding Company, Inc.
301 S Westfield Road • Madison, WI 53717

Made without most common allergens
(milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat, and soybeans)

Suggested use: Take 1 vegetarian capsule daily in the morning, with or without food.

How does Prevagen® work?

Laboratory research has demonstrated that Prevagen® has powerful cell supporting activity by providing a protein originally found in jellyfish.

In aging, these proteins are depleted leaving brain cells vulnerable to damage. Prevagen® is made by Quincy Bioscience and was developed by scientists and University researchers in Madison, Wisconsin.
