Can I Vape The Your ECigs Anywhere?

As much as we should be able to yes, due to rapidly changing laws and a wide spread misunderstanding of our products, it is best to use your own judgment and always consult management or an authority figure before vaping in a public place. You'll find that most places that usually do not accommodate traditional smoking are usually very accommodating to eCig users. Most times it just takes a little explaining of the differences of our product in comparison to a traditional cigarette. Such as the fact that there is no second-hand smoke, lingering smells, etc. inherent to our product. However, you should use caution and sound judgment anytime you use our products in a public place.
