

# How Does Levean Work So Well?

The active ingredients in this product (**Curcumin, Forskolin, Astaxanthin, CoQ 10, Chromium, Resveratrol, and Vitamin D3**) have each been the subject of multiple clinical studies both in the United States and Worldwide.

Often sold separately, they have shown in multiple studies to aid in life extension, health improvement, and wellness. **As the first company ever** - Levean is bringing these properties together in a convenient daily dosage, that is ***easily digestable and absorbed by your body.***

## Curcumin (Comes from the Turmeric plant)

Curcumin promotes cardiac health and repair through multiple different mechanisms, particularly by preventing morphological changes to walls in the arteries. (Source: Pubmed.gov).

In several independent studies, curcumin has also shown anti-tumor, antioxidant, anti-arthritis, and anti-inflammatory properties.

Curcumin's potential anti-cancer effects stem from its ability to induce cell death in cancerous cells - without harmful effects on surrounding healthy cells.

- ♥ Promotes cardiovascular health
- ♥ Functions as an antioxidant
- ♥ Shows promise in various cancer research
- ♥ Possible treatment for Parkinson's and Alzheimers disease
- ♥ Reduces inflammation

## Astaxanthin (From krill and ocean algae)

Is the strongest antioxidant found in nature - and has been shown in multiple clinical studies to have significant positive effects on human health.

Most of the foods we eat do not contain enough astaxanthin - so a daily dietary supplement is required to consume the recommended, efficient daily value.

- ♥ Proven heart and cardiovascular benefits
- ♥ Stronger than beta-Carotene and Vitamin E
- ♥ Strengthens immunity - Reduces inflammation

**"Astaxanthin: A Potential Therapeutic Agent in Cardiovascular Disease"**

*United States National Institute of Health Library*

## Forskolin

(From the Indian *Coleus Forskohii* plant)

Forskolin works on muscles in the heart and in the walls of the blood vessels. It produces a more powerful heartbeat and widening of the blood vessels, which lowers blood pressure.

The research on Forskolin in relation to age-related illnesses such as Alzheimer's and Parkinson's is also of particular interest to scientists and medical research.

- ♥ Proven heart and cardiovascular benefits
- ♥ A clinically proven weight loss aid
- ♥ Used worldwide to treat asthma, skin conditions, and glaucoma
- ♥ Reduces inflammation and urinary/bladder infections
- ♥ Used to treat sexual dysfunction and insomnia

## Chromium

(A trace mineral found in oysters and whole grains)

Several studies indicate that Chromium lowers LDL - ("bad") cholesterol, and elevates HDL – the "good" Cholesterol. Chromium may also in effect contribute to reduce the risk for heart attack or stroke.

Chromium may help control diabetes and symptoms related to high blood sugar. In people with type 2 diabetes, the pancreas secretes plenty of insulin in an effort to regulate blood sugar levels, but the body's cells don't respond to it.

- ♥ Regulates LDL/HDL cholesterol levels
- ♥ Regulates normal blood pressure levels
- ♥ Regulates blood sugar and insulin sensitivity
- ♥ Positive effects on eye health and glaucoma

## CoQ 10

(Found naturally in all cells of the human body)

Acts as a natural blood pressure regulator, and can decrease high blood pressure and restore a normal cholesterol level.

CoQ10 exists in all of our cells, and is also one of the most powerful anti-oxidants in our bodies. Our regular CoQ10 levels get lower as we age - but does not regenerate itself). CoQ10 can only be maintained through dietary supplementation.

- ♥ Proven heart and cardiovascular benefits
- ♥ Improvement in immune function
- ♥ Usage of the treatment of Parkinson's disease
- ♥ Prevention of frequent migraines

## Resveratrol

(Plant compound extracted from red grapes and cocoa powder)

One of Resveratrol's main benefits is strengthening of the heart and cardiovascular system. Studies suggest that resveratrol may play an important role in reducing the risk of heart disease. (Source: Pubmed.Gov)

Resveratrol also has anti-inflammatory and antioxidant effects, providing a strengthened immune system.

- ♥ Proven heart and cardiovascular benefits
- ♥ Anti-diabeting effects, regulating blood sugar levels
- ♥ Anti-inflammatory for pain relief of arthritis
- ♥ May reduce plaque formation in the brain (Alzheimers)
- ♥ Anti-viral effects on certain influenza and HSV viruses

## **Vitamin D3** *(Found in certain foods - and from sunlight exposure)*

"If you want to lower your blood pressure, or lower your chances of heart attacks, then vitamin D should be at the front of the line in your daily supplement regimen". (Source: WebMD).

A study in the Jan. 13, 2004 issue of Neurology revealed that women who get doses of vitamin D3 of at least 400 IU - are 40% less likely to develop MS (Multiple Sclerosis) compared with those not taking Vitamin D supplements. (Levean contains 8000 IU).

Vitamin D3 is also one of the most potent inhibitors of cancer cell growth, and can stimulate your pancreas to make insulin.

- ♥ *Reduces high blood pressure*
- ♥ *Regulates the immune system*
- ♥ *Reduces arthritic inflammation*
- ♥ *Showing promise in research on cancer prevention*
- ♥ *Reduces the risk of diabetes, and stimulates insulin release*

## **Levean Can Help You If You Have..**

***Hypertension***

***High HDL (bad) cholesterol***

***High blood pressure***

***Low LDL (good) cholesterol***

Even in healthy adults, there are hidden risks of contracting one or more of the above - through family genes, lifestyle, and diet. Have your blood pressure checked regularly at your physician, with free test machines at your local pharmacy, or with a device at home.
