Chronic Pain?

Several of you know my story, but here goes!

I broke my neck in '98 and have gone through over 800 injections of steroids and hundreds of other procedures instead of having surgery to deal with pain. It came to a point that my body would no longer function if I kept that up so the only option was a major surgery.

I made it and it helped, obviously! But there were days I was not sure I would make it through all the pain.

Still on many different medications for pain tolerance I discovered the "MIRACLE" _Reserve™!

After a month of drinking these amazing gel shots, I started to feel better than ever. No ice every night, could hold the phone to my ear, could comfortably ride in the car. So after speaking with my doctor, we decided to cut my scripts to half the dosage.

Another month went by and I was even better. So I decided to **STOP ALL MEDS!**

Today after being in pain for over 17 years, **I AM PAIN FREE** and prescription free!

I have prayed for this day!

Thank you Jeunesse Global

- Antioxidants resist oxidative stress and premature aging
- Anthocyanins support healthy cardiovascular function
- Essential fatty acids assist in digestive tract function

Reinforces a healthy immune system

Helps maintain a healthy metabolism

Helps boost energy

Supports healthy joint function

- Positive cap-e test results indicate that RESERVE™ penetrates and protects live cells from oxidative damage
