RESERVE™ is a fruit blend that makes the feeling of youthful living last. This fruity-tasting gel contains powerful anti-oxidants including **Resveratrol** that repair free radical damage and protect cells from future harm. Your body cells stay healthier, live longer, and leave you with the enduring effects of youth.

RESERVE is also believed to have the ability to slow down aging, improve health and control diseases like diabetes, high blood pressure, high cholesterol levels, cancer, helps one to regain a healthy weight and more (See Testimonials)

Jeunesse Reserve Features:

- Contains a unique, youth-enhancing blend of antioxidants, anthocyanins, and essential fatty acids
- Highly bio-available gel form increases absorbability more than encapsulated products
- Fresh fruits are flash frozen to lock in nutrients
- Low in carbohydrates and sugar; only 13 calories
- Independent lab tests confirm each packet of Jeunesse Reserve contains a total of over 185 mg of resveratrol
- Halal- certified

Incorporate good nutrition into your daily fitness regime by taking Jeunesse Reserve. Each gel pack provides the following:

- Antioxidants to resist cell inflammation, oxidative

- Pressure (Hypertension)
- o Multiple Sclerosis
- o Parkinsons Disease
- o Resveratrol
- o Stroke
- o Testimonials
- o Thyroid

Green Tea Extract (Camellia Sinensis), Citric Acid, Natural Flavor, Potassium Sorbate (preservative), Xanthan Gum, Carboxy Methyl Cellulose

Key Ingredients in Jeunesse Reserve:

- **Resveratrol:** Studies show this antioxidant-yielding compound can provide a wide range of benefits and may be one of the most effective anti-aging tools available
- **Dark sweet cherry juice:** A naturally sweet source of antioxidants that aids in maintaining a healthy cholesterol and inflammatory level
- **Aloe vera:** Helps to maintain healthy sugar and inflammatory levels
- **Pomegranate juice:** A naturally sweet source of antioxidants that may be helpful in maintaining heart health
- **Green tea extract:** A potent source of antioxidants that also provides immune system support
- **Blueberry juice:** Their deep blue color is a significant source of anthocyanins, which have the remarkable ability to fight oxidative stress
- **Grapeseed extract:** A potent source of antioxidants and vitamin E
- **Acai extract:** A naturally sweet source of antioxidants
- **Concord grape juice:** A naturally sweet source of vitamin C that assists in maintaining a healthy immune system and heart health

Absorption: Liquid supplements versus pills

In the widely used medical reference book – Physician's Desk Reference on page 1542, it is noted that **liquids can be absorbed up to 98%** whereas the absorption rate of **pills and capsules is only 5% to 18%**. This means that 80% to 95% of the ingredients contained in pills are excreted from the body, which in itself can be very difficult on one's system. When **this is translated into monetary terms, for every \$100 spent on pills, approximately \$90 ends up being flushed down the toilet.** In contrast, liquid forms of the same supplement have an absorption rate of up to 98%.
