Youth Revolution

My friend Maxine, used to do dialysis. She took Finiti for two months. When she went to the doctors, she said his mouth hit the floor. Her kidney had reverted to a younger age and healed itself. She no longer needed dialysis. What a great feeling to help such a great lady.

Psoriasis Treatment

Posted on 05/04/2015

Psoriasis

Psoriasis (sore-EYE-ah-sis) is a medical condition that occurs when skin cells grow too quickly. Faulty signals in the immune system cause new skin cells to form in days rather than weeks. The body does not shed these excess skin cells, so the cells pile up on the surface of the skin and lesions form.

A cancer patient's tumors were reduced to almost normal levels in less than 3 months.

The above image shows a liver cancer patient's PSA reading measuring 16.34, dated 15 May 2010.

He consumed 3 packs of Reserve daily. The above PSA screening test showed that the readings reduced significant, close to a healthy level of 4.00 on subsequent tests, dated 2 Aug 2010, in Taiwan.
