Fibromyalgia?

This is what Reserve has done for me!

I was diagnosed with fibromyalgia 5 years ago. I have struggled daily with pain, depression, and feeling incredibly drained! I take medications daily with little to no relief. I have tried **MANY** supplements and diet changes and had yet to find anything to help. I happened to be in a flare when I received my products and tried Reserve. After day 2 my pain level dropped significantly and I felt better than I have in years! It hasn't cured me but it is such a blessing for me to finally have days that I actually feel "normal"! I truly believe in Reserve!! I tell **EVERYONE** about it! (My favorite supplement)

-Nadia Hulseley Glisson, Hot Springs, AR

*Reserve is not a cure for Fibromyalgia and may not relieve pain for you in the way it has for Nadia, as everyone reacts differently to supplements.
