Steffie Chia

Country : Malaysia

Level : Emerald Director

I am from a very humble family. Since I was young I saw my parents working very hard enduring tough times to raise the 5. When i was young, I dreamed to be a successful entrepreneur. However, my dream was shattered when my high school results was not up to my expectations. During this time of uncertainties, I read a book named "Rich dad, Poor Dad". It made me realized that one do not need to be an employee to become successful. There are many business models or opportunities out there. Therefore, I started my own beauty salon at age 20. With my diligence and hard work of 10 years, I managed to do well enough.

In 2012, I was introduced by my friend to Jeunesse. **When I consumed the Reserve my severe gastric issue improved tremendously and I did not need to seek further doctor consultation.** I am blessed to be encouraged and guided by my Diamond Director Ms Yvonne Yen to participate Hong Kong University event. In that event, I was touched by the stories of ordinary people with extraordinary income and lifestyle transformed by Jeunesse. After I returning from the event, I put in tremendous effort and follow the system. Within 4 months, I successfully achieved the position of Ruby Director .By September 2013, I was achieved Emerald Director.

Jeunesse had changed my life tremendously. I was able to bring along my family members to many places around the world. While I was traveling my business still moved forward and I was really receiving passive income! This is the beauty of Jeunesse. 18 months in the business has brought me invaluable lessons about life which I would not have had a chance to experience in traditional business. With US Global System my team and I implemented by our dynamic and great leader Ms Kim Hui's
