

Global Stars

Patrick Tang
Country : Hong Kong
Level : Diamond Director

countries and territories, and it climbed within the top 100 companies in the world according to DSN. So this time around I decided to use my time with Haris to seriously studied this business. I realize that this is the perfect business platform I've been looking for! This platform provides me an opportunity to gain residual income for the rest of my life. Therefore in December 2012, I made a big decision. I decided to shut down my traditional business and dedicated 100% of my time and effort into Jeunesse. I set a goal. I will become a Diamond Director within one year!

Now at the end of 2013, I'm proud to announce that I've made it! With the guidance of the powerful system and all the support I got from Haris and our team, I achieved my goal of becoming a Diamond in less than a year!

I've been married for 10 years now. I've always busy with my work and never had any time to take my family to travel or enjoy life. But because of this business platform, I've been able to take my whole family traveling overseas twice within this past year! Both of my two sons are very excited about my job now! I work much less now compare to when I was doing traditional business, but my income continues to rise whether I am working or not working. Compare to my first week's paycheck from Jeunesse a year ago, my weekly paycheck has increased more than 60 times!! This is the power of compound effect!

I would like to take this opportunity to thank our system, my lucky star Haris, and my partners around the globe! Because of all of you, I can accomplish what I have today. My next goal for 2014 is I want to help my team to produce 10 more Diamond Director. Let's fly with our dreams!
