Witness Another Miracle Healing from Jeunesse's Reserve fruit blend and AM/PM essential!

Translation from Chinese:

United States, Los Angeles testimony by Lisa:

I accidentally fell down from 12 steps stairs 6 years ago; resulting in serious spinal bone injured and have been applying acupuncture and physical therapy for last six years, but no significant healing effects.

The Agony From The Fall:

After the accident, I cannot carry any items that weight over 15 pounds. It is after middle of last year (June 2013), I began felt violent pain on my waist and cannot rolled over the side when sleeping, I needs two finger to pinch the spinal parts only then I can flip my body, I also cannot stand upright if I am sitting on sofa. To stand up, my body have to bend 90 degrees forward, then use hands supporting my waist and staggered more than 20 times before I can fully stands up to walk. This long-term lumbar problem have causes my two leg to get numbness every day. When I need to sit inside my car, I have to use my hands to lift up two legs to adjust in proper siting position.

My doctor recommends surgery treatment, but as I am afraid of any further complications arise during surgery, I may have to lay on my bed for life, or may become on wheelchair bound... so I decided against doctor advised.

The Miracle Cure from Jeunesse products:

In February this year, I start taking Jeunesse products, taking all 4 types of Jeunesse health supplement products, I took one sachet of Propectin early in the morning on empty stomach every day, a sachet of Reserve fruit blend, two tablets of AM/PM and 2 capsule of FINITI morning and night according to direction. My lumbar pain recovered 60% and can stand up naturally after one month.

After second month, 90% of my lumbar pain recovered, and the pain at night also disappeared!

After 3rd month, my 6 years injury problem, the spinal pain and legs numbness fully recovered.

A great company and amazing products:

I must thanks Jeunesse company founders and Jeunesse scientists. It is these intelligent peoples that bring me hope and helps regains my health completely!

I only spent slightly more than US\$ 2,000 to get my health problem 100% solved in 3 months; it is big contrast to what I had spent more than US \$18,000 during last 6 years and yet, unable to let me stand up and continue feel the painful torture for 6 long years!

I really love Jeunesse. Let us share our experience with passion and helps more life. Jeunesse do not preach miracles, Jeunesse believe in science.
