# Eating Reserve saved my leg!

Pos ed o 01/04/2015

## Reserve™ saved my leg!!

Andrew, a consumer of Reserve™ is relieved to have saved his right leg, in light of the fact that the surgeons wanted to amputate it all the way up to the knee cap.

Andrew had a few weeks left from a scheduled amputation of his right foot. He was introduced to take Reserve to see if it can help to reverse the bad medical condition while waiting for the date to come.

[www.triciakwa.jeunesseglobal.com](http://www.triciakwa.jeunesseglobal.com)

He had now declined the amputation after the swelling subsided and the infection is gradually recovering. No one can believe it.

Many are calling it a miracle, especially when the doctors told him that an Amputation was the only remedy.

Reserve reducing creatinine levels

My uncle has a history of hypertension and diabetes mellitus for 10+ years and this has led to chronic renal disease. In Aug '12, he had an acute peritoneal dialysis done due to acute renal failure caused by high level of creatinine in blood. According to doctor, chances of recovery is very slim and asked my uncle to be prepared for long term dialysis.

After taking Reserve for a month, my uncle's blood pressure and diabetic conditions have improved and is now at optimal level. Previously, he used to experience chest pain but he does not have such feeling nowadays. Due to medication, he is having constipation problem but this has been resolved too after taking Reserve.

The best news is, his creatinine level has reduced and is under control. Even doctor is surprised by his overall improvement. Currently, he need not go for dialysis treatment. Condition will be reviewed again next month.

## Reserve accelerates the healing of mouth ulcers

# Ulcers Heal Faster

Usually, my gal's ulcer will last more than a week and will have white patch (as shown in the photo) and will get bigger & deeper each day. Since resveratrol has anti-inflammatory effects; I decided to give her a few drops of Reserve™ onto the 4 ulcers before she turns in. (15 Aug 2012)

The following morning, I asked her to consume one full pack of Reserve™ and repeated the application of Reserve™ on the ulcers. Great that she feedback that the ulcers longer feel as pain & there are 2 ulcers healed!! (17 Aug 2012). Catch her on <http://www.youtube.com/watch?v=4cezaK5oXYY&feature=youtu.be>

## Reserve & Hyperthyroid Treatment

Posted on 28/03/2015

**Patients Hyperteroid**

I Lidya Paula, 1 year ago I suffered Hyperteroid, my body condition is increasingly weak, easily tired, fatigue and heart palpitations to above 120. When it is stress, my condition will get worse. In late January of 2012, I took RESERVE product of Jeunesse. With a very practical package, in the form of gel, and easily fit into the bloodstream within 10-15 minutes. I drink 2 times a day, morning and evening. Now even 2 months 20 days, my blood tested regularly to determine progress Hyperteroid me, san very EXTRAORDINARY ... all in NORMAL conditions.

FT4 first 3:44 to 1:38  
 3:01 to 2:04 beginning FT3  
 T4 15.93 initially to 11:41

[www.triciakwa.jeunesseglobal.com](http://www.triciakwa.jeunesseglobal.com)

VERY EXTRAORDINARY ... heart rate to normal 86-90 Completely proven and tangible results ... Reserve is the only option to repair the cells in our body ... so that we become healthier, more stamina and more bervitalitas ... That is my testimony ... Lidya Paula ...

Minum reserve selama 1 bulan, turun berat badan 20 kg

I Lidya Paula 1 year ago suffered Hyperthyroid, my body condition is increasingly weak, easily tired, fatigue and heart palpitations to above 120. When it is stress, my conditions will get worse. In late January 2012, I took Reserve.

With a very practical package in the form of gel, and easily fit into the bloodstream within 10-15 minutes. I drank Reserve 2 times a day, morning and evening. Now after 2 months 20 days, my blood tested was tested regularly to determine the progress of Hyperthyroid, and it was extraordinary.

FT4 from 3:44 to 1:38 FT3 from 3:01 to 2:04 T4 from 15:93 to 11:41

Very extraordinary heart rate became normal - 86 - 90. Completely proven and tangible results. Reserve is the only option to repair the cells in our body so that we become healthier, more stamina.

## Reserve aiding mobility in Parkinson disease patient

Posted on 26/03/2015

### Parkinson Disease\* Testimonial:

**PG 1**

A 75 year-old senior citizen in Taiwan (below) was suffering from Parkinson disease.

Before taking Reserve™, he needed two helpers to hold him in order to walk properly. His energy levels were very low, as shown in his tired eyes.

After consuming Reserve™ on a daily basis for two months, he can walk up to the stage without any assistance & share his own testimonial on the benefits of Reserve™.

Look at his eyes and facial expressions now.

Isn't it amazing?

## Parkinson Disease\* Testimonial:

PG 2

[www.triciakwa.jeunesseglobal.com](http://www.triciakwa.jeunesseglobal.com)

Today, he can walk, jog without any assistance after a period of 6 months of consumption of Reserve™.

So did the product change one's life? If you think it did and you wanted to also change one's life. Call me at 8533 8233 to enquire more.

### \*About Parkinson disease:

[www.triciakwa.jeunesseglobal.com](http://www.triciakwa.jeunesseglobal.com)

It is a degenerative disorder of the central nervous system. The motor symptoms of Parkinson's disease result from the death of dopamine-generating cells in the substantia nigra, a region of the mid-brain; the cause of this cell death is unknown. Early in the course of the disease, the most obvious symptoms are movement-related; these include shaking, rigidity, slowness of movement and difficulty with walking and gait. Later, cognitive and behavioural problems may arise, with dementia commonly occurring in the advanced stages of the disease. Other symptoms include sensory, sleep and emotional problems. PD is more common in the elderly, with most cases occurring after the age of 50.

A 75 year old sen of Elizabeth Tan was suffering from Parkinson disease.

Before taking Reserve he needed 2 helpers to hold him in order to walk properly. His energy levels were very low as shown in his tired eyes.

After consuming Reserve on a daily basis for 2 months he can walk up to the stage without any assistance and shared his own testimonial on the benefits of Reserve.

## Luminesce hea ing skin condition

Pos ed o 24/03/2015

**LUMINESCE** ลูมิเนสส์

A series of three close-up photographs of a person's skin, showing the progression of improvement over time. The first photo, labeled 'Before', shows a close-up of the cheek with a large, dark, inflamed acne lesion. The second photo, labeled 'After 1 วัน' (After 1 day), shows the same area with the lesion significantly reduced in size and redness. The third photo, labeled 'After 7 วัน' (After 7 days), shows the skin appearing much clearer and smoother. To the right of the photos is a small image of the Luminesce serum bottle and a purple orchid flower.

Before After 1 วัน After 7 วัน
