### 3 Worst Foods for Thyroid

The One Thing You Should Be Eating for Your Thyroid Every Morning

<http://www.revaiv.com> This is a video worth sharing. This Jeunesse Global user is cured of Thyroid cancer. She refused to remove her tumor surgically. Then, a doctor recommended her to try out Reserve fruit gel. After taking Reserve fruit gel 2 packets every day for a month she is now completely Thyroid free. What an amazing testimonial. Thank you for sharing. Uploaded by Jeunesse Global ISR. <http://www.revaiv.com>

According to one nutrition author "there is a lot of evidence that large amounts of fructose can cause harm when consumed in excess. However, this depends on the dosage and context and does not apply to fruit."

Testimonials show, Reserve™ has helped many to treat different types of illnesses as well as maintaining their overall health. I believe there's no harm in trying it out. You'll never know what it can do to your health. It may cure, it may not, but never give up. If there's hope, why not give it a shot? Others have done so and got healed. If it's bad just stop taking it.

Reserve™ does not only contain fruits, it also contains resveratrol. RESVERATROL is the superhero ingredient in Reserve™ fruit gel. RESVERATROL is a compound extracted from the skins of red grapes.

Resveratrol has been scientifically proven to extend our live cells by activating a dormant gene in our DNA.

Reserve™ is the only product in the market today that packed its fruits plus resveratrol with positive Cap-e test in gel form.

Reserve™ CAP-e test (the purpose of the CAP-e test is to determine if antioxidants are capable of entering into and protecting live cells from oxidative damage) results prove that it is able to penetrate and protect live cells from oxidative damage.

Reserve™ is in highly bio-available gel form which makes up 200 times more absorbable than encapsulated products. Meaning; the body can absorb Resveratrol more effectively in gel form than in capsules or powder form.
