**Kathy Davern** MyPillow has eliminated my neck pain, shoulder pain, jaw pain (I don't clench my teeth any more at night), back pain and surprisingly, my sore wrists. Downside: I am oversleeping every single day!

**Marti McCorkhill** Had it 3 months and love it. Wake up without a headache and stay asleep all night long. I take it on all our trips and in the camper. Love it, love it, love it.

**Debbie Payne** Love my pillow...haven't woke up once w/neck pain, don't need to flip it all night long and actually can sleep thru the night. I've had mine since xmas and this is the longest I've lasted with any pillow. I am so glad I took the chance and bought you... [See More](#)

**David A Schmidbauer** I love MyPillow. I have had it for 3 yrs & one of the reasons I bought it is because I have Benign Positional Vertigo & my pillow has put that condition into hiatus. It keeps my head secure so it doesn't fall off the end of the pillow. I love it. Thank You

**MyPillow** Jennifer Pritchard- Are you washing and drying your pillow every 3 months?

**Debbie Payne** I believe it's the green. It's just ever so slightly too high for me to sleep on my back, but perfect for my side which I do most of my sleeping on.

**MyPillow** The white level (one level down from what you have) would be ideal

for sleeping on your back!
