

Insomnia testimonials

My teenage son has an Anxiety Disorder and has trouble sleeping due to this anxiety. I got him a MyPillow for Christmas and he has slept soundly since. He absolutely loves his My Pillow and we are thankful for this breakthrough with his sleepless nights! Thank you for My Pillow!!!! Melissa R.

I now sleep better and longer and I love MyPillow. This will be the only pillow I will ever buy again. Sleep is a beautiful thing, and this product does EVERYTHING it says it does. Roxanne J.

I have tried 6-7 different pillows over the last two years - everything from water pillows to memory foam, and none of them worked for me. I finally gave in and ordered the MyPillow, and it is worth every penny! I used to toss and turn to find a comfortable position to sleep in. Now, I fall asleep quickly in one position. Mitch T.

And, we are sleeping sounder than we have in years. Linda W.

We used to wake up often during the night or toss and turn, trying to get back to sleep. Now, we only wake up once a night and sometimes not at all. We also DREAM more, telling us that we are in REM sleep for a longer period of time. Shirley & Ken I.

I'm sleeping so much better and I wake up fully rested, instead of tossing and turning throughout the night. And, I'm breathing so much better at night. The pillow is so comfortable and provides me the exact support I need. Maureen C.

I love our pillows!! We are finally getting a good nights sleep, and I would recommend MYPILLOW to anyone. Nancy G.

I have not slept this good in 30 years. I have had your product for about a month. Since getting it my shoulder has stopped hurting, my neck and back fell great and I sleep through the night. I have never slept this well. Thank you again.

My wife and I both sleep better and feel better when we get up in the morning. My wife had a pain in her shoulder for many years that has seemed to have gone away. James & Patricia W.

I fall right asleep and stay asleep with no adjusting during the night and the hubby has no more neck pain. Denise

This pillow has made a 100% difference in my life. I have always struggled with insomnia, and once I started dealing with neck pain, it just got worse. I travel for work and I ALWAYS take MyPillow with me—I just can't sleep without it!! I know it is an expensive pillow--because ITS WORTH IT!! And you will not need another pillow for many, many years--truly a worthwhile investment

INSOMNIA...Tired of tossing and turning?

Insomnia and poor sleep affect approximately 40% of all people. This includes not being able to get to sleep and/or having sleep interruptions throughout the night.

According to the US Department of Health and Human Services "having a comfortable mattress and pillow can help promote a good nights sleep". http://www.wfm.noaa.gov/pdfs/BenefitsGoodNightSleep_Handout2.pdf

MyPillow® Can Help Insomnia!

Mike Lindell invented and patented MyPillow® to solve the problems associated with sleep. MyPillow's interlocking patented fill adjusts to any sleep position and keeps your head and neck supported properly for you as an individual.

Are you one of the 40 percent of all Americans who suffer from insomnia and anxieties?

In this video, Mike Lindell, CEO and Inventor of MyPillow®, talks about how he once had insomnia. He would flip flop all night long, or just stare at the ceiling, wide awake. If he was in bed for eight hours, he would wake up and still feel like he needed a nap. It was always a fight to get the sleep he needed.

That is why, years ago, he set out to do something about his sleeping issues. He knew that the pillow was the problem, so he invented the MyPillow®.

And, as he was doing shows years ago, he talked to veterans who were back from Iraq. They were attracted to the MyPillow® sign about insomnia and anxieties, and said, "You know what? We have some of the worst anxieties and insomnia problems in the world."

They all told him the same story. They would sit and stare at the ceiling no matter how long they had been up, and they wouldn't get to sleep for four or five hours. When they did get to sleep, they would be restless all night long. It was terrible for them.

So, as an experiment, Mike gave them MyPillows®. And, they came back the next day and all of them had the same story "Wow, I can get the great sleep I need." Two of them were almost crying. They were saying, "This is a miracle! This is a miracle." They were so happy that they all got to sleep right away. They slept through the night. The stories were the same across the board.

They asked, "How did this work? What's in this pillow?" Here's Mike's theory: You have eight cervical nerves on each side of your neck. Your cervical nervous system has to calm down before your muscles can relax, and then your blood flow slows, so you go into REM, and then delta sleep, then you sleep without constant sleep interruptions.

You need to keep your cervical nerves straight at night in order to get this process to start. MyPillow® has a patented interlocking fill, a fill that, wherever you move the pillow, it stays there. And MyPillow® does the amazing thing of keeping your neck and cervical nerves straight at night.

in an American-made product. Mandi

My husband suffers from insomnia and has been sleeping like a baby! Truly a product that does what it says. It's so comfortable! It isn't hard nor soft; just right! It conforms to your head. K.M.

I've had mine for two nights now and for the first time in years, I slept through the ENTIRE night. Not once did I wake up. This is not an exaggeration, I use to always wake up 1-3 times per night and this was EVERY night for years. I never knew it could have been something as simple as a pillow. I just never knew. It baffles me how because of this pillow I'm not waking up. After the 2nd FULL night of sleep, I can immediately tell a difference in my overall energy and oddly enough, my back doesn't hurt (it use to ache in the mornings). So thank you for changing my quality of life with such a simple product. I never knew it would make such a big difference. Andrew W.

You can't possibly know what a blessing it is to actually get a restful night's sleep after a decade of disturbed and painful nightly experiences. I have told my chiropractor and just about everybody else I know who deals with disturbed sleeping habits. Monte G.

You know I really didn't believe this pillow of yours could make any difference to my sleeping habits of tossing and restless nights even with ZzzQuill. But, after the second night of using My Pillow... wow! I sleep all night without ZzzQuill and NO neck pain. Thanks so much.... Bernard L.

I have had problems sleeping due to my unusual work schedules. I have to honestly say, since I purchased this pillow, I sleep better than I have in years with no pain anywhere on rising. Thank you, My Pillow, for helping me get my sleep back. Dave T.

Fantastic! For just a little bit of money, I'm sleeping better then ever. I would highly recommend my pillow to anyone. You will sleep better. GREAT! Tim S.

I slept ALL THE WAY through the night. I honestly don't remember when that last happened. I woke refreshed. I watched your ads for way too long. I should have purchased them long ago. THANKS! Blaine D.

Not only has it helped me sleep through the night without moving around in the middle of the night, it is extremely comfortable. Bryan M.

We are 200% satisfied!!! This is the first good sleep my husband has gotten since his stroke in December!! I'll recommend to everyone!! Thank you! Mary K.

I have only had one restless night's sleep since I purchased MyPillow this past spring. It is a great pillow. It is worth the investment in your health & sleep well being. Weftylene

I had never slept through the night without waking up at least 3 - 5 times a night. With MyPillow, I slept a full 9 hours and, for the first time in a long time, remembered dreaming, so I know I hit the much need R.E.M. sleep. My new MyPillow is money well spent. I recommend this to everyone looking for a good night's sleep. George T.

I've had MyPillow for nearly a month now, and have had the best sleep I've had in years - and no neck ache when I get up. I would recommend these pillows to anyone who has had

sleep. - Canada Drug Center.com

The National Highway Traffic Safety Administration statistics show that 100,000 vehicle accidents and about 1,500 accident related deaths occur annually because of drowsy driving. - National Highway Traffic Safety Administration

madvertising.org

a problem with having punched the pillow syndrome. Get one, you'll love it!! Marge T.

Snoring, restless sleeping, flopping around trying to find that right position... All of it gone the first night! Jeff H.

I read some not-so-nice reviews, and was afraid I'd made a mistake by ordering. Oh, how those reviews were so wrong. The pillows didn't smell like chemicals like people had said, and the first night, I slept all night without waking up once. I still wake up occasionally, but in the morning I don't feel exhausted, and my neck doesn't hurt like it used to. We absolutely love these pillows, I tell everyone about them. It sounds crazy, but to me these pillows were a godsend. Nikki J.

I would just like to thank My Pillow for the first good nights sleep in years. No sore neck and no sore ears. Ed C.

Our pillows make us look forward to going to sleep. They are wonderful. James W.

I have been battling with restlessness and insomnia for a few years. My husband was terrible at snoring. We both love these pillows. I can't believe how well I rest and sleep at night now. I highly recommend this product for anyone to try if they suffer from any sleeping issues. Thanks so much for this awesome product! Laura W.

WOW! What a difference - it is so nice that someone finally invented a pillow that works! I am sleeping longer and deeper than when I used the other million pillows I have tried. Thanks for a great product- telling all my friends! Rick

Oh my, I had everything to gain. I have a bad back, and just recently had hip surgery - which made for long nights of sleeplessness. I have had restful nights now for the 3 weeks since I have had MyPillow. No, I don't know anyone at or with the company, but I was willing to take a chance for a restful night. I followed the guide for the color code. As many people know, no one can explain how a restful night will make the next day. One does not have to beat up the pillow to get it at the right angle. Thank you for not giving up and plowing ahead with your dream to make a reality come true. Two words: IT WORKS!! Becky

Thanks, My Pillow - I have now found my perfect night's sleep in a pillow....Carol

We love them, and have great nights' sleeping ever since we switched to MyPillow. Thanks!! Kara M.

My pillow is my miracle to sound sleep. Thank you for creating the perfect sleep aid. Sincerely, Patricia P.

Well now, from 2 to 4 hours of sleep, I'm actually sleeping 8 to 10 hours just because you can cuddle back down and snooze away. WOW - WAY TO..... go!! Thank you Mr. PILLOW Kathlay M.

I absolutely LOVE THIS! I would wake up during the night, tossing and turning and snoring. I now sleep like a baby. I can't believe a pillow makes this much difference, but it surely does!! Nelson L.

In less than a month ... my husband is sleeping NO LESS than 8 hrs!!! Dorbie

I love my pillows! Have two and am getting much better sleep than ever before! Thanks for my pillow! Scott W.

*My quality of sleep has improved, and I do not wake up needing to readjust my pillow all the time. Thanks to the maker of my pillow!
John W.*

I absolutely love my new pillows. I used to have insomnia on my nights off from my job as an RN working the night shift. Now, I no longer have insomnia - I sleep like a newborn baby. Jeri B.

I received My Pillow yesterday. Last night, I don't remember waking up and tossing and turning!! Now, I am going to order a pillow top! Terri B.

We are both sleeping incredibly well. And one of the things I really like is the light weight of the pillows. They are light as a feather, but firm and soft, and sort of mold themselves around us. I'm so glad that I got them. Jill D.

I am 71 years old, and have had problems sleeping for about 54 years. I am now sleeping 6-7 hours each night, instead of 3 hours a night. I thank you, My Pillow. James D.

I have not had a good night sleep since returning from Iraq for years because of injuries. I received your pillow as a gift for my birthday two months ago. It is the best gift I have ever received thank so much. I look forward buying a couple more. Respectfully, Mark B.

*I am absolutely stunned about how much I like this pillow! I used to always toss and turn, re-fluff the pillow, and get neck aches because of no support. I LOVE My Pillow! What an amazing, comfortable night's sleep!!! Thank you so much!!!
Stephenie*

*I received a My Pillow pillow and mattress topper a few weeks ago. I suffer from fibromyalgia and insomnia and have always had back problems. Since using my pillow and the mattress topper I have NO back pain and I sleep through the night! This has been a miracle to me, and I would highly recommend these products to everyone! It has been well worth the money! I can't thank My Pillow enough! Best regards,
Jodie R.*

I have Ankylosing Spondylitis (a Rare Form of Arthritis), and my spine is fused from top to bottom. So, I cannot sleep on my back, and am forced to sleep on my left side. This is the only pillow I have ever owned that lets me get a decent nights sleep. I normally sleep around 3 1/2 to 4 hrs., but now I can get 6 or 7 hours. I liked the MyPillows so much that I bought 4, 1 for myself, my wife, our daughter, and our daughter's husband. Thanks, Steve

I've spent hundreds of dollars on different kinds of pillows, hoping they would help me sleep better, and not hurt in the morning. MY PILLOW is the only one that has helped me! I do still get migraines, and I also have Chronic Myofascial Pain Syndrome (which basically means I have chronic "muscle" pain in my neck and shoulders). The pillow hasn't "taken my pain away" like some customers have said, but it makes SUCH a huge difference in my ability to sleep comfortably in spite of my chronic pain. It's hard to explain, but when I lay down on my MyPillow, I feel like it almost "cradles" my head, neck, and shoulders... almost like it "absorbs" the heaviness that gravity puts on my body. I LOVE my MyPillow, and my husband finally tried it, and wants his own! Sarah

My husband and I have now had our MyPillows for almost a month, and

we're totally in love with them! At first, I was skeptical, but I followed the directions and put them in the dryer for 15 minutes each. Then came the first night...which was a bit tricky, I'll admit. I had slept with a down pillow for years, then changed to a pillow that was sort of like a cement block a couple of years ago. With that in mind, I figured the Firm MyPillow would be the best. That first night I did struggle a bit to get comfy, but I also slept pretty well. Then came the second night. I guess I had mastered MyPillow by then...it does take a small bit of practice...because I really don't think I've ever been so comfortable in my life! And every night since then has been wonderful. My husband agrees. We are both sleeping incredibly well. And one of the things I really like is the light weight of the pillows. They are light as a feather, but firm and soft, and sort of mold themselves around us. I had heard that they are noisy and smelly...not true! Our pillows are quiet, have no scent whatsoever, and are just plain wonderful! I'm so glad that I got them. Jill D.

Since using Mypillow and the bed topper, (which I was skeptical about), my knee pains, and restless nights are getting better. I feel as if I am getting more quality sleep. I don't feel as tired when I get up as I did before. Jay W.

My Pillow - how do I thank you for changing my world? I was so worried about being scammed by yet another pillow promising the world, but you have delivered! My life has changed with blissful sleep and no neck pains or headaches. This is some of the best money I have ever spent on myself. I want to tell the world about your incredible pillow. Thank you so very very much. Kim N.

I had suffered with severe neck and back injuries for years, and found sleeping next to impossible. On the very first night of using My Pillow, I slept more peacefully. Seriously, this pillow is the best, BEST item I have ever purchased. Regardless of its price, I cannot find one that works for me. Thank you so much for all the work and research that went in to inventing the My Pillow. Dr. Christine O.

I used to get up 2-3 times to go to the bathroom before. Now, I sleep through the night. I can't tell you how thankful I am that I found your products, and wish everyone could get the great night's sleep I have had the last three nights. Thanks for caring enough to put the thought in making a superior product. Wish you all the best, you deserve it. Darrell L.

I could not have made a better purchase!!! After sleeping on it the first night, I awoke feeling refreshed and with NO neck problems. I also slept through the night, not waking once. I'm 64, female, and now I can sleep with no tossing or turning. Thank you, Mr. Lindell, for your perseverance, determination, AND keeping your manufacturing in AMERICA! GOD BLESS YOU!!!! Kyle N.

It is AMAZING how much better I sleep! I've told so many people about the pillows. I can't say enough about how much I love them! They are definitely worth every cent and more!! Best purchase I've ever made!! Seriously!!! Erica P.

Tossing and turning at night was leaving me tired. So, I thought to myself, "Shoot, I'll give it a shot because I have nothing to lose." Two months later, I still have My Pillow,

and I no longer toss and turn. I am not the one to give reviews to companies, but you guys earned this one! I love my pillow and love that I'm getting much better sleep now because of it. Thank you and keep up the good work! BJ C.

I received a My Pillow as a gift 2 years ago. Before that, I had used every kind of pillow - orthopedic, buckwheat husks, you name it - to get a good night sleep and try to wake up with no pain. Since the My Pillow, I have had no trouble sleeping, and feel great when I wake up. It keeps whatever shape I want, and does not heat up (so no pillow flipping in the middle of the night).
Edie B.

I have had My Pillow for about 6 months now. Over the past months, I feel that I am able to sleep better, but last night really proved to me how much this pillow has helped. I am at the end of a bout with bronchitis and really need my sleep. I normally have 2 pillows on my bed and put the other pillow on the floor before I go to sleep. Last night, after putting the pillow down, I woke up after 20 minutes, couldn't get back to sleep for about 45 minutes and kept waking up every 1-2 hours. In the morning, I realized I had put My Pillow on the floor by accident. I am a true believer now!! Carole C.

Before purchasing a MyPillow, I often had trouble falling asleep, and when I woke up in the morning, would often have neck and back pain and stiffness. MyPillow is truly a godsend!!! I feel so blessed to have found such a wonderful product. I have not had one bad night sleep since. It is truly a life changer! Thank you so much, MyPillow!!! Jennifer

Your Topper and Pillows are like Magnets. I always could sleep anywhere, only because I was tired. But, your Topper and pillows are like Magnets and want me to want to lay on them to get a sleep unlike I've ever gotten before in my life. A nap on them makes me feel like I've been on them for hours. Unbelievable. Tom A.

I love my pillow - it helps me sleep much better at night. It conforms to where I put it, and I don't have to keep readjusting like I did with my other pillows. I believe I pretty much lay in one spot all night. Tim T.

I've never had a pillow perform as well as this one does. Since ordering MyPillow a year ago, the problems I had with falling and staying asleep have virtually disappeared. When I do get up in the middle of the night, I fall right back to sleep, something that was a challenge for me before. After trying more than 2 dozen other brands over the years, I can finally say, "This is the one." Joe T.

I was skeptical about paying such a high price (high for me) for a pillow, but I had heard a lot of good things & David assured me that I could return the pillow. Well...that night, I slept like a baby AND I fell asleep soon after I laid my head on the pillow. My next purchase, when I can afford it, is a bed topper. I love my pillow!!!
Veronica C.

I am not one to leave feedback for the most part, but I do have to say, after only two days with this pillow, I am sleeping better. I have had three shoulder surgeries and have been suffering with pain and numbness all night long for years. Now I sleep through the night! This pillow is amazing and am a life long believer and will tell everybody I know. Gary S.

For years I have slept on two pillows

For years I had woken up on the phone and even those didn't lead to a solid night's sleep. Your one pillow was perfect the very first night! I have a very stressful occupation, but your pillow has provided me two and a half weeks of blissful sleep! I can't thank you enough! I genuinely look forward to going to sleep each night! Pam R.

I'm going through menopause and my sleep was really irregular before MyPillow. Now I get amazing sleep. Thanks for everything! Amanda D.

Four years ago, after another sleepless night, I saw the My Pillow commercial, and it was truly more than I could believe. I now never sleep without it - it continues to provide excellent spinal alignment in any sleeping position. My disease is systemic so I often have severe flairs, and am unable to sleep in a consistent position. No matter my struggles, My Pillow has my neck and head in perfect alignment. I hope to be able to purchase the mattress topper this year. Sleep is the best medicine for my health. Thank you so much for this amazing creation I hope every person is able to enjoy My Pillow and enjoy sleeping again, waking up rested and rejuvenated to live another wonderful day!! My Pillow gave me back my life and hope, Thank you again! Brandy A.

I am less restless with this great pillow. Feel very well rested in the mornings. My shoulder is bad and THIS is the Goldilocks pillow for that too, just like David V. says. It's - just - right!! I have bone on bone in one knee. Perfect for that too. We don't need to FIGHT our pillows during the night, especially any injured areas. This is soooo great - and so user friendly! :) Thank you for this GREAT invention! Joanna J.

I am a senior who developed back pain sleeping in a "fetal" position. However, sleeping on my side, in a "legs straight" position, was uncomfortable and led to restless nights. I tried everything, until receiving My Pillow. Now I get a restful nights sleep with no backache. I sleep comfortably, on my side with legs straight out and no head or neck discomfort. It is so wonderful that I bought another set of My Pillows for our seasonal residence. Thank you for helping to make sleep enjoyable and painless once again! John M.

I asked for and received the My Pillow for Christmas and I haven't had a bad nights sleep since. I used to have trouble falling asleep as well as sleeping through the night. Ever since the first night on the My Pillow I have gotten nothing but peaceful, restful sleep. Thanks for that! Shawn J.

I have MS and osteonecrosis (bone death), which caused huge sleep issues, since I could not get comfortable. I've had My Pillow for a month, and I have been sleeping all night. If I get tired during the day I will lie down and fall asleep because it's so comfortable. Thank you for this pillow. I was skeptical, but it really works. I would like to get a couple more to put in my sore areas (hip replacement). I have never written a testimonial because normally I accept what I get but this time I have found a product I can believe in! WOW! Christy

I just had rotator cuff surgery on my left shoulder.. I could not sleep in bed for fighting with my pillow. It's a feather pillow. Slept on it all my life. But I had fought with it, wadding it up, trying to get where I could sleep. I ordered a large My Pillow for me and a small for my wife. Since I got my pillow I have slept the best I have in eight long weeks. Really surprised my

right thing to do. I really I guess my whole life. The pillow fits to my head and shoulder to where I'm in line. I will not be without my pillow anymore. Regardless of where I go. It will go with me. I have told everyone I know about my pillow. It's better than any pillow I have ever tried to sleep on. All I can say thank you. Wish I had it a long time ago. Also due to the surgery I have to sleep on my right side or my back since surgery was on my left shoulder and will for several more months. I now go to sleep and stay asleep. Thank You. I live in Bryson City, North Carolina. Larry R.

I love this pillow! I was turning and pounding my old pillow at least 4 to 5 times a night. Since buying this pillow, I haven't turned it once! It has stayed cool and fluffy. Even my breathing is better since my head stays up higher. Everything they advertise, is true. I highly recommend this pillow. Trish M.

My name is Geoffrey D'Aries. I am a 29 year old male with Cerebral Palsy confined to a wheelchair. Listening to the Imus in the morning program, I heard about a new wonderful product called My Pillow. I had been telling my parents that I wanted one for a Christmas present. It took a while for my parents to agree to get it for me. My parents were originally skeptical and said, what the heck is so great about a pillow. Imus was raving about how good the pillow is and about how much better his sleep is. Because I sit in my wheelchair all day, my neck and back get stiff. I also used to call my dad about 5 times a night to change my side while sleeping because I can't roll over by myself. Since I have been using My Pillow, I need to call my dad much less, going to the Chiropractor less and sleeping much better. When I wake up in the morning, my neck and back feel much looser. The pillow stays cool all night which I like a lot. It has really changed my life. I have told so many of our friends and family, and many of them have purchased my pillows. Even when my dad goes on a business trip, he takes his my pillow and his press pack travel bag. He also loves his pillow. I am going on a trip to the Imus Ranch this summer and will definitely be taking my pillow. I will always use a my pillow for the rest of my life. My parents already promised me after my 10 year warranty runs out, they will always buy me these pillows for as long as I live. Thank you for improving my sleep which in turn improves my life. Thank you Mr. Lindell. Sincerely, Geoffrey D.

I recently bought My Pillow. I love it. I fall asleep faster and wake up rested. I got my boyfriend one as well for valentines. He loved it too. Best investment I have made in a while. Thank you. Donna C.

I have been tossing & turning for years – waking up exhausted, stiff & sore. I thought it was my mattress. Before shopping for a new mattress, I saw a demo on this pillow and thought what the heck I'll try it first. I have been sleeping on it for a week and the difference it has made has been a miracle. One of the best purchases I have made in 66 years. Thank you so much. Eileen Y.

I had a massive brain tumor that had tenacles wrapped around my brain stem found in June of 2005. I am fully disabled from my circumstances. I have been able to overcome huge obstacles in my path. The one thing that I am left with is enduring pain in my neck and head. I got my pillow two days ago. Since then I have slept COMFORTABLY for the first time since way before I even knew that

something was wrong with my health, which puts it back to around 2003. That means that I have had absolutely horrible sleep for almost 10 years. With MyPillow, I slept for almost 12 hours straight the first night. It was the best sleep I have ever had in my life. My head and neck didn't hurt! This pillow is much more than you realize. This is going to change my life. Sleep is what heals the body, mind, and spirit. I haven't had those things in such a long time that I had just relented to being the disabled woman that lives her life on a couch in pain. Thank you with all my heart for inventing something that is changing my life today. If I could I would have the pillows for my arms, legs, hips, and two or three just as the perfect prop me up. Sincerely & Thank you from the bottom of my heart; Lenoir K.

I've used mypillow for 2 weeks. I had 6 morning appointments & I was late for 3 of them, because i slept through the alarms. Also in the past I got up 1 or 2 times at night to go to the bathroom. With the exception of one time, I slept through the night without getting up. At first, I thought it was a coincidence. Now i know it's real. I have tried many pillows in the past. This is by far the best. Rob M.

I received my new pillow recently and love it. I have problems sleeping, yet slept great the first night I used mypillow. My other pillows always heated up, and I would be constantly flipping the pillow. I never have to flip this pillow. I thought it would be a nice idea to invent a pillow that transferred the heat and stayed cool, and did not realize there was such a pillow out there already. My pillow is not cheap, but I feel it was a great investment. Thank you. Leo D.

Bought 2 of these three months ago. My wife and I both love them. Best pillow I have EVER used. Just bought 4 more as presents. I used to suffer from frequent tossing and turning as my old pillows would "heat up". These don't. The only problem is, the cat loves them too. Steve A.

I am 60 years old and I have always had problems sleeping. I think in a way I had resigned myself to sleeping about 3 to 4 hours a night. It has been a week since I purchased the pillow & I can honestly tell you that since the first night I used it, I fell totally asleep within five minutes. I did not hear the ticking clocks, the cars outside my window, the dogs barking, and did not even go to the restroom all night long. I don't know why I waited so long to buy "MyPillow", but I can honestly tell you that it is my pillow now. And I can also tell you that even though I had never spent more than five dollars for a pillow, it is worth every penny I spent, since my first restful night of sleeping with MyPillow. I have been telling everyone I know not to waste any more time and get "MyPillow" for themselves. As for the other pillows on my bed, they are decorative pillows now. When I am getting ready to go to sleep, I toss them to the floor and the only pillow on my bed is MyPillow. Rosa C.

I'm a believer now. I've always had down pillows. I spent more money than you can imagine trying to get just the right one. I always wake up with a sore neck, and the first morning I could not believe it. It was gone. My mother-in-law wanted to try it. For two mornings, while she had it, I woke up with that dreaded sore neck. The third day, I made my husband go and take it away from her. This week we're going to the fair, and she's getting one, and I'm getting a king sized one so I can have my

standard for my couch. I have to lay down a lot due to an illness. This pillow works!!!! I sleep a lot longer too, which is a first for me. Please don't ever stop making these pillows. I swear this is a true story. Oh, and I'm going to get the small travel pillow for the car so I can be comfortable there, too. Carol E.

Just got my pillow, and I love it. I just gave one to my grandson to try - and he loved it also. I won't do without it. I sleep so soundly, and I don't toss and turn all night - love it. I didn't believe it until I tried it - wonderful!!! Everyone should have one!!! Myrna M.

I tossed and turned all night and slept on 2 and sometimes 3 pillows for years. Now that I have My Pillow. I sleep only on that pillow, and have a restful night's sleep. I really did not believe that it could work. Now I am getting friends and family to purchase My Pillow. Thank you Mike. Elly D.

I'm 70, and used to wake up 2-3 times nightly. Since the first night using your pillow, I haven't had my sleep disturbed. I don't expect my minor aches and pains to vanish immediately. However, somehow I feel most of them will eventually. Most people have slept on the same mattress for 10-20 years, and during that time the "suspension" factor has given away and, as a result, so does the support on various parts of your body (slowly over a long time period). When we buy a new mattress, our body, which has lost support through the years, is suddenly subjected to a force which is strange to us and we feel that the new mattress is to blame. You cannot put your body back to normal posture immediately, it takes time. These pillows are great and do continually bounce back to normal, they would make great mattresses. Joseph Z.

I love this pillow! We have tried all the different pillows from the club store. All went flat, no matter what material they were made of. I had a problem waking up at four or five in the morning, and I couldn't get back to sleep. I also had night sweats, (55 yr female). I no longer have these problems! I just ordered my husband his pillow. It is such a relief to finally find a pillow that's works for me. I'll say it again, I love this pillow!!! Try it! D. M.

As many people, I was very hesitant to try this pillow. I saw an advertisement on TV and thought about what people were saying about this "apparently" wonderful pillow. I wasn't too sure, but decided to give it a try. I bought two pillows, and could not believe how great they were. I slept like a baby for the first time in a long time. I just placed an order for four more. This pillow is unbelievable. I cannot believe that I settled for other pillows all these years. Thank you for creating such a wonderful pillow. I don't go anywhere with "my pillow". Shirley K.

I bought so many other pillows, and was never satisfied. I had a hard time getting to sleep and staying asleep. I was tired all the time! When I saw the commercial for My Pillow. I was skeptical. I was also desperate, so I ordered My Pillow. When I received My Pillow I didn't think it would work, so I saved the box to send it back in. I could not believe that the first night I used it, I slept all night. Needless to say, I would never send My Pillow back! It is the best pillow I have ever had. I have had it a few months and wouldn't part with it. It has really helped me get the sleep I need. My Pillow is worth every penny! It makes me sick to think about how much money I had spent on other pillows that I ended up throwing away every

that I ended up throwing away every few weeks! Thank you soooo much for making My Pillow. I love mine! Candy M.

For more than two years, I have had trouble staying asleep. Then, to make matters even worse, a few months ago, I began to have numbness and an ache in both of my arms that only happened when I was sleeping. I went to the doctor, and he said that when I slept, something was pressing on the nerves in my neck which was causing the numbness and pain. Great. Now, not only could I not sleep through the night, but now I woke up with numbness and pain. My doctor recommended that I get a better/different pillow. I experimented with several pillows that I had at home. I used, a rounded pillow, my husband's pillow, my son's pillow...none of them helped. I went to the store and there were lots of pillows, but I didn't know which one to choose. I would have paid anything for the right pillow, but the problem was that I didn't know what the "right pillow" was, and if I used the pillow for awhile and it didn't work, I didn't think that the store would take the pillow back. One night, I couldn't sleep (as usual) and I saw the Infomercial for My Pillow. The pillow sounded great - but I am an attorney and therefore, a natural born skeptic. What made me decide to buy the pillow was the money back guaranty. I thought to myself, "they probably hope that whoever buys the pillow will not take the time and energy to return it if it doesn't work". But, I knew that if the pillow did not work, I was going to return that pillow. I was so anxious to try the pillow and perhaps, end the nighttime torture, that I found the pillow on sale at a home show near my house. The first night I slept on this pillow was the first night that I have slept through the night in YEARS. It was unbelievable. My skeptical side told me that it was just a coincidence, and that it couldn't be the pillow. But, I was wrong. I have slept on "My Pillow" for almost a week and I feel better and more rested than I have in a long time. This pillow really works. I am so in love with this pillow that I just ordered one to leave in our vacation home so I will always have the pillow to sleep on. I also bought a travel pillow to use on the plane and in a hotel. I don't have "my pillow", I have "my pillows"! I am so happy and I have been raving about this pillow to everyone. Thanks for a great product. Lynn S.

Let me tell you, Mike, that I am of the level of cynicism as to be eligible for an award. When I ordered MyPillow, it was as a long shot, last ditch effort bordering on despair. My two previous pillows were opposites. One fuller, firmer foam and the other a lighter, thinner stuffing type. Both would ride up the headboard nightly - each leaving an indentation flattened by where my head had been. Throughout the night, I would repeatedly awaken, readjusting and/or swapping pillows. I never felt rested, and often would remain in bed tired, frustrated and trying to get any further rest possible, rarely achieving that goal. The first night using MyPillow, I woke finding myself actually feeling AWAKE... and rested. The pillow at night is the same one at dawn, retaining it's shape entirely. I could immediately feel the difference in it's soft, gentle, fully supportive comfort - and no riding up the headboard! Absolutely impressed is far too euphemistic a term to describe my satisfaction. I've been spreading the word about your product with family, friends and coworkers. My Pillow is literally a dream come true. Edward F.

I've tried many pillows over the years because of my neck pain, but haven't found anything that worked. I was a little skeptical of the MyPillow, but I figured it's guaranteed, so I have nothing to lose. I received the pillow fairly quickly and saw instructions to not use anything other than regular pillow cases under 500 thread count. I was a little leery because I need a cool pillow - that's why I use satin pillow cases. But I followed the instructions and used a regular pillow case, and to my absolute Dee-Light, the pillow remained cool throughout the night AND I woke up with no neck pain. AND I only woke up twice vs. the normal 6-7 times I usually wake up. I didn't have to flip the pillow to the cool side at all - it was already cool. So, I highly recommend this pillow. It's very comfortable - it supports my neck. In fact, I just ordered one for my daughter. Do yourself a favor and try it !! Marlene L.

I bought your pillow for my husband who has had trouble finding a comfortable pillow. He would wake up frequently during the night, and also wake up in the morning with a stiff and sore neck. We would have a stack of pillows in our bedroom that he would periodically use. But after using your pillow, he says he no longer wakes up during the night and doesn't have a sore and stiff neck in the morning. Our stack of pillows is gone, too. Thank you!!!! Jackie B.

Ok. I haven't had a good night's sleep in months (years?), so I bought the pillow, as the infomercial looked interesting. It is not cheap. There are better value pillows on the market, but I thought I would give it a try. It arrived when it was supposed to, very good service. The pillow looked cool tightly wrapped in the shipping wrapping, and I was surprised when it opened up to be the large pillow I ordered. The first night was not too comfortable. It seems hard to me but I was not going to criticize the pillow after just one night. Well, something strange started to happen. I started to wake up in the morning not knowing what happened during the night. Instead of tossing and turning, I am sleeping right through. I have had it a couple weeks now, and I am pleased to tell you I no longer stay up late at night looking at infomercials. This pillow is awesome. I have no idea how Michael came up with this idea about this pillow but it is a life saver. Here is one bench mark that tells me that the pillow works. On my 45 minute drive home from work I would have to have some sort of snack to keep me awake during the drive. I no longer need it! I know this may sound weird but I am getting better quality and more good sleep and this old body of mine is operating as designed! THANK YOU MICHAEL AND EVERYONE AT MYPILLOW. Lou C.

For years, I have had trouble sleeping. I would go to bed at 10 pm and lightly sleep until 1 or 2 am and have to get out of bed because I was wide awake. Over the past 5 years, I have purchased at least 8 different sets of pillows. Some firm, some soft, but all produced the same result, which was no increase in the amount of time I was able to sleep. I saw the infomercial for MyPillow during one of my many sleepless nights. I even went on line and did more research. However I was still not convinced. I met Thom at this home show and decided to see if the pillow was as advertised. Thom proceeded to explain how and why MyPillow works and why it would help me sleep. I told him I would buy it but would bring it back the next day if I did not sleep. He told me he "Guaranteed" I would

love it or he would take it back. That very first night I slept through the entire night and, since my head was well supported, woke up with zero neck pain - and felt more rested than I have felt in years. The MyPillow is the real deal. I bought one for my wife and told at least 10 people the next day to go buy this pillow. I am sold! Wayne K.

Love MyPillow, it is AWESOME! Can sleep through the night, no more flipping the pillow all night long, no more neck aches. I'm the type of person that doesn't get excited about much, but damn excited after the first night of sleep with MyPillow. It is so comfortable, just love it! Thank you. Ken S.
