### Neck Pain

Neck pain often involves a "stiff neck" or difficulty in moving the neck from one side or the other. And, if your neck pain involves nerves (for example, a significant muscle spasm pinching on a nerve or a slipped disk pressing on a nerve), you may feel numbness, tingling, or weakness in

A study outlined in PubMed.gov (<http://www.ncbi.nlm.nih.gov/pubmed/9608378>) found that supportive pillows helped the slip and neck pain of almost two-thirds of the subjects they tested. Based on this finding, the study's conclusion was that pillows can be recommended for neck pain, and that the ideal pillow should not be too low or high, should provide cervical support, and should be washable and hypo-allergenic.

Based on the results of this study, it is no surprise that MyPillow® has received so many testimonials from our customers.

You should always check with your health professional for any kind of persistent neck pain. We don't claim to cure neck but we can help you have a more comfortable, restful nights sleep.

We can all relate to neck pain and the lack of sleep you get because of neck pain. This is the second-biggest reason why Mike Lindell invented MyPillow®. For, he could not get deep sleep at night, and would wake up, his arm asleep, and his neck sore - he would be in a pain.

In this video, Mike talks about seeing chiropractors to straighten his neck out. Three days later, though, he would be right back to the chiropractor, giving the chiropractor yet another hundred-dollar bill. Mike got tired of that.

So, Mike decided to invent the MyPillow® for his neck issues. It took him 2 years, testing 94 different kinds of fill, before he came up with his patented fill. But, the effort was worth it, for this patented fill gave him a pillow that would keep his neck straight at night, would not go flat, and wouldn't spring back.

With this patented fill, you can make the pillow fit you - whether you sleep on your side, back or stomach, and whether you are big or small. And, the MyPillow® won't migrate during the night, for it takes 6 pounds of pressure to keep the MyPillow® in position, and the average head weighs 12 pounds.

So, with MyPillow®, you don't wake up in the morning with your neck bent from sleeping in the wrong position. And, you sleep soundly through the night, since you are not flipping from side to side and from back to stomach, trying to keep your neck straight at night.

This is one of the greatest features of MyPillow®. This is what Mike is so passionate about, this is the reason he created the MyPillow®.

Mike gives his personal guarantee that MyPillow® will work for you: he has a 60-day guarantee. Other big pillow companies said, "You can't put a guarantee on a pillow." But, not only does Mike have a 60-day money back guarantee, he also has a 10-year warranty, because Mike wants you to know that you can trust him, and that this pillow will work for you - for 10 years.

To sleep well, you need to sleep in the correct posture. The correct posture includes

- Lying on your side with knees bent effectively flattens the back.
- Include a flat pillow between the knees
- Use a pillow that won't go flat under the head to support the neck, and it's cervical nerves and arteries, while maintaining the neck in a straight line with the spine.

**-Better Sleep Guide, The Better Sleep Council**

Avoid lying flat on the back, as it worsens swayback. Also avoid pillows that are too high, or too wide for your particular shoulders and sleeping face down. - **The University of Louisville**

Improve your chances for a good night's sleep and lessening neck and back pain by exercising regularly, keeping your bedroom quiet, cool and dark, going to bed at about the same time daily and remove all work materials. - **The National Sleep Foundation**

To pave the way for better sleep, experts recommend that you:

- Establish consistent sleep and wake schedules, even on weekends
- Create a regular, relaxing bedtime routine such as soaking in a hot bath or listening to soothing music - begin an hour or more before the time you expect to fall asleep
- Create a sleep-conducive environment that is dark, quiet, comfortable and cool
- Sleep on a comfortable mattress and pillows
- Use your bedroom only for sleep and sex (keep "sleep stealers" out of the bedroom - avoid watching TV, using a computer or reading in bed)
- Finish eating at least 2-3 hours before your regular bedtime
- Exercise regularly
- Avoid caffeine and alcohol products close to bedtime and give up smoking
- Perform bedtime stretching exercises

"Exercise is great for sleep. For the millions of people who want better sleep, exercise may help," - **David Cloud, CEO of the National Sleep Foundation (NSF).**

*A few years ago, I was in terrible pain because of my neck. They took x-rays and did a MRI, and I was told that I had all of these degenerative issues and that I was going to have problems for the rest of my life. *I have been suffering from neck pain and discomfort when trying to sleep at night. I have one of those Sleep Number beds for comfort and support, but I woke up every night 5-10 times just trying to get comfortable. The pain in my neck continued throughout the day, and I noticed that the range of motion I had turning my neck left and right was being limited - especially when I was driving and checking before changing lanes when I would get a sharp pain. I had no idea that all this was due to a bad pillow. After the very first night of using My Pillow, the neck pain left. I told my wife it was a miracle, because I bought the pillow just wanting to have a good one, and it was time to do it. I then found out that the pillow was designed to help. So I really thought a miracle took place. My wife jokes that I now that I have a new Buddy. I just ordered one for my son and two more for our bed. I freakin love this pillow. I have had 5 surgeries on my back, and one on my neck. The My Pillow has solved my problems. It is soft, yet very firm. It puffs right back up after lying on it overnight. I love it, and it saves me from having a sore neck, hence back, in the morning. Just get a My Pillow and you will be set for many years to come!! Barbara D.

I had a harsh case of stenosis in my neck, which caused extreme neck and back pain with accompanying neurological issues. I chose a course of somewhat non-invasive treatments (injections and physical therapy, as opposed to the surgery all the doctors were pushing for), which included the purchase of one "My Pillow". That was over two years ago, and the difference the My Pillow product made was noticeable. I no longer wake up with the same neck pain that had been plaguing me for years. This pillow, I am convinced, has extended the benefits of the neck injections by keeping my vertebrae aligned at night. I never thought I would be writing about a pillow. Al

I'm a physical therapist and have been practicing for over 20 years. I have used/tested many pillows over the years for my family, friends and patients. I always try to research and use the best pillow when it comes to

assisting with my patients whom are suffering with neck pain and headaches. For years, I have used and recommend a water based pillow. However, over time they would deform the bed mattress and, due to their weight, were not practical to take on trips. Recently, I purchased MyPillows for both my self and wife. I can honestly say it is an extremely comfortable pillow that has exceeded my expectations. I have discarded my water pillows and replaced them with a much easier to manage MyPillows. I am now recommending the MyPillow for all my patients, family and friends. Dr. Bill J.

I am a combat disabled vet, and have major spinal cord damage. I was at first a little afraid of the price, but my mind was blown - the pillows are awesome. I actually am comfortable at night again as it aligns my neck, and is perfect with my back. There is no more waking up with a stiff neck or shoulders that I can't move for hours after I get up. Thanks...I actually look forward to going to bed, not worrying about how bad I'll feel when I get up. Jeffrey S.

We don't wake up with neck pain, headache or shoulder pain. We are both getting a good nights sleep with less snoring. it feels a little lumpy when you touch it, but soft and very light. *My pillows were given as a gift since I was suffering from neck pain upon waking. Virtually overnight, I have no pain at all and I mean all. Everybody in my family now uses this pillow, and we all send our thanks to the My Pillow company. Rick T.*

*I had neck problems for a long time but I am much better now. Best Thing*

Going. I am a 90 years young. Mary E.

*I have never LOVED a pillow like this one. I sleep like a baby and my neck is so comfortable. Thank you. Tory F.*

*Next to my Bible - my pillow is the best thing I ever bought myself! Neck pain GONE after the first night! Sleeping better now - more so than in years! THANK YOU so very much! Bonnie S.*

*I am a dental assistant and have back and/or neck pain almost every single day. After having a severe neck ache for days, I decided it was time to get a new pillow. The super expensive, heavy, memory foam one I had received as a gift a while back was quickly becoming a cumbersome pancake. I hate pancake pillows. I broke down and decided to try this "as seen on tv" product that I kept hearing so much about. As soon as I put my head on it at bedtime I thought ok, this is comfortable. Awhile later I was even more amazed that it was holding its shape! And I was really amazed that it held its shape ALL NIGHT LONG!! And, you know what? When I wrote up in the morning - no more neck ache!!! Even my back feels better when I wake up! I have only been using it for less than a week and the difference is astonishing. I am so in love with this pillow! I can't remember the last time I slept this comfortably. THANK YOU for this amazing product!!!! Danielle*

*I received My Pillow a few weeks ago and can not say enough about it. I love it, Since I started using it I have not woken up in the morning with a stiff neck. I also love the fact that it is washable. Nellie*

*I received my pillow and the first night was amazing! I am a retired Railroad man, and my body suffers from a lot of neck pain and back pain. It is worth every penny - and more - to buy a My Pillow - you have a life time customer! Thanks again, Chuck S.*

*I LOVE My Pillow. It adjusts for me so that I no longer have any neck aches. And, I used to have neck aches every morning! I notice I sleep on my back more often now, and that stops those creases from appearing on my face. Rosalie L.*

*Without doubt, this is the most comfortable pillow I have ever slept on! I cannot tell you how happy I am that I finally bit the bullet and placed an order. I was having terrible neck pain every morning until sleeping with a My Pillow pillow. I now awake refreshed and rested. Thank you for a great product. Edward G.*

*I just love my pillow, I have severe fibromyalgia and neck problems, and have tried many different pillows to be comfortable. I can honestly say this is the best one I have tried. I like the way it cradles my neck and head with no gaps. I actually look forward to going to sleep at night. It has been one of the best things I have purchased. Donna*

*Since using MyPillow, the neck ache that I have dealt with in the mornings is much better, and I sleep like a baby. It is totally amazing how comfortable this pillow is - and I have had four or five different pillows in the closet that I used to change back and forth. Now I can throw them all out because "My Pillow" is the only one I need! John S.*

*OMG... i have suffered from neck and upper back pain for almost 25 years due to a car accident where I fractured my neck. My Pillow is a GOD SEND!!! I've been using it for about a month, and it's supportive*

comfort is great!!! I am recommending this to EVERYONE I KNOW!!!! Thank you so much!!

As someone diagnosis with MS, I can tell you that it is hard for us to find a pillow that helps with neck pain. I have spent a lot of money trying to find one. I saw your commercial on TV and thought, "why not - I've tried everything else." I am very happy to have a pillow - I can fluff it up, curl up, beat up, wash and dry, and still have a wonderful pillow that supports my neck. I would, and have, recommended this pillow to everyone. Thank you! Thank you for your time and may God bless you.  
Mary S.

I got your MY PILLOW, and it changed my life for the better. I have had neck problems for years. I saw your infomercial on MY PILLOW, got one, and have been sleeping with my neck straight ever since – which feels great. Now I have gotten your topper, and can't believe how much better I feel after only 3 days. My friend has the expensive foam bed and this feels exactly the same to me without spending \$4000. Thank you so much for caring about people so much.

I am 52 yrs old, and have neck aches and more. If my neck bends left or right toward my shoulder, it causes temporary paralysis of the arm on that side. So getting my head in exactly the right position is a big deal! I have tried MANY different pillows, trying to get the support and stability that is absolutely critical given my condition, including my current memory foam pillow that quickly lost the consistency in the memory that I need (AND they are the most expensive on the market). None have really given me what I needed. Your pillow has literally changed the way I sleep. I am surprised...very surprised, and I could not be more pleased. I have slept ONLY flat on my back for years due to my neck problems. I missed sleeping on my side tremendously. So late last week, after realizing the support in MyPillow is so consistent all night, I decided to try turning on my side. With the MyPillow, I was able to stay on my side comfortably for more than an hour. If you haven't been able to lie on your side in years, much less sleep, an hour on your side is huge. Besides the ability to sleep on my side, the pillow gives me the support, consistent stability, and just plain comfort that has significantly increased my sleep quality on my back. And in my experience, the MyPillow is less expensive than most of the pillows I have purchased. I am writing this for two reasons; (1) I know what a difference this pillow has made for me and want to encourage anyone with neck issues to try the support that My Pillow gives you. I only regret I didn't have one years ago. (2) I did not anticipate (perhaps I've become a bit skeptical over time) a pillow that was everything advertised and that would actually help me so much. Thank you! Lisa L.

Last night for first time, I slept on my new (MY PILLOW). This morning, I was in a really good mood: I woke up with no sore neck, no sore shoulder or back soreness. After 15 years, I finally found MY PILLOW. It has the right amount of filling: not too low or high. It is just perfect and worth every penny. Thank you very much for great sleep every night. Pouya A.

I am extremely picky about my pillow due to long time neck issues. I was unsure about the MyPillow due to the cost. This pillow is like sleeping on a

... it provides great neck support and made it through my washing machine very well. I am only upset I waited this long. I would recommend this pillow to anyone. John S.

I am less restless with this great pillow. I feel very well rested in the mornings. My shoulder is bad and THIS is the Goldilocks pillow for that too. It's - just - right!! I have bone on bone in one knee. Perfect for that too. We don't need to FIGHT our pillows during the night, especially any injured areas. This is soooo great - and so user friendly! :) Thank you for this GREAT invention! Joanna J.

I am a senior who developed back pain sleeping in a "fetal" position. However, sleeping on my side, in a "legs straight" position, was uncomfortable and led to restless nights. I tried everything, until receiving My Pillow. Now I get a restful nights sleep with no backache. I sleep comfortably, on my side with legs straight out and no head or neck discomfort. It is so wonderful that I bought another set of My Pillows for our seasonal residence. Thank you for helping to make sleep enjoyable and painless once again! John M.

I have bought many pillows, some way more expensive than the "My Pillow", but none have worked for me. I change positions during the night so pillows that are designed for one position definitely don't work. The "My Pillow" allows me to change positions and still wake up without a sore, stiff neck. I love this pillow. I highly recommend this pillow!! Kathy S.

My husband and I got our king sized my pillows a couple months ago and we LOVE them!! They are amazing! I had a car accident 4 years ago and have had horrible back and neck issues ever since. My Pillow actually gives me more relieving support than any other pillow. We are 100% satisfied! I am now considering the mattress topper. Brittany

I was going to have to buy a new mattress, but I thought I would try the MyPillow Topper first. I just bought the Topper a week ago, and I have had a good night's sleep ever since. I love the pillow too! No neck and head aches from sleeping with my neck in a curved position. I take the travel pillow with me whenever I travel. Great products. Priscilla M

The best thing I did in 2013 was buy My Pillow! I have severe neck problems from arthritis and have gone through at least 12 different types of pillows - and then kept looking. My sister told me about this wonderful pillow, and I will always be grateful. I bought two. My husband likes a completely flat pillow so I did not think he would like it, but I was wrong. He loves it. Because it is a soft, fluffy, scrunchable pillow, it is great for the neck and it firmly cradles your head at the same time. It is perfect for us. I fluff it up in the dryer every month or two and it is like brand new again. Almost two years...I am still happy. Julia H.

I suffered from numb arms and neck pain constantly. After experience the support of MyPillow for a few nights, I noticed that my arms were not numb in the morning. I feel that I am sleeping better and not waking up in the night like I used to. I will be buying a MyPillow for everyone in my family. KN

I was having a problem with neck and shoulder soreness when I got up in the morning for months. I tried many different pillows, and nothing worked. I finally broke down and purchased My Pillow, and this is the best investment that I have made in a long

while. I am sleeping well at night, and when I get up in the morning I do not have any more pain from sleeping in bad positions. I have washed it twice, and it has not lost its shape. I love how fluffy it is and, if I need to adjust it, I just turn it over; lay my head down and it feels so good. Thank you so much. Dora J.

Best money spent. LOVE, love, love my big pillow. I had a previous neck surgery years ago and have spent a lot of money on pillows over the years, and still tossed and turned, waking up all the time. I sucked it up, knowing I was at the end of my rope buying pillows. This pillow has saved me a lot of grief and pain – I now get sleep. I recommend trying this pillow. I knew it had 30 or 60 days to return. That was why I ordered one. Never returned it... Love love my pillow. Thank you Charlotte T.

I still snore and so does my hubby, but the claim I can make is that "My Pillow" is still fluffy and will shape to my neck just the way I want it to. I take it with me on road trips too. It is the best pillow I have ever owned by a long shot. Thanks. Linda G.

Mr. Lindell, I began having neck problems since I had a wreck in high school 15 yrs ago. I went through about 20 pillows. I bought a queen sized blue pillow at the Dallas auto show this last year, but was extremely skeptical, and had almost given up on getting a good night's rest and not waking up with neck pain. Since that time, my wife says I am a new man, as I have been much happier because I feel better. I have since bought a total of 5 more pillows to give to family and friends. I also recently bought the topper. I am also an internal medicine physician and recommend your pillow to everyone. Thank you so much for your hard work and your invention. I am grateful. Wes

I ordered the pillow. I then had buyers remorse. I tried to cancel it, but it already shipped. I was told to refuse it when it arrived. When it arrived, I received and used it that night. I slept soundly, in deep sleep - no neck pain, not tired from lack of sleep. Boy, am I glad I got my pillow. I'll be ordering one made to fit. I'm a disabled vet. I'll order it as soon as my check gets in. David A.

Bothered with nightly stiff neck, allergies, and snoring on both our parts, I thought we'd never get a good night's sleep. We both could not do without our MyPillows! We take them to hotels now, and we just can't do without them for even one night! Thank you thank you. They are definitely worth the money. MADE IN THE USA! Nan M.

I drove a forklift for over 7 years, and in doing that, spent a lot of time turning and craning to look over my shoulder. The last year, or so, I started having cervical neck spasms and severe pain. Chiropractic and therapeutic massage did a lot in helping that, but, I still had pain. My chiropractor recommended the most popular memory foam pillow, and I tried a few, but none really fit me well, or were very comfortable. When I saw the My Pillow advertisement, I decided to try one. I've had my My Pillow since March 2012. I LOVE IT! I will add one suggestion: be sure to use 100% cotton pillow cases, and be sure they are generous in size. If the case fits too tightly, it "bounds" the My Pillow, dis-allowing it to conform to your unique shape. My chiropractor confirms that I am holding my alignment much better since using the My Pillow – and I am feeling better. Thank you so much My

*Pillow!! Debra L.*

*When I saw you on television, I really wondered if it could be true that I could actually sleep at night without waking up constantly with neck and headaches. My pillow is MY PILLLOW ... and it is wonderful. I love the way it snuggles under my neck and head, providing just the right amount of support. I used to feel panic before going to bed at night, because I dreaded the long painful nights of neck and headaches and not being able to sleep due to non-supportive pillows. I'm ordering another. Thank you! Pat W.*

*Love MyPillow, it is AWESOME! Can sleep through the night, no more flipping the pillow all night long, no more neck aches. It is so comfortable, just love it! Ken S.*

*I must say that I never thought a pillow would make a difference one way or another on a good nights sleep. I was definitely wrong. No more flattening out in the middle of the night, no more sore neck from crappy pillows. I can "mold" the pillow to my personal comfort and it stays all night. I have slept on feather pillows, and trust me when I say NOTHING is more comfy than My Pillow! Sincerely, Carmen K.*

*I bought your pillow 6 months ago. Saw your TV commercial and decided to give your pillow a try. I have had, for the past 2 years, terrible neck aches. After one week of experiencing the supportive comfort of your pillow, I feel much better. I cannot thank you enough. I recommend your pillow to everyone. Thank you so much, Barbara H.*

*I'm a believer now. I always woke up with a sore neck, and the first morning with MyPillow, I could not believe it. It was gone. This pillow works!!!! I swear this is a true story. Carol E.*

*I have spent lots of money on all sorts of pillows with no relief of neck pain. I saw My Pillow on t.v. and thought what the heck. It is the best pillow I have ever tried and after the first night no neck pain. We travel a lot and it goes everywhere we me. Just bought a second one for my second home. Would suggest it to anyone with neck pain. Greatest invention!!!!!! Linda A.*

*I have been in a major car accident in the past and have chronic neck/back pain. I am so happy with the pillows after 1 night that I just ordered the mattress toppers!!! I am so pleased that I can finally get a restful night of sleep!!! Thank you sooo much Mike!! Linda C.*

*It's not a cure, however, the difference in pain from sleeping on expensive name brand pillows/memory foam pillows/multiple pillows to sleeping on my My Pillow is very noticeable. Even an hour nap on a "normal" pillow results in neck pain which isn't there when I use my My Pillow. Try it. For someone who has the neurological problems I have, the relief that My Pillow offers is priceless. Lauren Ann*
