Suffering from acne?

John Hipol

"Hey Team! Wanted to give everyone an update. For only being apart of Team Fusion and Kyäni for 13 days, I think it's safe to say HUGE things are happening!

I'm now 8 days on the Health triangle, still putting Extreme on my face at night(only started putting extreme on my face about 3-4 days ago). Completely off all other acne medications. I'm not saying Kyäni is responsible, but what I am saying is that when I started Kyäni and stopped all my other treatment my acne seemed to have made dramatic improvements! (Although I have stopped my other treatments before Kyäni to see what would happen: let's just say it made it 100x worse) safe to say I will be staying on Kyäni! The left is 1 day on Kyäni, the right is today(8 days on Kyäni)"
