Three weeks ago we started a fabulous journey with the new product Extreme Nitro! We started this as noting seemed to be working for Brodies acne, we had tried simply everything available! Since using this product the changes in such a short time are incredible, the redness the scarring and the actual pimples are almost cleared away and we couldn't be happier! Brodie also takes these drops three times a day to help from the inside out! It's also helping with his fatigue just really transforming him. I highly recommend it! Thanks so much Kyani! Awesome awesome awesome!
