

### Bradley Dame

After being on prescription pain medication for more than 3 years to treat my chronic back pain caused by damage to my spine, I found Kyani and it has completely changed my quality of life. I have now been nearly 2 months pain free and more importantly pain med free. I am a jade in the company, bt even if I didnt make a dime in this business, I would spend whatever I had to to get the results I have personally experienced w this product. It is truly a God sent for me.
