Incredible testimonial from Alan-  
Two months ago, my Great-Aunt 70 years of age had fallen at her house and bruised her leg extremely bad. Ever since that day, her circulation was pinched and not rotating well. Her skin began to turn a dark purple. She would also complain of having pain throughout her leg, which enabled her to walk. Once I heard how Kyani worked wonders, I immediately joined and began giving her sunrise, sunset and nitro. In a matter of three and a half weeks, she is able to walk perfectly fine and not complaining of any pain. She was not taking any other product, such as, pain killers or any other medication, only the sunrise, sunset and nitro. Once again, Kyani does help in many ways, just look at the results! Thank you Kyani for creating this amazing product and allowing us to impact and benefit many people's lives with it ! For more information on the Kyani products visit - [kylidevic.kyani.net](http://kylidevic.kyani.net) or send me a PM, I would love to chat.
