

**Bill Telford**

13 mins

I will be 68 years old. I am a cancer survivor. I have high blood pressure, Type 2 diabetes, neuropathy and Parkinson's Disease. I have taken Kyani for 3 months. Today for the first time in over 2 years I was able to jog up and down the hall at work easily and my improvement was noticed.

The only difference was Kyani. You bet it works. Praise the Lord for it. Needless to say I feel great. I am happy. GO KYANI!
