Florence Faith Jose  
Ewa Beach, HI

I'm Florence Faith Almosara Jose and this is my story. Due to my husband's health condition which included a previous heart attack, high blood pressure & elevated blood sugar levels, I was desperate to find something to help him. Then, like an angel sending God's answer to my prayers, out of the blue a friend came to me & introduced me to Kyani. It was like he knew I was in desperate need of finding help for my husband. To our surprise, my husband saw & felt a difference within 2 weeks. His blood sugar level dropped dramatically & his blood pressure came back down to normal levels. I was so excited that I wanted to share it with everybody & anybody that I could find. I was grateful for what Kyani had done in my husband & the rest of my family's health. It became a mission for me to help other people having pains & health issues in their lives.

Not too long ago the company I work for downsized but fortunately, instead of getting laid off, I was transferred to a different department. But I still needed extra income to cope with the change. To be honest, I wasn't thinking about the business side of Kyani because I was just excited about the product. But because Kyani has an excellent business opportunity program, after only 64 days, I was recognized & awarded for my hard work. I received my brand new 2013 Audi A4! I am convinced that Kyani works wonders in the lives of everyone. It surely changed mine for the better. Thanks KYANI!
