Graham Woldert enrolled with Kyani four months ago. He was skeptical at first when presented with the business opportunity but after just three weeks he decided to take the risk. That risk has already made him profitable with a residual income as well as getting is very own Dream Car (er...Truck).

He is excited that he can succeed without having any prior experience. He credits the leadership of the Founders for making the plan so clear that you can be successful whether you are "from jail or Yale."

He looks forward to giving others the same opportunity to change their lives.
