My wife Deena has been struggling with fibromyalgia and chronic fatigue for more than 20 years. As she got older, she noticed she wasn't able to do the simple things she used to do. Over the past three years she could no longer golf like she used to and certainly not a full round for 18 holes. She was barely able to golf 9 holes sometimes 12 due to getting so tired and hurting, forget about having any energy.

After taking Kyani for about 5 days she was able to golf 18 holes and still have plenty of energy and no hurting. What's even better is she has been able to cut back on her pain medication that she has been on for about 15 years.

Whatever Kyani has created, THANK YOU, it's given her life back.

Up to this point we looked for many different ways that Doctors and people recommended for her to try to help her with the pain and fatigue. Nothing has ever helped. Sure the pain meds did their temporary mask approach of helping for a few hours and then back to the same daily hurting and no desire to do nothing.

Kyani simply works!
