Rey Piros, Pearl- Kahului, HI
06/19/2014

My wife, Cecille, was approached by Zaldy Pascua in May 2011 to advertise on our radio station. When a new food supplement is advertised on our radio, my wife asks so many questions about it. She also wants to be able to try it first before offering it to our listeners. She said if it works for me, because my body is sensitive to medicine or drugs, then it will be good for a lot of people. Zaldy gave my wife a free Kyāni Health Triangle to try for three months but she did not take it religiously. Every time Zaldy came, my wife would tell him, "It does not work for me!"

Then, the last day of July 2011, my wife told me to take Kyāni Sunrise every morning. She wanted to test if it worked for me since I have a lot of health challenges. August 1 I started taking Kyāni Sunrise as soon as I came to the radio station. I also started taking Kyāni NitroFX once in awhile.

On August 7, I urinated dead blood. I got scared. After talking to my wife, I realized I felt better. Now I no longer have to wake up several times every night to go to the bathroom and my urination became normal. I am also able to sleep soundly.

In February 2011, I developed a horse voice and breathing problems. One day in August my wife told me my voice on the radio was beautiful again. Only then did I realized that things were changing in my body. I felt much better, happier, and stronger.

In October 2011, I went to see my doctor for a check up. I have poor cardiovascular health. My nurse and my doctor were surprised to see that my heart health had improved. The test results also showed I had healthy blood sugar levels. My doctor asked me what I did. I told him I was taking the Kyāni products. My doctor said "Whatever you are taking, continue it. Good for you!"

Ever since then, I promote Kyāni on the radio to help my fellow Filipinos and listeners get the real meaning of wealth which is better health. My wife signed up as a distributor August 8. She thought we could help a lot of people get well with these products. At the time, we didn't even know how to get free products. All we wanted was to share Kyāni with a lot of people.

My wife, my son, and myself are all promoting the Kyāni products. Kyāni will continue to help people around the world be more healthy through natural ingredients.
