Nestled deep in the heart of the Alaskan tundra is found a berry whose incredible nutritive and antioxidantizing power have earned it the name "the miracle berry". Harvested and processed at precisely the right time, the blueberry contains more antioxidantizing, disease-fighting, and nutritional power than any other fruit or vegetable available. Kyani Inc. has created a product founded solely on the nutritional values of these Alaskan Miracle Berries that is shaping and changing the lives of people all over the world.

Karyl Keanaaina - On July 22, 2009 I turned 50 years old. One week later, on July 29th, my body fell apart.
 I have always been pretty healthy so it was a shock when I went to the doctor to check on a cough, that I just couldn't shake, and was immediately admitted to the hospital because my blood count was 2 (normal range is from 12-18.) I also had very high white blood cell counts, and my blood platelets were only one-third of the size they should be (showing I had very low oxygen content in my blood.) The first reaction from the doctors was that I had cancer or leukemia or, at the very least, a blood infection. After multiple tests, two blood transfusions, and six iron infusions my bone marrow started working again to produce blood and my blood count rose to 9 over a period of two weeks, and cancer and leukemia were ruled out as a cause of my condition. Unfortunately, on the afternoon of my last iron infusion I started hemorrhaging and lost all the ground I had gained.

For the next month (August/September 2009) I was in and out of the hospital every other week with complications and I was just getting weaker and weaker. With all the tests, IV's, and blood draws my arms were "stuck" 57 times and I was in the Emergency Room 6 times in 30 days. The Doctors could not figure out what was the cause of my low blood count.

My husband, Mike, and I were getting pretty desperate because my health was failing so quickly. I lost 30 pounds and my veins were beginning to collapse so they could not give me the treatments I needed. We were praying so hard for guidance, for any help we could get, for something that would help me get better. Then our friend talked to us about the Kyani products. I was skeptical (I've tried all kinds of "juices" in the past and never found them to be effective for me.) But Mike said he felt this was an answer to our prayers so we scraped together the funds we needed to get a months supply and I started on the Kyani Sunrise...within 2 days I started feeling better, my mind cleared, I had energy again and my next blood tests (a week later) were at 11.5!

I have continued taking the Kyani products ever since and I am so much better. The Doctors are amazed at my recovery. The Kyani system is based on the super-foods of blueberries, cranberries, raspberries, pomegranate, grapes, noni, aloe vera, and omega 3's. Every morning I take one ounce of the Kyani Sunrise drink and it gives me the nutrition of 10-12 servings of fruits and vegetables.

The system is so simple but it provides total overall health support to all the systems of my body with all natural ingredients. - Karyl Keanaaina

Michelle, Honolulu, HI - I used to suffer from fibromyalgia and was taking 6 to 8 tyenols a day for the pain. Now, I'm not taking one. I sleep better too. My results for her blood test were exciting. I went to the doctor in November and just the other day for another check up. I started on the products on March 22, 2010 (all 3 products).

These are my results:

	November/2009	May/2010
Blood Pressure	166/80	116/70
Cholestrol	278	166
Triglycerides	110	106
HDL	48	57
LDL	208	88*

*This was the most impressive of all.

Jane (Bobs) Akita, Honolulu, HI - I have been taking the tri pack for 5 months
 1- one month arthritis in right hand got better
 2- one month my both knee replacements was sore for 2 weeks before it got better... now I can walk very fast and run if I wanted to and walk up and down the steps normally.
 3- CT showed I have scattered degenerative -identified at the lower lumbar spine after 1 month.. the pain started to go away.
 4- In 2 months my hair started to turn black.. I have not dyed my hair now for 5 months
 5- After 3 months I don't have dry scratchy eye anymore
 6- After 4 months my joints feel better.. I can do my water exercise with no problem

Dean Akita, Honolulu, HI - I have been taking the tri pack for 5 months
 1- in 2 weeks pain is gone from both knees
 2- one month migraine headache started to go away - got sense of smell back.
 3- one month right shoulder pain went away. now I can over hand throw
 4- 2 months joint muscles got loose
 5- 2 months inflammation swollen under black mole started to downsize also the black mold got smaller and smaller.
 6- 2 months .. tages (loose skin) fell off

Takao Fujimoto, Honolulu, HI - I suffered from whiplash sustained in a rear-end collision in 1991. I also suffered from lower back pain for 40 years. My wife joined the Kyani team in mid Dec., 1010. When the products arrived, she urged me to try them. I was very skeptical since I tried everything to relieve my pain. Some treatments were temporary, and some did not help at all. Still skeptical, I began taking the products to show her that it will not work. 8 days later, while reversing the car out of the garage, she noticed that I was turning my neck in a way that I could not for almost 20 years. I didn't realize my neck pain was gone. My back lower back pain was also gone. That was 5 months ago and my pains have not returned. Hair is now growing in the bald spot on my head and a tumor under my foot has disappeared. I also had trouble sleeping. Now I sleep soundly and wake up refreshed. Kyani changed my life. I have since signed as a distributor and spreading the word about Kyani. I am living proof that it works.
 With much aloha to my wife, Takao

JoEllen Boyd - Honolulu, HI / For years I have suffered with Fibromyalgia and Chronic Fatigue. There have been periods in my life where I couldn't work and it was hard to function. When I could work I had to take prescription stimulants and pain medication just to make it through the day. I would come home at night, collapse on the couch and fall asleep for 2-3 hours. Going out at night was almost impossible. Working all week was more than my body could handle. I would wake up on Saturday in so much pain and so exhausted I could hardly get out of bed. Even something as simple as going to the grocery store was very difficult and by the time I got home I was almost in tears. Shortly before starting taking the products I began to experience a terrible "pain episode". Every part of my body hurt, but the headaches were the worse. Those were the Pre-Kyani days. About a week after I started taking the products I found I was able to come home from work and only sleep for about an hour. Slowly I began gaining more and more energy and after about a month I found that most days I didn't have to lie down. I remember the first Saturday that I went out with my husband to talk to 3 different people about Kyani. Each day I know that my body is continuing to heal. Kyani has given me back my life and an excitement about the future.

I will never forget the day I walked into my office and overheard someone saying "I've begged the doctors to amputate my leg but they won't." I soon found out he has been in constant pain for the last 4 years from ulcers on his ankle. The doctors have no idea what's causing them or how to heal it. This all happened about a week after we joined Kyani. I didn't know much about the products except someone at the meeting mentioned they had great results from rubbing Nitro FX on a skin problem. I had a sample bottle of Nitro FX with me so I gave it to him and told him to rub it on his ankle and then take the drops 4-5 times a day. About 5 days later he asked me to order a bottle for him. After 4 years of living with these open sores, the ulcers started scabbing. Though it's not normal for me, I can't help but tell people about the miraculous healings that are taking place by taking the Kyani products. It's hard to imagine that telling someone about these wonderful products can give them a quality of life they haven't known for many years.

I will never be able to express my gratitude to all of the people involved in bringing Kyani products to the world. For the last few years my husband's health has been getting worse and worse, yet the doctors couldn't figure out what was going on. He became so weak and dizzy there were times when he couldn't cross the street without holding on to me. His color was terrible and he looked like he aged 10 years within the last several months. Many times I would wake up at night and look to see if he was still breathing. Things reached a point where he had to quit his job because it required he walking up stairs and he just couldn't do it any longer. It didn't look he could continue working so we put our house on the market and planned to move close to our daughter in Atlanta. Since it's cheaper there, we could live on his pensions and my income. This would also give me a sense of security knowing that I wouldn't have to take care of him by myself. Praise God our lives have changed. Within a short period of time after he started taking the Kyani products he regained his energy and his health. Imagine the disbelief of the people he worked with when he suddenly ran up 3 flights of stairs, 2 at a time.
