

## Testimonials

The Kyani products came to me Jan 1, 2008. I was having trouble with pain in my lower back. Kyani Sunrise and Kyani Sunset have been wonderful for my back. I noticed a difference the ifrst month and it has continually gotten better over 6 months. I don't even notice the pain anymore. ~ Becky Haugen.

My daughter (Faiana) who joined the company brought me the Sunrise & Sunset. I am a 66 yr old man who has suffered for years with insulin problems, blood pressure issues, problems with my cholesterol, pain in my joints, & had a heart procedure 10 years ago. When my daughter gave me the Kyani product after 3 days of taking it I recognized that the pain in the joints of my hands had seriously decreased. When I woke up in the morning I was able to start walking immediately without waiting for about 5 minutes to get my balance. I had energy that allowed me to wake up early and go all day with activities without needing a nap. After a month of taking the Sunrise & Sunset my sugar level tested at 139 when the lowest with medication was 214 in the last 5 years. My HBP started to go down. The last I tested my BP it was 130/80 when the norm was 200/120. I went for a 10 yr check up on my heart and the Dr advised me that my veins are stronger now then when I had the heart procedure 10 yrs ago. I'm excited about the Nitro FX because with the heart condition this will help the circulation of blood to my heart. The Kyani product has significantly improved my health and the way I feel. I know it still requires the proper diet & exercise but it has helped me live a more healthier fulfilled life. Thank you Kyani I feel like I'm in my 40's again. I am now sharing the Kyani Products with everyone as a Distributor. ~ Viliami Makahununiu (Texas)

I joined Kyani for the opportunity. Little did I know that sharing this incredible product would not only improve peoples lives physically but also financially. I started taking the product because I wanted to slow the aging process and prevent heart disease & cancer which runs in my family. Immediately I recognized increase energy level, improved attitude where little things didn't bother me, and also clarity in mind. I have a vision condition on my right eye. The pupil is not flat on the surface as it should be therefore making my vision blurred. Glasses can not fix the problem, so I wear a hard lens on my right eye. After 6 months my lens fell out and I was amazed that I could see my hands. Before Kyani if I closed my left eye I couldn't see anything with the right eye even if we were sitting nose to nose. Now I can see my hands and faces from approx a foot away. I love what the Kyani product has done for me and also my family members. With Kyani I plan on living a very long, healthy life. ~ Faiana Brown (Utah)

I started taking the Kyani product when my wife joined the company. I had a fusion on my lower back that put me out of work for 2 1/2 years. The Dr advised that my flexibility will be limited due to the back surgery. I load airplanes for a living and I realized with the Kyani product it gives me energy, I feel stronger then I did before, and flexibility on my back is as if I never had a fusion. Both my parents and many family members passed away due to diabetes. I'm grateful that I have a product that will help me control the blood sugar and insulin. I really enjoy taking the Kyani Sunrise, Sunset, & the Nitro FX. ~ Gerald Liti Brown (Utah)

I am a healthy 32 year active female. Although I cycle for an hour in the morning before starting my day I still had to consume 4-5 bottle of Red Bull Energy Drinks to get the energy that I needed to get me through my day. I don't drink Red Bull anymore because Kyani tastes better, it's all natural, and it costs less. It feels good to be able to take something that gives me energy, improved attitude, better memory, and I sleep better at night. Now all I want to do is share the product with everyone. ~ Daisey Brown (Utah)

I had uterine cancer shortly after a miscarriage and I went in for surgery. The Dr told me that recovery time would be approximately 4-8 weeks before returning to work. My childhood friend (Ginger Lotulele) sent me a bottle of the Kyani Sunrise. I took the juice right after I got home from the hospital. Within a week I was up and about. After 2 weeks I was back at work. I love the Kyani product. I give it to my children, ducks, parrots, and dog. I share this incredible product with everyone that I know! ~ Blanca Mendoza (Gallup, NM)

I suffer from seizures and even though I take my medication I have frequent seizures that last 3-4 minutes. My sister Blanca gave me a bottle of Kyani after it helped her recover. I started taking the Kyani sunrise and although I still have seizures they now only last 30-45 seconds which is great improvement from what it use to be. I love the Kyani Products! ~ Maria Mendoza (Gallup, NM)

I received the Kyani product from a friend (Amelia). I teach seminary for my church and was about to stop teaching since my vision was so bad that I couldn't read the lessons anymore. Because of the Kyani I am able to read without wearing my glasses. I feel healthier, have more energy and a clearer mind. I give Kyani to my kids since it is good for the brain and I continue to share this incredible product with everyone I know. ~ Lose Vakalahi (Maui)

The first day I took the product I noticed a new found energy. Within 2 weeks I noticed that my joint pain, especially in my knees had significantly decreased. I am no longer taking oxycodone daily for pain. I am an RN by trade and I endorse this product proudly and whole-heartedly to all I meet! ~ Alina Diaz
