

Time for a Testimony! My wife Jackie, for the last 10+ years since she had her thyroid removed due to cancer, has battled fatigue and just felt pretty bad in general. She eats pretty much organic, and has been seeing a Natural-path for years. Been on a all natural vitamin regiment for years. Every morning she would make her shake with all her ingredients, and then through out the day she continued to take the rest of her vitamins, 10 pills for this and 10 more for that, totaling more than 40 pills every day. Every week I would watch her fill all her pill boxes, 1 for each day of the week.

Since being introduces to Kyani just over a month ago, and the Wellness Simplified she started her own experiment. For the last 30 days nothing but Kyani, and I have to say she has never felt better, energy, focus, clarity and most of all, just seeing her smile again was terrific.

Well, yesterday she had her checkup with her Doctor, and I went with her to see and hear the reaction of her Doctor. After the examination, the Doctor told her she was doing great, best he's seen so far, in fact told her she didn't need to come back for 3 -4 months, she's been going every 2 weeks. That's when she told him she was on Kyani and only Kyani, we explained Wellness Simplified, he said to keep doing what she was doing that it was working, and again, to come back in 3 - 4 months, gave him some material and links to review for his research.
