I am an independent distributor now and the reason why I decided to join in on this amazing product is it took care of my tachycardia. I now have a resting heart rate of 75 and it's never been lower than 80 in my life. It's also helped a few of my family members with some health issues. I highly recommend using this product and not because I sell it. I don't sell products I sell experiences. Get healthier with kyani. You have nothing to lose if you try it.
