"I have been into fitness and athletics my entire life. I currently own two Fit Body Bootcamp franchises in the Los Angeles area. One of the things I pride myself on is our attention to our client's nutrition and making sure my clients eat and drink as much quality foods as possible to supplement our amazing workouts. I have been searching for a nutrition supplement company to add to my fitness program for over 12 years and have not been able to find anything to recommend to my clients until I was finally introduced to SevenPoint2.

I love the fact that all of the SevenPoint2 products are vegan, organic, raw, alkalizing, and best of all, actually taste great! I also love how simple SevenPoint2 makes it to use the products with their Health & Weight Loss Made Simple Programs. Compared to the thousands of other product lines that have so many different products and artificial ingredients, it was a no-brainer for me to add it to my business and my life.

Since becoming an Associate with SevenPoint2 and using the products myself, I have lost over 20 pounds in just a couple months, my energy has skyrocketed and my two triple macchiato a day habit is totally gone. I was also dealing with a nagging injury in my foot for almost a year that has completely gone away since taking the SevenPoint2 products. I also love the fact that as a father, all of my kids can also use the SevenPoint2 products, including my nursing wife, and receive all the same benefits that I do without having to worry about any of the ingredients.

When sharing SevenPoint2 I just talk about the incredible results and health benefits that I and all of my clients have already attained using the products. I would say the secret to my success is knowing that I am recommending the best products to my clients, family and friends, and that I have already personally received amazing results myself. It is easy to share when it makes such a positive difference in my clients and my own life!

I recently attended a 7.2 University Regional Training and was completely blown away by the leadership of SevenPoint2. Between Philip Townsend, the Co-Founders and amazing, quality people I met, my belief was solidified that I am with the right company, at the right time, with the right people!

Thank you SevenPoint2 for finally developing a product and a community that we can all be proud of!"
