TOP REVIEWS

**Misty W.** ★★★★★

It really does work, I lost 85 pounds in less than 12 months. Went from a size 16 to a size 2. A lot of people don't even recognize me anymore. I'm healthier and happier than I've ever been.

**Elizabeth P.** ★★★★★

I've had 2 children in 2 years, and was feeling really ashamed of my body. I bought lipozene because I've used it years ago and it had worked wonders. So far I'm one bottle in (5 days) and I've lost 11 pounds. IN FIVE DAYS! I haven't exercised, not even once. I hate drinking water and drink maybe 2 bottles a day. I'm amazed. I never get jitters or nausea from Lipozene, like with other diet pills. I literally just take it, never feel hungry, and I'm shrinking. Thank you Lipozene!

**Summer** ★★★★★

Columbus, Ohio

I bought this product 2 weeks ago from today. I must admit the results were phenomenal. I am seriously overweight. I am only 19 and weighed 206. I been taking this product, and I am happy to admit I lost 17 lbs in these 2 weeks. This product DOES work. I see others that say otherwise, but sorry to break it to anyone but NO PILL is a miracle pill. To achieve a goal you will have to work a little bit. I'm not saying go all out and become exercise person of the week. But move more then you do, and change your eating style, and you will get fabulous results. You can't take this pill and over eat and expect to lose weight. Don't blame the product if you fail. The result is all you. You have 2 give a little 2 get a little.

I used Lipozene for two months and lost 35lbs. I would simply take the pill 30 min before meals and move through my day. Now I am more fit and healthier than I have ever been. This product works so well that I have decied to continue the usage until I reach my goal weight of 40 more lbs.

Thank Lipozene!

Day 10 of my lipozene journey. I am 6'4 with a starting weight of 278 lbs plan to get down to 220 with lots of cardio and lipozene. After the first week I have lost 9 lbs! This is direct result from taking my lipozene at the same time everyday mixed with different cardio workouts I do at home. I really like lipozene compared to other weight/fat loss products i have taken due to the fact that it has not given me the neg side effects that others have. Drinking lots of water helps. Lipozene has taken away my frequent urge to snack throughout the day! will keep you updated weekly on how I am feeling, also what I have been doing as far as workouts go. I have tried most of the weight/fat products over the years and so far lipozene seems to be working the best for me so far.

I want to know when to use the MetaboUP. Im confused, do I have to take the Lipozene and then after a meal take the MetaboUP?

Helpful

Comments:

For Lipozene, the recommended dose is 2 pills taken 30 minutes prior to each meal with 8 ounces of water up to three times daily.

If you have MetaboUP you can take 1 tablet up to two times per day with an 8 oz glass of water.

If taking MetaboUP PLUS you can take two pills once daily, preferably in the morning or prior to a workout with an 8 oz glass of water.

I just bought it from walgreens and I can't wait to see if it works for me!! I'm 23 and I'm around 250lbs, I'm graduating in May and will be transferring to a University and I'm hoping to look healthy and slimmed down by August. I dont want to be a twig, I'm 2x/3x in shirts and 18W-22W in jeans. My goal is to be in a Large and a 11/12 in juniors by the time I start school. Are we allowed to take this with other diet supplements?

Helpful

Comments:

Terri - great question! It would be best to check with your physician about taking or combining any supplements.

**Angie** ★★★★★

Fort Worth, Texas

I have to say I have been on Lipozene for 9 days and I think I've lost nothing. I read the reviews before I started this knowing that the secret is to move. So I walked, stretched, elliptical, and drank more water in 9 days than I have in 9 months. I haven't always been the best healthy eater, but in recent years I have changed that habit. I've noticed that I do get full quickly now which is a good this.

I bought the complete kit, and plan to use all the bottles. Wish me luck as I continue. 100's of other have done this with success so can I.

Helpful

Comments:

Stick with it Angie! We know you can meet your weight loss goals. Keep us posted on your journey, and remember to follow the dosage instructions for optimum results.

I have gained about thirty pounds in the last year. Now taking Lipozene for just four days I feel fuller and more energetic as well as lost three pounds. I'm going to continue using this product until I get back to pre-baby weight, maybe even a little lower. Thanks Lipozene!
