TOP REVIEWS

Misty W. ★★★★★

It really does work, I lost 85 pounds in less than 12 months. Went from a size 16 to a size 2. A lot of people don't even recognize me anymore. I'm healthier and happier than I've ever been.

Elizabeth P. ★★★★★

I've had 2 children in 2 years, and was feeling really ashamed of my body. I bought lipozene because I've used it years ago and it had worked wonders. So far I'm one bottle in (5 days) and I've lost 11 pounds. IN FIVE DAYS! I haven't exercised, not even once. I hate drinking water and drink maybe 2 bottles a day. I'm amazed. I never get jitters or nausea from Lipozene, like with other diet pills. I literally just take it, never feel hungry, and I'm shrinking. Thank you Lipozene!

Kath ★★★★★

Houston, Texas

I just finished my first bottle, which lasted 2 weeks, and even my husband has said that he really notices a difference! I have struggled with my weight because of PCOS (insulin resistance). In researching the main ingredient in Lipozene, it has been used for centuries to help treat people with insulin resistance. I have to say that I believe in Lipozene for those with insulin resistance, at least. I see my stomach flatter, although my rear end is losing the weight faster (which I DON'T like!), but also my clothes decidedly fit better – and looser. I don't have a scale, but am seriously overweight, diabetic, high blood pressure, etc., because of my size. I honestly do feel better already. Time will tell if this trend continues, but so far, so great! I can see how people would have issues if they don't drink enough water, but if you follow the directions, it DOES work!

I started using Lipozene on August 3rd of 2012. I weighed 184 pounds and I'm 5 foot tall. I have lost 21 pounds. I have went from a size 14 to a size 10. I'm so happy with this product. I'm still using it and will continue to use it til I reach my goal weight. it takes a little extra work on my part to lose the weight. a person cant expect to take the pills and eat what they want. the product does work but you have to work with the product. thanks LIPOZZENE.

Well, when I first started taking Lipozene I weighed 220 lbs at a height of 5'5". My doctor told me if I didn't lose the weight I would have to have gastric surgery and I told him I wanted to try to lose the weight by myself. I don't like surgeries. I am giving myself 6 months to lose my desired weight. I started taking it August 27th 2012 and right now it is the 30th of August.. To say the least I am down to 214 lbs. It is amazing in so many ways. I haven't felt like eating, I do Latin workouts daily for an hour and then around 6 o'clock or so I do my simple workouts. Nothing major yet, but seeing those pounds come off in just a few days was incredible. I take 2 capsules twice a day and my energy has gone up a lot. My weight goal is to be down to 135 lbs. and it looks like I'm making good progress. I will post bi-weekly or monthly to let everyone know. Awesome product!!

Thank you so much for your product. I tried other products with no results even with Sensa but when my sister suggested this product, I decided to try it and in 2 months have lost 25 lbs. I still have a long way to go but this is the only thing that has helped me. I am not able to walk to exercise due to having only half of my left foot and no weight bearing bone in that foot so lipozene has been a god sent. Again thank you so much.

I have been using Lipozene for 2 weeks and 1 day so far. I am vouching for Lipozene. I haven't weighed myself yet but my belly is definitely disappearing and I lost inches in my waist. My work pants are a size 15 and they used to be tight, now they're falling off so I must wear a belt everyday. I also changed my eating habits and am now eating more salad and for my exercise, I power walk. At the end of this week I will weigh myself. Thank you Lipozene!

I started taking Lipozene approximately one year ago. When I started I was an obese 205 pounds. I could no longer fit into any clothes and was very depressed about my appearance. Now after being on Lipozene I have lost 90 pounds. I have the figure I enjoyed as a 19 year old.

Thanks Lipozene!

So I decided to use this product about two weeks ago started out slow but I noticed today an extra inch in my jeans. I am trying to lose 100lbs I got sick a year and a half ago doc put me on steroids and I put on the lbs now I take more than 15 pills a day ranging from pain meds for chronic leg pain to blood thinners. At 299 I need help and today I can say I finally found my help.

I am 30 yrs old I have two kids, work full time, and go to school part time. I had shoulder surgery about a year and a half ago and gained 30 pounds since. I never seem to get full and would snack through the day. I have tried watching my calories and do a little more working out during the week with power walking, however with no luck on losing the weight. Today I started taking Lipozene And can I say I haven't felt this full in ages. I also didn't even think about having a soda today. It seemed to have curbed that all together. I am looking forward to seeing what happens next. I am getting married in May of 2014 and would like to be from my 215lbs at 5'8" to 180 by July so I can buy a wedding dress! I can't wait to see what's in store for me. Thank you Lipozene.

I've used this product and I like it.. without any exercise I have lost 9# in 26 days I'm still using it although I wish the capsules were a little smaller. And maybe that some boxes had a coupon or something. I buy them at a pharmacy 2 bottles for \$29 but I just saw them at Walmart on sale!!
