TESTIMONIAL

Our Customers Love My Pillow's Pillows and Pillow Products!

Just wanted to let you know we absolutely LOVE My Pillow and have recommended them to whoever will listen. I have also written a short review on my Facebook page called Debi Dew Reviews. Thanks for a wonderful product. We will be back soon. Debi E.

Yahoo! Finally, a pillow that works! Your pillows definitely live up to your advertisement. My dear sister purchased two pillows for my husband and I and I received them yesterday. We both had the best night's sleep ever. My husband always woke up with a headache every morning. This morning...no headache. He is amazed. I love how it conforms to my head and neck and it is great when sitting up in bed as well. I am so grateful to my sister for purchasing this for us and grateful to you for inventing an amazing pillow! Thank You so very much. Judith G.

I purchased my first MyPillow just about one year ago at Bed Bath and Beyond in the Christina Town Center in Delaware. It has been a good fit from day one. Recently, I spent two nights away over Thanksgiving weekend and three nights away over Christmas weekend. On all five mornings, I woke up and felt terrible with a stiff neck and a sore back. I urge your company to make ongoing promotions to national hotel and motel chains. Linda D.

I purchased MyPillow two weeks ago and have to say it's the best pillow I've ever owned! It seems like I was always searching for just the right one. Right now I have 9 pillows stowed away because they didn't work! Thank you for MyPillow. Now if we could only find a way to find the perfect purse!! Roberta T.

I was skeptical of your claims. But, my wife bought the pillows and they are one of the best pillows I have ever used. Just a great pillow - I would recommend it to anyone! Douglas B.

I just ordered two MyPillows because a friend of mine bought them and she liked them. I took a wee afternoon nap and tried out the firm and it was amazing. That same night when I went to bed, the next day I felt great. The pillow forms to the contour of a person's head. I will still give it more time to believe this but so far, I am sold. My concern is washing it for the first time. I will follow the instructions to be sure I take care of it. I have one for my hubby to try and have not done so yet. And, the ten-year guarantee is amazing. I have a bit of Fibro and some arthritis in my neck, but when I woke up today it felt great. Almost too good to be true. I will challenge it and see how long this lasts!!!!!! A good buy. Romona N.

I ordered a MyPillow 1 year ago. I was traveling home after Christmas, and left it in a hotel room, so I ordered the 2 for 1 deal this past Christmas. I love the pillow! It helps with my sore neck problem and gives me comfortable sleep. The next problem: my wife came down with a really sore neck and back...so I gave her my pillow to use (my son has the other) and she loves it so much - guess what?? I lost my MyPillow again! Today, I ordered another one for myself and took the half-off deal. I can't wait! But I will hide this one from the rest of the household! Great product! George C.

I must admit that I was a bit skeptical, but I decided to buy two pillows during the holidays. My husband suffers from Sleep Apnea and, unfortunately, cannot wear a mask. I must say that he rests better and wakes up much more rested. I must admit he is not snoring as much. I cannot say enough about this pillow. I would wake up stiff - sore - un-rested and overall not a happy camper. Since using this pillow, my aches and pains are gone. My stiff back/neck and shoulder are no longer sore. It incredible! I can't thank you enough! Maureen O.

I bought my first MyPillow at the NY State Fair and have been in love ever since! Went back to the same vendor and bought a bunch more, including my bolster pillow!! I travel a lot as an RN. I take one of my pillows with me so I can sleep!! Can't sleep without them!!! I will never buy another regular pillow again!! Keep up the great work! Judy S.

I received MyPillow yesterday. I felt as if I slept with angels having their wings around my head. I want to tell you I'm glad you never gave up on your dream. God Bless you and all the people who have helped in making this amazing pillow. I also e-mailed QVC to let them know of my wonderful experience. Blessings to all of you, Diane S.

I absolutely love MyPillow - best sleep ever. I just ordered one for my husband. Kathy O.

Just got MyPillow, and had the best night's sleep I have had in over 10 years. Woke up with no neck pain, wow!! Amazing! I have had chronic pain for years from two neck surgeries from car accidents. I was constantly waking up at night due to severe pain and not being able to get comfortable. I have a stack of standard, foam, and even therapeutic pillows, which are going in the trash now that I have MyPillow. Billy S.

After having tried it seems like every pillow in the marketplace, I finally decided to pony up the money for the MyPillow. Am I ever happy that I did. Now that I have been sleeping with the MyPillow for about 10 days, I am actually sleeping again. The pillow does exactly what Mike says the pillow will do: keeps my neck and back aligned the way God intended them to be when we sleep, thus allowing one to get the rest our bodies require in order to function optimally. If you are looking for a pillow that will actually allow you to sleep, look no further - you have found it. Thanks for such a wonderful product, Mike, it is really refreshing to find a product that really is as advertised. D.R.

I am an 85-year-old man. I want you to know that for the first time in my life, I found a pillow that lets me have a good night sleep. Bob B.

I suppose this is a testimonial, but a rather personal one, that I would like Mr. Lindell to receive: I was born and raised in Waconia, MN but now live in North Carolina. My sister lives in Chanhassen and is a wonderful caregiver for my 94-year-old mother at a Memory Care Center. My sister had purchased two MyPillows and LOVES them. She decided to get one for my mother, who suffered from a chronic sore behind her ear. She could not 'remember' to sleep on the other ear. After a short time, the sore was almost gone! Someone else in the center liked the pillow as well, as it 'disappeared' - even having her name on it! Luckily my sister was able to purchase another one! I just wanted you to know, Mike, the service your pillow did for my Mom, and I hope that many other elderly (especially bedridden) people have access to a more comfortable life with a MyPillow!!! THANK YOU! Mary P.

I am 41 years old and have had chronic headaches since the age of 20. I have been to every doctor, have had every scan, had braces, purchased eyeglasses (which I didn't need), went to a headache clinic and was referred to a clinic in Chicago for 3 months, which I never did attend. I have lived with headaches for all these years and every doctor just is confused as to why I get them and why none of these headache medications seem to work. Honestly, I have taken 12-15 Excedrin a day for the past 20 years...I go to bed with a headache and wake up with a headache. Last Monday, I purchased a MyPillow. I want to share my incredible news! Since purchasing MyPillow 7 days ago, I have woken up with my neck and shoulders feeling so much more inline and the strain on my neck is gone! So, I have only taken 6 Excedrin the entire week! I can't believe I went from 12-15 Excedrin a day to only 6 for the entire week! I just want to thank you for changing my life for the better! It is just truly amazing...no one really understands. I have told everyone I know about my success with your pillow and have already had 3 other people this week go out and purchase one! I am a very happy customer! Lisa P.

I love this pillow. Comfortable and supportive. But, it didn't last as long as described. This company offered the replacement warranty even though I had no receipt and was no longer in their database. Kudos to MyPillow for the best customer service. Would definitely recommend both the pillow and this company. Claireline K.

I had chronic neck issues for over 2 months. When I went to the doctor, he told me my pillow was causing my problems. I looked into many types of pillows and decided to try MyPillow for myself and son. The first night I slept on MyPillow, I woke up like a new woman. And every night since then has been the same. I immediately let my sister and best friend know about this pillow as they have neck issues as well. I will recommend this to ANYONE who listens. I could be a spokeswoman for the company. The ease of washing the pillow is an added bonus and a MyPillow body pillow is the next order I'll be making. To sum it up, THIS IS A MIRACLE PILLOW! My neck, my son and I thank you! Mary R.

I purchased these pillows as my husband had heard good things from the media. He had dislocated his shoulder and was looking for something that would afford a better night's sleep. Upon unrolling the packed pillows and fluffing them up in the dryer, I immediately thought I was not going to like this pillow at all. It seemed way too lofty (we choose the firm pack). The first night, we woke up to realize we had slept the entire night without 2 or 3 wake ups. We have now been using them for over 2 weeks and I cannot believe the sleep we have been getting. I was very skeptical of paying for a pillow on the internet but could not be more pleased. We actually included 2 travel pillows which I will be using in our motorhome. The media testimonials could not have been more on spot. My husband and I LOVE our new pillows and wish we had found them sooner. Barb W.

I usually do not write reviews, but I had to share my experience. I ordered the green and white tagged pillow. I used the green and could not believe how well I slept on it. My wife used the white and could not get to sleep on it. We switched pillows the next night and you can really tell the difference on how well the green tagged pillow is. Needless to say, I called customer service and the young lady I spoke with was really professional helping me out in every way to make me happy. The white tag will go back, another green one is on its way so we both will get the best sleep ever. Thank you Mark Itzko

I just wanted to tell you how much I enjoyed my purchase! I haven't slept this well in a long time! Thanks to my new MyPillow! Victoria W.

PROS: After receiving MyPillow for Christmas, nothing but GOOD things happened. Neck pain gone. Inflammation gone. Puts me in the best pillow I've ever been in. CONS: I don't know what to do with my arms! For so many years I've always had to put my arms under my old pillow for support! As a skeptic of commercials that sound too good to be true, I have to say it is TRUE as can be. Tommy B.

I have tried every pillow there is. As I aged, I started needing more support. My neck and back are in horrible shape. My doctor kept telling me that I needed one of those expensive beds. I couldn't afford that. I saw a special deal on the "MyPillows." This was a lot cheaper than the bed. According to the reviews I had read, everybody loved them. So, I thought, why not?? I bought the special twofor and I got the Standard/Queen size. I have had king size pillows and never liked them because they went flat in the middle, always!! So when I got the pillows I was surprised that they were FLAT!! I laughed to myself, thinking someone was playing a joke on me. The very first night, I was in love!! The pillow was soft and comfortable. I didn't have to fight with it to get the fill back into the middle. It stayed put like it was supposed to, throughout the whole pillow. The other one, I had bought for my husband. I had to actually convince him to try it. It took literally months to do that. But, after he tried his, he was in love too! It has been just a year now since I received these wonderful pillows. I will NEVER buy another brand of pillow ever!! I am planning on buying two more for either gifts for loved ones or just to keep (I haven't really decided yet). I don't wake up with neck pain anymore and hubby quit snoring!! If I had to rate these wonderful pillows, I would say that the scale doesn't go up that high!! If you have the chance to buy these pillows, I would say, without ANY reservation, BUY THEM!! You will love them. My husband and I both recommend them to everyone!! Thank you, "MyPillow" Colleen R.

I needed a new pillow because I was experiencing neck, arm and shoulder pain from sleeping on a pillow that did not provide the support I needed. I read many reviews about the "MyPillow" and so many of them were negative that I was reluctant to try one. I bought a memory foam pillow and it did not help with my pain. I finally decided to try "MyPillow" and bought just one for myself. It worked and my pains went away. My wife tried the pillow one night and did not want to give it back to me so I had to purchase one for her also. This truly is the most comfortable pillow I have ever had. My wife and I are very pleased with the results of MyPillow and highly recommend it! Sam F.

Absolutely amazing!! The best pillow I have ever owned. I didn't realize how much the quality of my sleep had declined until I began using MyPillow. What a difference it makes to sleep more soundly throughout the night and wake up more rested. I've lost count of how many different pillows I have gone through trying to find "the one". Ironically, the pillow which actually offers a money back guarantee is the keeper. Nyla S.

I am thrilled with MyPillow. I have tried numerous pillows over the years with no luck. I suffered from neck pain, allergies, and back pain. I have used MyPillow for almost 1 month and all of my symptoms are gone. I sleep through the night, I wake up refreshed and aligned. Excellent product. Thanks so much. Susan K.

We stayed with friends two months ago. She had a "MyPillow" to sleep on. Since then, I haven't slept a night without it! It has been a few years since I've been able to sleep with a pillow at all because of my neck and shoulders, as much as I tried, I couldn't. But "MyPillow" has changed the way I sleep. Thank you. Salie

I bought a MyPillow for my husband about 2 years ago, and almost immediately, I stole it away from him. I am a side sleeper and always woke up with numbness in my arms and hands. But not with MyPillow! About a month ago, my husband asked for his MyPillow back! I spent a week of sleepless nights trying to sleep on standard pillows. I ordered one for myself, and immediately regained my good sleep! Thanks! I will be buying MyPillows for my entire family! Sheila B.

At only 38 yrs old. I suffer from Fibromyalgia and Rheumatoid Arthritis. I have been experiencing a significant decline in my health due to pain and lack of restorative sleep. I've tried numerous pillows: memory foam, contour, chiropractic recommended, down, regular, bead filled, and bamboo, and yet I could never sleep for more than two hours. Every night was constant tossing and turning; pain in my neck, head, jaw, ear, low back; spasms; and even leg cramps. I purchased the queen medium/firm MyPillow last month. I'm so very happy to report a full five hours of deep sleep, reduction of pain, and I stay in the same sleep position! I'm bragging about how wonderful this MyPillow is to friends, family and anyone who will listen. I highly recommended it to anyone, but especially if you have Fibromyalgia. Restorative, healing, deep sleep is necessary for those who suffer from this debilitating condition. This pillow will help you greatly. Please don't give up and give this pillow a try! Valmarie

I had a head-on collision back in 2002. Ever since that date, I have had terrible neck pain. I have spent hundreds of dollars on pillows, trying to get a pillow that would relieve this pain. Sears best pillows and Sleep Number's pillows gave no positive results. I always woke several times a night with my neck killing me. Since I got my MyPillow pillow, I have been completely free of neck pain. I don't write reviews for products. This is a first. But this is truly something to brag about. Thank you My Pillow for a rest-filled night and a pain-free day. Your pillow is GREAT! Jeter G.

Just wanted to tell you about MyPillow, I'm an 83-year-old. I'm sleeping better since I purchased "your pillow." Now it's my pillow. It really works, like you said it does. Thank you. Donald H.

We bought our MyPillows a year and a half ago at an event in Iowa. Shall we say AMAZING!? If my head is not comfortable, then I cannot sleep. We were told that it could take a few days to get used to them. I slept great from the first night! My husband and I tend to be on the warmer side and our heads sweat. Not with MyPillow! I love the fact that we can wash and dry them. It keeps them new and fresh. We just want to say, THANK YOU! Roxanne V.

Have had MyPillows four months and happy with them - they held their shape and are comfortable. I was very nervous about washing and drying them but today, I just did it. They came out as good as new. I'm amazed at how easy it was to do and how beautiful they look. Ellen F.

I purchased a MyPillow and when it arrived here in the UK, I couldn't believe how good it was - it has literally changed my life! Thank you, My Pillow! Luke W.

MyPillow is a Godsend! For several years, my arms have gone to sleep during the night and the pain kept me awake. For Christmas, I ordered MyPillows for my husband and me and they were the BEST Christmas present ever! From the first night, I have slept like a baby.....no dead arms, no pain, just comfortable sleep. We had been using neck pillows and were able to throw them away, too. I tell everyone who will listen about our miracle sleep solution! Thank you so much! Suzanne F.

I've had MyPillow for several years and won't travel without it. My daughter acquired one just before I did. For Christmas 2015, she bought pillows for her four children and their spouses! I observed a customer at BB&B selecting a pillow and convinced her to select "My Pillow"! love that they're washable! A TRUE fan! Chris R.

I love My Pillow! I love that it is full and yet soft. I love that when I sleep on my side there is plenty of pillow there and it doesn't have to be folded under. I love it that when I sleep on my back the loft remains and yet it is still soft. I loved it so well that I recommended it to my daughter and she tried it and loved it also. Helen A.

My mom got us all (8) pillows for Christmas. I wanted to say that I have not slept so well or deeply in a long time. Your pillow is fantastic! If I ever move to Minnesota, I would love to work for your company and be able to contribute to the "Made in America" label. Thank you, sir! Edward A.

I am a 100% Disabled Veteran and I received a MyPillow in December from a friend. I have never slept better. I have had Degenerative Disc Disease for over 38 years, and this has been the best pillow ever. Thank you for the nights I actually get to sleep. I have tried every kind of pillow and this is my last one. I will never change because this pillow has given me rest I never knew I could get ever again. I think it would be a great thing if the Veterans Hospitals would carry these pillows in their hospitals and as a prescription pillow for people who could benefit from these wonderful pillows. I have since bought 5 more pillows for friends. Please consider making a donation to the Veterans whom can't rest. Thank you again for helping so many. Tracy J.

This pillow has been a blessing for me. I had a sore on my right ear for 2 years. My doctor did a biopsy and gave me some cream but it never healed. Guess what? It is gone, Praise the Lord! That sore hurt so badly that I couldn't sleep. I would have to raise my head up and down to try to get it in a position that my ear would not hurt. It has truly healed. I think everyone should get this pillow. It has so many things that it really helps with your body. Sincerely, Teresa W.

I was skeptical, as so many products that I buy as the result of widespread advertising end up being substandard. But Holy Cow, this is great stuff! Both my wife and I are now sleeping on MyPillows, and we have tried about everything in the past, including those branded dense foam pillows and really expensive down pillows. We've tried them all, and this is the best for getting a great night's sleep. Thanks! Ron P.

Within 4 days of using MyPillow, the pain I was experiencing in my right shoulder for months was gone. I was also waking up a few times a week with neck pain and stiffness, which is also gone. I have been sleeping several hours more each night and have been waking much more rested. I've been so happy with the pillow that I just ordered a mattress topper. Thank you! Mitchel H.

We have tried lots of pillows over the years and have been disappointed and settled on the fact it was just our standards being too high. While the price of "MyPillow" was a concern, we took a chance. What a great pillow! The best sleep we've ever had! We highly recommend it! When you consider how much you've spent over the years on substandard pillows and how much of your life is spent sleeping, this turns out to be a bargain! Mike

This is a serious pillow. I was skeptical of the claims made by the owner in the TV commercials. But my wife convinced me to give it a try. And I'm here to tell you that this pillow is worth the investment. You can not spend your money on anything that comes close to this pillow. You spend 8 hours a night resting your head, why not rest it on the best pillow ever made? Even if you won the lottery, you could not purchase a better pillow than a "MYPILLOW"! Steve M.

Love it!!! Bela

I am writing to let you know that I am extremely pleased with the purchase I made from you about a year ago. I purchased one of your pillows, and it is the best pillow I have ever owned. It is so comfortable and pops right back into shape in the morning. I will never buy another pillow from any other source. Thanks for helping me sleep better!!! Suzanne K.

I have two herniated disks in my neck and after purchasing numerous types of pillows with no relief, I finally purchased "MyPillow". I bought two and since then I have not had any pain in my neck in the morning. As soon as I put my head on the pillow, I can feel the support in my neck. MyPillow is different than any pillow you can purchase in the stores. As soon as you feel it, you can tell they are different inside. Really love this pillow and worth the money. Vicki

Thank you for inventing MyPillow! I have tried and tried other pillows and this is a Godsend! I have neck issues and used to wake up with headaches and now I do not. And, my neck pain is minimal and, quite often, gone. I tell everyone I can about your Pillow and am now getting them for the whole family! Debra L.

I am a Disabled Veteran and I have Post-Traumatic Stress Disorder (PTSD) (causing nightmares, etc.) among many other ailments. I saw the MyPillow ad on the Fox News Channel...I mentioned, in passing, to my mother that I'd like to get one. Well, she got me one for Christmas. Let me be honest as a disabled Veteran: watch the commercial or read about it...better yet, try it for yourself. It is hands-down the most comfortable pillow, and all the statements made by the manufacturer are absolutely true. Trust me. I had my doubts also, but the advertisements are true and right now, we want to support American-made products more than ever. Brian C.

Mike, I have ordered 16 pillows for myself and family. Recently, I bought a new bed, and they told me to buy a good mattress pad. After looking online, I looked on QVC and ordered yours. It is awesome. Even though I ordered a firm mattress with the head that adjusts, the mattress pad is GREAT. I show everyone - put it on the show!!!! Thanks for letting me sleep better - and I have had brain surgery too. Denise B.

For those people who are teed off (to be polite), they obviously didn't bother to sleep on a MyPillow. I now sleep better and longer and I love MyPillow. This will be the only pillow I will ever buy again. Sleep is a beautiful thing, and this product does EVERYTHING it says it does. Thanks to Mike and Sean Hannity for making the pillow and advertising the pillow. I have had mine now for 3 years. Roxanne J.

I was in the hospital with a serious illness. I was watching TV in my hospital bed when I saw the commercial for "My Pillow". My husband said he knew I was getting better when I asked him for his credit card and ordered the "My Pillow". That was 4 years ago. I'm now shopping for Christmas gifts for my son and daughter. Christina H.

After I ordered My Pillows for my husband and me, I was a little concerned because he was upset with the price. After the pillows arrived yesterday (unexpectedly soon), I fluffed them in the dryer as instructed and put them on the bed. You can't imagine how happy (and relieved) I was this morning when my husband said, "I love my new pillow! I slept better than I ever have." P.S. I love my new pillow too. Adam K.

I have tried 6-7 different pillows over the last two years - everything from water pillows to memory foam, and none of them worked for me. I finally gave in and ordered the MyPillow, and it is worth every penny! I used to toss and turn to find a comfortable position to sleep in. Now, I fall asleep quickly in one position. Thanks for making such a great product - I will tell my friends about it. Mitch T.

You will never get my pillow back. My sore neck is gone and I sleep like a log. Dave O.

I have to thank you for this gift to my husband and myself. I was so skeptical when they showed up. How is this going to make me sleep better? What is the old saying? "Never judge a book by its cover?" Our ages are 61 and 57. And, we are sleeping sounder than we have in years. Thank you for the gift. Linda W.

It has only been a week since my husband and I began sleeping on our new "My Pillows." We used to wake up often during the night or toss and turn, trying to get back to sleep. Now, we only wake up once a night and sometimes not at all. We also DREAM more, telling us that we are in REM sleep for a longer period of time. I don't know what the secret of the pillows is, but we are true believers. THANK YOU, AND HAPPY TENTH ANNIVERSARY! Keep up the good work. Shirley & Ken I.

I am so impressed by your story and by your enthusiasm on your commercials. And, all manufacturing being done here - great. More importantly, MyPillow is great. I've had mine for three or four years. It's just as good now as when I bought it. Thanks for doing the research. Thanks for showing what hard work and listening to your customers can do. Thanks for a great pillow. Lee S., DMD

I received my new pillow a few days ago and it's absolutely phenomenal! I've ordered a second pillow, and it will be arriving next week. I'm sleeping so much better and I wake up fully rested, instead of tossing and turning throughout the night. And, I'm breathing so much better at night. The pillow is so comfortable and provides me the exact support I need. I can't begin to tell you how much I appreciate the fact that these remarkable pillows are made here in the USA! Thank you Mr. Lindell and all the staff at "My Pillow." Bless you all for the excellent work that you do! Maureen C.

I will be keeping my MyPillow. I'm 68 and it's the best pillow I have ever purchased. Richard E.

Best mattress topper ever. Woke up only half the number of times and felt great and could walk straight after waking. And that's only after one night. I already have the pillow and sheets. It was the quality of these items that made me purchase the topper. Charlene Q.

Wanted one for a long time, got my chance on QVC! No regrets here. I just went through PT for my neck. It has been such a blessing. Now my son wants one and has to wait until I can afford to get another. Worth every penny, I just don't have it now. Thank you so much! Dorothy H.

I love our pillows!! I was very skeptical at first but these pillows are the best that we have ever had. We are finally getting a good nights sleep, and I would recommend MYPILLOW to anyone. I just threw 10 old pillows in the garbage. You have a wonderful product! Nancy G.

Usually, I don't believe the commercials on TV or, at least, think they are an exaggeration. But MyPillow is exactly what they claim it is. We couldn't be more pleased. I'm going to recommend this to everyone that will listen to me. Thank you for making such a fantastic product. By the way, the customer service person that I spoke to was amazing also. I felt as if the transaction was being conducted by an old friend. Mary S.

I've been waking up with neck pain for many months now. I would wake up tossing and turning every night, constantly adjusting my pillows. I've tried many different pillows to no avail. I was hesitant to try my pillow because I thought it was gimmicky and costly. I was becoming desperate so I started researching MyPillow. With the coupon codes, the price was affordable so I gave it a try. The first night I noticed my neck pain wasn't as bad as usual and I slept much better. It's been a week now and no more waking up with neck pain and I sleep through the night. My pillow is amazing and worth every penny! Frank Z.

I ordered my pillow after seeing the advertisement on TV. I needed some new pillows so I thought that I would try these. It took about a week for me to get used to them because they are different - and not in a bad way. I DO sleep better now and do definitely recommend them to everyone. To Mike and your entire employee staff, thank you for putting out such a great product. Steve in Forest City, NC

My husband and I have MyPillow and are happy, I'm reaching out to say how nice it is to see Mike on the commercials wearing his Cross. It's just really nice and I wanted to tell him, as I think of it every time I see him on Fox and Friends. Pat C.

I've been using MyPillow for 3 years now and it's still like new. Of course, I've washed it numerous times. I've slept better since day one, and I haven't woken up with a "kink in my neck" since I've been using it. When I lay down and give it a quick adjustment it's lights out before I know it. That wasn't the case before I started using MyPillow. I always take it with me camping, and on road trips. I wish hotels and motels would care enough about their guests to have one waiting for me. I can't thank you and your crew enough, Mike, for a good night sleep. David Y.

I had 6 different pillows on my bed and constantly kept waking up and changing them out and looking over at my husband with his neck in the most awkward position, knowing he was going to wake up with a sore neck. But since I got these a week ago BOGO, I have thrown out the 6 pillows so no one will ever have to use them. I will be purchasing more for our children and guest room. These pillows are by far the BEST pillows ever. I fall right asleep and stay asleep with no adjusting during the night and the hubby has no more neck pain. Thank you for making these in the USA!!! Denise

This pillow has made a 100% difference in my life. I have always struggled with insomnia, and once I started dealing with neck pain, it just got worse. My husband ordered this pillow for me after seeing an advertisement and watching me purchase and then reject pillow after pillow. Yes, it is expensive. But I have had mine for 4 years and it is as good as new. I wash it at least twice a year and I toss it in the dryer for a quick fluff every few months - and it is still like new. I travel for work and I ALWAYS take MyPillow with me-I just can't sleep without it!! I recently added the travel pillow to my collection, which fits perfectly in my suitcase. After watching me obsessively tote MyPillow around for the last few years, my parents finally decided to bite the bullet and spend the money for their own pillows. They are in their 60's with typical-for-age aches and pains and--like myself--experienced an immediate benefit. I know it is an expensive pillow--because ITS WORTH IT!! And you will not need another pillow for many, many years--truly a worthwhile investment in an American-made product. Thank you, MyPillow!! Mandi

The best!!!!!!! 'Wouldn't leave home without my travel pillow!! The mattress topper is great!!!! So proud that you are a Minnesota firm. Will continue to recommend any chance I get. Susie A.

Love my pillows - they are everything you said and better. Loretta B.

I would like to tell you a cute story about a satisfied customer. My 93-year-old dad is quite a spokesman for your company. He has had a MyPillow for about 3 years and absolutely loves it. In fact, when he spent a week in the hospital a couple years ago, he asked everyone that came in his room, including nurses, doctors and cleaning persons, if they had a MyPillow! They all thought it was pretty cute. I finally bought a MyPillow myself a year ago and am very happy with it so far. My husband tried mine and asked me to order one for him about a month ago and likes his too. We also just purchased 6 more pillows as Christmas gifts for our 3 grown children and their spouses. They were all ecstatic to receive a MyPillow as a gift, along with a handmade pillowcase. I thought you would enjoy hearing about my dad and how he has passed on his love of his MyPillow to so many people! Sincerely, Cindy E.

Wow! ... I am sooooo glad I took a chance on this. After seeing the TV ad and checking MyPillow out, I added it to my "Christmas List". My wife got one for me and I have now slept on it for 3 nights. Results: (1) I have never slept so well. (2) I am healthy, have no physical ailments or unusual conditions, but always had a choice between too much pillow and too little, it seemed ... often slept using an arm as an adjustment ... multiple turns between lying on my back and on both sides each night ... even more readjustments of the pillow shape and position each night -- all that changed 3 nights ago. (3) I love it. (4) My Pillow somehow conforms to your shape, and it is the oddest thing ... soothing support, but you don't really feel supported. You don't really "feel" anything. Just comfortable, as if by some sort of "natural" support. (5) My Pillow's Claims of Comfort are True. (6) My Pillow's Claim of Restful Sleep is True. (7) My Pillow's Claim of being "the best pillow you'll ever own" is True (at least for me). (8) My Pillow's Claim of not getting "warm" is True (the initial coolness just changes into a pleasant thermal equilibrium with your head). (9) My Pillow's Claim of staying great for the long haul --- well, I obviously can't certify that yet, but I'm planning on checking out that 10-year guarantee! Thanks, My Pillow. Alan P.

Purchased 1 for my Ex and 1 for me. It was the most restful pillow - even before bedtimes as I rest in the afternoon. Now I ease into sleep and even with only 4 or 5 hours of

sleep, am more rested as I wake. I had a 20-minute medical study done lying down. Mid-way, I said to the technician, "This is definitely not a MyPillow." The Tech agreed and said he loves his too. Can't wait to check with my Ex! Larry M.

I want to thank you for creating such a great pillow! I've had mine for two nights now and for the first time in years, I slept through the ENTIRE night. Not once did I wake up. This is not an exaggeration, I use to always wake up 1-3 times per night and this was EVERY night for years. I never knew it could have been something as simple as a pillow. I just never knew. I received a MYPILOW for a Christmas gift and I simply cannot believe it. It baffles me how because of this pillow I'm not waking up. Thank you so very much. After the 2nd FULL night of sleep, I can immediately tell a difference in my overall energy and oddly enough, my back doesn't hurt (it use to ache in the mornings). So thank you for changing my quality of life with such a simple product. I never knew it would make such a big difference. Andrew W.

We love our pillows. I bought 4 on base in Tucson. I'm a disabled Veteran, 100% service connected, and this pillow has made a big difference in comfort and sleep patterns. Thank You. John T.

I sleep on a hospital bed due to several medical issues: A-fib, curvature of spine, COPD. The mattress that came with the bed was, to say the least, horrid. After many attempts to make it better, I ordered the topper – I already had a MyPillow pillow. After only one night, my sleep was improved. The support was amazing. Don't go suffering. Thank you. MyPillow Topper. Cynthia L.

I had my doubts! I rarely believe the hype of marketing and advertising, but I kept wondering about these pillows. My husband and I have never been comfortable with our pillows, waking up with a stiff neck, or tossing and turning all night. So, about a month ago, I decided to give "My Pillow" a try. This has been the best month of sleep I have ever gotten, and if I could wake my husband up, he would agree with me. Cathy P.

After using MyPillow for a week, it makes me think of the way I hold my grand babies. Sure and experienced hands are needed to hold the little ones. Supporting the neck and head is important and I appreciate the way the pillow does that for me. I have many reasons to toss and turn during the night, but I find I'm doing less of it because of My Pillow. I have already given it away to a friend of mine who has neck trouble and I notice the difference not having it makes. I think these will make great gifts and expect to do some shopping on the website. Bob A.

I really like my pillow! Lisa C.

This is definitely the best pillow I ever had! Thank goodness my Mom loved your pillows so much she gave one to me too! Love and dog kisses, Sonya (the dog) Paula G.

Thanks for creating the best pillow I have ever owned. I have used feather pillows for the past 15 years because I could not find a foam pillow that had the correct firmness, and the odor of the foam actually made me ill. I also have severe night sweats and usually change T-shirts and blow dry my hair 5-7 times per night. I haven't even had MyPillows for a month yet, but I'm already sleeping for almost 3 hours at a time. For the past 10 years, I was lucky to sleep for more than 45 minutes at a time. I have awoken several times with the same shirt I had on at bedtime. I am truly excited to think that I might be able to continue to improve my sleeping habits. You can't possibly know what a blessing it is to actually get a restful night's sleep after a decade of disturbed and painful nightly experiences. I have told my chiropractor and just about everybody else I know who deals with disturbed sleeping habits. You have every right to be proud of your invention and you deserve the success you have because of MyPillow. I love it when good people become successful from creating a product that truly helps people with an important part of their overall health. Kudos and God Bless You and your staff. PS My neck was badly injured in a car wreck a year ago and added to my insomnia issues, it is a Godsend. Monte G.

Thanks! Bought new pillows for our summer place and just love them. Then I came home to spend a couple of months with the grandkids. I haven't had a decent night's sleep since. Can't wait for those new pillows. Pretty sure we will be ordering them for our winter getaway too when we get there. These pillows surely do live up their claims. Venita C.

I am 60 years old and all of a sudden have so many things wrong with me. I had seen My Pillow on TV many times and thought that they cost too much, so I just kept sleeping on the \$2 pillows from other stores. I had neck pain and headaches every morning. So I started saving a few \$ out of my Disability every month and finally was able to buy one - the BEST pillow ever - really it is. I just hope I can get another one soon as I am one of those who need one under my side since I can't lay on my spine. Love your pillows! Eva E.

I already have my pillows and they are wonderful!!!!!! I also have the sheets!!! Jo Ann

We had a fire in August and we had to throw out my husband's My Pillow. He did not sleep well. So I went and got him a new one and he sleeps better now. I just want to say he loves it and won't go anywhere with out it. Betty K.

I love my pillow. Thank you, Wayne

I used to sleep sitting up in a recliner, but now I'm able to sleep in bed where I belong. My wife said she doesn't feel any difference, so I remind her that she doesn't snore as much or as loud as she used to. In fact, she rarely snores anymore! I got the pillow that my profile recommends, but I could use a little bit more fill and firmness. . .maybe for my next pillow, I'll up the profile. So far the pillows do everything they claim that affects me, so these are keepers!! Oz

These are the very best pillows!!!! I have been sleeping with the MyPillow for many years. I purchased my first one at the Minnesota State Fair after seeing the demo and have been a happy sleeper ever since. I don't have to get up several times every night to readjust the pillow as it stays in place. I, therefore, get an awesome, restful sleep. I recently got my husband to trade in his mound of pillows, and now he sleeps with the MyPillow. My four fur babies also have their own MyPillow pet beds. Needless to say, my children have all received MyPillows as gifts. EXCELLENT, EXCELLENT PILLOWS!!! Mary Jane G.

This is the best pillow I have ever owned. It does what you tell it to do, and I have less neck problems already. John

Great for Heart Patients - another use for My Pillow. We have had My Pillows for a couple of years and, a few months ago, I purchased the travel pillows. Recently, my husband had triple bypass surgery and was given a pillow from the hospital to aid in his healing: to hug when he got up/down in his chair and bed, for any coughing issues, etc. The heart shaped pillow was made out of microfiber and was difficult to hold on to because of the material. I put the My Pillow travel pillow in a cotton pillow case and it was so much easier for my husband to hold on to. He carried it wherever he went both in and out of the house. Now that his healing process is almost over, he still takes it with him to bed and his chair to assist in sitting/rising. Cheryl W.

I bought MYPILOWs at the New York State Fair this year!!! I love them!! Most comfy sleep I've had in a LONG TIME!!! Thanks....most important....MADE IN THE USA!!!!!! Your Fan.....Fran C.

It's been over a year since I first bought my two pillows and I love them as much now as I did when I first purchased them. They hold their shape and always feel very comfortable. I bet these pillows will last over 100 years....Thank You, My Pillow for a great nights sleep. John

After hearing My Pillow advertised on the radio, I decided to purchase one for my wife. She has always had trouble finding just the right pillow, so I hoped this would be the one. Sure enough, after the first night she could not believe how comfortable it was. After about a month, I decided to give it a try and purchased my own. That was two weeks ago, and it is fantastic. We both sleep through the night with little interruption. She has the firm and I have the medium since I like a flatter pillow. We will never be without one. I have also recommended them to my friends. Rick G.

I love MY PILLOW!! I have had it almost 4 years and will not buy another unless I need another MY PILLOW!! LOL, my wife is not crazy about it and yet she has spent countless \$ and sleepless nights with regular pillows. I am just going to have to buy her one and make her use it for more than 5 mins. Thank you, MY PILLOW, Paul K.

I love My Pillow! I have 2 and they are the best pillows I've ever purchased! I had neck surgery and couldn't find a pillow that would support my neck, until now! I have less stiffness now. I will be buying more! Thank you! Patti

My wife had a problem with pillows and tried many different kinds. Our walk-in closet was full of pillows that just didn't work - it looked like a pillow store. Then on her Christmas list she put MyPillow. So I got it for her. That was three years ago. Now when I go into the walk-in closet I wonder if there is a MyShoe out there. Awesome! Best Buy. Andres H.

Someone gave me a standard my pillow for my birthday and I loved it so much that I threw my old pillows away. When I threw them away, I noticed that the stuffing was very thin. I decided to purchase the king size pillows and I have them all together on my bed. I can tell the difference in my sleep. Thank you! Lilly

For years, I have had a pinch in my neck when I reclined to watch TV, even to the point that when we stayed in hotels, I would choose the side of the bed that didn't make the pain when I faced the TV. My husband, of course, thought I was strange, to say the least. I ordered two of your pillows, one firm and one medium, and took the medium for myself first to see if it would help me. Believe me, I was shocked that when I laid my head on the pillow, the pinch was there for a few seconds, and then gradually disappeared, never, so far, to return. I have had this pillow for a few weeks and am very happy with it and would definitely recommend one for everyone just to avoid the problem I have. Plan to buy more, one for each of my kids and their children. Thank you! Regina B.

Love My Pillow. I fall asleep in minutes and don't remember going to sleep. I bought the pillow cases also, and they are nice. Annette F.

No need for us to return our My Pillows – we love them! My wife and I have finally found a pillow that works. Thanks! Mark R.

So far, I love MyPillow! So comfy. Looking forward to it staying just as puffy as it is now. Everyone deserves a MyPillow. Jen W.

Nope! I'm keeping them. My Pillow is my pillow! Seriously, it's the best pillow ever. Darren H.

Thank you....this pillow is fantastic, as the Donald would say. We are enjoying them even more than we hoped, and amazed at how they hold their shape during the night. We are moving less at night to reposition, and as a result, sleeping much better and longer. Keep up the great work! And, in Minnesota, Go Packers! Patrick H.

The best money I ever spent. Best good night sleep my husband and I have had in years. Thank you so much for producing these pillows. I could never express how happy we are. Drema M.

We love My Pillow...here in Honolulu, Perry and Price are using my call in on the air...YOUR PILLOW is GREAT!!!!!! My best buy in a long time. Thank You. Scotty A.

I ordered this pillow from QVC...I watched and listened to you, then said "Okay I will give it a shot." I was someone who had slept on feather/down pillows forever but didn't sleep but for 3 to 4 hours at night. When I received My Pillow, it took about 3 nights for me to get it right for me, but then I slept all night!!! I love this pillow. I can not thank you enough for making this pillow and product.....it's made such a difference. I have ordered more. My, you continue to change the way we all sleep, and I thank you again for making this in the USA!!!!!! Camron T.

Was hesitant at first, but, I have had problems sleeping due to my unusual work schedules. I have to honestly say, since I purchased this pillow, I sleep better than I have in years with no pain anywhere on rising. Thank you, My Pillow, for helping me get my sleep back. Dave T.

Why did I wait? I bought several different pillows because I was waking up with pins and needles in my arms. After using the pillow after only 3 days, the pins and needles stopped! I have now used the pillow for just over 1 month, and I am still FREE of pins and needles in my arms. Never one to put much faith in infomercials, I must say that I hesitated to buy your pillow. But now I can say Thank you, My Pillow! Mike D.

WE LOVE our pillows!!!! From the very first night! May God Bless you with HIS DIVINE GRACE. Peace to you and your family. Cathie B.

This pillow is really the best pillow ever! If you want it to be flat, it is flat. If you want it thick, it's thick. It will conform to any way you want it. I bought extras just in case I can't get them in the future. I've had mine for 2+ years and couldn't be happier. Leonard B.

I'm the type of person who only likes one pillow. So I was worried that I wouldn't like this one like I do my other pillow. Boy was I wrong! This pillow is heaven. I have neck and back problems and woke up every morning with pain. After using this pillow for a couple days I'm in less pain. Who knew a pillow would help me with my neck and back issues. My husband has been trying to take it from me because he's feeling the same way about it. I'm a rough sleeper too, so for me to flip, bend and move this pillow around all over the place, and it still goes right back to the normal position is AMAZING!!! I will be buying another pillow. I won't ever buy a cheap pillow again. I have to remember you get what you pay for!! Even wrote about this awesome pillow on my blog! Nicole F.

I just wanted to let your company know that you are doing a great job. I appreciate how you care for the public needs. Keep up the fantastic work and thank you, and have a fantastic year. Jason B.

Just got our 2 for 1 pillows yesterday. 15 minutes in the dryer per the instructions and I LOVE THIS PILLOW. It is everything as described and more. Looking forward to many years of a great night's sleep with MyPillow! Steve V.

I fall asleep faster and easier than ever before!! No more changing pillows every other night for the specific need that day. I suffer with severe neck & back pain. I cannot sleep on my back or stomach. I use one MyPillow between my knees and one for head and neck support. Thank you for the opportunity through the Saint Paul Saints! Denyse B.

My husband purchased MyPillow as a birthday present for me. I really wasn't happy with the idea of a pillow being my present. The first night using it, I fell in love. I haven't slept this good in a LONG time. As for a pillow as a gift, my husband gave me the gift of sleep! I ordered 2 more! Janet S.

I don't rant or rave about products. In this case, I want you to know that I want others to know that this is one pillow I hope I never lose again. My wife surprised me with your pillow on my birthday, Aug. 11th this year. So, I have been using it since. In the dark, I dropped what I thought was the other pillow used on the bed. I woke up yesterday with an ache in my neck, and my shoulders bothered me all day. I went to bed earlier than normal with MYPILLOW and fell asleep quickly and woke up once compared to being up several times the night before. Today I am awake and have no aches in same areas as yesterday. David S.

My husband and I just purchased My Pillows last night at the Minnesota State Fair. (The saleswoman was fantastic helping us get the right firmness, BTW!) We both got up this morning and the first thing we said to one another was "This is the best pillow I have ever slept on!" I am not one to normally rave about products, but wow, this pillow is perfect! Liz H.

Initially, I bought 2 pillows and loved them. Best sleeping ever and the easiest on my neck. Then I bought a topper for my king size bed. Now the bed is better than new and I sleep so well. Great sleep products that make my nights more comfortable. Thank you MyPillow. Bill N.

I love all My Pillows. I got a travel one that got me through a camp cot in Moldova, a sofa bed in Poland, and a long trip home to the good old US of A. Becky E.

I am embarrassed to tell you my story. I have had a pillow that I could not live without for over 45 years. It was the pillow my husband brought with him to college, and I think it probably wasn't even brand new then. After we were married, I confiscated it. I could punch it and form it any way I wanted to. For years, I searched for a new pillow that was similar, but could not find one. Evidently they do not make pillows like that anymore. It was made up of small pieces of foam rubber. I tried pillow after pillow with no success. So I just kept washing and drying it and repairing it over the years. Several times, I even had to re-case it. Finally, I decided to give My Pillow a try and, guess what? Though it's not made of foam rubber (probably for good reason), it is very similar in style and performance to my beloved pillow. Thank you for My New Pillow. I like it so much, and it is probably much better for me than the foam rubber. Thank you again. Terri M.

My Pillow had an offer - two for the price of one - so I bought two different sizes in case one was too big. Fantastic! For just a little bit of money, I'm sleeping better than ever. I would highly recommend my pillow to anyone. You will sleep better. GREAT! Tim S.

I recently purchased your pillow, "My Pillow." I have two bone diseases, have had several surgeries, neck and shoulder problems, as well as other issues. Up until now, I have been unable to find the right pillow - until now! For the first time in many years, I am able to get comfortable without having 5 or 6 pillows propping me up in some way or another. The best sleep I have ever had. My other half has asthma which makes sleeping a problem sometimes. With "his" new "My Pillow" he is sleeping much better! I have recommended your product to anyone who will listen. Sorry it took me so long to buy it! Thank you! Luwanna D.

All my pillows were 20+ years old. I ordered 2 different MyPillow queen types. I had problems sleeping for years. The first night with your pillows, I slept ALL THE WAY through the night. I honestly don't remember when that last happened. I woke refreshed. I watched your ads for way too long. I should have purchased them long ago. THANKS1 Blaine D.

My daughter was part of your world's largest pillow fight. I had gifted her your pillow a few years ago but didn't save one for myself...so she gave it to me. I care for an 89-year-old woman who suffers from Sleep Apnea and snores quite a bit...so I gifted this new pillow to her...surprise....she hasn't snored since using it! She loves it! Thank you for not allowing others to sequester your dreams! Susan M.

Hubby bought us matching King size My Pillows at a Home & Garden Show here in Houston, Texas over 4 years ago. He used his for a bit, but stopped as it was "Too Fluffy." He's gone thru 2 cheap pillows a year ever since, and I'm still using my My Pillow from day one. I take it on my vacations and never leave it. My puppy even enjoys laying his head on it. It's still "Poofy" as the day hubby bought it for me over 4 years ago. I LOVE LOVE it!!!! Esther C.

I just bought My Pillow yesterday. I slept on it one night, and I can definitely tell the difference. I slept soundly and woke up with no stiff neck. It conformed to the shape I wanted and didn't change. I was very skeptical at first, because of some of the reviews I read. I am so glad I decided to see for myself!! Jean A.

I just wanted to reach out to you guys about what a life savor My Pillow has been this past week. I had septoplasty surgery last week and have had to sleep in unusual positions to keep my head in a certain position. The only reason I have gotten any sleep is because of My Pillow! It has made my recovery just a little bit easier to endure! Kari S.

I LOVE the fact that I can wash my pillow! It comes out great every time I wash it. My pillows are now 5 years old. I had a problem with one of them, and was able to get a new one very easily. The customer service was quick and easy! I would never buy a different kind of pillow. Carol B.

I have only had the pillow for a short time, and I absolutely love it! Not only has it helped me sleep through the night without moving around in the middle of the night, it is extremely comfortable. I have paid twice as much for a pillow that is uncomfortable and does not work. Great product, Mr. Lindell. You should be proud of what you have accomplished by helping individuals sleep better and providing a quality product AND jobs here in the USA. Bryan M.

Just spoke with Jordan on the phone and he lived up to the good customer service you advertise. I ordered two pillows from him and am so looking forward to trying them out and finally getting a good night's sleep! I also took advantage of your 2 for 1 special. Joanna T.

I purchase a RED stuffed pillow a few weeks ago and just wanted to say how much I love it - it works great! Even though it was a bit more pricey than I am used to, I took a chance, and now, I feel that it was worth it and worth the extra money. I have slept better because of the stiffness of the pillow, thus reaching better, restful sleep. The pillow was so cool that I even took a friend to the store at Rosedale, MN to get one for her. She loves it because she can wash it and it does not lose its shape or stiffness, and that was worth the money to her. After a few days, I asked her what she still thought, and she said that she loved it. I will be purchasing a couple more for my kids for this Christmas season. Thanks for inventing something that works. Warren S.

I just want to tell you that I'm loving my new MyPillow! I was very skeptical; I have always had a very hard time finding a new pillow - I've had my old pillow so long that it's only about an inch thick and NOT pretty :/ Cynthia D.

I LOVE my two pillows from "My Pillow." I have some health issues and deal with chronic muscle and joint pain - especially in my neck and shoulders. I decided it was worth a try to see if your pillows could make a difference. I am delighted beyond measure and so thankful. I use both of them - one under my shoulders and the other for my head. My head pillow is propped up a bit higher with a third very firm pillow under my head pillow. The difference is amazing. I thank you for making such a fine product. Grateful me! Vicky H.

I have had my pillows for only a week, and my husband said I do not snore anymore, so I am so happy. I do not get up with a backache. I was blaming this on our two thousand dollar mattress, but with this pillow, no more backache or sinus trouble. THANK YOU VERY MUCH! William and Liliias B.

I just saw your video on winning the Guinness Book of World Records for the largest pillow fight ever ... way to go! I have purchased a couple of your pillows and find them to be just super and just ordered the travel pillow. Your products are outstanding as well as your company, and you sure seem to have fun selling them! Mary R.

I just purchased another set of your pillows. Everything you claim about your pillows is so true! I can't imagine sleeping without My Pillow. The reason why I purchased another set is because I tend to toss and turn a lot and wanted another pillow for "my toss and turn". The second reason I am writing is because of your photo on the box. How very wonderful it is to see a man proudly wear a Cross! When I saw your Cross necklace I was so moved, I purchased an extra MyPillow for my guest bedroom, because I just wanted to support you and your wonderful company. I thank you! Cheryl F.

I recently ordered "My Pillow" and was so thrilled to get a good nights sleep! I had cervical spine fusion and could never get comfortable. Thanks so much for My Pillow - it has changed my life!! Beth

My wife and I love our new MyPillow! We also wanted to tell you that our dog, Maggie Mae, also loves her new MyPillow! As soon as we are in the car, she goes right to sleep on her pillow. Thanks for making such an amazing product! Maggie M.

I love, love, love, this pillow after only 3 days of using it. I went away for the weekend and did not bring my pillow and did not sleep very well with the hotel pillow. I was happy to come home and have a restful night's sleep. Carole R.

Hurray! My replacement pillow arrived today. I was leery of the 10-year warranty, but your Customer Service agent was excellent and super friendly. My 8 or 9-year old MyPillow fell apart in the washer a few weeks ago, and it was replaced promptly after I sent in a photo of the damage and the labels. Thank you for a great pillow and a warranty that actually does what it says! Joyce G.

We are 200% satisfied!!! This is the first good sleep my husband has gotten since his stroke in December!! I'll recommend to everyone!! Thank you! Mary K.

Thanks, MyPillow, for great night's sleep. I received MyPillow pillows a few days ago, and have been very pleasantly surprised. This pillow is fantastic - I have slept like a bear since receiving it. I must say how important it is to follow the initial instruction about putting the pillow in the dryer on high for 5-10 minutes. I could not believe how much the pillow fluffed up. Just an awesome pillow and would recommend it to anyone. Alan

It works! I was skeptical. But, I took a chance, and I have only had one restless night's sleep since I purchased MyPillow this past spring. It is a great pillow. My allergies aren't bothering me. I always loved my nice down pillows. No longer. It is worth the investment in your health & sleep well being. Thank you "My Pillow". AND, it's made here! Weftylene

I love my pillow!!!!!!!!!!!!!!!!!!!!!! I am 81 years old. I felt last week and received a large knot on the back of my head. My pillow has been a life-saver. No discomfort when I am sleeping. Thank you very much. Sincerely, Retha R.

The commercials didn't lie. I love my pillow! I felt instant neck relief the morning after my first night sleeping with it. Nancie P.

My Pillow actually works! I love it! Pete

I ordered two pillows after reading a lengthy advertisement in our local paper (Ottawa Citizen). It was a well-written piece and I felt, with the promotion being offered, it would be worth a try. I ordered the pillows on-line and had them within 2 days - I was shocked how quickly they arrived! We were a little skeptical, but after using them for one night, we were sold on them! Very comfortable, and neither of us experienced any of the neck pain, etc that we have experienced in the past when using a pillow for the first time. Extremely well made. I am not sure they will help reduce the snoring, but we both certainly love the comfort the pillows provide. Well done!! Beverly

This is by far the best pillow I have ever had. I currently had neck surgery and have been having problems sleeping at night due to discomfort. I got a pillow from MyPillow, and instantly noticed a difference in my sleep. I am now sleeping throughout the night with very little neck soreness when I wake up in the morning. I support this pillow 100% and will be a customer for life. Thank You MyPillow! Barry V.

This is my first MyPillow. For months, I was skeptical of making the purchase because of the price. But, after the first night, I now know the value of this unique pillow, and will never use another pillow again. I have never slept through the night without waking up at least 3 - 5 times a night. With MyPillow, I slept a full 9 hours and, for the first time in a long time, remembered dreaming, so I know I hit the much need R.E.M. sleep. My new MyPillow is money well spent. I recommend this to everyone looking for a good night's sleep. George T.

I've got to say, I was very skeptical that this would do anything for my sore neck. But, after sleeping on it for 5 nights, my pain is gone. I had a "crick" in my neck for a few months now, and when I heard Sean Hannity praise MyPillow, I thought I would give it a try. I am very happy I did. It is a very comfortable pillow, and it is definitely worth the money to be rid of my pain. I would recommend MyPillow for everyone! Cheryl G.

I don't sleep well and was waking up 2-5 times a night. My husband heard about mypillow on Sean Hannity's radio show and told me to check out your website. I ordered 2 pillows. Before they arrived, I read some not-so-nice reviews, and was afraid I'd made a mistake by ordering. Oh, how those reviews were so wrong. The pillows didn't smell like chemicals like people had said, and the first night, I slept all night without waking up once. I still wake up occasionally, but in the morning I don't feel exhausted, and my neck doesn't hurt like it used to. We absolutely love these pillows, I tell everyone about them. It sounds crazy, but to me these pillows were a godsend. Nikki J.

Let me start by saying THANK YOU!!! I purchased my MyPillow a week ago. The first night, I slept ok, but I woke up feeling a difference in my neck. I was in a car accident about 16 years ago. The whole left side, from neck to hip, is out of alignment. The second night, I slept ok again, and that morning, my neck popped for the first time since before the accident. I am glad to say that last night, I slept SIX STRAIGHT HOURS!!! I woke up feeling amazing!! I have never slept that good!! Again, thank you MY PILLOW!! And most importantly, it is MADE IN THE USA!!!!!!!! Deb

I LOVE MY PILLOW!!!!!! I have been using the same pillow since I was a baby because I was allergic to most everything that pillows were made from. I have spent hundreds of dollars on pillows that were either too big, too small, too hard, etc. MY PILLOW is like heaven!!!! IT IS PERFECT!!!! I was up at 2 or 3 am watching TV because I couldn't sleep because I was uncomfortable, but not any more!!!! I LOVE YOU!!! THANK YOU FOR GIVING ME SLEEP AGAIN!! Terese

I have had my pillow for about two weeks and I enjoy every nights rest. Thank you. Douglas S.

I bought a blue king size pillow for my husband and a green king size pillow for myself. We LOVE them! We have been looking for the right pillow for over a year, and are so thankful we found MyPillow! They are absolutely worth the money! My husband and I both get a more restful nights sleep! Angela

Wow - thank you for the quick reply. What great customer service! Thank you so much. I love my pillow products, and got my parents hooked too. I had gotten my mom some mypillows for her birthday, but my dad kept swiping them from her. So, I had to get my mom some new ones so that my dad can have her old mypillows. Thank you for all you and your company do. We love your products. Heather G.

I would just like to thank My Pillow for the first good nights sleep in years. No sore neck and no sore ears. I have spent hundreds and hundreds on pillows that have come nowhere as close to the comfort My Pillow has given me. Thank you, My Pillow, for the first restful sleep in years. I only have the two for about a week, and I already can feel the results of a good night's sleep. Ed C.

Our pillows make us look forward to going to sleep. They are wonderful. Wish I could get all my family one but, it is so personalized as to fit etc. that I can't. It really lives up to the commercial. James W.

Like most products you see on TV, I was skeptical when I first saw the MySleep presentation on QVC. I have sleep apnea, and finding a pillow that is comfortable while wearing the mask is extremely difficult. When I got my king pillow, I slept like a baby the first night. I was able to fall asleep on my back, something I have not been able to do since beginning my CPAP therapy. Now, I find there is no position I can't sleep in, and feel well rested when I awake. I would highly recommend this pillow to my family and friends. Craig M.

My brother and sister-in-law got me a matched pair of My Pillows for my birthday. What a wonderful gift! I love going to sleep on these pillows. I even took one with me on my most recent trip, to enable me to sleep well. Judy S.

WOW! What a difference - it is so nice that someone finally invented a pillow that works! I am sleeping longer and deeper than when I used the other million pillows I have tried. Thanks for a great product- telling all my friends! Rick

I was initially mad at my boyfriend for spending so much on a pillow, but now we both can't live without them! When we're staying at hotels, he has to take his mypillow. I've had my mypillow for about two years now, and it's still perfect! Like Mike Lindell says, all you have to do is fluff and mold it to how you want it for the night. It helps align my neck while I am sleeping. I've tried the Sobakawa pillow, memory foam pillows, feather pillows, and just plain old stuffing two pillows in one case, and they don't even compare to the Mypillow. I have no idea how he did it, but this man is a genius. I swear by this pillow. We've gotten more pillows just because we love it so much. I'm getting one for my dad for father's day! Christine H.

Snoring, restless sleeping, flopping around trying to find that right position... All of it gone the first night I slept on "My Pillow." I have ordered two more King Size pillows (1 - White and 1 - Green), and two travel pillows with carrying covers. Thank you "My Pillow" for giving me my nights back! Jeff H.

I want to thank you. Since I have purchased your pillows, I have gotten the best sleep ever. So far, I have purchased a total of eight of your My Pillows, and I just want to thank you for inventing the pillow. I work at the Pentagon, and I can't wait until you guys come back. Qula N.

I pondered purchasing a "My Pillow" for quite some time. Keep seeing the TV ad and looked up online info, but real leery about spending that much for a pillow. Found out a friend had one, and her positive comments led me to order mine. Got the buy one, get one free special, so got my husband one also. My friend explained the importance of the dryer time before the first use. That fluffed the pillow nicely, and also took care of the slight odor. We love them. My favorite is the way it fills in around my neck (neck surgery, plate and 4 screws). My husband's favorite is the way it fluffs back up like new each night. Because of the buy one/get one, I also ordered the pillow cases and travel cases. I am very happy with all. My only regret is that I waited so long to order them. Very satisfied. If I could rate them, it would be five stars. Thank you 'My Pillow'. Bonnie

I just received my 2-for-one pillows. I was SO EXCITED to get them. Then, it happened. They were delivered. I didn't realize I had ordered a different fill level until I got them. I thought, oh oh, I am going to have to return them. But, decided to at least try them. I couldn't believe it could get any better than my first ones I ordered. But, it did. These are even better than my first ones. No odor to them, just a PERFECT night's sleep. Thanks, My Pillow - I have now found my perfect night's sleep in a pillow....THANKS MY PILLOW....Carol

I love my MyPillow. I have bought many now as gifts, and recommend them to family and friends. I've now had MyPillow for 2 years, after exchanging it with no problems. I do find that it goes flat after awhile. However, if I wash it frequently (monthly), it becomes basically brand new, and I have support again. Regardless, I haven't bought a pillow since buying the MyPillow - which has saved me a lot of money. Paula

I love MyPillow. I have a King Premium, Green. Just the right firmness. Curtis J.

I ordered 2 pillows for my husband and me. We love them, and have great nights' sleeping ever since we switched to MyPillow. Thanks!! Kara M.

Two years ago, I had cervical disk fusion and purchased many pillows seeking a comfortable nights' sleep. They all fell flat, and were tossed after about two months. I was desperate for a solid night of sound sleep. I purchased two my pillows and now wake each morning feeling rested. They keep their shape, and plump up with a few punches or shakes. Put them in the dryer for a couple of minutes, and they are the most glorious, puffy, comfortable pillows one can imagine. I love my pillows, and when I visit my daughter in another state, I take one of my pillows with me. My pillow is my miracle to sound sleep. Thank you for creating the perfect sleep aid. Sincerely,Patricia P.

I absolutely love My Pillow!!! Most comfortable pillow I have ever slept on in my life! Wish I had ordered sooner. I have Fibromyalgia and my neck and upper shoulders are always hurting. Since using My Pillow, I wake up less during the night. I recommend these pillows to everyone!!!! Karen W.

The shopping channel brought this pillow to us Canucks a few months ago, and we are very grateful!!! We now have pillows that will prolong our LIVES..I personally have spent over 76 years of my life just trying to get a good pillow. I sleep one pillow between my knees and two under my head because I'm bed ridden. I now have three of these life saving pillows. HOW DO YOU EXPLAIN TO OTHER PEOPLE HOW PILLOWS CAN SAVE YOUR LIFE!!!! Well now, from 2 to 4 hours of sleep, I'm actually sleeping 8 to 10 hours just because, in the slumped sleep, you just cuddle back down and snooze away. WOW - WAY TO..... go!!! Thank you Mr. PILLOW Kathlay M.

I absolutely LOVE THIS! I would wake up during the night, tossing and turning and snoring. I now sleep like a baby, my wife says I barely snore, and I even have dreams - and remember them in the morning!! I can't believe a pillow makes this much difference, but it surely does!! Nelson L.

I recently purchased two My Pillows. At first, I thought that they are so different that I didn't know if I would like them. Then, I slept on one. First night, not sure. Then that was it. I love them. They don't mash down like other pillows. You don't have to pick up the pillow and shake it before going to sleep. They are lightweight. Thanks. Fran

I purchased the my pillows - frankly, because I could return them without hassles. I forget about it! These are the best pillows EVER!! My husband barely got 4-6 hrs a night (thank you, ARMY!). In less than a month with the stomach sleeper pillow he is sleeping NO LESS than 8 hrs!!! His snoring has gotten better too. His Sleep Apnea is also better!!! I think my son will get one for Christmas!! So glad I purchased them using a promo code and got them BOGO!!! Oh, and they wash and dry as advertised - yeah!! No more hubby's stinky pillow!!! Dorbie

I purchased my pillow after months and months of not getting a good night's sleep. I spoke to a few of my friends and mentioned my purchase to them. They told me that they all knew people who bought the pillows and hated them. They suggested that, when the pillows are delivered, that I refuse them and let them go back. I did think about doing that, but yesterday, when the mail person delivered the pillows, I just took them and decided to give them a try. I must say, last night was the best, most comfortable night's sleep I have had in a long time. It's the best pillow I ever had - and believe me, I have bought many pillows. Anne L.

I love my pillows! Have two and am getting much better sleep than ever before! Thanks for my pillow! Scott W.

I love my pillow. I ordered one a few years ago when I had an account with QVC. It is cool and, if you get hot, just flip pillow on other side....ahhh cool once again. Plus, I have washed it in hot water and dried in dryer at beautiful (and sanitary) each and every time you wash. I previously had bought the Tony Little pillow from HSN. I bought one for my mum and myself. My mum loved it because she was always cold and this pillow got hot. Boy of boy did it get hot. I hated the heat on my neck and the fact that I could not wash the pillow when my mum had nose bleeds. How unsanitary. Plus it was NOT made in the United States. After only one year, the beads broke up and the \$120 pillows were not compact anymore. I let HSN warranty expire and did not return. I just recently saved the money to buy the mattress topper as I have a q-proc memory foam mattress from QVC. I love its comfort, but it is too hot for me in summertime. I am hoping your topper does the trick. Thanks much Wendy

I woke up 2 weeks ago in agony from sudden neck pain. For 7 days, waking up every morning was pure hell. I finally caved after days of badgering from my fiance to try a new pillow. I went to the store and got My Pillow - I just bought it because I was so overwhelmed by all the choices I had, I hate memory foam and sleeping on a pillow with a giant roll on it didn't look appealing. The next morning after using My Pillow for one night, I felt 80% better, which blew my mind. I used it a second night - same thing. So, being the doubter that I am, I slept the next night on my old pillow (water pillow) and woke up in pure agony the next morning. Well, that was all it took to make me a believer. Turns out I have a large herniated disk in my neck, but with My Pillow, I have no pain in the morning, and through the day, if it starts bothering me, I go lay down on my pillow. Never in a million years did I think switching pillows would help me, but I am so glad I chose this one. Doing physical therapy now and with this pillow supporting my neck the proper way at night, I'm hoping for some major improvement!!! I can't believe there could ever be a negative review for this pillow - for me it has been a life saver!!!! Deidra M.

I bought one of your pillows. I love, love, love it. Now, I see you can buy one, get one free. I should have waited, but I needed it, then just had cancer, so I splurged on it. Thanks so much. Donna H.

My husband and I LOVE My Pillow!!!! We are so glad that we ordered them. We will never buy another kind of pillow! Thank You! Thank You! Thank You! We are telling our family and friends. Jennifer

I ordered two pillows from the special in the Minneapolis Star and Tribune newspaper. I have a stiff neck, and have been unable to find the "right" pillow until I slept on the "My Pillow". Incredible!!! I finally found the right one. I can't recommend it highly enough! Thank you!!!! Tom G.

I got one of your mattress toppers about 2 weeks ago, We already have your pillows. I told my husband it was like sleeping on a big cloud - we love our bed now. Thank you. J.K.

I had seen the infomercials, and did not buy. I got this for Christmas from the family over a year ago. This was the best gift....ever!!! I tried every pillow, and this kicks (a**). If you have not tried it, then you have not slept well. Just get one and you will understand. :) Dan C.

I recently purchased these pillows. I really love them. They are the only pillows I will ever have. I was allergic to all others. I bought them at the shopping channel. I am hoping to buy another pair as soon as it airs on the shopping channel again. I live in Canada, and do not want to pay the dollar difference right now. Rita J.

I have had 2 cervical spine surgeries in 2012 and 2013. I have purchased all kinds of pillows, from memory foam to cervical support pillows. I purchased a queen size MyPillow about one month ago, and it is the best investment I have made in regards to good support and a better nights sleep. It has helped me enormously. My quality of sleep has improved, and I do not wake up needing to readjust my pillow all the time. This pillow is the best thing I have found, and well worth the cost. Thanks to the maker of my pillow! John W.

Best nights' sleep ever. I sleep in a hospital bed, and this is wonderful plus. Thank you. Cynthia L.

I love your pillows. They don't get flat, wash beautifully, and come out of the dryer like new. I wish I had an extra \$300, but I don't, so I guess I will have to live without a Cal King Bed Topper.

I love "My Pillow". I own 2 regular pillows and 3 neck pillows. When I travel, I even bring a neck pillow with me. I sleep with the neck pillow every night. I used to get neck pain, but not anymore - at least not sleeping. And the best part is I can wash them and they do come out just as good as when I first purchased them. I have spent a lot of money on pillows, and none come close to yours. I am thinking of purchasing them for my adult children as well. Thank You so much. Loretta E.

It is my pleasure to recommend such a wonderful product. My experience has been second to none in the fact that I never experience a sore neck anymore, and sleep the entire night! You have a great product. Terry B.

I found your main office in Chanhassen, Minnesota several weeks back to exchange the pillow I bought for my hubby. Your wonderful sales lady had me try out the new one on the bed in the office, covered with a My Pillow Topper. OMG! I couldn't believe how that felt. I had to have one! I just got it yesterday and we put it right on our bed. WOW, is all I can say. Total comfort. So comfortable, in fact, I had trouble leaving it this morning. What a way to make an old bed feel simply superb! Thanks, My Pillow! Lester H.

Just wanted to let you know that I got my pillows a week ago, and am enjoying them a lot! Very nice product, and I am one that really appreciates good marketing and excellent service. I experienced all of this with you! I wish you the best of luck and success in helping folks to sleep better! Doug N.

This pillow is truly THE BEST! I tell all who complain of a sore neck or back about "my pillow". I am so convinced that it will help that I have bought 4 different people their own pillow. So far, everyone is now a happy "my Pillow" believer! Ellen L.

Your product is outstanding! I bought 3 pillows a few years ago, so I already know how good your pillows are! I just had to write you about the utility pillows I just received. I am

so thrilled with them, I'd like to order more!!! The covers are so well made and look wonderful. My brother and sister-in-law saw them and were so impressed that they also want to order them. Are they still available at the price I purchased them? Keep up the good work - I know I will never be disappointed with anything I order from you! Thanks for great products! Annette L.

I just want to make sure the MyPillow family knows how much I am forever happy with my pillow. I am not one to spend a lot of money on myself, but loved the 60 day money back guarantee - that is what sold me to try the pillow. This past fall, I brought my 3 year-old pillow and a new one I got for someone else's gift to compare them. Of course, they couldn't tell which one was mine. I encouraged them to lay their heads on the pillow. I even let a few people take the new pillow home to test out. 19 premium pillows were purchased from my co-workers and family/friends. One co-worker said that one night she woke up with sore neck and realized she had the wrong pillow and not the MyPillow. Even my skeptical ex-mother-in-law finally gave in and admitted she was liking the pillow more and more. Thanks again! Also love the fact its USA made! Diane B.

I love my My Pillow and have slept on it only two nights. It is wonderful! Faye S.

Best pillow I've ever had. I bought one a year ago, then bought two more today - one for the camper, and one more for my bed. When you wash it, its like new again. Awesome product! Mike O.

I have struggled to find the perfect pillow for years. I use a CPAP and have always slept on my back. I have been through so many different pillows that just never cut it. My wife sleeps on her side most of the time and used a super soft pillow and was skeptical when I bought one for me and one for her. I can not believe the improvement in our sleep just after 3 nights of using our pillows. We love your pillows and will recommend them to everyone we know. Jim N.

My husband bought one of these pillows, and I steal it every chance I get! I always buy the Walmart pillows, but after not sleeping well at all for several nights in a row, I am here to buy my own! It doesn't lose shape or go flat after so long like many other pillows. I am excited to buy my own so when hubby is home, I don't have to give his back!! haha Lynelle

I purchased two pillows in August of 2014. I just washed them for the first time. They came out like brand new. Now I will be putting them in the dryer at least every two to three months just to keep them fluffy. I will wash them at least every five to six months to keep them fresh. My husband and I love them. They are the best pillows I have bought. They are so comfortable and we sleep much better now. Thank you Barbara P.

Thank you so much for My Pillow. I am getting a more restful sleep with it. I even gave my wife My Pillow for Christmas and she is sleeping better and quieter. She used to toss and turn with her goose down pillow and she still felt tired. Now with her My Pillow, she is sleeping without the tossing and turning. Thank you for My Pillow. Stephen A.

Mike, I would love to meet you some day, so I can shake your hand. I started purchasing your products a couple years back, and I have never been so comfortable in all my life. 2 beds in my house have the mattress covers. Numerous pillows, travel pillows, and my wife favorite, the big body pillow. My parents have even ordered. Take care, God Bless. Andy T.

I just want you all to know that my neck and shoulders are free from pain for the first time in years since I ordered your pillows. Also, I'm very grateful that we can buy a fine American product here in the U.S. and contribute to our own economy. Caryl A.

There is no other pillow. Anywhere. I've tried countless pillows, spent so much money, and when I received my My Pillow, I knew I'd finally found what I'd been looking for. I've bought them as gifts for all my family members and they always thanked me for giving them the best pillow they'd ever had. I love my My Pillow so much, I take it with me whenever I'm going to sleep away from home. If you're wondering if you should order, DO IT! I promise you will not regret it. Suzanne

When I divorced in 2013, my ex requested that he get his My Pillow (my good pillow). We always took it when we traveled. You know it is a special pillow when it is requested in a divorce settlement. Now I need to replace his pillow. We both loved our My Pillow. Judy S.

I purchased the travel pillow and travel case to use on my La-Z-boy chair, and for the car when traveling. I couldn't be happier with the size and quality of this little pillow! I took advantage of the 2 for 1 price and gave the other one to my wife, who loves it as much as I do. I see many different possibilities for these useful little pillows. And they are washable and have a custom-sized pillow case. How cool is that? I'm getting two more! Walter M.

I have been using MY Pillow for a month and I absolutely love it. It is the best pillow I have ever used. My wife and I have a house full of pillows, none even come close to the comfort of MY Pillow. I wish you and your company continued growth and profitability, keep up the good work and never compromise your product. There is not a better product on the market than My Pillow. Richard M.

We are recent owners of MyPillows. I was a non-believer until I received My Pillow. My husband and I very quickly fell in love with our pillows. When my husband fell a few days after receiving our pillows, he insisted his pillow accompany him on his extended stay at his rehab center MyPillow has made it so much more comfortable to be in bed for long extended periods of time. Thanks to for producing such a wonderful pillow. Gisele

I've only had the pillow for 4 nights but I really do love it. It is honestly the most comfortable pillow I've ever had - and trust me, I've had plenty! Marianne

I've never slept better! I didn't believe it when I first heard about MyPillow on the Squawk Box during my morning workout. But, I decided to give it a try and am very surprised at the difference. Not sure how you do it, but I'm glad you're making these. F. O.

My husband and I love our pillows. They are the most comfortable ones I have ever owned. I wasn't sure at first because I am a person who loved a neck pillow. These have changed my mind. I would recommend these pillows to anyone. They are wonderful. Get a restful sleep with my new pillow. Elane M.

My husband has wanted a My Pillow for a long time, so when I saw the two-for ad, I put in an order. We both love the pillows, and I plan on giving them for Christmas. P.S. I gave my old flat pillow to the dog. Christine D.

My husband and I decided to "gift" each other with our wonderful MyPillows as Christmas gifts. I did a lot of research prior to purchasing. This has been the very best gift ever! We love our pillows so much and have even brought them out to show to our friends when they have come over to encourage them to order their own. We feel our sleep quality is greatly improved and we rest so much better. A big plus is that it does stay cool as well so no pillow flipping to the cool side needed. We think everyone should have these. The tip of putting in a dryer with a damp cloth to freshen and puff it is a great one. We are already saying when we travel our will definitely go with us. Violet L.

Awesome pillow! I carry My Pillow (pun intended) everywhere I go on overnight visits! Absolutely the best, most comfortable pillow I have ever owned! I have had neck surgery and this pillow was the only one I could use comfortably prior to surgery and works great now, too. My pillow has more frequent flyer miles than most people since it has made several trips between Alaska and Eastern Europe, not to mention the countries in Europe it's seen! I love it and have purchased several for my home and as gifts. I have a medium and so does my husband even though he is a big guy. He likes his nearly as much as I like mine, though he isn't as super picky as I am when it comes to pillows. We both love the washability as we both suffer from allergies. Would recommend to everyone! Gayle J.

Thank you... I received "My Pillow" a week ago, but used it for the first time last night because my neck and shoulders have been so sore for a week, that I could not sleep the past 3 nights. I sustained a severe head injury last February, with not only brain trauma, but neck and spinal involvement as well. I am under the care of a neurologist, and have had Physical Therapy for gait issues, balance unsteadiness, neck pain, right arm pain, with numbness in my right hand and fingers. I had to stop PT for 2 weeks due to needing new orders to continue therapy. Since I have been unable to do PT my pain, in the neck, shoulders, arm, and numbness in hand and fingers has been severe. Using my new pillow last night, for the first time, allowed me to sleep, and I awoke with less neck/shoulder pain. The pillow is amazing!!! I am a nurse, 46 years of working everyday, only to have to retire in July due to my injuries. I would have never guessed a pillow could be such a therapeutic tool. Thank you so much for this miracle. Claudia C.

I've been using MY PILLOW since August, 2012. After many years and MANY different pillow purchases, I've found THE ONLY ONE that hasn't given me a night's neck pain. Having sadly wasted money on high priced premium pillows even, I've gladly given all away for My Pillow. It absolutely is THE BEST PILLOW I've ever slept with. This pillow lives up to all Mike advertises. It truly IS "The Most Comfortable Pillow You'll Ever Own!" Thank you! Frankie O.

My husband and I just ordered two king size pillows. Our first night was amazing! My husband for the first time in years went to sleep@ 8:30 pm an was asleep all night with this amazing pillow ! So worth the money! Lynna S.

Love the pillow. This pillow is great. When you get it, let rest and it will puff up. I had knee surgery 4 times in 2013, so it was hard for me to turn in bed. This pillow is firm, but soft. I can't wait for summer to see how it keeps you cool. Don't hesitate - buy it, and enjoy sleeping again. I take it to hotels too. Margaret M.

For years, I hated bedtime. I could not get a good night's sleep. I tried everything. I bought many different sets of pillows, bought a new pillow top mattress, and took over the counter as well as prescribed sleeping medication. Nothing helped. When I saw the advertisements for My Pillow, I knew that if I bought one, I would be wasting my money! But, I ended up buying one for my husband, ONLY because I could WASH and DRY it in the machines! Was I surprised when I used My Pillow and slept all night, and have been sleeping all night since! Thank You! Great Product! Peggy R.

Imus finally talked me into getting mypillow, and it is awesome. I can't believe how much better it is than my old one (if you can call it a pillow). It's Amazing. Thanks. and Thanks to I-MAN. Jeffrey

THANK YOU for these GREAT PILLOWS. I am 84 years old, and was living with a painful neck - especially after a nights sleep, when I would get up in the morning with neck pain. But, after 3 nights of sleeping with this WONDERFUL PAIN remover, my pain went away both night and day. I am now getting a BETTER nights rest. THANK YOU, THANK YOU, Vernon F.

I must have viewed the infomercial a dozen times, read hundreds of testimonials, and listened to several users. Finally, I went out and purchased a "My Pillow", end of story. There is nothing, I mean nothing, comparable to the comfort and sleep from this single item. Good Work to the developers. Rich L.

My pillow is by far the most comfortable pillow I have EVER used. I am a Disabled Veteran, and it even seems to have helped the nightmares that I usually have. THANK YOU! I Danny G.

I received My Pillow yesterday. Last night, I don't remember waking up and tossing and turning!! I have to admit, I thought it was a "gimmick" when I first saw this product. I was wrong. It absolutely is so comfortable, I feel like a little kid with a new toy! My neck is usually very stiff when I wake up, and it takes a while to stretch it out. This morning, I can't believe that my neck has ZERO stiffness. We currently have.... 6 pillows all over the bed. (okay maybe 8 :). It actually looks like a pillow store, there are so many. Ridiculous how we keep buying to find comfort. It is now found...Today is the GET RID OF ALL THOSE PILLOWS day, and I am so excited. Thank you My Pillow, for selling an exceptional product - it is as comfortable as you promise. Now, I am going to order a pillow top! Terri B.

Why did you have to make them so comfortable???? Our 5 year old kept coming into our bed at night. Finally I said, "Here, take one of my pillows". After a couple of nights, I went to tuck him in to find he took my other pillow as well. "These are MY pillows daddy," and gave me his old pillows (complete with angry birds pillow case, of course). Our 9 year old was also having trouble sleeping. I got him the travel sized MyPillow, and it seems to help him relax and get comfortable so he can sleep. I don't hear the pitter patter of feet at 3AM any more. I guess I should replace all the pillows in the house. Thanks for making such a great product that everyone in the family NEEDS. Chris A.

I'm a physical therapist and have been practicing for over 20 years. I have used/tested many pillows over the years for my family, friends and patients. I always try to research and use the best pillow when it comes to assisting with my patients whom are suffering with neck pain and headaches. For years, I have used and recommend a water based pillow. However, over time they would deform the bed mattress and, due to their weight, were not practical to take on trips. Recently, I purchased MyPillows for both my self and wife. I can honestly say it is an extremely comfortable pillow that has exceeded my expectations. I have discarded my water pillows and replaced them with a much easier to manage MyPillows. I am now recommending the MyPillow for all my patients, family and friends. Dr. Bill J.

After having suffered through back pain and not getting a good night's sleep, and looking at several high end mattresses, and not being really satisfied with any of them, I decided to research bed toppers. I decided on a MyPillow topper. I can't say enough good things about it. I am so pleased with it, and am resting better than I have in a long time! I would recommend this topper to anyone looking for a good nights sleep!! Thank you so much! Frances B.

I just received my 2 My Pillows yesterday. I must tell you, this pillow is amazing. I slept like a baby, with out moving all over the place. Your commercials are true - the pillow works and thank you. Ronnie C.

I used to use 1-3 pillows for sleeping on my side, back or stomach. Now, I only use my pillow. I love it. It doesn't get hot, and it adjusts very well. I fractured my upper arm and tore muscle off the back side, and this pillow adjusted just perfectly. I would recommend it. I own 26 pillows of all kind and, when company comes, I only need this one. Thanks for a great product. Margaret M.

I read just all the reviews. Half said great, and the other half said no good. So, I took the plunge and bought My Pillow. I washed them and put the pillows into the dryer with a couple of tennis balls. I couldn't wait to try them out. I was over joyed with the pillow, I had one of my best nights sleep in one heck of a long time. They are expensive, but I'm considering ordering 2 more and putting them away for when I wear these out. I don't understand why some people don't like them, one buyer said you won't be disappointed, and I for one, am not. No I'm not getting any kick back for this review and I'm a real person. Dona M.

As Goldilocks would say: Not too hard, not too soft, but just right. And we are no longer grouchy bears in the morning. These pillows are wonderful, easy to clean and so very comfortable. Thanks Mike for a great product! Lisa & Paul

I have to say that MyPillow really has made a difference in the quality of my sleep every night. I don't toss and turn as much as I used to because of neck and shoulder discomfort during the night, so I'm more rested in the morning. I have scoliosis (curvature of the spine) and my chiropractor said I should sleep on my back, which I now do most of the night. My Pillow (with a silk charmeuse pillow case) also stays just cool enough through my night/morning hot flashes as well. Thanks so much for a great, comfy pillow! Phyllis

I have had Fibromyalgia for 20+ years and cannot sleep without my three My Pillows. Love them! LeAnne

We just started using our king size pillows. I didn't sleep well until now. We really like them and would recommend them to anyone. Thank you. Richard M.

Buying My Pillow was the best decision I've made to help my chronic neck and shoulder pain. I have since ordered 2 more, so that I can use one to travel with since hotel pillows are always too hard, too thick, too flat, etc.! I have fibromyalgia, and I also have arthritis in my neck and shoulder. Once the muscles get too tight in my neck and shoulders, I will also develop migraines when the nerves get pinched. If I don't have a pillow that fits perfectly under my neck, then the suffering becomes even more severe. My Pillow is the only pillow to be adjustable enough so that I don't wake up in the middle of the night with blinding pain and nausea. I'm so very grateful to the inventor, and I also like the fact I can support an American company. Thanks! Anna

Seriously, this is the best pillow I have ever slept on in 53 years. I have had a few decent pillows in the past, but compared to My Pillow, there is no comparison. It is a different feel at first, but after just a couple days with this amazing pillow, I was sold. We purchased two of the king premiums and I could not be more pleased. Lorraine L.

I have been using MyPillow for over two years and it is the best pillow I have ever owned. I will use MyPillow for the rest of my life! Rob S.

How can I ever thank you. My husband told me that if I bought one more pillow, he would throw me and the pillows out. This was only in jest, but really, all the discs in my neck are herniated, and I couldn't sleep for years. One night, I was watching QVC, and I bought My Pillow. Well, I thank you for my sleep, and my husband loves his too. I thank you so much. God bless you for making a truly great pillow and having MyPillows made in the USA. Renee W.

I LOVE MYPILLOW!!!!!! I take My Pillow with me to hotels and all my travels! Love it!!! I have asthma and sleep apnea that it has helped! Thank You TC C.

I just celebrated my 77th birthday. I have driven my wife crazy most of our married life because of my heavy snoring. My Pillow solved the problem! Not only that, it far exceeds all expectations - as you have advertised. So nice to find an honest product, American made. I also love washing it and finding it returned to it's normal shape. Please - never go out of business, and, if you do - send me a spare first! Thank you, Thank you, and God Bless you and America! Ed P.

I purchased 3 of your king pillows from QVC not too long ago. I had many problems with pain in my shoulder/neck due to injuries sustained during combat in "Desert Storm". I am 1 of 3 men and 1 sister in my family that have served in the US Army during the war. My brother will be receiving this pillow from me as a birthday present. His injuries were so severe that they gave him 2 years to live. He is still with us, and will hopefully love how this pillow will give him the peaceful sleep that I have experienced. Pain Free! Thanks, Mark

I am 71 years old, and have had problems sleeping for about 54 years. I have worked 12 to 18 hours, 6-7days per week because I could not sleep. I tried all over-the-counter sleep aids, but nothing worked. I saw your ad on the Don Imus show, and bought 2 MyPillows. For the first 3 nights, I did not think they would work, but now I am now sleeping 6-7 hours each night, instead of 3 hours a night. I thank you, My Pillow. James D.

I have not had a good night sleep since returning from Iraq for years because of injuries. I received your pillow as a gift for my birthday two months ago. It is the best gift I have ever received thank so much. I look forward buying a couple more. Respectfully, Mark B.

I am absolutely stunned about how much I like this pillow! I used to always toss and turn, re-fluff the pillow, and get neck aches because of no support. I LOVE My Pillow! What an amazing, comfortable night's sleep!!! Thank you so much!!! Stephenie

I just had major brain surgery—a baseball sized tumor was removed from on my brain. The hospital pillows weren't very comfortable. I couldn't wait to get home to my "MyPillow" and my Sleep Comfort bed. Your pillows are amazing! Paula R.

I'm an airline pilot and constantly stay in hotels all over the country. Every now and then, I find a pillow that is just perfect for the night. Unfortunately, I can't take it with me the next day, so I've been constantly trying to replicate/find "that perfect pillow" for home. I've had mixed success over the years. Sometimes, I get a pillow that's pretty good for a while, and then it wears out or goes flat, or has to constantly be fluffed back up by putting it in the dryer with tennis balls. Between all the advertising that I couldn't miss and the guarantee, I decided to give "My Pillow" a try. I bought the "white" premium pillow. I've only had 3 night's sleep on it so far but I have to say at this point I am extremely impressed. I don't like firm pillows or pillows that are too large. But, at the same time, I like a pillow that supports my neck. Hard to find that combination... but this pillow sure has done the trick so far! If it holds up as good as advertised (which I expect it will), I think I have finally found my "perfect pillow". I'll also say that it was a huge help to be able to call your 800 number and have someone knowledgeable help me pick out the best pillow for my particular situation. Thanks for a great product! Between my Sleep Number Bed and my new "My Pillow" pillow, I have found the perfect recipe for a great night's sleep!

I bought two "My Pillows" a few months ago. These are by far the best pillows I have ever bought. They keep their shape and firmness. Best night's sleep ever. Thank you My Pillow for creating a wonderful and useful product. Well worth the few bucks. John M.

I've spent hundreds of dollars on different kinds of pillows, hoping they would help me sleep better, and not hurt in the morning. MY PILLOW is the only one that has helped me! I do still get migraines, and I also have Chronic Myofascial Pain Syndrome (which basically means I have chronic "muscle" pain in my neck and shoulders). The pillow hasn't "taken my pain away" like some customers have said, but it makes SUCH a huge difference in my ability to sleep comfortably in spite of my chronic pain. It's hard to explain, but when I lay down on my MyPillow, I feel like it almost "cradles" my head, neck, and shoulders... almost like it "absorbs" the heaviness that gravity puts on my body. I LOVE my MyPillow, and my husband finally tried it, and wants his own! Sarah

My husband and I have now had our MyPillows for almost a month, and we're totally in love with them! At first, I was skeptical, but I followed the directions and put them in the dryer for 15 minutes each. Then came the first night...which was a bit tricky, I'll admit. I had slept with a down pillow for years, then changed to a pillow that was sort of like a cement block a couple of years ago. With that in mind, I figured the Firm MyPillow would be the best. That first night I did struggle a bit to get comfy, but I also slept pretty well. Then came the second night. I guess I had mastered MyPillow by then...it does take a small bit of practice...because I really don't think I've ever been so comfortable in my life! And every night since then has been wonderful. My husband agrees. We are both sleeping incredibly well. And one of the things I really like is the light weight of the pillows. They are light as a feather, but firm and soft, and sort of mold themselves around us. I had heard that they are noisy and smelly...not true! Our pillows are quiet, have no scent

whatsoever, and I just plain loved it so glad that I got them. Jill D.

I ordered a Premium King size My Pillow to try. I have been using an expensive double system pillow from Sleep Number. I decided to give the My Pillow a try, and within the first night, I knew I had a winner! My husband tried my My Pillow, and asked me to order one for him...he also loves the good night's sleep he gets now. I have just placed an order for a My Pillow body pillow and case to assist me in sleeping when I have surgery soon – I can't wait to get it and start using it too! BTW did I mention...no more snoring from either of us anymore! We get a great night's sleep. Thank you for these wonderful pillows. We are thinking about ordering the temperature controlled mattress topper next! THANKS again for our great nights of sleep!! Ann R.

I thought my wife was making a mistake by buying MyPillows. The best part is they are great pillows – My Pillow's ad is 100% true. I love my pillow. Neil B.

Since using Mypillow and the bed topper, (which I was skeptical about), my knee pains, and restless nights are getting better. I feel as if I am getting more quality sleep. I don't feel as tired when I get up as I did before. Jay W.

I have ordered numerous My Pillows. I absolutely love them. I have given them to both my parents, my wife, and both my children. Actually, my son stole mine and took it to college. So, I ordered another. I have never slept this good in my entire life. Thank you Mike. God Bless. Andy T.

I bought 2 pillows around 8 months ago and have enjoyed them so much that I am thinking about buying 2 more soon. I do not snore so much any more. Thank you so much, and glad they are made in the U.S.A. Charlotte B.

I had trouble finding a pillow. They quickly went flat, etc. Then, I came across My Pillow. It has been over a year since I purchased my first My Pillow, and I love it. I have washed it and it is as good as the day I bought it. My daughter-in-law was complaining about her pillow. It goes flat, doesn't hold its shape, and she has trouble going to sleep at night. I mentioned My Pillow and how much I love it. She didn't want to buy another pillow and have the same problem. Since Christmas is coming, I decided to buy a set for her and my son. Mine is the last pillows I will ever buy. I have nothing that comes close to it. It is the best pillow on the market, and I am sure they will love them as much as I do. Thanks for that email over a year ago that made going to sleep so much better. I will never buy any other pillow for myself, it is the best pillow you can ever buy. Thanks for making a pillow that is the same every night, keeps its shape, and gives me the best nights sleep I have ever had. No more neck and shoulder pain, no flat pillow in the morning and not having to sleep with 2 pillows trying to get comfortable. MY PILLOW is the best!!! Garnet B.

I had suffered with severe neck and back injuries for years, and found sleeping next to impossible. On the very first night of using My Pillow, I slept more peacefully. By night seven, I was able to sleep very well. I will not travel without it! I have encouraged everybody I know to buy one. Seriously, this pillow is the best, BEST item I have ever purchased, and I wish a mattress could be invented. Regardless of its price, I would buy it. I cannot find one that works for me. Thank you so much for all the work and research that went in to inventing the My Pillow. Please feel free to share my information, and I am more than happy to help advertise this. Dr. Christine O.

I bought the king comforter, 3 green label, and 3 white label pillows. I have put these to use for the last 3 nights. I slept in the first day until 10:00 am. I never sleep in - like clock work, I have gotten up at 6-6:15 for the last 20-plus years. I was embarrassed to have slept in, but I have never felt so refreshed. The next night, I went to bed earlier (at 10:30), and I woke up at 6:30 bright eyed and ready, and got more work done than I have in a while, since my motivation was back. The third night, I went to bed at 10:00 and got up at 6:00 - my clock has returned. I used to get up 2-3 times to go to the bathroom before. Now, I sleep through the night. I can't tell you how thankful I am that I found your products, and wish everyone could get the great night's sleep I have had the last three nights. Thanks for caring enough to put the thought in making a superior product. Wish you all the best, you deserve it. Darrell L.

I love my pillow! I love love love it. Best pillow I ever owned, and I'm 60 years old. Thanks so much for inventing, MY PILLOW! :) Thomas A.

I recently purchased two MyPillows from a shopping channel after seeing Mr. Lindell's demonstration. I could not have made a better purchase!!! After sleeping on it the first night, I awoke feeling refreshed and with NO neck problems. I also slept through the night, not waking once. I'm 64, female, and now I can sleep with no tossing or turning. Thank you, Mr. Lindell, for your perseverance, determination, AND keeping your manufacturing in AMERICA! GOD BLESS YOU!!!! Kyle N.

Ever since I was a little girl, I've suffered from horrible night terrors. I've gone outside, taken showers, took apart a fan, and also went as far as to punch my boyfriend, all while I was asleep! I got really scared, and knew I had to do something about the terrors the night that I woke up after I had gotten my newborn son out of his crib! That really scared me, because I could have hurt him while having that night terror. Thankfully, I woke up as soon as I picked him up! I knew my night terrors were brought on by stress, and came to the realization that my bed and pillow were not helping me to get relaxed enough to sleep peacefully. Since I wouldn't sleep well, that would put more stress on me, and I'd end up having a night terror. So, I bought a new sleep number bed and 4 My Pillows! I got one for my whole family, because I wanted them to have a good nights sleep too! I'm proud to say that my night terrors have gone from 4 a week, to now only one or two a month!! It is AMAZING how much better I sleep! I've told so many people about the pillows. I can't say enough about how much I love them! They stay cool as you sleep, they don't break down (mine are now 3 years old and just as fluffy as they were the day I got them), plus they don't absorb that weird smell guys get when they sleep! They are definitely worth every cent and more!! Best purchase I've ever made!! Seriously!!! Erica P.

73 yr old female. Recent purchase. First night used was terrific. The very best pillow I've ever owned. Plan to get my pillow for each of my children and grans. Thank you for designing such a wonderful useful and successful pillow. Linda W.

I just love My Pillow. I love that it doesn't flatten, that I can wash it. and that I sleep so much better and never wake with stiff or sore neck. Thanks, Michael. Theresa B.

I brag about your product all the time. I bought MyPillow 2 1/2 years ago. It is as nice as the day I first received it, and washes and dries easily. I have neck, arm, and shoulder problems and MyPillow has alleviated so many sleep issues. I bought Mypillows for everyone in my family. Before finding MyPillow, I was going through pillows about every 3-6 months. I am a believer. Jean

I love this pillow. The biggest problem I have is that my cats FIGHT over it and push me off..... I have never had a pillow my cats would lie on every day. I love it, and I got my family and friends hooked as well! Thanks! Michelle

Maybe it's because the pillow is so new and fresh. It makes me feel spoiled and cozy, like I am back to being a kid and sleeping over at my grandmother's house and being tucked in. I have to use the more advanced CPAP machine because of my very severe sleep apnea. Before having this pillow, I would wake up with the sheets pulled off the corner of the bed and with severe pain in the back of my head and neck, as though I've been waloped there with something hard like a rock or a shovel. But with this MyPillow the pain is 99.9999% gone-right from day 1! Love it! Donna H.

I am 61, and I love My Pillow so much - I will never be without it at night. It is the softest support I have ever found, and I sleep so well at night with it. It is the perfect pillow. You have got to try it...you will see for yourself. Cindy

I can't believe I got to be over 70 before finding just the right pillow. I first ordered the My Pillow your website recommended, but that did not work for me, as I have always liked to sleep with my head elevated, even using two pillows sometimes. So, I just passed that one onto my hubby, and ordered the next pillow up. That has turned out to be my perfect pillow. I especially love how I can throw the pillows in the washer and dryer and put back on the bed that same day. I highly recommend the My Pillow for many reasons. Phyllis

This is the very best pillow that I've ever bought. After an endless search and buying countless pillows ... I saw your Infomercial on TV. I was very skeptical but, due to the 60 Day Money back Guarantee, I bought 2 of them anyway... That was the best purchase I've ever made. Both my husband and I are so happy and satisfied with them. No more neck pain or arm pain (since I am a side-sleeper) ... no more tossing and turning. Just restful and deep sleep. The pillow adjusts to your head and neck in whatever way you sleep. I have owned it for about 2 years and have washed it countless times, and find it always comes out like brand new!!! I can only recommend this Pillow to everyone out there – it is truly the very best Pillow on the market. Thank you so much for giving me back my restful sleep. Sincerely, Susanne

Thank you so much for creating a wonderful product that is reasonably priced. I too suffered for years with neck stiffness and pain. I have been using My Pillow for several years and take it with me when traveling because it is the only pillow that allows me to sleep in comfort. I can't wait to try the mattress topper! Sincerely, Nancy S.

I have had My Pillow for about 6 months now. Over the past months, I feel that I am able to sleep better, but last night really proved to me how much this pillow has helped. I am at the end of a bout with bronchitis and really need my sleep. I normally have 2 pillows on my bed and put the other pillow on the floor before I go to sleep. Last night, after putting the pillow down, I woke up after 20 minutes, couldn't get back to sleep for about 45 minutes and kept waking up every 1-2 hours. In the morning, I realized I had put My Pillow on the floor by accident. I am a true believer now!! Carole C.

This is THE first product I've purchased that was true to all the hype! No matter what position I sleep, nor how I move my head, the pillow adjusts to the perfect position. It supports my neck and allows my muscles to relax. I'm actually getting restful and much-needed sleep. I recommend this pillow to everyone. I've had down pillows, fiber-filled...all the others...NOTHING is like this pillow! And you can throw it into the washer and dryer?!?! I will NEVER sleep on any other pillow again! I'm going to order enough to pillow all my rooms. I can't wait to see the difference after my mattress toppers arrive! This is the real deal folks! Nancy

I cannot say enough good things about your pillows! They have changed my life! I recently bought two new ones as my wife needed a new one and I gave her my older one (which is just like new). Thank you for such a great product! Michael W.

We have had our queen size MyPillows for several years and I've given them for gifts. I am presently recovering from knee replacement surgery and the travel pillows are wonderful to put under and between my knees while I am sleeping. They hold their shape, are cool, and relax my knees to provide relief from the pain. Jan B.

For the past 12 years, I have had to spend the vast majority of every day in bed due to disability and pain. Using a pillow 20 hours a day, I have flattened big bulky ones into something resembling a thick towel in very little time. When my sister bought me a My Pillow, and she told me about the guarantee of it fluffing back up like new, I thought, "Yeah, right. It's nice now but let's see what it turns into in a week." It's been several months now and has really held up. I'm not sure how it's done, but I'm impressed. I would love if you guys made a U shaped neck pillow one day. Rob G.

I have FIBRO and because of my pain, I have to sleep on my stomach. My Pillow allows me to do this because it stays where I put it and it does not crush and cause pain to the front of my body. I find I like the king size pillows because I can prop my arms up on the side and they stay in place. I bought My Pillows for my whole family and recommend them any time I get the chance. I am sleeping more comfortably and I am in LOVE with My Pillow(s)! Anne M.

I purchased 3 travel pillows. One for me, one for my husband, and one for my mom. They are amazing! I have used my travel pillow each night for the past two years for my main pillow at home. Now we are making the big decision to order full-sized pillows! I am sure we will love them, we have been so impressed with the travel size. I had surgery 6 years ago and my spine was fused from C5 to C7. I am still very active, but sleeping was just very different. The pillow truly helped me sleep. I couldn't believe it! In sincerity, this is the best, most useful, purchase we have made. Additionally, I absolutely love that I can wash them. They come out of the dryer all fluffed up and wonderful! Thank you for an amazing product! Joanne L.

I have been sleeping on MyPillow since Christmas, and I love this pillow. Again, I love this thing: My Pillow! WOW! Thanks guys. Eric D.

My new My Pillow travel pillow just saved me from 4 nights of bad sleep at a hotel that had crappy, worn out foam pillows! Thank You for creating the travel size!!:) Becky M.

I'm a 9 year cancer survivor...had to sleep with my head raised at a 45 degree angle till I got a "my pillow" last July... I had throat cancer and could not sleep laying flat...now because of "my pillow", I can not only lay flat, but sleep through the night..."my pillow" is truly "my miracle"...thank you so much... Mike C.

I have MS, and I was sleeping on 3-5 pillows plus using a CPAP machine. I am down to only My Pillow. I gave the other ones to my son and, no snoring from him. My late husband died in 1990. I still believe he would be with me today if the doctors would have tested him for sleep apnea. I wish he would have had a chance to use your pillow. I love it. Sherry S.

I have my pillow for over a year and have never had a bad nights sleep. I have washed it several times and it is still as good as when first bought it. I will be taking advantage of your 50% offer and will give "My Pillow" to a friend as a Christmas present. Mary L.

Your Topper and Pillows are like Magnets. I always could sleep anywhere, only because I was tired. But, your Topper and pillows are like Magnets and want me to want to lay on them to get a sleep unlike I've ever gotten before in my life. A nap on them makes me feel like I've been on them for hours. Unbelievable. Tom A.

Bought two MyPillow's at our county fair. They are the best pillows I have ever had. They don't get hot while sleeping. Last year, I bought 2 for my son for Christmas - he loves them. This year, I will get 2 for my daughter and another for my husband. Throw them in the washer and dryer and they are just like new again. Debra

My Pillow is the best pillow I have ever bought in my 64 years. Every year, I have had to buy pillows because they either bunch up or go flat. Now, I only use one pillow to sleep - not 2 or 3. If I ever need another pillow, it will be a My Pillow. Thank you Mr. Lindell. Mike O.

After spending a fortune over the years trying to find pillows that wouldn't go flat after a few nights, I thought I had nothing to lose trying My Pillow. I admit I was skeptical! I was wrong!!! I ordered one for myself since I'm the picky one about my pillow. I have had it for at least 3 or 4 years. I've washed and dried it, and it comes out as good as new. It doesn't get as warm as other pillows, and I can shape it to fit the way I like to sleep. I take it everywhere I travel. I've taken it on vacations, cruises, and it has been to Japan 3 times to visit my daughter! I just never travel without it. If you are tired of wasting money buying new pillows, try My Pillow. You have nothing to lose. It's guaranteed or you get your money back. I finally convinced my husband to try it, and now I'm ordering him one. He loved it!!! Give My Pillow a try. You will be happy you did. Renee

When I was single, I bought one My Pillow. Now that I'm married, my husband steals my pillow when he can. I love My Pillow. I have neck pain and when I lay down on the pillow I feel so much better. My head stays in the same place all night long. I have had my pillow for 3 yrs, and it is still in good shape. Daria

We have six My Pillows! What I like the best is that it is so easily washable...and the manufacturers actually want you to wash it! So nice to have a nice, clean pillow that is warranted for 10 years! No one can beat that! Marcia S.

"I have tried many pillows over the years, and have never found a great pillow until now. I purchased my first my pillow on QVC a year ago. I love my pillow, as it does what they say! You can mold the pillow to get the support where needed. So, I after taking my pillow back and forth to our weekend cabin, I decided to get another one. I've washed it and it comes out of the dryer like brand new! I have neck issues and my pillow cradles it where I need it. I definitely recommend My Pillow to be your pillow. Now I want my pillow for my husband and 2 daughters!! Jenny P.

I've had My Pillow for several years now and wish I had one before! I have never slept so well as I do with My Pillow and wouldn't be without one!! Thank you for true comfort! God Bless!! Kathy S.

I love MY PILLOW! I have 2 King pillows, one for my home and one for my suitcase for travel. I really like that I don't get a HOT HEAD while I sleep. I also have the little travel pillow and love it for my flights and also as my "cuddle" when I sleep. In addition, I also popped for the mattress topper, and that REALLY does keep the bed cooler. This was proven recently when my husband put the topper under our mattress cover and suddenly, I was warmer at night. Fixed that setup and now, it so much better! Deborah B.

I have purchased about 10 of your pillows. The first couple were the blue level, and a green level. I then ordered 4 of the standard pillows, and gave a couple away as gifts. I just bought the queen classic corded last week - 4 of them. I LOVE them as much as the blue level one I use. IF you ever make any more of the queen classic corded, I will buy another 4 for sure. Great pillows, as these My Pillows, are the best I have ever had.

I discovered My Pillow several years ago and ordered one. Because chronic pain from Fibromyalgia causes me to change positions often during the night, a side sleeping pillow or a back sleeping pillow would only be comfortable part of the time. With My Pillow, I can move from my back to my side to my stomach, and My Pillow adjusts automatically. It's completely washable too. Sandy R.

Bought the pillow 10 months ago, and I would never go back. It is truly a great buy. When I first got mine, my husband said I was wasting my money, but now he is trying to claim my pillow every night. I also have Sleep Apnea and it works great with my mast and comfort. I LOVE IT. Kylie

I love my pillow topper, so happy to go to bed at night!! Shelley B.

I was skeptical about this pillow, as I've tried soo many others. Memory foam, cooling pillow, fluffy ones, flat ones, expensive ones, but nothing has compared to My Pillow. I ordered my pillow for my hubby and me last week and it just arrived yesterday and I couldn't wait to sleep with it. I have had headaches, neck pain, numbness. I slept with My Pillow last night and woke up refreshed. I have to say, Mike Lindell was right. It is the best sleep in a loooonnnnnngggg time!! Soo glad I purchased this and am purchasing for my three kids next!! Mike made My Pillow affordable and I really appreciate that!! Julie R.

Wow! We got the Topper in August for our bed. For several years, I switched to sleeping in our recliner.....I could not tolerate the bed. With MyTopper, the muscles are able to actually relax because it gives just the right support. My husband also doesn't snore like he used to. I have returned to sleeping in bed now EVERY night since the topper arrived. That, coupled with the My Pillow and a couple of little go anywhere pillows, makes it hard to get up in the morning. But without fail, we have felt very rested. Thank-you so very much! Rhoda W.

I bought MyPillow about a year ago and would not want another!!!! I have slept better and my neck has felt so much better then before!!!! I love MyPillow and am very grateful that you make such a product. Thank you and God Bless!!!! Dale J.

When our waterbed bit the dust, we wound up with a conventional mattress with a pillow top. Sadly, it started to deteriorate after 5 years. Waking up with a backache became life as usual. I was limited to the amount of time I could be in bed before the pain set in and sleep became impossible. A couple of weeks ago my husband surprised me with a My Pillow Mattress Topper. This is absolutely a God send. I can sleep on my back, (which I haven't been able to do for years), or either side without pain or the need for a pillow between my knees. My body is supported and it's easy to relax and sink into the comfort of the topper. Life is great. I LOVE my new mattress topper!!! Thank you My Pillow for this great product. Ginger R.

After using just about every pillow out there, I finally gave in and tried My Pillow. It almost completely stopped my snoring, and I sleep hours at a time without waking up. I think I had some sleep apnea issues too, but I don't have anymore symptoms for that. Will get a sleep test to be sure, but I haven't slept better in years. I do use nasal strips and mouthguard, which now stays in place without using extra pillows. Ann C.

I LOVE MyPillows. I started with one, then got one to travel with, and soon had my husband talked in to getting his own pillow. Just last week I ordered one for my sister after her back surgery.....much better than flowers! Terry B.

I have two pillows - and finally bought a mattress topper. I love the pillows, and the topper is the greatest thing. So happy I splurged! Diane C.

I swear by my pillows. They're over a year old and I've washed them and they bounce right back to normal. Need to buy 2 more for my home in Florida. They give you a good restful sleep. Cheryl C. I love my pillow so much! I tell everyone! about it. I take my pillow everywhere I travel. Great sleep is so important to our health! For my children and grandchildren that throw their pillows on floors, plus use their pillows with sleeping bags, travel, etc.; the wash and dry factor is the best! They all have asthma + allergies. It's great to just pop in the washer and dryer! We all sleep better because my pillow is the most adjustable, comfortable pillow for all! :) Cynthia

We bought our pillows over a year ago. I have washed them and sleep on them every night. They are still as fresh as the day we bought them. I tried several before but this one is by far the best pillow ever. Marilyn K.

I purchased 2 pillows, one for myself and one for my son-in-law, who has Multiple Myeloma and has also had a broken neck. He takes his MyPillow whenever, they travel, and values it highly. Your pillow, is a Godsend. I am most grateful to be able, to provide him this comfort. My thanks to you for, inventing something that eases his pain. God Bless Sincerely, Maryann H.

I have insomnia and have spent thousands of dollars on all the latest and greatest pillows ever sold. I discovered My Pillow at a home and garden show. Since that first

purchase, I have replaced all the pillows in my home with My Pillows. It truly is the BEST pillow I've ever tried - and I've tried them all. Sharon

I tried many different pillows to try and get a good nights sleep, but it didn't help - I was still tired. I have been using "My Pillow" for about 2 years now. I can honestly say it gives me the good nights rest that I need. And what's better than made in the USA? Jean M.

I got my MyPillow topper yesterday. I slept so good last night -- it was the best sleep ever. Nemeika J.

We decided not to spend \$1200.00 for a new king mattress and got a My Pillow Mattress Topper instead. I also bought both of my grandsons a pillow. I also told my sister about a MyPillow newsletter e-mail after she called me and asked about the pillows I had been raving about. She said they had seen an infomercial and wondered if that was the pillow I had been raving about. I sent her the e-mail and she ordered 2 pillows for her house and called her son and told him to order pillows for his house too. I love your products !!! Christine P.

I love my pillows, I have 6! Carol H.

This is the best pillow ever. I was amazed when I washed it according to your directions. It remained just like it was when it was new. I like that I can sleep on my side or back and be comfortable using only one pillow. Thanks for inventing such a perfect pillow. Jan E.

I have never LOVED a pillow like this one. I sleep like a baby and my neck is so comfortable. My daughter and her family also bought four just this week because she tried mine and fell in love as well. Thank you. Tory F.

I've had my My Pillow about two years now. This is the first and only pillow that never goes flat. I sleep on it at night and sit with it at my lower back during the day. I am a 68 year old lady and have bought many, many pillows in my day. But I will not buy any other pillow but MY PILLOW! Janie M.

I just placed my second order for My Pillow pillows. My family has always slept on down pillows and my first order was placed with reluctance. The pillows were WONDERFUL and we had the best night's sleep of our lives. We wouldn't use any other brand. I look forward to receiving my second order. Wanda B.

I've had My Pillow for almost 2 years now and I've been taking it everywhere when I stay away from home. I almost lost it shortly after I got it, because I left it at a hotel by mistake. I was heartbroken and uncomfortable for the 3 days it took for the hotel to ship it to my home. I've always had feather and down pillows, but I needed at least 2 to be comfortable. Sadly, they never lasted long. But since I got MyPillow, I've not missed my down pillows. I love how I can just throw it in the washer and dryer and it's like new, all fluffy and comfy. Can't do that with down or even polyfill pillows. Won't ever need or get another pillow again. Susanne M.

I have had a neck injury, issues with migraines and allergy issues. I have a very hard time finding pillows that are comfortable. I purchased one to try it and since then I had purchased a whole new set for my husband and I. My husband is very fussy with his and he didn't think he would like it; he takes it with him when he travels to the Hope Lodge while he goes through his chemo treatments! His snoring has cut back. I plan on replacing the remainder of the pillows with My Pillow! Thank you for a better nights sleep! Thank you for making them in America! Love my Pillow! :) Jane S.

WE LOVE our pillows by MyPillow... I bought your Mattress Topper because my bad back won't let me sleep all night. It came,,,,,Wonderful nights rest. Now I am ordering one for our full size bed for my wife. THANKS Arba H.

I was sick of buying pillows because of how fast they went flat. And if I tried to wash them, forget that, they would never be the same. I bought my first MyPillow five years ago and I have loved it ever since! You can not go wrong with one, they are comfy and washable! You can't go wrong with MyPillow!! Marilyn Z.

We were already happy users of the MyPillow when we heard about the MyPillow mattress topper. We decided to give it a try because of the 60-day money back guarantee. It is so comfortable. It's as if we purchased an entire new high end mattress. No pressures points, just comfortable zero gravity feel to laying on it. Our sleep quality has improved immensely. Snoring has been reduced also. Highly recommend. Ba L.

I received My Pillow a few weeks ago and can not say enough about it. I love it, Since I started using it I have not woken up in the morning with a stiff neck. I also love the fact that it is washable. Nellie

I will never sleep without this pillow!!! My children got me one two years ago Christmas. I am single and just purchased a second one to have a "set". I sleep better, sounder, longer and harder. I call it MY, My Pillow. I don't share either one!! Well worth the full price paid by my children and also my discounted second one....thanks Michael!!!! Janet S.

Thanks for replacing My Pillow. It was a painless procedure. Heard about ya'll on Imus have have used the products for 2+ years. Cliff H.

Just used My Pillow for the first time. Incredible! For the first time in decades I slept through the night. Kip M.

My wife and I each have a my pillow. It is the best pillow we have ever bought. And, we bought quite a few. Clyde

I received my pillow and the first night was amazing! I am a retired Railroad man, and my body suffers from a lot of neck pain and back pain. It is worth every penny and more to buy a My Pillow - you have a life time Customer! Thanks again, Chuck S.

I kept seeing the MyPillow commercials on television and dismissed them as "too good to be true" and expensive. My dad was in search of the perfect pillow, so one day, my mom purchased a few MyPillows and gave me one to try. I fell in love with it immediately and ordered another so I had two for my bed. Today, I ordered two more for my boyfriend's house so that I can sleep there just as well as I do in my own bed. I can't wait to get them - and also can't wait for my new go-anywhere MyPillows! Julie

I went to Ireland on a ten day trip and brought my MY PILLOW with. I shrunk wrapped it in a zip lock bag and I was assured a good night sleep every night. When you travel you never know what kind of pillow you will get, but I knew I would sleep well. I just fluffed it up when I got it out of the bag. No problems. Linda M.

Between my husband and me, there are four pillows in our bed: two decorative, one lumpy (his) and one I can't sleep without -- MY PILLOW! I take it everywhere, and there's no compromising. THE BEST EVER. So, Mr. Lumpy can continue to claim there's no difference, but... I fully intend to substitute a MyPillow for his grungy, old lumpy nonsense and then stand back to hear the rave reviews about "his best night's sleep ever!" C'MON, REALLY, PEOPLE -- these testimonials are the real thing! In fact, the only reason I'm still awake writing this at 10:05 PM is because MyPillow is comfortably crunched behind my head... but it's seductively lulling me to turn off the lights and drift off. Nighty-night! Faith

My husband and I have come to enjoy the comfort of the sleep number beds in our home, but when we purchased our 2013 motor home, we found that it was equipped with a less than acceptable bed. We contemplated purchasing a sleep number bed for it, but I saw a commercial about MyPillow and thought it would be an easier fix. When I checked out your website, I was amazed at the cost (substantially less than another sleep number bed). My husband measured the mattress and we gave the dimensions to your fantastic associate who handled our order. When our topper arrived...the only words I can use to describe our gratitude is...zzzzzzzz. I will definitely not miss the sleep number bed when I am visiting other parts of the country in our motor home! What a difference your product has made for our comfort during vacations. Thank you, Marcella B.

I love these pillows. When I saw the commercial on TV, I didn't believe the testimonials. But now I can truly say that your pillows are just what you said. I love them so much. I only have your pillows on my beds. I have four bedrooms and I use the small ones when I'm reading. Thanks again for creating MyPillows Jessica B.

I LOVE My Pillow. It adjusts for me so that I no longer have any neck pain. And, I used to have neck pain every morning! I notice I sleep on my back more often now, and that stops those creases from appearing on my face. Rosalie L.

Without doubt, this is the most comfortable pillow I have ever slept on! I heard your ad for at least three months on the Howard Stern Show, but thought this was just another hyped product. I cannot tell you how happy I am that I finally bit the bullet and placed an order. I was having terrible neck pain every morning until sleeping with a My Pillow pillow. I now wake refreshed. Thank you for a great product. Edward G.

I received my first set of pillows 2 days ago. I used them for 2 nights and never slept any better. They were absolutely comfortable and the best pillow I have ever slept on. Walter K.

I bought your My Pillow mattress topper. I did not want to buy it, as I was scared to buy it, and knew it would not work since I had bought 3 other ones that I wasted money on. I thought about it for days and then I finally did buy a My Pillow topper. I cannot believe it. IT IS WONDERFUL! We have a Tempur-Pedic King, XL adjustable mattress bed that we paid over \$8000.00 for 3 years ago. For the most part, it is great. I have nerve neuropathy, and I am hot in this bed. Sleeping on the couch was cooler than the bed. I have bought cooling mattress covers, cooling sheets, cooling blankets, cooling nightgowns, and I have slept with ice packs, and nothing helped until now. Your mattress topper is wonderful I can't be more pleased. I feel so cool and comfortable. Thank you, Thank you Thank you. Carol D.

I just love my pillow, I have severe fibromyalgia and neck problems and have tried many different pillows to be comfortable. I can honestly say this is the best one I have tried. I like the way it cradles my neck and head with no gaps. I actually look forward to going to sleep at night. It has been one of the best things I have purchased. Donna

For a very long time, I have been looking for a decent pillow. I have always slept on a feather pillows. Well, my feather ones are just about dissipated! I have been watching ads for My Pillow, but thought they were too expensive. After trying so many pillows, I decided to try one. One of the Home Shopping shows offered 2 at a decent price. Since I could make payments, I decided to try them. OMG! I fell in love with my 2 pillows. They were well worth the money. Soft, and they just wrap themselves around me. making my sleep wonderful. Thanks My Pillow! Sharon

I have two queen size MyPillows and I love them. I just ordered a king size because my senior citizen cat Olivia insists on sleeping on my pillow, and I have just a small corner. So, maybe with a king size, I can enjoy MyPillow. But, I absolutely love them!! I also ordered a pet MyPillow for my rescue dog Molly. Katherine W.

Last night for first time I slept on my new (MY PILLOW). This morning, I was in a really good mood: no neck pain, no shoulder pain or back pain. After 15 years, I finally found

We are big Imus fans and have followed your story and product, albeit with some doubt. But, we took advantage of your recent promo and purchased two pillows. We are very pleased and much prefer the MyPillow to our down and conventional foam pillows. Now here's the proof of the comfort and quality of your product: Our Jack Russell Terrier normally rides somewhat restlessly in the back seat of our car on conventional pillows. On a recent 8 hr. trip, he had his choice of a MyPillow or two down pillows. It was no surprise that he pushed the down pillows aside and rested comfortably, 8 hrs. straight, on the MyPillow! We thought it was a fluke, but he did exactly the same on the return trip! Bottom line, MyPillow is a great product, and you now have a testimonial from Cooper, our Jack Russell Terrier! Debbie

As someone diagnosis with MS, I can tell you that it is hard for us to find a pillow that helps with neck pain. I have spent a lot of money trying to find one. I saw your commercial on TV and thought, "why not - I've tried everything else." I am very happy to have a pillow I can fluff up, curl up, beat up, wash and dry and still have a wonderful pillow that supports my neck My son came to visit and liked it so much that he took my husband's pillow. So, I had to order another one. I would buy more but I do not have the money since my medicine is so expensive. I would and have recommended this pillow to people. Thank you! Thank you for your time and may God bless you. Mary S.

I have had neck problems over the years, including waking up with headaches most mornings. In desperation, I was willing to pay anything to wake up refreshed. I liked how you give people time to try MyPillow and return if it doesn't help. I bought My Pillow 6 months ago, and have had a great nights sleep - until I went out of town and forgot My Pillow and got a kink in my neck. I am now ordering a travel pillow and looking into the pillow topper mattress pad. This pillow has made a huge difference in my life and I am SO thankful! I don't usually spend time writing reviews with such a busy lifestyle, but this one is worth it if it will help someone else. I recommend MyPillow to all my friends, and, those who have purchased MyPillow, really like it. Courtney J.

Thank God I can sleep. I am in love with the pillows. Mae M.

Love, love, love my new pillow. Received it 3 days ago, and have had the best sleep for the past 3 nights. I was very skeptical ordering - not because of the price (I have paid that before with bad results) - but because of the guarantee you offer. I figured no pillow is that good. It took me 2 days after reading your advertisement in my local paper and lots of research to reluctantly place an order. This is a decision I will not regret. I have a surplus of pillows in my home: contour, feather, fiber filled, etc. Some were quite expensive, but none have given me a good restful sleep like the "my pillow". Thank you, a very satisfied customer. Darlene B.

My wife and I were at the 2013 Wisconsin State Fair, and we stopped at the My Pillow Kiosk. We listened to the sales pitch. We really liked the "if you don't like it, get your it back policy". We decided to try them. It was the best decision we ever made. The pillows are cool and comfortable, easy to fall asleep on, and easy to stay asleep. We have had these pillows now for 10 months. They are just as good as the day we brought them home from the fair. Try My Pillow, you won't be disappointed! Thanks My Pillow for a great product! Jerry S.

I bought my pillow topper and love it. Sleep is so comfortable. It's the best - I stopped buying other toppers or looking for other toppers. I also purchased my pillows -soft- and my husband and I take our my pillows on vacations. I can't sleep without our my pillows. We gave away all other pillows to Goodwill. That's how amazing our pillows are. Thank you for making our lives comfortable. Thank You for making these amazing products. God Bless. Esperanza L.

I bought this pillow a year ago, and its still going strong and stays fluffy and full of life. I was buying those department. store pillows, and I would be throwing them away every 3 months. So, I ended up buying 2 more of your pillows and will tell everyone that there is finally a product that does what its supposed to do. Thank you. Ed

My husband and I got our king sized my pillows a couple months ago and we LOVE them!! They are amazing! I had a car accident 4 years ago and have had horrible back and neck issues ever since. My pillow actually gives me more relieve then any other pillow. We are 100% satisfied! I am now considering the mattress topper. Brittany

When I first bought My Pillow, I thought I had wasted my money on yet another uncomfortable pillow. I couldn't sleep on it due to the "chunks" poking my sensitive ears/cheeks. Out of desperation, I got it out again recently and tried putting 2 pillow cases on it,(the first one tight and the second, looser). That worked! It took just enough of an edge off the chunks that I get no more pokes, and have been getting the best nights' sleep I have had in a very long time. Thumbs up to My Pillow! Pam

I am less restless with this great pillow. Feel very well rested in the mornings. My shoulder is bad and THIS is the Goldilocks pillow for that too, just like David V. says. It's - just - right!!! I have bone on bone in one knee. Perfect for that too. We don't need to FIGHT our pillows during the night, especially any injured areas. This is soooo great - and so user friendly! :) Thank you for this GREAT invention! Joanna J.

Thank you for creating such a great pillow. I bought one for myself and one for my husband. My husband is constantly complaining about the 7-10 different types of pillows we have because none of them were comfortable. Last night was the first night we used our my pillows and not only did we both sleep better, the pillow kept our heads cool (which is a big deal here in Phoenix), and it drastically reduced my husbands snoring. My husband is a trucker and just left with one of the travel pillows I got with my order. The quality of sleep with this pillow was the best we have ever had. Who knew a pillow could make such a huge difference? Thank you Mr. Lindell and God Bless You! Christine

I went back a forth whether or not to invest in "My Pillow". I went to a RV show in downtown Saint Louis where a representative from "My Pillow" was there. I STOPPED LOOKED AND WALKED AWAY. Three months have past and there was a spring Garden Show that my wife and I attended. My wife knew that I had been looking at "My Pillow" in the past so she purchased a Green King size "My Pillow" and, being that I am a larger man she, purchased a Blue King size for me. The pillows are the best investment we have made. Matthew

I am extremely picky about my pillow due to long time neck issues. I was unsure about the MyPillow due to the cost. This pillow is like sleeping on a cloud. It provides great neck support and made it through my washing machine very well. I am only upset I waited this long. I would recommend this pillow to anyone. John S.

For years I had massive headaches that occurred three or four times a week in the middle of the night. I saw the infomercial for your pillow and saw a guy give a testimonial about how it helped him. I purchased one at the local home show and my life since then has changed for I now sleep with the proper support and comfort. I tell everyone about this fantastic pillow and I cannot thank you enough for bringing it to us! Jim

I bought my pillow topper and love it. Sleep is so comfortable. It's the best - I stopped buying other toppers or looking for other toppers. I also purchased my pillows -soft- and my husband and I take our my pillows on vacations. I can't sleep without our my pillows. We gave away all other pillows to Goodwill. That's how amazing our pillows are. Thank you for making our lives comfortable. Thank You for making these amazing products. God Bless. Esperanza L.

I bought this pillow a year ago, and its still going strong and stays fluffy and full of life. I was buying those department. store pillows, and I would be throwing them away every 3months. So, I ended up buying 2 more of your pillows and will tell everyone that there is finally a product that does what its supposed to do. Thank you. Ed

Bought one of your pillows due to surgery. First night home after surgery, using My Pillow was the best sleep in ages. It is so soft you melt in the pillow. I used to wake several times at night due to headaches, but, due to the support that My Pillow provides, I sleep through the night. Please take it from me just buy one try it you will love it. This is the best investment in me Ever! Thank You so Much. Ed D.

The best thing I did in 2013 was buy My Pillow! I have severe neck problems from arthritis and have gone through at least 12 different types of pillows and then kept looking. My sister told me about this wonderful pillow, and I will always be grateful. I bought two. My husband likes a completely flat pillow so I did not think he would like it, but I was wrong. He loves it and I don't really get it. Because it is a soft, fluffy scrunchable pillow, it is great for the neck and it firmly cradles your head at the same time. It is perfect for us. I fluff it up in the dryer every month or two and it is like brand new again. Almost two years...I am still happy. Julia H.

It is truly amazing that something as basic as a Pillow can touch so many aspects of your everyday life. When I first heard of My Pillow on WGN radio in Chicago I was ready to give it a try based on the endorsement of Steve Cochran a trusted personality here in Chicago. Yes it seems like a lot to spend on a pillow, but I can tell you this: I have not slept as soundly in years and as the days pass sleeping on the pillow seems to be helping in other areas as well. Congratulations to "My Pillow" and thanks to it's inventor for having the perseverance to stick with his discovery through thick and thin. Buy one asap and you will be a believer like my wife Patty and I. Now I remember how to "Sleep like a baby". Ken K.

I have a closet full of all sorts of pillows. FINALLY "my pillow" has solved my problems of discomfort while sleeping! I've told several friends and now the majority of my friends are also sleeping better with my pillows! Thanks for such a great invention!! Debra B.

I sent for your pillow thinking that maybe the statements made about what the pillow could do for me might not be true. Well, the first night, I was able to sleep through the night and awake refreshed. I wouldn't own any other pillow. Thanks, Mike and God bless. Paul R.

I was going to have to buy a new mattress, but I thought I would try the Topper first. I just bought the Topper a week ago, and I have had a good night's sleep ever since. I love the pillow too! No neck and head aches when I awake. I take the travel pillow with me whenever I travel. Great products. Priscilla M.

Bought 2 of your small pillows for the car. I have a neurological disorder and am sensitive to strain of arm rests while driving. I use pillows to rest my arms on while traveling in the car. When my husband drives, the small pillow makes a perfect head rest with the passenger seat reclined. I bought them with the pillow cases, which are easy to keep clean. Loretta H.

I would definitely recommend. Judy H.

Just wanted to let you know that I love your pillow. In fact, I ordered a second one a few months later as I get a good night's rest with it. I highly recommend it to everyone. Much Thanks, Mike M.

I have bought many pillows, some way more expensive than the "My Pillow", but none have worked for me. I change positions during the night so pillows that are designed for one position definitely didn't work. The "My Pillow" allows me to change positions and still wake up without a sore, stiff neck. I love this pillow and take it with me in our RV. I highly recommend this pillow!! Kathy S.

About a year ago, I purchased a "My Pillow". I LOVE IT! I was shopping a couple months later at a "Savers" store (thrift shop) and found a pillows another "My Pillow" and I didn't hesitate to take it home because I knew I could wash it and it would be for my wonderful husband. Last week, we got up one morning and put the TV on in the kitchen, as we usually do, and low and behold there was an infomercial for the "My Pillow Bed Topper". Well, we had been talking about getting a new mattress because we use to have a "water mattress", and I could not sleep on it because we were told we didn't need a heater and it was cold, and I could feel it drawing on my bones. We got rid of that mattress, but kept the "water box spring" aka a wooden platform....so we got a new mattress (and that was 1997). Well it is a king size and is very difficult to turn, let alone flip. We needed a new mattress but the \$1200.00 price tag for the one we inquired about was way too much for us to afford. We had just been visiting relatives in Florida, and there was a foam topper on the bed we slept in. It was great. So when we saw that infomercial for the "My Pillow Bed Topper", I called to see how much a king size would cost. It was under \$500.00.....so we ordered it....that was on a Monday....it arrived by FedEx in the middle of a snow storm on Wednesday. It went on our bed immediately....IT IS WONDERFUL.....the only thing is we don't need as many covers as we had been using. I slept last night from 1 AM until 8:30 AM without waking up once. I can't remember when the last time was that I slept that good. I use to get really hot feet.....NO MORE.....I am so pleased with my "My Pillow and My Pillow Bed Topper" that I sometimes can't wait to be able to get into bed for a GREAT nights sleep. I am usually a tummy sleeper but with the "My Pillow Bed Topper" I am sleeping on my back and my sides. I couldn't do that before because I would hurt when I got up or even to roll over but NO MORE.....I AM SO PLEASED and I will tell everyone we talk to about this and how it has changed our sleep. Christine P.

The best pillow I ever had. I don't have to move it, shake it of fluff it to make it comfortable, I just ordered 2 more for the rest of the family. Marie H.

I too, was skeptical about the purchase of these pillows. My husband suffers from ankylosingspondylitis (a very harsh form of arthritis) and he has never found a pillow that gave him a restful nights sleep...until now! He loves it, and so do I. As for myself, I was having a headache almost daily. And, while they have not completely subsided, getting supportive, restful sleep every night is helping. I will order again in the near future. Love that these pillows are washable and love that they are made in the U.S.A.! Wishing you and your company much success! Raelynn

I just think that you should know that your product is truly amazing. I'm not the kind of person who sees a commercial or infomercial and buys everything there selling. However, I am such a bad sleeper that when I watched yours and heard your guarantee I thought what the heck. I asked for and received the My Pillow for Christmas and I haven't had a bad nights sleep since. I used to have trouble falling asleep as well as sleeping through the night. Ever since the first night on the My Pillow I have gotten nothing but peaceful, restful sleep. Thanks for that! Shawn J.

I have had My Pillows for quite a while now, and I love them! So, I decided to try the new Mattress Toppers. Wow, what a great investment. I sleep better, and don't toss and turn trying to get comfortable all night. There is nothing like a good night's sleep and this product makes that possible. Laurie S

I was skeptical about purchasing these pillows, but I have suffered from migraines for years and my husband has arthritis in his back, so we thought what the heck.....we've tried them all! We absolutely LOVE these pillows and the fact that they can be washed is amazing! I have always thought pillows could be so "gross" because you never knew how clean they were....well now you can control that yourself by washing them! I hope to purchase a couple more of these in the near future! Another refreshing thing about these pillows....they are made in the U.S.A. LOVE that! Raelynn R.

I LOVE this pillow. I bought it a year ago and it is the best pillow I have ever had. Very comfortable and having support for my neck helps a lot.. My hubby says I snore so I guess the pillow didn't work for that! Lisajo S.

I can't wait to tell you all about this mattress topper!!! I am 75 years old and have had trouble for the last few years with any mattress we bought. We spent a lot of money on Seely, Kingsdown, etc. Then, I had to send my pillow back to "My Pillow" and, in finding out how to do this, I met a lovely salesperson from your office and she told me about the mattress topper. She even called me from HOME to encourage me to buy it. So I did and I will tell you - there is nothing like it in this world. I am now sleeping straight through for at least 7 hours each night and waking up rested and feeling well. Haven't felt this way for years. Thank you Mr. Lindell for having such loyal and kind employees! I don't know if I would have taken a chance on this topper if your saleslady hadn't been so kind to me. Bless her heart!!! Dee S.

I recently had shoulder surgery, which is impossible to sleep afterwards. This time though, I had MyPillow and, by propping it up against another pillow, it engulfed me and allowed me to sleep every single night. I have had this pillow for two years but have told 3 people about it in just the last week. It might be everyone in the family's Christmas present this year. Thank you! Jill F.

About a year ago we bought 2 king bed pillows: one for my wife and one for me. I love my pillow - it helps me sleep much better at night. It conforms to where I put it, and I don't have to keep readjusting like I did with my other pillows. I believe I pretty much lay in one spot all night. As for my wife, she doesn't know how it works, because her dog took it and won't give it up. When it's bed time, he hurries and gets on the pillow before she does. So funny. Even our dogs like them. Tim T.

I have spent so much money trying to find a pillow that I find comfortable. To tell you the truth, I was skeptical of My Pillow. I broke down and bought one and I absolutely LOVE it. It is well worth the money. Most comfortable pillow I have ever owned. No lie. Lori

I still snore and so does my hubby, but the only claim I can make is that "My Pillow" is still fluffy and will shape to my neck just the way I want it to. I take it with me on road trips too. It is the best pillow I have ever owned by a long shot. Thanks. Linda G.

I have had my king-size pillows for over a year now, and I must admit that when they first arrived I did not like them at all. They were much to firm. I like flat pillows. I finally decided to take some of the foam out, and actually made a smaller pillow to keep in or truck for when we travel. That did the trick! My new, flatter pillow is great! I laugh because I punch holes for my head, and just the fact that my head can lie lower while still getting support from the rest of the pillow is just what I needed. I love my pillow and carry it with me when we go out of town...thanks Virginia H.

The little flag flying on the pillow is second to none - the American people have jobs. I haven't slept through the night in years due to back injuries, and I have been in pure misery for so long due to back injuries that couldn't heal due to lack of sleep. Michael, the inventor of my pillow is a Christian and I pray God blesses him for helping me rest. The pillows are wonderful and they are what their description says they are without a doubt. I am proof. Carolyn R.

We are so glad we found My Pillow. It is the last pillow we will ever have to buy and we have spent a lot of money on other pillows. We are totally thrilled with My Pillows. Thank you. Gloria S.

Finally, a firm pillow! I love my pillow! Denise S.

Best money spent. LOVE love love my big pillow. Previous neck surgery years ago and have spent a lot of money on pillows over the years and still tossed and turned, waking up all the time. I sucked it up knowing I was at the end of my rope buying pillows. This pillow has saved me a lot of grief and pain - I now get sleep. I recommend trying this pillow. I knew it had 30 or 60 days to return. That was why I ordered one. Never returned it... Love love my pillow. Thank you Charlotte T.

I have been wanting to write a testimonial for awhile. I have given My Pillow quite the test for awhile. It passes with flying colors. This pillow is definitely one of my favorite things in my life. Sounds a bit silly, but it makes such a difference in my quality of sleep and how I feel when I wake up..it's amazing. It's a breeze to wash and dry...and is recommended to do so. When I travel, I really try and take it with me...in fact...it's going with me to Paris soon. Do not hesitate to buy one. Gail S.

I purchased a My Pillow last summer and it is my best friend! I take it with when I go out of town! I love it and sleep with it every night and when I watch TV - I have it with me to help me relax! Thank you for making My Pillow as I don't know I ever slept without it!! Linda M.

For years I've been frustrated over any pillow I've purchased, and believe me, I've tried them all! One night, December 2012, I was watching the infomercial on "My Pillow" and thought why not try one since it's a money back guarantee. I'm here to say it is the best pillow I've ever purchased and will never buy any other brand. Brenda S.

Best pillow I ever owned and even take it when I travel by auto or plane. It has improved my sleeping patterns also. Julia C.

I want to let you know we received the pillow I bought for my husband. I've been awakened quite frequently by my husband's snoring, so my sleep pattern was constantly being disrupted. From the first night, my husband has not snored once. I cannot thank you enough. I'm going to buy one for myself next month. I admit I was a little skeptical, but the remarks from actual consumers on the infomercial convinced me to try, and your money back guarantee convinced me to try. Judi S.

I originally ordered MyPillow and it was too big for my liking. So I returned it. I was disappointed as everyone raves about MyPillow. However, I ordered a travel pillow and loved it. Then I noticed the note on the website about downsizing MyPillow if you use to a down pillow (which I had). So, recently I took a chance and ordered a smaller MyPillow and give it a try. It's fantastic!! So, thanks for the posted note regarding down pillows, it made quite a difference and I'm hooked. I also ordered the pillow cases and I'm glad I did. I heard of MyPillow through Imus radio. While listening to Imus today, he advertised the MyPillow mattress topper. Tony mentioned he loves it and "you could put it on bricks and it would be comfortable." It dawned on me, after hearing Tony's statement, that I love to camp, have overnights with family/friends, and kids love sleepovers (even college students-they'll crash anywhere). Most often we're sleeping on a hard surface. Any thought of creating MyPillow sleeping bags? I may not be the first person to bring it up yet I thought it would be worthwhile to ask. I admire your recovery and philanthropy Mr. Lindell. Especially helping and hiring the "unreachable". I was diagnosed with breast cancer on 12/12/12. It was caught fairly early, Stage II, Invasive Ductal Carcinoma. I had surgery to remove my tumor, chemotherapy and radiation treatments which ended in July 2013. Due to MyPillow, I've slept like never before. I can't believe the difference. It's incredibly therapeutic and crucial to get a good night's sleep. My fatigue is subsiding. It makes all the difference in healing and keeping up with my full-time job which I love. So, my sincere thanks for developing this product. I will tell all my "Breast Friends" to give MyPillow a try. Ellen

I have gone through pillows like people go through tissues. So buying one more pillow was the norm for me. But after buying the My Pillow, it was the LAST pillow I have bought! So, knowing how pleased I am with the My Pillow I'm taking a chance that the Pillow Topper will deliver the same Wow results! I have nothing to lose....I'm hot, hubby's cold I need to do something to regulate and get some sleep! Thank you LR B.

OMG!! I have been waking up with a headache for the past three years at least 3 times a week. First I blamed them on the fact that I was not sleeping well. Everyone said "you need a new mattress!"...\$2800 later I had a brand new pillow top mattress! Still waking up during the night.. Still having the the headaches! "Try Select comfort" they said. "Guaranteed the most restful sleep you've ever had!" Still waking up...still with the headaches! Back to the pillow top!! "It's the price you pay once you're over 60." "See a Chiropractor" they said. Saw your pillow and decided to try it! My head hits my pillow at night and I'm out like a light I sleep completely through the night and have woken up feeling

refreshed ever morning since I started using it. Thank you!! Thank you!! Thank you!! It's nothing short of a miracle!! Joan B.

Mr Lindell, I began having neck problems since I had a wreck in high school 15 yrs ago. I went through about 20 pillows since that time. I bought a queen sized blue pillow at the Dallas auto show this last year, but was extremely skeptical and had almost given up on getting a good night's rest and not waking up with neck pain. Since that time, my wife says I am a new man, as I have been much happier because I feel better. I have since bought a total of 5 more pillows to give to family and friends. I also recently bought the topper which I will try out soon. I am also an internal medicine physician and recommend your pillow to everyone. Thank you so much for your hard work and your invention. I am grateful. Wes I ordered the pillow. I then had buyers remorse. I tried to cancel it, but it already shipped. I was told to refuse it when it arrived. When it arrived, I received and used it that night. I slept soundly, in deep sleep - no neck pain, not tired from lack of sleep. Boy, am I glad I got my pillow. I'll be ordering one made to fit. I'm a disabled vet. I'll order it as soon as my check gets in. David A.

I love "my Pillow". I have spent a lot of money on pillows over the years and I love these. I use the round Bolster pillow every night and love it. I have 3 on my bed, one at our camper and one on my couch when watching TV, We have a standard in our Ice fishing house. They wash up great. I could not be more happier with this purchase. This is one TV commercial that I am glad I watched and made a purchase. THANK YOU. (and thanks for making the pillow cases for the Bolster) Loretta E.

I've never had a pillow perform as well as this one does. Since ordering MyPillow a year ago, the problems I had with falling and staying asleep have virtually disappeared. When I do get up in the middle of the night, I fall right back to sleep, something that was a challenge for me before. After trying more than 2 dozen other brands over the years, I can finally say, "This is the one." Joe T.

I bought my new pillow yesterday. Expected to wake up with a headache from trying a new pillow, plus I usually need a flat pillow due to neck problems. This seemed a little too lofty before I used it. I slept in one position on my back all night & didn't wake up once. This morning I woke up refreshed & felt great. I'm very excited about this pillow. Hope I continue to have the same results tonight. Have wanted to try this pillow for a long time & glad I finally did. Thank you Mr. Lindell. Marilyn S.

I have the king mens side sleeper color blue pillow, and I just love it. My best friend, who has Fibromyalgia like I do, swears by this pillow So, I went and bought one, and I sleep better than I once did. The pillow is so comfortable, and I can't stand to be without one now. When I have the money, I am buying my hubby one because it really is awesome. It doesn't go flat and it shapes to you .In the future, I hope to buy the pillow topper and bolster pillow for my legs for more sleep comfort in the bed we have right now. Everything is so worth it, and the prices are reasonable – it's a great investment. When I have a bad migraine, if I lay down and put MyPillow under my head, it really helps because the pillow doesn't put pressure on you - it conforms to you. I love all the my pillow products. Tina R.

At Bed Bath And Beyond, while I was shopping for new pillows, a lady told me she was buying 2 more My Pillows because her family loved them. I bought 2 on her recommendation. I put them in the dryer and we slept with them last night. WOW! I will be buying more of them for the family this Christmas. They really make a difference in how well we slept! Joe C.

I have never been able to find a pillow that gives me the enjoyment of a complete nights sleep. My wife suggested the My Pillow & I purchased two from QVC. I should have listened to her sooner. No words describe the comfort & durability of these pillows. I have had them for 5 months & they are as advertised. I would recommend these to anyone. They are worth the investment for a sound sleep. Pat L.

I searched for years for the right pillow. I first heard of My Pillow when watching American Choppers build a motorcycle for you. I did some research and couldn't bring myself to spend the money on something I couldn't even touch and feel. So when I saw that Bed Bath & Beyond sold it, I thought why not give it a try. And oh my.....and I ever glad I did. I have since bought one for my husband, daughter and recommended it to countless others that have the same pillow issues I did. Thank you for a wonderful product! Connie L.

I bought my pillow in April. Loved it. It started getting flatter this month and I was worried that I made the wrong purchase. I contacted My Pillow and they immediately prepared an exchange. Got my new pillow yesterday and slept so well last night! Love My Pillow! Lisa R.

When I first saw your advertisement I thought it couldn't be true. But, I had to try "yet another pillow", just in case. Bothered with nightly stiff neck, allergies and snoring on both our parts, I thought we'd never get a good night's sleep. When the pillows arrived, I was so happy to see how well even the pillow covering was constructed. Sometimes, it looks good on line and then arrives and actually is a less than desirable. The first night proved all the other testimonials I had read to be true plus more! We both could not do without our MyPillows! We take them to hotels now and we just can't do without them for even one night! Thank you thank you. They are definitely worth the money. MADE IN THE USA! Nan M.

I ordered my pillows a couple years ago and just love them. Then a few weeks ago I received the email message advertising the pet bed at a great price. I purchased it for my dog, and gave it to her for her one-year anniversary of getting freed from a puppy mill. My Whitney is hesitant about most things so I wasn't even sure she would use the pillow. She started out by putting her paws on it, it only took a week until she began scratching at it and arranging it in just the perfect position for her. So now she sleeps on it all the time and loves it. I am so thrilled she enjoys it and that I purchased it. Anne C.

When I saw you on television, I really wondered if it could be true that I could actually sleep at night without waking up constantly with neck and headaches. My pillow is MY PILLLOW ... and it is wonderful. I love the way it snuggles under my neck and head providing just the right amount of support. I used to feel panic before going to bed at night because I dreaded the long painful nights of neck and headaches and not being able to sleep. I'm ordering another. Thank you! Pat W.

In my job, I drove forklift for over 7 years, and in doing that, spent a lot of time turned and craning to look over my shoulder, because you have to drive backwards when carrying a load. The last year, or so, I started having cervical neck spasms and severe pain. Chiropractic and therapeutic massage did a lot in helping that, but, I still had pain. My chiropractor recommended the most popular memory foam pillow, and I tried a few, but none really fit me well, or were very comfortable. When I saw the My Pillow advertisement, I decided to try one. I've had my My Pillow since March 2012. I LOVE IT! 6 weeks after getting mine, I ordered one for every member of my family. Every claim the My Pillow company makes is completely true. I will add one suggestion to the using of only 100% cotton pillow case, which, is to use a pillow case that is generous in size. If the case fits too tightly, it "bounds" the My Pillow, dis-allowing it to conform to your unique shape. My neck pain is so much better, and my chiropractor confirms that I am holding my alignment much better since using the My Pillow. Thank you so much My Pillow!! Debra L.

I had been on the hunt for the perfect pillow for years! I tried foam, down, premium polyfill, gel, and even those noisy bean thingles. I still woke up with arm pain and numb hands. I watched the infomercial and thought "sure, nothings this good, this will be just like every other pillow"....but guess what? It isn't! It truly is a revolutionary new pillow that is different than all others and actually stands up to it's claims. It's supportive, but soft. Totally silent, unlike those horrible bean things! But my favorite thing about My Pillow is...I can shape it however I want! I don't think consumers realize that this pillow is filled with interlocking foam pieces that allow you to "rearrange" them into differing shapes to satisfy your personal preference. What a concept! I love My Pillow, I can't ever go back to those flat polyfill, or those expensive down pillows. Try My Pillow, you've got nothing to lose but maybe you'll have something to gain. A good nights sleep! Karen H.

I purchased My Pillow about a year ago, it has really changed the way I sleep. My neck feels so much better due to the support it gets. I sleep so much better - less tossing and turning. I love My Pillow!! Although I still snore, I'm happy to have my neck feeling better. Dianne A

I have severe neck pain and started using my pillow about 1 year ago. This pillow is the best, and I have tried them all. It conforms to whatever way I sleep. I sleep side, stomach and back, and it works either way. I am definitely going to try the new pet pillow for my older pets. Thank you. Judy C.

I was skeptical about paying such a high price (high for me) for a pillow, but I had heard a lot of good things & David assured me that I could return the pillow. Well...that night, I slept like a baby AND I fell asleep soon after I laid my head on the pillow. My next purchase, when I can afford it, is a bed topper. I love my pillow!!! Veronica C.

I think people are always skeptical about products sold online or on infomercials. So like everyone else I did my research. I had been having trouble with my neck and shoulders along with not sleeping very good. I always woke up feeling like I just went to bed tired along with the feeling like someone beat me with a bamboo cane all night. I had to find a solution to my problem. Then one day I saw an infomercial about this to good to be true pillow. Yah right I said to myself. So I started to do some homework. I found some reviews on YouTube some people swore by there pillows other people were not so kind. I wanted to see this pillow first hand before I spent that much money. I found a place where I could check this pillow out touch it feel it talk to the guy that was selling them. After talking to the guy that owned the franchise for my area and exactly what would happen if I didn't like the pillow. So I spent the money and took them home. I got one for my wife and I. I think I need to mention here that I've tried a lot of pillows before. None of them lasted more than a year. Even when brand new none of those pillows ever gave me the support that I have experienced after a full year with "My Pillow". I sleep on my side and because I use what is called a CPAP for Sleep Apnea so I usually never move at night. With my old pillows I was always flipping the pillow over in the middle of the night cause my face felt like it was flying on one side. I can say that My Pillow lets me sleep through the night with very little discomfort. My Pillow has stayed firm the material inside hasn't broken down like other pillows. During the summer I do sweat a lot at night and when I get into real deep sleep I have been known to drool..... lol. My other pillows I couldn't wash when they got stained. I have washed My Pillow and it came out all nice and fresh. After having My Pillow for a year now I have been very happy with the comfort level. So I bought 2 regular sized pillows. We travel to the kids houses and got tired of carting our king sized pillows along. The smaller twin sized pillow I can roll up and wrap it in the plastic that it came in. Just unroll it fluff it up a bit and your good to go. Got 2 travel pillows for the car in the deal too. I can tell you before hand the firmness of the My Pillow does take some getting used to. But if you want your head supported correctly than I guess it has to be firm. Good luck I hope this has helped. And no Mike is no relation to me.....lol Gary H.

I've had my pillows now for about three months and I love them. I don't wake up with a sore neck anymore, I sleep better through the night and they stay cool, they are also great for reading or watching TV in bed as they stay the way I prop them up. I'm going to get pillows now for the cat and the dog! :) Randy H.

I purchased mypillows for myself, my husband and my son. My son is a young adult with a severe physical disability, cerebral palsy. He uses a power wheelchair and sleeps in a hospital bed. I purchased the pillows looking for a more comfortable pillow. What I got was an unexpected surprise in addition to the comfort it provides! My son would wake us up almost every single night and ask us to roll him over so he could change position. After he started using his mypillow he stopped waking up at night and is sleeping through the night. So are Mom & Dad. Thank you from the bottom of our hearts. Love and appreciation from the Notte Family! Joyce N.

I have purchased many many pillows through out my life and just before I purchased MyPillow, I paid \$100.00 for a piece of junk. I swear on my life that MyPillow is the best pillow in the world. It goes far and beyond all claims is is said to do. I totally love it and plan to now purchase the mattress topper and I'll be in heaven. Jeanette D.

My pillow is my best friend and is simply amazing! Can not wait to get my new topper, just order one! Tracy I. For years I used a Tempur-pedic pillow, this totally changed my life...but I started having some issues with the pillow and decided to make the leap! Haven't looked back...love this pillow and now I'm getting one for my husband and excited about getting the travel size one as well in my next order. Laurie L.

I watched an infomercial about the MyPillow and told my husband about it. He bought one. I tried his one night and fell in love with it! It was sooo comfortable. I dragged my feet for months, and during that time kept stealing my husbands pillow. He usually goes to bed after me, so I would steal his pillow until he came to bed and would slide it out from under me!.. I would also sneak into bed before him, steal itand every now and then he wouldn't take it back....most times he would say...I want "MyPillow" back. Finally ordered by own...now we are both comfortable.....even though I miss my little stealing game..... Michele

I am not one to leave feedback for the most part, but I do have to say, after only two days with this pillow, I am sleeping better. I have had three shoulder surgeries and have been suffering with pain and numbness all night long for years. Now I sleep through the night! This pillow is amazing and am a life long believer and will tell everybody I know. Gary S.

I love MY Pillow! As a vendor I would watch countless pillows flow by my booth and I'd ask myself every year for two years "what is the deal with these pillows", and even asked the price of them when someone walked into my booth. I thought - too rich for my blood. So, at the end of the second year, I went and checked out your booth. Not only did I walk away with a pillow, but I bought one for my husband as well. He has sleep apnea and usually slept with 4 pillows. Well his apnea hasn't changed, but he sleeps with only 2 pillows now: one being his my pillow and the other is the one he puts over his head (don't ask me - he says its something he has done and can't get away from since the military). The only thing I would change is I would have gotten a smaller one (I got the white and its too thick), and change my dreaming. Yes, I get a good nights sleep, and the good support for my neck gives me a good sleep, but I have crazy dreams lol. I have so many of them - and they are in color. Great job on making these in the USA and making a great product. By the way when we travel we bring our MyPillows. Barb L.

Alright, so I know what you're thinking. Here's another paid spokesperson claiming how good the product is. WRONG. I was just as apprehensive as you. 100 bucks for a freakin' pillow? Nope, I said. Then I decided, what the heck, what's the worst that could happen? Well, it's been over two years now and this dang thing still has that support and cushion that it had day one. It will sag over time. All you have to do is fluff that bad boy and it's "hello support". So here we have it. A "seen on TV" product that actually freakin works. Kudos to you Mr. Lindell. You've made a darn fine product. David W.

My husband brought my first My Pillow home a couple years ago and I loved it SO much that the next year he bought the My Pillow Body Pillow. This year, at the fair, he told you (Mike and Nick) that I was pregnant with our third boy and that I love your products, but my body pillow was pinching in the middle. At the end of the fair you brought an EXTRA stuffed pillow to him and he gave it to me... IT IS FABULOUS!! I have been sleeping SO great in this third trimester! I still like to steal Dave's My Pillow for when I roll to my other side but he is much happier that I don't have it every night all night long. I am truly grateful for your kind offering. You guys are the best and your product is the BEST! I recommend My Pillow to everyone!! Reagan O.

I purchased My Pillow and I am blown away by how effective it is. I was rather skeptical as I like others have purchased so many others pillows making promises to be the best pillow. This is by far the best pillow I have ever slept with and cannot imagine not having it. I thought I would have a transition period but from the first night I was asleep within minutes of resting my head. Also I woke refreshed from a deep restful sleep which I have not experienced in my adult life. I have already decided to purchase for my parents in Europe and will be replacing all the other pillows in my house. Please do not ever discontinue this product. Once again I thank you. Nicola S

Last year I purchased two king size pillows. I am 75. Of the dozens of pillows I have had in my life, these are by far the best. I am a real consumer and the praise is unsolicited. They wash easily and maintain their shape and performance wash after wash. Truly amazing and nice to know that some advertising on TV where I first saw My Pillow is real. Gary D.

I want to let you know that I ordered " MY PILLLOW " two weeks ago. I got them in the mail last week and let me tell you what happened. I just had rotator cuff surgery on my left shoulder Aug 9th about eight weeks ago. I could not sleep in bed for fighting with my pillow. It's a feather pillow. Slept on it all my life. But I had fought with it, wadding it up, trying to get where I could sleep. But with no prevail , was up in my recliner all night. While watching TV I saw your advertisement. I ordered a large for me and a small for my wife. Well let me tell you since I got my pillow I have slept the best I have in eight long weeks. Really I guess my whole life. The pillow fits to my head and shoulder to where I'm in line. My son uses the travel pillow that I got as a free gift. My wife has noticed a change in her sleeping also. I wish I had ordered them earlier. I will not be without my pillow anymore. Regardless of where I go. It will go with me. I have told everyone I know about my pillow. It's better than any pillow I have ever tried to sleep on. All I can say thank you. Wish I had it a long time ago. Also due to the surgery I have to sleep on my right side or my back since surgery was on my left shoulder and will for several more months. I now go to sleep and stay asleep. Thank You. I live in Bryson City, North Carolina. Larry R.

I love this pillow! I was turning and pounding my old pillow at least 4 to 5 times a night. Since buying this pillow, I haven't turned it once! It has stayed cool and fluffy. Even my breathing is better since my head stays up higher. Everything they advertise, is true. I highly recommend this pillow. Trish M.

I saw 10 minutes of your infomercial and ordered My Pillow on line. When it arrived & it was "bumpy", so I thought I'd be sending it back. I couldn't fathom how a bumpy pillow could be comfortable. But it is the best pillow ever! Every night I tell my husband how much I love my pillow. Now I think he is jealous of my pillow! Thank you so much for this wonderful product. Merry S.;

My wife and I watched the ad about My Pillow and thought it to be like a lot of the rest; too good to be true. But with the warranty, we decided to buy two of them. It has been over a year and a half, and we are still happy with our purchase. The pillows really live up to what we hoped they would be. The best pillow we ever bought. Most, by this time, had to be replaced, but My Pillow is still the best we have had in many years. They still have the shape from day one and are still just as comfortable. The most I have EVER spent on a pillow and well worth it! Dale W.

I have had the privilege of owning MyPillow for a year now. It's my honest opinion that this product provided me with one of the best years of my life in terms of sleep. Like the butterfly effect, better rest allowed me to get in much better physical shape, prolonged concentration, & overall body comfort rose beyond any expectation from a pillow. With this new found time, I created a successful blog, and launched a discovery engine online last year, all because I wasn't as tired as before. Until you do, you really don't know how crucial pillows can be. Nobody ever paid me, or asked me to write this. I usually never leave product reviews, but here, I feel if I support a worthy product, then it can only be improved, since this company seems to know what they are doing. I'm 30 years old next summer, and I'm excited about all the things I will be able to do feeling rested this year. Aleksandr P.

Absolutely love MyPillow! I have both Fibromyalgia & Multiple Sclerosis. Without this amazing product I doubt I'd get much rest at night. Thank you for offering this true Godsend! Katie S.
