I love the Kyäni products! I am 60 years young. I was diagnosed with Mersa and Staff infection of the hair follicles about 8 years ago. I went to many doctors over the years including dermatologists and infectious disease doctors which prescribed antibiotics that helped for awhile then it would come back. Then I was introduced to Kyäni by my good friend Jeff Storch. I was looking real bad. Today my face is looking very, very well. Thank you Kyäni.

I am also a single parent of a beautiful 11 year old daughter and a small business co-owner. The Kyäni products make it a lot easier to deal with the stress. I am a happier person. Thank you Kyäni for this wonderful product and business opportunity. Bless the Kyäni co-founders. Just remember, don't give up. "Shake it off and step it up with Kyäni!" It will be a life changing experience. Bless everyone at the corporate offices in Idaho Falls. Thanks again,
Ted Massender Sapphire
