For many years I have been having a lot of pain. Migraines, sinus pain, lower back pain, sciatica pain, shoulder pain--just a lot of body pain. For a whole year my friend, who is a Kyäni distributor, had been telling me about Kyäni. All I would do is just roll my eyes and just say, "Yeah right."

One morning I woke up in so much pain, I was ready to just go to the Doctors and get whatever they would give me for the pain. My husband said, "Wait...our friend has been telling us about Kyäni. Let's call him." As it happened, there was a Kyäni meeting that night. We listened to the demonstration for a while and when there was a break, my friend, Melissa, approached me and asked me about my pains. She gave me some Xtreme and rubbed NitroFX on my shoulder. About 15 minutes into the meeting, I was asked about my pain. It was gone! I was so amazed--I couldn't believe it! I went home and investigated Kyäni more and a few days later I became a distributor.

I'm a believer in Kyäni products. Since I've been taking Kyäni, I feel amazing. I could share so much more about what Kyäni has done for me. Kyäni is the best! --Marisa Munoz, Maui
