October 3, 2013 ·

Another amazing TESTIMONY of KYANI:

I was on the AAU National TaeKwonDo team in 2004 and had sustained several injuries. Between 2005 and 2012, I went through eight different surgeries for my knees, embolization for my fibroid tumors, carpal tunnel on both wrists, a ganglion cyst, hip, and a deviated septum and sinus. I was left with a lot of inflammation and pain. By the first week of January 2013, I was on seventeen different medications for type II diabetes, high blood pressure, debilitating headaches, inflammation for past surgeries, rheumatoid arthritis, and degenerated vertebrae in my back; sleeping disorder, anxiety, depression, fibroid tumors, thyroid, acid reflux, pain, and allergies. My cholesterol was high at 420, and my liver enzymes were elevated which caused my doctor to ask me if I was an alcoholic. I started Kyäni the first week of January. During the first two months I was on Kyäni, I was able to get off of all but two of my medications. After three months, my fibroid tumors had shrunk fifty percent, my cholesterol went down to 198. Kyäni has totally changed my life physically, emotionally, mentally, and financially.
