General Wellness

Aloe Vera

I have never before even considered giving a testimony for any product that I have used, however, I feel a moral obligation to let people know how I felt after taking aloe vera juice. After a few sessions of radiation treatments for prostate cancer, my wife convinced me that the aloe vera juice would keep my energy level up during the radiation sessions that I had to endure which was 37 sessions total. From my first dose of aloe vera juice, I have been able to tell without a doubt when it was time for me to take another dose. The first time I felt the difference, I was driving the interstate and for a second, I felt so good that I felt like I could get out of the car and outrun it. I am very supportive of the aloe vera product.

—William D., Raleigh, North Carolina

The NutraStart vanilla and chocolate shakes have been great for me. I alternate strawberry and banana with vanilla, and chocolate with banana. It gives me a great start to my day and gives me plenty of energy.

ChitoLite[®]

My husband Marty and I recently went on a seven-day Caribbean cruise. We have been on many cruises but on this one the food was absolutely fabulous! I have to say it was the best of any of the cruises we've been on. As a result we ate so much! We carried our Carb BLX and ChitoLite with us to the dining room every day. When we got home and got on the scale, I had LOST a pound! Marty only gained 2 pounds! This was after eating every dessert on the menu and many times, 2 entrees! Wow! we're ready to go again, but not without our products!

I am here to tell you that I think it is the best. I have been spending twice the price on products for years. I've used many different products and I love this one. We took samples to a Women's Show and everyone loved the feel and the smell. I have to agree. Thanks again 4Life.

—S.B. Utah

I love it! From the very first time I used the enummi, I immediately could feel the difference in my skin. I have very sensitive skin and have always been limited to the products I can use. Trust me when I say that after the age of 50, "anti-aging" skin care takes on a whole new meaning! After years of trying numerous creams, lotions and programs, I can assure you that is the most cost-effective system I have found.

I took my granddaughter to the beach and fell asleep. I woke up sunburned on my arms and legs, where I had neglected to use sunscreen. I had applied the sunscreen and my face wasn't even pink—except a little on the top of my ears that I missed.

—Carol W.Palmdale, California

I've been using and within the first two weeks I noticed a dramatic difference in the clarity of my skin. Particularly the skin on my throat, neck and upper chest was softer and the discoloration that comes with aging was drastically reduced. I also noticed that the lines around my eyes and mouth were much less visible. My skin just has a soft glow to it! I have found that my base make-up goes on smoother and stays on much longer when I apply the Protective Moisturizer first. I love the products and plan on using them for the rest of my life!

4Life Transfer Factor[®] Animal Stress Pack[™]

The owners of a pregnant mare sent her for training from California to Reno. After she was there for about three weeks, she got a high fever and was really sick. The owner got pretty nervous about that and called me; I recommended that we use the Animal Stress Pack. In four days, she had bounced back and was back to her training.

—Ken Hansen, DVMSanta Rosa, California

We had a litter of eight-week-old kittens. One came to the door one evening looking quite sick. I immediately prepared a bit of 4Life Transfer Factor Plus Animal Stress Pack and squirted it down the kitten's throat. The next morning the kitten looked much better. We gave it Stress Pack at regular intervals throughout the day and it started to drink water and walk. Within two or three days, it was running around, almost tripping us, eating food, washing itself. We were truly amazed.

4Life Transfer Factor[®] Canine Complete[™]

I give the Feline and Canine Complete formulas to my cat and dog. I've noticed that they both look more vibrant and bright and their eyes are more alert. It's a subtle change, but I definitely notice it in them.

—Kassie F. Spokane, Washington

A nine-year-old female dog named Cody weighed about 35 pounds. She developed an acute skin condition with intense itching in both ears. For the next five to six months, the owners tried everything they could, but with little relief for Cody. I advised a food change and told them to get on 4Life Transfer Factor Canine Complete. There began to be improvement almost right away. At the end of one month, her skin and hair color looked great; her ears were normal. Cody's been doing great for over six months now.

Our cats have thrived on 4Life Transfer Factor and Transfer Factor Feline Complete. This complete formula has helped provide total support for their bodies. Our younger cat loves her Transfer Factor so much that if I forget to add it to her food, she lets me know about it!

4Life Transfer Factor[®] Livestock Stress Formula[™]

Two of my 'barn' cats have suffered every summer from problems with fleas and 'hot spots.' They were so sad and scruffy looking, that I hated to admit that they belonged to me, not to mention how uncomfortable and insecure they felt! Along with a flea control regimen, I started mixing Livestock Stress Formula with water and a bit of canned cat food, in individual dishes. They usually only get dry cat kibble, so the meat was very appetizing, and they lapped it all up. In a couple of days the sores started drying up, and they stopped itching so much! In a week, they looked so much better that I reduced the amount I was giving them. In two weeks, their hair had started growing back in, and they started having a lot more self-confidence! The change in these two cats, is amazing!
