Acne and face

ACNE & BLEMISHES

Acne and blemishes have been a constant problem for me for two hyears. My gums are also always beeding. I used to apply T3 oil for my acne problem. 2 months ago, I started taking Transfer Factor Advanced and applying RenewAll on my face as well as using Transfer Factor Toothpaste. I take 1 capsule of Transfer Factor Advanced a day. Now I no longer suffer from acne, my blemishes have reduced and my skin is much clearer. I feel healthier and more confident. Transfer Factor really works!

ACNE

For five years I was on antibiotics for a severe case of acne. I still broke out about 20%. After 6 weeks on Transfer Factor™ my acne completely cleared up. My dermatologist asked me to bring him some information on whatever I was taking.

The other thing that happened was, I had a hole in my face, and now, I know this sounds strange, but it's the best way I can describe what a cosmetologist did to my cheek, 23 years ago. About every two weeks, I would have to do my ritual cleaning and poking around so the spot wouldn't get infected. It was actually a 5mm hole. Well, about two weeks ago I got all of my stuff together getting ready for my ritual and I got my magnifying mirror and know what, that hole was gone. This is after twenty-three years. That hole was gone! You know, I always was one who caught every bug coming down the tide. I realize now that it wasn't that I was born under some sort of a cloud. Now I see and now I know it was because my immune system just never had the "umph" to protect me effectively. Now, this is the first time I am really hopeful that one day I am going
