★★★★★ **Fighting Cancer**

By George Pedraza on June 16, 2012

The 4Life Transfer Factor PLUS Tri-Factor Formula was recommended to me by a good friend because my mother is currently battling breast cancer. My friend's mother was informed that she had 6 months to live after the doctor's diagnosed her with lung cancer. The initial shock was finding out she had lung cancer. She and the family felt like they were racing against time to expand their mother's life span. They were

4Life Transfer Factor PLUS Tri-Factor Formula. Her doctors agreed that she could supplement the chemotherapy with this formula. It's been two years since her first diagnosis. The lung cancer is almost gone, and she feels great. This story gives my mother and family hope that this formula can do the same for my mother. Faith and hope is all we have to look to when the odds are stacked against you.

★★★★★ **Immediate results!**

By [E. Sandoval](#) on May 15, 2014

Verified Purchase

My 5 year old is battling cancer stage III, and after every chemo we will have the nausea/ vomiting episodes, lack of appetite, low blood count etc. I started giving her a capsule a day, 2 weeks ago and OMG after a full dosage of chemo she lost weight but her blood count was wonderful, the Dr. Could not explained those numbers. Something else that is remarkable is that , not only she hasn't throw up but she actually ate the day of and the day after treatment,,that is something totally new for us in the last 5 months that we r dealing with this disease.

Amazing product I give 100 stars. My mom was going through chemo, this pills helped her feel not drained and gave her lots of energy. The doctor was amazed on how well she was doing. I recommend it 100% to everyone even if your not going through chemo or you think your healthy. Its worth what you, I just can stress it enough!

★★★★★ **PURCHASED FOR A SICK CAT**

By [LatinTemptress](#) on December 31, 2013

This product exceeded all my expectations. I first gave it to a sick, skinny, grungy street cat I fed. He had a bad tooth infection, was drooling and couldnt eat. His fur was matted, he was bony and he smelled really bad from whatever disease he had. I mixed canned food with the powder in this capsule for a week and he healed splendidly. His tooth infection was gone and his eyes were brighter! We kept giving it to him and he became a healthy gorgeously robust male. I then treated a kitten with an eye infection the same way. Her first day, the infection in her eyes dissipated and her eyes were alot clearer. I'm ordering another bottle for my house cats and for me!

★★★★★ **cured my eczema**

By [Katherine Bradford](#) on June 7, 2013

Verified Purchase

I absolutely swear by this product 100% and recommend it to anyone who is dealing with an autoimmune deficiency or disease. I have had chronic severe eczema my entire life, and have had to use steriods to combat the often infected and irritated skin patches. Over the years my skin has thinned, and I began to feel as if my issues were never going to be relieved. After doing research i found this product and let me say: it is the first time in my life that i have felt relief from eczema. The key to this product is to take as many pills as needed each day

★★★★☆ 4Life Transfer Factor PLUS Tri-Factor Formula by 4Life

By John A. Chambliss Sr. on August 15, 2013

Verified Purchase

As an 81 year old pharmacist I am skeptical but it appears to be effective for some persons. After no major breakthrough media exposure, I contacted several major medical resources and after telling them experiences patients experienced with this product, they replied that they HEARD good things but no real clinical info and if it was effective and if the patient could afford to continuing taking. I started selling this product in 1999 and purchased in large quantities for a long time but I discovered I could purchase here for less as the company I purchased from had high shipping charges.

**Customers also viewed these items**

buy instead of this one. It is transfer factors only.

This is 4Life Transfer Factor PLUS, and that PLUS makes a difference. This one contains the same transfer factors PLUS other herbs, mushrooms and a dose of Zinc. That is not necessarily a bad thing but in my case the extra Zinc is not what I wanted.

So, this is a great quality product in it's own right and this company makes the best of the best as far as colostrum and transfer factor products are concerned. Just be sure to check the label though since there is a difference in the formulas and what they contain.

★☆☆☆☆ **Didn't make a difference**

By [Marta Obosky](#) on April 13, 2015

Package Quantity: 1 | **Verified Purchase**

I took this to boost my immune system while battling Lyme disease, Bartonella and Babesia. I didn't feel any difference while taking these. I couldn't wait to get my bloodwork back to see if anything improved but nothing did... I get my CD57 tested, to test my immunity and it went down from 78 to 60 after taking the full bottle. Won't be purchasing again.

★☆☆☆☆ **Disturbing Sales Tactics, Exploitation of Emotion and Sick People**

By [dchem](#) on October 24, 2014

My mother was diagnosed with cancer. Within days someone contacted my sister about 4life products via facebook. I contacted him and asked questions. He told me of the thousands of people he helped only two died and that was because they stopped taking the product.

He sent me an "independent third party study" see link... [...]

I clicked on the link and it sent me to the Institute of Longevity. It was NOT a third party study. In fact the "4life logo" was on the building of the Institute of Longevity (again see link). Also, the Doctor listed in the study lost his medical license in California. See link

[...]

The doctor in the study, Dr Darryl See admitted to subjecting patients to research without their permission, administering indium, lead, copper, zinc to patients, administering blank vials without disclosing their content, failure to keep records of patients (basic medical practice 101), charging a quadriplegic patient \$12,000 for non FDA approved treatment by which he promised would work (but didn't).

I called the salesmen out on these facts. He told me that I should be positive regarding my mother's treatment and we need to get her this product right away and that Dr See has the balls to think outside the box.

The salesman said that he has doctors at Akron City Hospital using the product and that it is on their "approved list of dietary supplements." I asked him for the doctor's names. He could not give them. It was too long ago to remember off hand he told me. I then spoke with the pharmacy department, internal medicine department, dietary department, and oncology department at Akron City Hospital. They were unable to pull up any 4life product in their database. I called him out on this. He called me closed minded, refused to give me these doctors names he allegedly worked with, and blocked me.

I spoke with an ex distributor as well. He said one of the first things new distributors do when they sign up is go on amazon and give it a 5 star rating.

Use caution when you buy this product. Call people out on the lies they tell. I am not claiming this product doesn't

its funny when you go to webmd to read about this product their absolutely not one single adverse side affect. In fact, it states clearly that transfer factors showed improvement for many listed conditions and in other conditions no noticeable results but not once did it say that people could get cancer, heart failure, uncontrollable diarea, heart attacks, stroke, and or death! Can you say the same thing for just 1 prescription medication? Think about that!!! List one medication that if it doesn't kill you it makes you stronger with a tumor the size of texas growing out of your neck! **I went there because I was skeptical but now after 2 months of taking 4 caps a day my EBV symptoms are GONE and I no longer get sick every other week!**

[Jennifer Parrish](#) 1 month ago [Report abuse](#)

sounds like a lot and sounds expensive but how much does it cost for cancer treatments? Think about that. Do what you can afford it is better than doing nothing at all or poisonous treatments. Taking more is recommended if you are that sick because it speeds affects but you can only do what you can do <3

[Jennifer Parrish](#) 1 month ago [Report abuse](#)

I was just sitting here thinking the same thing!

[Julia Norwich](#) 1 month ago [Report abuse](#)

Muddy must be referring to one of the "go read the book" or "it's great stuff" posts. Thanks for your review.

are you still taking TF? **I just started TF for an auto-immune condition.**

[M Burgos](#) 2 months ago [Report abuse](#)

If you have the \$ try it for at least a month. I think it will be worth it. Good luck!

[M Burgos](#) 2 months ago [Report abuse](#)

**I can only give my own testimony. I started to use this product around 2003, for about a year. I used to get sick every single month, but really sick. This thing boosted my immune system. I have never been as sick as before since then and I haven't used it for years.** I've seen other's peoples life change because of the Transfer Factor. Good luck!

[Amazon Customer](#) 4 months ago [Report abuse](#)

I've been talking back and forth with a sales rep from the Phillipines. **She recommending 15 capsules a day to fight cancer, and up to 30 a day!** If I buy from the distributor website, it's like \$60 a bottle. Taking 15 a day, that's a bottle every 4 days or \$480 a month. Take it up to 30 pills a day

and that's almost \$1000 a month! I'm guessing she gets bonus points on sales? At this point, despite all the positive reviews here, I'm very skeptical to both this sales rep and those who wrote the reviews.

Orthodox medicine has a 95% failure rate for almost all stage 4 cancers and they charge you an arm and a leg before you die. Go write about that. In other words, if you're a stage 4 cancer patient and you place your trust in orthodox medicine, you are guaranteed to die 95% of the time. Really, why would you trust someone with such a horrible record of failure?

---

mol 7 months ago

Report abuse

My best friend started taking TF after diagnosis with lymphoma stage IV, on December 2013. By July 31st 2014 she was free of cancer, of course she took 6 chemotherapy but never lost her hair and was able to have a regular life during the time of her chemotherapy. I'm not a doctor and can't say how TF works but I thank the friend that recommended my best friend to use them. She just had a test after 1 year of being free of cancer and she is clear.

Sorry for dchem that didn't give this opportunity to her or his mom because disinformation.

TF does not cure cancer, they help your immune system to fight itself.

My mother-in-law is taking also TF due to her cancer and good results so far.

I have taken Transfer Factor Plus for years. I had a time for three and a half years that I never even got a sniffle. I usually got two to three colds per year. I stopped taking it when I bought my own house, and I couldn't afford it. For about a year I still noticed the benefits of the Transfer Factor, but then I started getting sick like I did before I found this product. I decided I didn't care if it was a little expensive, I'm buying it again. I have gone back to being as healthy as I was when I took it before. This stuff works, it really does.

Yeah, sounds like a typical pyramid scheme. I've seen it all before with friends and acquaintances. The indoctrinated become brainwashed and think their product can work miracles, science be damned. They "take the product themselves" and have "never felt better," and tout ridiculous results. I've seen the miracle juices and oils and crystals come and go. Typically after they don't strike it rich with the pyramid, oh excuse me, "multilevel or network" marketing, or whatever it's called today, they never mention the name of the product again. My mother-in-law suffered a hemorrhagic stroke 2 years ago and is now being told by (well meaning?) people that she needs this product to reverse the neurological deficits that remain. What a joke. And what a cruel thing to do to a desperate old lady who will try (and buy) anything to walk again. The ultimate goal of this is to make money network-marketing yet another nutritional supplement. I think it's the lure of getting filthy rich that makes people worship the product and give such biased reviews and imagine such exaggerated results. I get tired of seeing people with little or no knowledge of health issues being scammed by people with little or no knowledge of health issues.

dchem 1 year ago

Report abuse

Books - right, because they don't let just anyone write a book. But since you mentioned it, where

can I find a book written on Zija?

I've done more than try the product. My information is not half information and I did not receive the information. I had to dig and find it out myself because Zija does not divulge the information I requested. Their formulator has no verifiable scientific background despite his claims. Check for yourself. I'm not saying the product does not work. It has caffeine and anti inflammatories. Its going to give you energy and dull pain just like washing an Advil down with a cup of coffee will. You people criticize me for being negative but I haven't said anything that you can't verify yourself.

★★★★★ **Maybe Everybody Should Be Taking This**

By Buysolittle on May 6, 2015

Verified Purchase

I was having unwellness malaise in waves after contracting something like Turista in Mexico. It went on for months. I finally went to an MD who felt that my immune system was not handling whatever had happened in Mexico, and she told me about 4Life Transfer Factor Plus. In fact, she sells it out of her office. I did as she instructed and with two, sometimes three capsules daily, along with plenty of water, I never experienced the malaise spells again. I continue to take these, and my naturopath absolutely endorsed what he understands of the formula too. He said that probably everybody ought to take this!

★★★★★ **This is no joke**

By Amazon Customer on February 1, 2016

Package Quantity: 1 | Verified Purchase

Okay so my friend in another country talked to me about this product, she said it had reduced her dads prostate cancer 50% and the nodules her mom had in her lungs had completely disappeared. Late last year on 2015, I found out my boyfriends step that had nodules in his lungs too. Several of them. Well my friend had advised that when someone is sick they recommend to take a really high dose. 10 pills a day 5 in the AM and 5 at PM. You cannot overdose with this medication, it will make you feel like you are tired and you need to sleep, that is the body fighting all the bacteria and virus from the body. You have to rest. Anyways, we bought 8 bottles, 2 at the time. He didnt start taking 10 a day until the 2nd order, i didnt want to impact this body too much and I was a bit scared, because the unknown is scary sometimes, after the 2 bottles he started taking 10 a day. Well let me tell you guys, last week he called us so happy, so thrilled, he had just gotten the test results to see if the nodules were still there (the doctor knew we were doing this so he postponed the biopsy to test for cancer)... all the nodules had disappeared!!! I called him myself because i could not believe what i was hearing and yes he confirmed it was true, he sounded so happy and so grateful it was my idea to get this pills. Later his wife/bf's mom sent us the nicest message thanking us for this. I cried i was so happy. I know that some people are concerned about the way these pills are sold. Don't get them that way, get them here, that's exactly what i did. My Dad died of cancer 15 years ago, i wish i would have known this 15 years ago. He might have been alive today. You will not loose anything by giving this a shot. I will start taking them too as a preventive maintenance type of deal.

Good luck to you guys. This stuff works. Oh.. and no one paid me to write this post. Be blessed.

★★★★★ **The Jury Is Still Out**

By [Gezellige\\_Poes](#) on February 27, 2013

**Verified Purchase**

I have used this for many different animals and health situations: kidney issues, mouth cancer, intestinal cancer, pulmonary edema, heart valve malfunction, COPD, inflammatory bowel disease (IBD)... Each issue was with a different animal in different stages of health and/or deterioration. I have given it to my cat (w/ IBD) as a dietary supplement as a good health maintenance measure. From all the research and people I have talked to who believe and/or push this product, I would have thought at least one health situation would have shown improvement. For crisis management, this offered no reprieve whatsoever. My cat with intestinal cancer, in fact, ended up passing this in her stool. For my cat (IBD) who has received this as a dietary supplement, I have seen no indication that this is helping his health profile in any way whatsoever. Hundreds of dollars and many bottles later, I have bought my last one.

Super excellent product. I started using it as I was having issues with Sinusitis for years and no control of it. Now, I feel that I am getting much better and I do not have the regular Sinusitis crisis that I used to have before. Now, I bought some for my Dad's use. He has prostate cancer, but he is very ill as it has metastasis in different areas. After reading the benefits of 4Life Transfer Factor Plus, I started providing Transfer Factor Plus. Let's see how it goes and I will keep you posted.

By [aikoward](#) on April 13, 2015

Verified Purchase

This supplements contains all of the main mushrooms for immune support including abm. I ordered it for my husband when he was diagnosed with cancer. His White Blood count along with his NK and T cells spiked way above the normal range! I gave it to my dog when she was diagnosed with chronic brochitis and it cleared it up. I also give it to my 5 year old granddaughter to help her immune system.

★★★★★ **4 Life Transfer Factor Plus Tri- Factor Formula cures nodules in lungs.**

By [fena](#) on April 22, 2015

I was on holiday in Australia in November 2014 when I thought I had bronchitis( was coughing a lot) I went to a GP and she sent me to have STSCAN.

The result showed 6 nodules on my lungs , 2 were as big as 1 inch each.

My friend told me in Bali, Indonesia told me about 4Life Transfer Factor Tri-Factor Formula. My husband who is American was skeptical but I though I had nothing to loose since it is all natural and no side effect.

I returned to USA in March and 3 weeks a go my GP sent me to have a chest Xray prior to sending me to a lung specialist.

When the Chest Xray result came, to my surprise and relief ; it shows that my lungs are clear! no trace of any nodule!

I truly belief that the 4Life Transfer Factor capsules I have been taking 3 times 2 capsules a day for the past 5 months cured my lungs.

I still take it 3 times a day . By the way I am 61 years old.

★★★★★ **Really Awesome Product!**

By [Tasman Bay Butterfly](#) on February 5, 2015

Verified Purchase

Awesome supplement for auto immune and cancer issues. It really does work over the long term. It kicked in within a month & I'm getting better the longer I keep it in my system. I have used this in the past and it took a year to see optimal results, which lasted several years. I'm back on them and I think this time I will stay on them forever.

LOVE this product. It came recommended to us by a natural health expert. We've used it for people and animals. It's worked beautifully in every situation. You need to read about it to learn how it works and what it is. I keep this on hand at all times. I definitely will buy it again and do highly recommend it.

★★★★★ **Good for my Dog**

By [carolyn volpe](#) on January 17, 2015

**Verified Purchase**

**I give one per day to my Pomeranian, it does help him with allergies and skin itching.**

He would have to visit the vet a couple times a year previously, to take antibiotics and sometimes have a cortisone shot. He would scratch himself raw.

Since taking TF, we have not had a single visit to the vet. I have on occasion, given him 3ml of antihistamine, usually one dose sets him right.

I have been consistently giving him this product for about 4 months with very good results.

I originally bought the regular Transfer Factor, it is a little cheaper. Both products worked well

★★★★★ **Really Works!**

By [JFO](#) on May 9, 2014

Package Quantity: 2 | [Verified Purchase](#)

Surprised this does not get more publicity. This is an amazing product. I am the biggest skeptic ever and hate the whole concept of taking ANY pills. No BS with transfer factor. Puts your immune system into 5th gear and really makes a difference!

▶ [Comment](#) | 3 people found this helpful. Was this review helpful to you?   [Report abuse](#)

★★★★★ **Amazing Product**

By [Alejandra](#) on December 4, 2014

[Verified Purchase](#)

This product is amazing. I bought it for my sister in law who was starting chemo (red) for breast cancer. She got her first round of chemo before starting taking Transfer Factor, and the first days after the chemo were really hard. She felt sick, very tired, nauseous... Then she started taking Transfer Factor and she said she felt a lot better.

She got her second round of chemo, and she does not feel as bad as with the first one. I am not saying not to expect any symptoms after the chemo. It is after all, very strong and debilitating. But taking Transfer Factor really helps boosting the immune system. My sister in law also changed her diet, she eats healthier, and foods that also help building the autoimmune system, foods which contain lots of iron, so i am sure this also helped, but she swears by this product. I believe she take 4 pills a day, which becomes in a very expensive treatment, but it is well worth it. We recommend this product 100%

☆☆☆☆☆ **Do some sleuthing before—and read the one-star reviews**

By [Julia Norwich](#) on March 29, 2016

Package Quantity: 1

This sounds a lot like Mannatech and its flagship product. Mannatech is an older, multilevel marketing firm selling nutritional products. If you notice "Dr. See" being quoted in 4Life Transfer Factor, etc. promotional material, google "Dr. See" and Mannatech.

Claims for this item online and here also remind one of older products/claims, and pricing is like that of an MLM as well.

LA Times reported on a suit against Dr. Darrell See by Mannatech in August 1999 for "false claims" and described "Dr. Darryl See [as] a former associate clinical professor at UCI's College of Medicine and a \$10,000-a-month consultant for Mannatech."

Google the names and see what you come up with for yourself.

That distributors would add "positive" reviews, as a reviewer claims, makes some sense in the MLM scenario as well.

Amazon—for shame.

By [Raymond](#) on June 10, 2015

Package Quantity: 2 | [Verified Purchase](#)

Gave it as a present to a friend who was diagnosed with Stage 4 Liver Cancer. Before he took this supplements he had difficulty in walking and in sleeping, had poor appetite because of the pain he was experiencing. After taking these capsules (3 caps a day), he gained back his appetite, and he sleeps soundly like normal according to his wife. I hope he will continue to get better. I believe this product works as I am a chemist myself so i should know.

☆☆☆☆☆ **This product caused my cat to have a horrible death within 4 hours of taking it! HORRIBLE SCARY STUFF!**

By [Lifellusions](#) on April 17, 2016

Package Quantity: 1 | [Verified Purchase](#)

This product caused my cat to have a horrible death within 4 hours of taking it. I rarely write reviews but I want to caution others from the 'miracle' stories you will hear and read about this stuff. If you type in Cat or Feline CRF (for Chronic Renal Failure) along with Transfer Factor, there are all these amazing testimonials about how it saved someone's cat with CRF. Well my cat's Creatinine was less than some of the cat's people talked about in the probably fake testimonials (my cat was only 6.5 years old and his Creatinine level had tested at 5.2 just a couple days before he died). He was already nearing the end I am sure, but whatever this stuff is, it made his death much more HORRIBLE AND SCARY than simply passing quietly...whether alone or having a vet come to the house for euthanasia. I syringe fed my precious, sweet kitty only half a capsule of the this Transfer Factor Plus (everyone else said they gave their cats 1 capsule every day) and he immediately tried to throw it up, but with CRF, there is dehydration, so nothing would throw up...I was holding him up so he wouldn't collapse and choke, but he went into a coma within a couple of minutes. It was horribly traumatic. After about 2 hours of laying in this coma with his eyes open but no one there (with my husband and I laying by him trying to talk with him and comfort him, he woke up briefly, then he collapsed again...again in a coma with eyes open but no one there. Then an hour later he woke up and cried in pain (he had not cried in pain before). I picked him up thinking maybe he wanted his litter box (to the end he used his box), but he couldn't stand and collapsed and cried in pain more. He then threw up a tiny bit of fluid, then had a seizure (he had NEVER in his life had a seizure before) and I was holding him telling him I loved him and said 'let's have your last belly rub' (he loved his belly rubs) and he died in my arms right then--less than 4 hours after taking this scary stuff! And it was NOT a nice death--except that he was in my arms and not at the vets office. When I talked to someone on the phone about this stuff, they said you could take tons of it and it wouldn't hurt you because it's just a special harmless immune booster that was a 'miracle'. Well obviously I wanted a miracle so I ordered it overnight and it arrived on Saturday at my doorstep. I wish it had not ordered it overnight because then my kitty could have died more peacefully. I feel so sad that I gave him something that made his dying so awful. Please don't listen to the hype about this stuff...don't give it to your really sick animals or self...maybe it is okay and can help if given when you are just slightly sick, but I would NEVER give it to a really sick animal or person. DON'T LET THEM FOOL YOU THAT IT IS HARMLESS AND CAN CAUSE NO HARM...CLEARLY IT CAN AND IT DID!! I agree with someone who said they play on people's emotions...I can't believe I got suckered in. I guess it's because I believe in miracles because I personally had my own miracle years ago when I used Dr. Schulze's Incurable's Program (I did the whole program except I did not do the Cold Sheet Treatment). I was told I had a 'benign tumor in my pituitary in my brain' by my endocrinologist who said the only way to get rid of it were these hard core drugs. Well I told the Dr. to give me 30 days to try my own thing before taking the hard core drugs...and for 30 days I did the incurables program and went back in and the Dr. thought I had taken the drugs because everything was normal. If I could have done the incurables program with my cat, I would have, but some of the herbs are toxic to animals...but the one thing that my cat flourished with was Dr. Schulze's Superfood. He bounced back after he initially crashed (he was on his deathbed and his Creatinine was at 8.2...but after 3 days at the vet with IV fluids and then me giving him Superfood and a few other supplements, he had been doing much better for 6 weeks and his Creatinine dropped to 5.2). He never had a bad reaction taking the Superfood and I gave it to him several times a day and he started being himself again, purring, cuddling, playing, going outside. I consider myself smarter than getting suckered into this stuff, but when he started to decline again, I was desperate since my cat was so young and his Creatinine was lower than other cats...it was only after he passed that I read in very rare cases, lowering Creatinine might show up due to muscle wasting--and my kitties muscles were definitely wasting. Yes my cat obviously was going to die anyway, but maybe not for another day or two and CERTAINLY NOT in such a horrible way! I'm sorry for the long detailed review...but people need to know that this stuff can be dangerous!! I wish I could give this negative stars!!

#### ★★★★☆ Lung Cancer Stage IV

By [Leena P.](#) on June 19, 2014

[Verified Purchase](#)

I bought this for my father who has Lung Cancer Stage IV and was loosing his voice while waiting for conventional therapy and scheduling that took over a month process. After taking this my father feels energized and his voice returned but I was making him take this along with Paw Paw so I'm not so sure what did the magic but his voice returned within 2 weeks (after 2 months of coughing and absolutely no voice). I figure why not give myself a try because I tend to get infected very very easily and typically get sore throat every month or 2 but in 6 months of taking this (and other natural remedies like manuka honey, sodium bicarb) I am surprised I haven't got that nasty sore throat in half a year....Can I say for certain? No, but it is what it is.

#### ★★☆☆☆ Giving Up!

By [Darlene R.](#) on January 5, 2016

Package Quantity: 2 | [Verified Purchase](#)

Had my dog on Tri-Factor for over a year after he had his spleen removed because of a large tumor. Was told to start giving him Transfer Factor Plus (more expensive) but even with taking these, he got an infection in the stomach which caused diarrhea. Had to take him to the vet and they gave him Panacur for 5 days and the diarrhea got worse. Like water. Then I gave him Bentonite Clay and in 3 days it was cleared up! Now he has an anal gland infection. He is on antibiotics and a steroid spray. I am now giving him 4 Transfer Factors a day. Not doing a thing for his immune system. I have to give him something for his immune system because of the spleen removal. I will try to find something else for his immune system that will work. Once his anal glands heal, I will put him back on the clay because it removes toxins and it supplies very good minerals.

★★★★★ **Love Transfer Factor**

By [Huey](#) on March 23, 2016

Package Quantity: 1 | Verified Purchase

Love Transfer Factor, started taking it in early 2000's whenever I felt I was getting sick, it always got rid of the symptoms. Haven't used it for years, kind of forgot about it, ( how could I forget this wonderful stuff)anyway remembered it and was happy Amazon carried it even though 4 Life Headquarters are less than an hour from my home, I didn't have time to make a trip there. I had a terrible cough for 5 weeks. I remembered Transfer Factor after I finally went to Doc and got antibiotics for bronchitis. That cough kept trying to come back after I received my Transfer Factor, kicked it's butt every time!! I've also had sore throats and take this and it is gone the next day. I teach school for a living, so everyday I'm around lots of germs. Transfer Factor is fantastic, it won't disappoint!!

☆☆☆☆☆ **Watch out for GMO SOY!**

By [Jena](#) on April 26, 2015

Package Quantity: 1

According to the 4life website (their PDF product brochure) this product contains ingredients derived from SOY. You should be aware of that not only because there is a 97% chance this SOY is genetically modified (as in GMO), but also because soy molecules mimic estrogen, which leads to hormonal imbalances in the body. It is equally advisable for men and women to avoid soy and soy-derived products as estrogen imbalances can lead to life-threatening conditions such as breast cancer.

And for 4life I have to add that I had full intentions to give this product a chance until I saw that it contains SOY. Since your product is supposed to improve health and your customers are mostly health-educated folks, adding GMO SOY was a surprisingly poor decision on your part. Makes me wonder what other mistery ingredients you're adding to your supplements that could potentially compromise my health.

★★★★☆ **Bought this for my cat**

By [c. Bradshaw](#) on May 25, 2015

Verified Purchase

My cat eats the 4 life transfer Factor with whipped cream...no problem. But just bought this one and he won't eat it. Bitter. Just a warning. Still will give it a 4 because it is really good stuff. The regular 4 life one I give to my FIV cat to keep him healthy. Gave this one to my elderly mother to help keep her healthy.

★★★★★ **Not just for people...**

By [Alikat](#) on November 11, 2014

**Verified Purchase**

I got these for my cockatiel after something I'd read in an avian veterinarian's website. My little friend got sick and had to spend almost a week hospitalized. We paid the alarming bill and brought her back home. All we could say about the experience is that she survived but she was still lethargic and puffed up.

This is where the Transfer Factor came in after searching the web for ways to save my bird. I sent away for a bottle and began pouring about a third of a capsule into cooked rice, boiled eggs, lentils etc., to feed them. Within the week the other birds had oodles of energy and after two weeks my sick, apathetic little bird was back to normal and chirping once again. Their feathers are glowy and more beautiful than ever, they are vocal and happy all day. The rest of the family noticed the improvements in all of them but especially in the one who didn't look like she'd make it another day.

Now, I haven't started to take it yet, but if TF can do this for birds, how much more will it do for humans, for whom they were originally intended? Hmmmm..... :-)

★★★★★ **Better than prescriptions drugs.**

By [Julieta Lopez](#) on November 16, 2014

**Verified Purchase**

I was really sick for a couple of months and end up hospitalized with different symptoms and after lots of tests I was diagnosed with an autoimmune disease called ankylosing spondilitis I was taking many different medications but feeling worst every day I guess the doctors were trying to find the right combination but after months of feeling sick every day a friend send me a bottle of 4life and I decided to stop all the medications and start taking the 4life, after a week or less everything changed and I started to feel better every day I am in my third bottle and plan to live on it. I feel alive again full of energy and have very few and mild syptoms thanks to 4life. I do recommend this product.

I really hate it. I would rather not order this at all, but it's one of the only things that seems to fight back cancer. I tried chemo but it was killing me to do. when I was told that this works. working on first bottle of them, hope it can do what other things can't. fast shipping good packaging, will use them again..

▶ [Comment](#) | 6 people found this helpful. Was this review helpful to you?   [Report abuse](#)

★★★★★ **Wonderful Immune Support**

By [snowleopard4](#) on April 25, 2012

**Verified Purchase**

I originally learned about this from a holistic vet and have been using it to treat ear infections in one of my cats, which has actually helped me to avoid surgery for her. My holistic vet told me that it works better in people than in cats but that for my cat's infections the mushrooms in this particular product were helpful because of their powerful anti-inflammatory properties. Based on her recommendation I also give her Standard Process Feline Immune Support and she gets acupuncture for her ears. I started taking it when I was sick with bronchitis and it helped me recover much faster. I have been taking it regularly ever since and have not gotten sick, which is incredible for me, as in the past I have always gotten whatever I was exposed to. I take two a day and whenever I feel overly tired and run down I up it to four or six and am always able to fight off even severe flus that I am exposed to. Highly recommend for building a compromised immune system.

★★★★★ **Helped me get through chemo!**

By [Kristy](#) on March 10, 2016

Package Quantity: 1 | **Verified Purchase**

I started taking large doses (6 capsules a day) of this daily after I was diagnosed with cancer to boost my immune system. I also continued taking it while I was doing chemo and I think that it had a tremendous impact on how great I felt all throughout my treatment. Granted I was also doing weekly high dose vitamin C infusions too, so who know's which one I should be giving credit too, but I'm sure this stuff made a big difference. I will continue to take it to prevent a re-occurrence.

★★★★★ **Beats taking cortisol shots**

By [Catherine](#) on September 14, 2014

**Verified Purchase**

I initially bought 4Life Transfer Factor for my cat. I found rave reviews on pet sites and my vet also supported this product as an auto immune booster. Unfortunately, he was diagnosed much too late into his disease and he never even received half of the bottle. I had purchased two bottles and thought I would take it myself as I have trigger finger and a little bit of arthritis in my hand. I would say that within three days of taking one capsule a day I have had more flexibility in my hand. I'm into the second bottle and will more than likely continue this protocol for relief. I still have a bit of rigidity in the finger but only in the mornings. It is noticeably different than almost a month ago when I'd have to manually straighten/unlock the afflicted finger with my other hand.

★★★★★ **miracle**

By [pbc](#) on January 7, 2014

**Verified Purchase**

Ive taken alot of different vitamins in my life for different reasons, and some work and some dont seem to work as well, ive never taken a product that worked so good at making you feel good. All around, better health, better mood, it really works, quickly, but when you run out of them you pretty quickly feel sluggish and tired, if I could have a lifetime supply for 20 dollars a bottle, I would buy them, but they cost too much to buy all the time. So I buy a bottle when I really feel down or sick, excellent product, just too costly.

★★★★★ **Fighting Cancer**

By George Pedraza on June 16, 2012

The 4Life Transfer Factor PLUS Tri-Factor Formula was recommended to me by a good friend because my mother is currently battling breast cancer. My friend's mother was informed that she had 6 months to live after the doctor's diagnosed her with lung cancer. The initial shock was finding out she had lung cancer. She and the family felt like they were racing against time to expand their mother's life span. They were

★★★★★ **Great top product**

By [carla jesus](#) on April 7, 2016

Package Quantity: 1

Can't live without 4life products.  
Since I started I never had to go to the doctor. My immune system has been stable.  
My daughter is taking Tri-Factor since she started on formula and has energy that's never end.  
Everyone should taking these and also search a bit about transfer factors.  
Great top product!!!!

★★★★★ **Amazing!!!!**

By [Abby](#) on April 18, 2014

**Verified Purchase**

I am over 30 and just when I thought I was acne free my acne began to act up again was tired of going to a dermatologist who just took my money and my face was worst every year. My father in law gave me one of 4 life products the fiber system cleansing. I noticed my skin began to clear up while on the cleansing treatment. The transfer factor keeps all my infections away, feminine monthly infections I use to get and cystic facial acne infections it fortifies your immune system and gets rid of all infections some people even use it when they have cancer and it helps them heal quicker while they are taking their therapies, saw it with my own eyes, this product is amazing!!!! Best thing no secondary side effects for me any more. Every one is different but I can tell you I have seen to many good things come out of this products to everyone I recommend the only to people that this product did not work for after I recommended it to them was a lactose intolerant person and an elderly who is under lots of meds and takes other natural products daily she said she would get a headache and the lactose intolerant person would get gas weird, but unfortunately it doesn't approve everyone's system. However is worth trying .

★★★★★ **I was amazed by the testimonies I read**

By [Gatton1505](#) on September 6, 2014

Verified Purchase

My husband has some very serious health issues and we were looking for ways to boost his immune system. In doing some research on the Internet, I ran across this product. I was amazed by the testimonies I read, and was pleased to find that Amazon had the best price as well as the added bonus of free shipping. Even so, it is still quite expensive. It will be worth it though, if it really does work. My husband is nearly finished with his first bottle. We've also started eating healthier, making our own natural hi Jean in cleaning products and in general are trying to limit our exposure to toxins. We are both feeling remarkably better and are eager to see what his next blood work results look like. We will continue purchasing Transfer Factor from Amazon as long as we can afford it.

★★★★★ **Gets Results**

By [Diane](#) on September 25, 2012

Verified Purchase

Taking the time to possibly help someone. Put my teenage son on Transfer Factor in hopes of bringing down a too high HHV6 number he got on test result(I have a high number too). We've tested him about 4 times(over at least 6 monhs) and his number has come down each time. It's a "3" now according to Labcorp and needs to come down to a "2." Very successful. I tried the product for 3 months and my number didn't budge. I have other health issues and perhaps because I've lived ill longer than my son, it didn't help. I thought 3 months was enough time to see a difference and my dr. agreed. Definitely worth a try and was recommended by the dr. we saw who sees CFS/fibromyalgia patients.

★★★★★ **Beware if you have a problem with olive leaf extract**

By [KodiakStar](#) on April 13, 2016

Package Quantity: 1 | **Verified Purchase**

Unfortunately, Transfer Factor Plus is not for me. I bought this for my dog and she is doing well on it, but when I tried 1 capsule, I became severely nauseous. I gave it 5 stars, because it's not the products fault. I am very sensitive to olive leaf extract, which makes me very sick for a few hours. So, for anyone who has a problem with olive leaf extract, this formula is not for you.

▶ [1 comment](#) | Was this review helpful to you?   [Report abuse](#)

★★★★★ **Love this !**

By [Patryk](#) on March 15, 2013

**Verified Purchase**

I was told about this by my mom and was totally skeptical. This does not work immediatly and it does make your stool softer.

**I am loading up with 2 pills each day to avoid allergies for my wedding. Using this product before took about 6 months to really work but I had maybe about 1% of outdoor allergies which is about 98% improvement.**

**After reading up more on pet allergies, I decided to give my cat 1 capsule a day to prevent the horrible allergies after being adopted from PAWS chi. I will say that after thousands of dollars on tests and prescription food, he is now great and his hind legs are not shredded up.**

It works but If the price was any more I would stop all together as its over a bottle a month for me because of my pet as well.

★★★★★ Highly Recommended. Boost to Immune System. Good for Travelers.

By Jam-i on October 3, 2014

Verified Purchase

This was recommended to me by a holistic practitioner who knows his business. I've been using it for almost two months (re-ordered it, in fact) and like to use it to build up immune response prior to overseas (third world or other) travel. I think I'm hooked on using it now.

★★★★★ **For feline herpes, it's top-notch!**

By [Cerise](#) on August 16, 2013

**Verified Purchase**

Our Penny (Maine Coon Mix, age 11) has been battling the most stubborn case of feline herpes for the past six years. It's been getting progressively worse - she spends more time in her e-collar than out of it.

She's been on 1250mg lysine a \*day\* and Famciclovir (antiviral). She also has Idoxuridine (antiviral) drops, as needed. Nothing works. And lately, Penny has been grouchy, can't keep anything down (food or meds) and urinating on the rug. She's withdrawn from family life and utterly miserable.

I took her to the vet for blood work and her albumin and globulin (blood proteins) were mildly to moderately elevated. So was her ALT (a liver enzyme). The vet told me those things indicate "chronic inflammation."

Penny has also tested negative for FIV and FLV. The vet was at a loss and told me to add Pepcid to her roster of meds.

I went home and brainstormed, Googled, "holistic care for feline herpes" and found an old, defunct message board that mentioned this product and Shirley's Wellness Cafe website.

I hemmed and hawed about ordering it - frankly, the way everybody raves, it sounded too good to be true. I thought I might be buying some expensive snake oil - but I had to do something for Penny because what we were doing clearly wasn't working.

I am SO glad I trusted my gut feeling and bought this product!

**I gave Penny the adult human dose - two capsules, twice a day. I noticed an improvement within 24 hours.**

I'd planned to start lowering Penny's Lysine and Famciclovir slowly, but she wasn't having it. Tuesday I started giving Penny a more sane dose of Lysine (250mg, 2X daily) and on Wednesday, I pulled the Famciclovir from the roster.

Penny came out of her e-collar today, after \*five days\* on this product and that is a record!

I'm going to start tapering her down after a week or so - next week, I'll try 3 a day, the week after that I'll try 2, and the week after that, I'll try alternating between 2 one day and 1 the next - I have to find the right balance for my girl.

**Did it cure the herpes? Of course not. But it's knocked it back into submission so Penny has a good quality of life, hopefully with minimal future outbreaks. In the event of an outbreak, I can just up the dose of the 4Life Transfer Factor.**

I really wasn't expecting the results we got - or so quickly! I'm so grateful Penny has a shot at a happy future - with clear, bright eyes and the e-collar back on the shelf in the bathroom closet, where it belongs!

★★★★☆ **Burp**

By [Virginia Bodine](#) on February 8, 2014

**Verified Purchase**

This product also makes me burp for about 30 minutes after taking it; just keep your mouth shut and no one will know; they're small burps most the time. Waiting for the product to build up in my system so it can do what it's suppose to do.

By [bruce](#) on August 20, 2015

Package Quantity: 1 | **Verified Purchase**

My vet recommended one third of a capsule each day for my chihuahua. It's hard to say if it's doing any good but the little one is 14 years old and I'm hoping he lives a longer life. He still seems healthy now so could be it is one of the supplements keeping him well.

**★★★★☆ This stuff works.**

By [Leigh](#) on March 7, 2014

**Verified Purchase**

I ordered this and the k-9, but my dog wouldn't eat the powder, so I returned it. I have since started sharing the capsules with my dog, and she seems better. I pray it will continue to heal her. As for myself, good stuff. I have been around numerous people including husband. when they got sick with flu and unknowns, I did not get ill. I feel certain it is due to this product. I just take one once a day whenever I'm feeling run down and within hours I'm back to my old self. I would love to be a distributor for 4Life products, but don't like the monthly order demands. Good Product though.

**★★★★☆ Transfer Factor Products**

By [Jose Ortiz](#) on May 4, 2016

Package Quantity: 1 | **Verified Purchase**

Presumably this product; Transfer Factor, acts upon the immune system "educating" the lymphocytes to distinguish between the "good boys" (healthy cells) and the "mean boys" (the cancer cells) so they kill the bad ones and not the good ones. Anyhow that, it is my believe, has been their fundamental marketing argument to position this formula from its beginning several years ago. The fact that consumers, like myself, keep expending one dollar a day in taking a daily pill of TF plus, in a country like the communist influenced Venezuela where, in all likelihood, one is bound to be killed by a thief's bullet rather than any type of cancer, means that TF does some kind of good that probably only God knows how. Anyway, I can tell that Amazon is not responsible, for the product performance, its function is just to market and sell the product all over the global map, all within the world highly appreciated USA excellent marketing techniques, fundamental building block of Capitalism, the, so far, only economic system that works in planet Earth. Keep up the good work and the green ones coming into your cash register in substantial amounts. Cheers!

**★★★★★ It is work**

By [Rafael Ureña](#) on March 9, 2015

When you read all of the reviews you do not know if they are true or false. I am going to write the following testimony. I have a friend with breast cancer. She was almost dying. She was on bed. She told to her doctor no more chemos and that she will start taking 4life Transfer Factor Plus Tri-Factor Formula. Her doctor respond that she will be the unique responsible of that and that he will not want to see her in case she get worse. She decided to take this product. She has been taking the product for years and she looks perfect. I am going to buy this for a parent. My E Mail is rafaelurena1225@gmail.com, nobody is paying me for writing this review. It is this true in this case of this friend. I am no sure if this product is original or fake because 4Live is selling it for US\$60.00 a Amazon for US\$42.00.

March, 17th, 2015.

After reading in Internet about 4Live I am really not sure about the quality and the effectiveness of this product. This company has very bad reference, besides their products are not approved by the FDA neither New England Journal of Medicine, so be carefully. I bought this product and I decided not to take it.

March 18th, 2015.

Bertha Soiza sent me a E Mail regarding my review, I have been trying to answer her, but her E Mail address does not accept my note.

**★★★★★ Make your immune system strong and smart**

By [Amazon Customer](#) on September 21, 2015

Package Quantity: 1 **Verified Purchase**

We have been using this for almost 8 years and it works wonderful for our family, my little girl used to be sick constantly and after using this; her immune system got very strong, we hardly ever get sick or go to the doctor (maybe twice in 5 years) and we have it at hand just in case some one starts with flu symptoms, pop two capsules twice a day and don't even use any flu medicine.... while other kids around my kids look and get sooooo sick even to the emergency room, my kids are very healthy and of course I am a very happy mom.

★★★★★ **Fighting Cancer**

By George Pedraza on June 16, 2012

The 4Life Transfer Factor PLUS Tri-Factor Formula was recommended to me by a good friend because my mother is currently battling breast cancer. My friend's mother was informed that she had 6 months to live after the doctor's diagnosed her with lung cancer. The initial shock was finding out she had lung cancer. She and the family felt like they were racing against time to expand their mother's life span. They were

★★★★☆ **Effective or not?**

By [georg](#) on September 3, 2014

**Verified Purchase**

See my review of 4Life Transfer Factor Classic. I don't know whether this product has any actual benefit. It is expensive and does lend me some hope for my pet. There is some scientific research that supports the effectiveness of the product. It may be beneficial. I don't know. Much depends on how much discretionary income you have and needless to say the love of your pet or possibly your own health concerns. Wishing you success in your search.

be potent. I got Transfer Factor 4 Life Plus for him, and it worked wonderful, but WAY overpriced just because of the name and again a lot of additives so they don't give you enough of what's needed. I was giving 3-4 a day so bottle went fast. It did have Olive Leaf in it though which kills all fungus and virus, but I give that separately to get right dosage and don't want to be paying huge bucks for it. I finally found an excellent source of Colostrum at 3 times the strength and twice as many capsules for half their cost! My poor boy came home from my handler with mange and his whole face went bald it was so bad. Normally with Ivermectin you're looking at 6 months to a year for a cure. Through Holistic means I had him all cleared up and hair growing back in just a few weeks. From now on, no dog shows until pups are full grown at 18 months and Colostrum until then.

★★★★★ **totally recomendable to all!!!**

By [libellula](#) on January 11, 2012

It's a product that all of human beings would need! it's just naturally helps us to support our immune system on a level it should be!! I've been taking it for many years and some health problems that i had just magically dissolved...I haven't even noticed when... It is a smart product, it knows what parts of you health have to be fixed. I'm glad that I got to know Transfer Factor Plus and since then I don't need to take any medicine every time I feel sick. Just love it!!!

★★★★★ **Working for my sick kitty.**

By [carol hoffman](#) on August 23, 2014

**Verified Purchase**

I bought this for my cat with Feline Leukemia. I read on a vets web site that he shrunk a mouth tumor in five months with this product. The Plus has a little bit of a nasty taste in her food, but if it's the first feed of the morning, I use a strong fish flavor food she loves, and I make the feed really small, ( so she eats all the med), it's been working. I also use the Carnivora Protocol.

★★★★★ **Stopped Colds and flu**

By [Clara D](#) on February 9, 2013

[Verified Purchase](#)

I love this product, I take 2 pills when I feel that will get a cold and 1 daily. Neither my husband and I have gotten colds after we started taking them. At the beginning of the season I got 2 sinus infections and had to take antibiotics so I am thrilled now. I also was very much exposed to the flu and didn't get it. I will see if I can get my son to take the children's one. A bit expensive sure, worth it for sure!

★★★★★ **Fighting Cancer**

By George Pedraza on June 16, 2012

The 4Life Transfer Factor PLUS Tri-Factor Formula was recommended to me by a good friend because my mother is currently battling breast cancer. My friend's mother was informed that she had 6 months to live after the doctor's diagnosed her with lung cancer. The initial shock was finding out she had lung cancer. She and the family felt like they were racing against time to expand their mother's life span. They were

★★★★☆ **Transfer Factor PLUS vs Transfer Factor alone.**

By BookNerd on May 19, 2015

I have used this in conjunction with Aloha Immune Assist and it is a great product. Be aware that this comes in TWO formulations though, and the bottle for both looks just about the same. Easy to get them confused.

There is 4Life Transfer Factor Formula - the original, and that is the one I like best and the one

★★★★★ **Excelent**

By [Roberto](#) on September 26, 2011

**Verified Purchase**

This Formula is excellent to reinforce the inmune system, because make your body more healthy, and you fell more healthy, more energy. You can be with people with flu without stress, because your inmune system fights against the virus of the flu, and any viruses of bacterias that try to penetrate your natural barrier in your body.

Is Excellent.

★★★★☆ **i just know my cat HATE it taste**

By [PepilSlove](#) on July 22, 2015

**Verified Purchase**

I bought this product for my ill cat, because i read many positive reviews in internet about how it help cats with cancer, but has passed a month and 2 bottles after and nothing happened, i gave my cat from 1 to 3 capsules each day, actually i believe my cat still a live because of chemotherapy and Essiac tea, i dont know if this product really helped a little or did nothing, obviously i wont stop others products and chemotherapy to see.

i just know my cat HATE it taste, but well i keep trying and i really hope it will help my cat in a close future.

I just noticed chemotherapy did not much on my cat like vomiting or nausea i really really hope TF help her to no get side effects from chemotherapy.

★★★★★ **Fighting Cancer**

By George Pedraza on June 16, 2012

The 4Life Transfer Factor PLUS Tri-Factor Formula was recommended to me by a good friend because my mother is currently battling breast cancer. My friend's mother was informed that she had 6 months to live after the doctor's diagnosed her with lung cancer. The initial shock was finding out she had lung cancer. She and the family felt like they were racing against time to expand their mother's life span. They were

★★★★☆ **Transfer Factor PLUS vs Transfer Factor alone.**

By BookNerd on May 19, 2015

I have used this in conjunction with Aloha Immune Assist and it is a great product. Be aware that this comes in TWO formulations though, and the bottle for both looks just about the same. Easy to get them confused.

There is 4Life Transfer Factor Formula - the original, and that is the one I like best and the one

#### ★★★★★ LOVE THIS STUFF AND IT WORKS WONDERS

By M. Jones on January 2, 2015

Verified Purchase

My little 12 year old Yorkie rubbed a hole in her eyeball and Vet said there was no hope it would have to come out. I used this , kept eyes clean with boric acid solution and much prayer. Her eyes are healed now and sight is coming back. Great product and it helps me sometimes when I start feeling unwell.
