I have been using the Luminesce range of beauty products for the past 3 months and have noticed great improvement on my skin. My pigmentation is lighter now, smile lines have disappeared and less droopy eyelids. I have been receiving compliments from my friends and hairdresser on how fair my skin looks. My students exclaim that I look younger now!

Like · Reply ·  10 · Feb 23, 2016 5:11pm**Linna Chua** · Nan Hua High School

Been using this amazing Luminesce skin care products more than 3 months.. It has more than 240+ growth factors in the Serum, my complexion greatly improved! Friends said Wow you look good and your skin is fairer, brighter n glowing now!

The nutritional fruit blend Reserve which is highly antioxidant and DNA cells repair - helped many to healthy body and regain their health from terminal illness!

My eczema condition was very bad in the past. It lasted for over 5 years and I had problem sleeping on some nights when it got very itchy. It lasted until I tried Jeunesse products. After taking Reserve and applying it on my skin, my eczema condition

improved so much and it does not bother me anymore now. My eczema is almost gone, and my skin is smooth and perfect!

How many packets of Reserve and for how long to see results?

Like · Reply ·  2 · Feb 23, 2016 7:07pm

**Alyssa Chee**

Onlyoneyou Diana WeeHi Diana, I take one packet of Reserve a day, and apply a little on the problem skin area. Results are fast, just in a few days, the eczema is mostly gone!

I started using the Luminesce skin care range of products 4 months ago, and within a week, I could see that the eyebags and fine lines and wrinkles around my eyes had reduced immensely and I look much younger. I have also been taking the nutritional fruit blend Reserve and I find that it gives me extra energy throughout the day.

Jeunesse is a great platform that meets global demand. I have been a real estate sales person for the past 10 years and I have been working hard to build a passive income. I'm looking for a business that allows me to scale to a global audience and Jeunesse is definitely the best platform for me to build. Loving Jeunesse .

Jeunesse.....made my life a lot healthier. Before Jeunesse, I used to visit the Chinese sinseh every week due to my weak constitution. I had to be very careful with food I ate, otherwise, I will have weak stomach and body will feel weak for many days. After I started on Reserves and Finiti, my body slowly got better.

Now, I can enjoy any type of food without any problem. I feel healthy again. Thank you Jeunesse!!!!

My 82-year-old mom has been suffering from diabetes, high blood pressure, high cholesterol for many years. Since she began to take RESERVE three months ago, she has been able to shed off hospital drugs that have terrible toxic effect on her overall health. Her blood pressure has become normal without the usual spikes. Her health has tremendously improved overall; and her memory has also been better than before.

I myself can also attest to the cutting-edge products from Jeunesse. am a sportsman and I can attest that RESERVE increases my endurance when I ran the Spartan Race in November 2015. Jeunesse consumable products are truly cutting-edge, working on the cellular, DNA level, slowing down and reversing the aging process. I not only feel energetic, but feel younger inside and look younger outside. No fluff!!!!

My wife was suffering from knee-joint pain & swelling 6 months ago. After consuming 2 packets of Reserve every morning for 3 months, she discovered that the pain & swelling had subsided. She is also able to resume most of her daily activity. Since then, she has been consuming Reserve everyday and the pain is all gone.

From the toils of long hours, for years, I have been labelled as "weak" by my friends and family. Even my TCM practitioner friend would always insist on taking a look at my health and prescribed tonics for me. I kept falling sick.

Since I started on Reserve, I have been healthy and "med-free" for the past 1 year!! My energy level is higher and sustainable! This allows me the energy to truly strike work-life balance! Finally I have the energy to spend quality after work hours with my family and friends too. This really surprise even my TCM friend and advised me to keep taking the product!

I used to suffer from Rheumatoid Arthritis for 20 years of my life since I was 14. My joints would often swell, at my knees, my fingers and my heels. Even when i was married, whenever I was out with Jeeann Kuan for late night movies, my heels would swell and I would have to limp may way out and Jeeann has to hold me by the arm like an Old Man. After taking Reserve since 2 years ago, the symptoms have not surfaced since. (It took me 2 months to see some effect)

years ago....the symptoms have not surfaced since...(it took me 2 months to see some effect)...

Jeunesse Products also help improve my Aunt's (Mary Yap) High Blood Pressure, Diabetes, High Cholestrol problem, my aunt also lost 7.5 kg in 2 months...She is estatic!!!

So I started this online business and since then my business revenue growth has surpassed 30 Million US and expanded to over 50 countries Now....Now I can bring my loved ones for holidays almost every 2 months...Life is great with Jeunesse Global!..

I am in love with Jeunesse products! I have an oily skin for almost 20 years and have been trying all sorts of products and treatment to rectify my skin problem. When I started using Luminesce cleansor and serum (products of Jeunesse), within a week, my oily skin problem disappears! Besides this, my deep acne scars also lightened a lot after just 3 weeks of usage! Thank you Jeunesse!!!

I have been using Jeunesse Reserve, Finiti and Luminesce Skin Care products for the past 3 months. I wanted to share my experience with Jeunesse products, 1.) Rejuvenation Serum, before that I have dry skin, red spots and itchiness on my face, after using it for the past 3 months, I can see the improvement. Even my 6 years old son noticed it. This what he says: Mummy, mummy your face now not red red and very nice... you know, children don't lies... 2.) Reserve, a fruit blend the antioxidant helped me gain back my sluggishness throught the day and never feeling tired again. 3.) Jeunesse also a good platform to build a passive income online. It's globally scaleable and a good platform you should look into.

**Therasa Lee** · Sales Director at SRI5000 - it's all about the experience...

My 16 years old daughter was suffering from eczema. It was so bad that she would scratched and left scars all over her body. We have seeked helps from TCM, Dermatologist, and all sort of remedies recommended by people. It would help for a short time but it will come back again with a vengeance. Being a teenager, this has affect her life badly. She has low energy level, very concious of her look and broke out crying for no reason. As a mum, it was hurting to see her suffer. People said this is just another teenager puberty phase. I believed it was more than that. I was right. A friend recommended Jeunesse to me 5 months ago. But being a skeptic in any Direct Sales, I must do my research on product before feeding to my kids. After checking all facts out and trying on my own. I started my gal 3 months ago taking 1 to 2 packets a day. Her white spots on face (not fungals but digestive system related problem according to TCM) starting to get lighter after 2 months of taking. Her face colour tone changes to radiant, her body scars lighter, and most important of all she become happier. There is no eczema outbreak for 1 month! Thanks to Reserve, it is not only help my gal with eczema problem but I believe it heals her from other health problem which is hormonal related. After studyng Reserve in details, I realise that Reserve not only just a highly anti-oxident super fruit blend. It is based on Cellular Regeneration Technology that repairs the Entire body! My whole family is taking it and we are happier because of that. The only regret I have is I didnt start my gal Reserve 5 months ago.

Jeunesse Zen Bodi which is part of their science backed Youth Enhancement System with three stages of fat loss and muscle gain have helped me in my path to a youthful body and healthy living. After only 30 days with Zen Bodi, I managed to trim my Percent Body Fat from 16% to 12.5% and improve my Skeletal Muscle Mass from 36.7kg to 38.1kg. Can't wait to achieve my youthful body shape in 90 days!

My mum had been suffering for diabetes, high blood pressure, hepatitis B for 20 over years, and she even had lupus. For the past 5 years, she had also been in and out of hospital for monitoring due to overly high blood pressure. Last year in Sept, she started taking 1-2 packet Reserve per day and within 2 months, her overall medication was greatly reduced and the doctor even discharged her from lupus! She no longer has that freaky itchy dry skin which she had before and she is also very mentally active now. Her memory improved drastically to the extent that she can even remember small details!

Last year in Sept, my mum had a medical checkup and the result was so bad that the doctor even warned her of the high chance of getting stroke as her cholesterol and triglycerides were on the dangerous high side. Upon hearing this, I started my mum on 2 packets of Reserve daily. After 3 months, she went back to have another medical checkup and this time round, her cholesterol report shows great improvement with her Triglycerides & LDL-C all went down significantly and her good cholesterol HDL-C went upThe doc also reduced her medicine intake dosage after seeing such improvement in her medical report

Last year October 2015, I was diagnosed with Carpal Tunnel syndrome, sensation pains on hands. Doctor encouraged me to do a operation to relieve the pains. As I had been taking Reserve (anti-oxidant juice) since June 2015, I continued to consume 2 packets a day instead of the operation. I noticed the pains had been lesser lately. I went back for my doctor for review on 22 Feb 2016 and doctor has acknowledged the good result and said no operation needed. Doctor asked what have I been taking for the improvement. She said she can see me 6 months later. Wow, I believed the Reserve help me tremendously.

I shared a good new of using Reserve to one of my uncle who has a growing lump at his throat, he has been having this problem 20 over years already. Whenever the lump at his throat got too big, he would not be able to speak and it affect his breathing as well. So almost once a year he has to visit a doctor to under go a knife operation to remove it away. So I gave my Uncle Reserve to try as I realized that he had difficulty to speak on Nov 2015. After one month of using it, I met up with him and he told me that the lump on his throat had reduced. He was able to speak with me in a much clearer voice then before and he have been using it since then. He will be going for a check up soon in march 2016 to check if he needs to under go an operation. Thanks to Reserve, he seem to get better and well.

I was introduced to Jeunesse a month ago and decided to give the product a try as I heard great testimonies on Luminesce serum for skin condition. I have a finger which has allergies and have been suffering from itch, swollen, redness, dryness, and torn skin. I was having difficulty in doing simple housework such as cooking and moping. I have been using all types of creams for months, recommended by friends and doctors but non help. I started using Luminesce Serum for the past 2 weeks and i am seeing fantastic result. The dry skin on my finger started to peel and I see new skin is formed. I no longer feel the pain and I know that my skin is renewed. I am really excited about this product!

I would like to share the goodness n benefits of taking Reserve.

In Oct 2014, I was diagnosed with a few cyst near both my right n left ovaries. My medical report showed that I had one abt 1cm size on both right n left with one big cyst of 3.5 cm on the left ovary.

I take 1 pack of Reserve everyday, and after 6 months, my recent medical report in April shows that all my cysts are gone, cleared n normal.

Jeunesse Reserve helps in my sons' Sports Endurance and Recovery. Both boys are competitive badminton players, with a packet of Reserve before and after training, they can withstand longer hours of demanding and strenuous trainings. Reserve also reduces their muscle fatigue, boys hardly complain of knee pain and muscle ache nowadays. I even get compliment from their coaches that their energy level is high, their endurance level has increased and their coordination has improved tremendously. Most importantly, they are still able to focus and concentrate on their studies despite a full day of school and gruesome training. I am so glad that Reserve has given my boys a constant boost of energy to enable them do well in both their academic and sports areana.

I used to have to apply five different bottles of products on my face before I could leave my home .... Now, I just need one bottle of goodness - the Luminesce rejuvenation serum! People asked me if I use blusher? Or apply makeup? Cos I have a pinkish glow on my cheeks always. I said no, I only use Luminesce serum and drink our anti-oxidant rich Reserve gel pack! Beauty from the inside out ! Great savings! and super easy routine , just one bottle!

I've been using the LUMINESCE SKINCARE LINE by Jeunesse for six months. Friends comment how young I Look! The SERUM helps to restore collagen and elasticity; my face has a glow, and my skin is well hydrated, tighten and firm. Also, I've achieved a V-shaped chin line without surgery.

Luminesce is exclusive to Jeunesse and I believe, there is no product in the market which match this!

Taking reserve for 6 months! I used to have asthma attack often but now i seldom get it! Great improvement on my health, Used to fall sick easily, i tried out alot of supplement but nothing works well for me! Reserve help me going strong even on tired days, keeping me healthier with lots of energy!

Jeunesse Luminesce also helps my mum's skin condition!! she used to have very dull and dry skin with lots of wrinkles and fine lines, just after 3 months of application her skin condition is so much better, brighter and younger.

Since started using Luminesce Serum in Jun 2015, my pigmentation has lightened greatly that my sisters and friends have noticed, and they're now using it too. I'm also taking Finiti and Reserve and did not even realized that my backache which I've been suffering is gone! Beginning of Jan 2016, I urged my mum to consume both of these supplements and on Feb 16 when I brought her for her regular checkup, her High Blood, Cholestrol and Daibetic has improved tremendously that the doctor has prescribed a lower dosage of medicines for her. Just yesterday, I noticed that my mum's hair has started growing!! I'm monitoring closely now and will take a before and after picture for this great testimonial.

I have used Jeunesse Skincare and Supplements (Reserve, AM/PM) for coming to 2 years. I hardly get sick and my stamina for fitness classes and running have improved a lot. I dont feel tired easily from my hectic day to day schedule. Not only that I feel younger I also look many years younger than my age. My deep wrinkle lines slowly disappear and my skin has regained the elasticity that I used have in my early years. Just two weeks ago I pulled out a white hair and noticed that the part closer to the root is all black! Amazing Anti-Aging products I must say! Thank you Jeunesse for giving back my youth!!

I am pretty active in sports and I like to run. However, I have had to limit my runs to 5km or less and also cut down on my football sessions due to knee pain the day after. I started taking Reserve about 2 months ago and I noticed that I am able to go for longer runs of up to 12km without feeling the same pain in my knees. In addition, I also find my recovery time to be faster as compared to before taking Reserve. At times when I feel the flu bug coming, I just up my Reserve intake from 1 packet to 2 packets a day and the symptoms normally sort themselves out pretty quickly.

I have also been using the Luminesce range of facial products and my wife has noticed a change in my complexion. She says that my face looks more radiant now and is less oily as compared to before. I am a convert and will continue to keep using them and also stick to my daily Reserve regime.

I have been benefiting from JEUNESSE in both product and business. Jeunesse product is very unique; only 3 kinds of oral taken product, but it can protect and solve most of the health issues from the bottom level of DNA, chromosome and cell of human body. I ever had chronic otitis media for more than 25 years, especially when I came to Singapore, it became worse with

the humid weather. Every 2 or 3 months, once my left ear was infected, I have to use one kind of very toxic ear drop made in France for 2 weeks, then recovered. After taking Reserve from JEUNESSE for about 2 months, my left ear is still infected sometimes, but it can be healed by itself without any ear drop. At the same time, migraine headaches problem also disappeared after taking Reserve for about 40-50 days. This product has help me a lot!

For the business prospective, I am an professional businessman with EMBA degree, monthly 5 figures income. After company M&A and not satisfied relocation, I planned to start my own business. One day one email from cool market caught my eyes, and then joined Jeunesse after and actively grew up the JEUNESSE business after I did the detailed financial investment analysis. The progress for my JEUNESSE business is not extremely fast, but it is stable to grow up. I treated it as 3-5 years project to get the return of US\$1M/year. With unique product, excellent management team, very advanced interactive mobile commerce platform and very fair business plan, this target is practical and achievable, already proven by many people worldwide!

Mary Yap

I had my health issue in 2012 n had been taking medication but after one year the medicine didn't work n doctor had to increase my dose, I refuse n ask doctor to let me to have to two month to see how it go n my Nephew bring two boxes of reserve n ask me to try without hesitating, I decide to give a try. After taking for one month my blood sugar level from 7.8 drop to 6.5. So I decide to continue two more boxes before I go to my doctor, I am very happy that my blood sugar level drop to 5.8 when I go to my doctor appointment.

After 6 month of consume, my diabetic medicine from two dose drop to one n after 8 month I am out of cholesterol medicine. Very grateful to Jeunesse n My Nephew Winston who had bring to my attention.

Jeunesse product is amazing.

I was introduced this product ie Youth Rejuvenation Serum in late Nov 2015. I tried and was amazed that it acts like a sun block too without the sunblock cream effect. During my in camp training in Jan 2016, I went out for multiple sailings under the scorching sun, to my amazement I did not have any sun burn effect which I usually will experienced it even if I used sunblock.

Recently, with a pimple about to develop, I applied the serum over it, again the next day, the pimple inflammation subsided and following day, the pimple is gone. Wow, this serum has so many usage and it helps to save money so I do not need the rest of other skin care products. Thanks to my wife for introducing this excellent product for my skin care.

I have had allergies all my life but besides minimizing ingesting and avoiding contact with what I am allergic to plus daily antihistamines, pretty nothing much doctors (dermatologists, haematologists etc ) can do. After consuming Reserves x 2 a day, it is goodbye to hives (that happens all the time after every eat out/ takeaway meal). Thankful!

I have been suffering from Rheumatoid Arthritis since my first child 12 years ago and I was on long term medication since then. I used to have very stiff joints and great pain on my hands, fingers and knees every morning when I wake up and had difficulty getting out of my bed.. My life was badly affected. I had surgeries on my right hand twice due to RA problem too. I was introduced by a friend to take Reserve last year May, and to my surprise my joints didn't flare up much after taking Reserve for just a month! Amazing product!! My blood test on CRP has improved dramatically too ever since I take Reserve! Today, Reserve has become a MUST in my diet as it has improved my health. I feel energetic everyday!

I used to have irregular heart beats & Palpitation since some 7 years ago and i experienced shortness of breath quite frequently.. went thru all kind of test and scan and was told there was nothing wrong.. Dr said nothing needed to be done except to go back for regular checkups.. I was prepared to just leave with it.

Since I started on RESERVE 2 years ago.. I hardly feel the irregular heart palpitation like i used to feel before ... and best of all no more shortness of breath.

I started sharing the greatness of the products with friends and family and what started off with just a supplement for me has today turned into a Global Ecommerce Business which helped me to build residual income. I am truly grateful for the Opportunity. An Opportunity that gives me better Health and Better Wealth! I have since interviewed and recorded many true stories on how the

products have benefitted many people, especially people with critical illnesses like CANCER, Heart Issues, High Blood, High Colestrols, Diabetic, Parkinson and many more! I would want to share more with more people given the chance.

After getting to know about Jeunesse Reserve, I decided to let my dad try 1 packet a day for health maintenance. What surprises me is, 6 months later, out of sudden, my sister whom is a nurse, called me and told me that, doctor has removed all diabete medication which my dad has been taking for more than 10 years when she bought him for his regular check up. He has not change his diet or lifestlye, just only consuming a packet of Reserve a day. I'm very happy that my dad benefitted from this amazing product by Jeunesse.

I started drinking Reserve early Nov last year. To my surprise, after drinking for about 3 weeks. I see great improvement for my menstrual flow. Last time, my menstrual flow is abnormally little and only lasted for 1-2days with plenty of blood clots. Now my menstrual flow will last at least 3-4days and no blood clots anymore. I am getting to love this Reserve drink more each day and i trust this product will bring healthiness to my family!!!

My husband has diabetes. When I came across Jeunesse products, Reserve, I decided to let him try. For the past 2 year, his blood sugar reading has from 10-11, dropped down and remain stable on 5-6 in reading.

Last year, he constantly has pain on his stomach and his eyes were blurry. He thought his diabetes has caused these problems and also worried it could also be cancer (his relatives, one after another, passed away due to cancers that year ). He went for a thorough check up at TTSH in July. His cancer maker was at 12 and he has fatty liver, caused partial liver inflammation, ALT at 76, abo... [See More](#)

I started Jeunesse products since 25th Dec 2015. Luminesce range of beauty products are easy and see results in 2 weeks. My skin looks whiter and feel firmer. I love the Reserve. It's really easy for overall health benefits. Taste nice and convinient to consume. Easy to pack while travelling.

My mum is 76yrs old. Her body aching has improved too. She is taking Reserve & Finiti. Thanks to Jeunesse. Now she don't have to go to the chinese physiician every week.

Jeunesse Reserve is amazing! I used it for my digestion problem. I used to have difficulty getting oily or very 'dry' food into my stomach. They get 'stuck' somewhere between my neck and stomach and caused lots of gastric when i eat those kind of food. After taking Reserve for 2 months, 2 packets daily, this issue just completely disappear. I am amazed at this product. Now I can take my chicken rice without fear! In addition, I feel more energized especially working on computers for long hours. I would strongly recommend you to consider this amazing product if you have digestion issues. Or simply take it for health purposes. I understand Jeunesse Reserve helps to restore damaged DNA in cells and thus lower the chance of us getting dangerous health issues like cancer, high cholesterol, cardiac issues and several others....

I have been a victim of chronic migraine for more than 10 years. My migraines would always arrive before & during every monthly menstrual cycle, lasting from a day to a few days. Due to the extreme discomfort of my regular migraines, I often found myself not being able to work or function properly. The only relief I could seek was to take strong painkillers. I would have to seek refuge in dark, quiet places while waiting for the migraine episode to tide itself out as bright lights and loud noises would only serve to agitate and intensify the pain. Ever since I started on Reserve three months ago, my migraines have since left me completely. My life has been improved for the better by this amazing product. I am now a happier and a much more cheerful person without my ailment plaguing me. Thank God and thank Jeunesse Global for this wonderful product! I would strongly recommend it to others!

I had very bad acne before i started using Luminesce. I visited a dermatologist who put me on antibiotics for more than 3 months. My sister who is a nurse advised against taking antibiotics for such a long time as it was bad for the liver. So i threw them away after that and the acne came back. My back which was acne free before then, suddenly was full of them. A few months before my wedding, I had a bout of cystic acne. One was stubborn enough for me to visit the dermatologist again. They suggested steroid jabs to get rid of it and i had 3 injections on 3 separate occasions. The jabs didn't work. The cyst was still there and a darkened depression appeared beside the cyst. They said to go for a surgery instead to remove the cyst. I was devastated. I didn't want a surgical scar on my face. I had my wedding, with a pronounced depression on my face and lost hope in ever having better complexion. THEN...Luminesce came along and changed everything. I don't get cystic acne outbreaks anymore, my pockmarks have reduced visibly, the depression on my face is hardly noticeable now. It's hard to pen down my happiness but yes, i'm ecstatic i finally found something that really helped with my skin condition.

I usually get gout attack after playing soccer or running, this is due to dehydration. My left ankle will be swollen for three to four days and i will have problem walking. After taking Reserve about 2 months ago, I notice my recovery is much faster.

Here is one example

This is after taking the usual medication that my doc. given me.

I had a soccer game on 17/1 from 3 to 5pm. After the game as usual, my left ankle get jam in the evening after dinner and i have problem walking.

That night i took the usual medication from my doc.

The next morning, my ankle was suprising loose and i am able to walk without limping and without pain and there was no swelling like before.

This is my six weeks taking Reserve.

On the fourth week, I discovered that I was able to sit crossed legs on the floor while attending a spiritual discourse. Previously, I cannot. I felt pain on my left Inguinal ligament. Now, I am able to sit very much longer, like three hours at a stretch. At times, I attempted the half lotus.

Most important is, I felt better with each new day. I believe, Reserve, is repairing, my damaged cells 24/7.

Used to suffer from frozen shoulder and knee joint ailments. My wife suggested I try Reserve as there had been instances of it resolving various ailments due to the cell reparation properties of the product. Was initially skeptical as Western medicine and TCM with acupuncture did not help, but took Reserve anyway just to see if it would work.

Surprisingly, I felt the pain on the shoulder and knee easing after about a month of taking Reserve. By the 3rd month, the ailments were gone - and I could run and exercise again! Pretty impressive stuff.

For those reading the posts here and wonder if it is all true, nothing beats first hand knowledge. Try it! You have nothing to lose and all to gain. After all, what could possibly be more important than health!

My father had a stroke on the 1st day of the year 2016. The whole family is shocked and saddened. The looks on everyone's face is deeply concerned and silent. My father's stroke could have been avoided only if the doctors discovered it earlier. He is sent to the hospital twice. The 1st time a few days before new year, he almost fainted while driving and we quickly brought him to the hospital. Doctors can't diagnose anything except 'Inner Ear Imbalance' and discharge to rest at home. My father kept feeling dizzy and could hardly walk. He is almost bedridden for the few days. 2nd time new year's eve of 2016, my father started to feel nausea and through out the day and night. On the 1st day of new year, he was so bad that we call for the ambulance the 2nd time. He was admitted and diagnosed for stroke after a few rounds of CT and MRI scans. Discharge after about a week stay. He could hardly walk and has to be assisted. I happened to come across Reserve & AM/PM and let him consume it. He was

relectant and skeptical to take it in the first place. I had to persuade him into taking it. Now he is doing well and recovering very fast! All thanks to Jeunesse! Thank you very much!

My friend who is a Hep B Carrier has been taking medication for many years. Her doctor said that she has to take the medication for life. After taking Reserve and Finiti for about 4 months and cutting down her medication from daily to twice weekly, her medical review showed that her liver condition is good. My friend is so happy that Jeunesse products are able to help her eventually stop taking the drug which will harm her kidneys if taken long term.

As for myself, I have been taking Reseve and Finiti and using the full range of Luminesce products. I used to feel lousy and tired on some mornings but now I feel energetic and happy. My skin which was dry and dull before is now more radiant and firm. Thank you Jeunesse!

I have been using the luminesce range of beauty products since Oct last year and have found that my fine lines around my eyes disappeared magically! Comparing with SKII serum and Sisley eye cream which I have used before I tried luminesce, the cost is lower and the effect is even better.

I also take one packet of Reserve per day, it lets me feel more energetic through the day. Sometimes if I catch cold, I take 2 packets before going to bed, It saves me the cost to see the doctor and no need to take medicine as well.

When I first knew of Jeunesse products that can help cure eczema, I was not too receptive about it but wanted to prove its remarkability.

As an eczema sufferer since childhood, no medication has helped to ease the condition as it keeps recurring.

After having taken a packet of Reserve a day and nightly application of the Cellular Rejuvenation Serum for only a month, I begin to notice the red eczema patches have lighten and the itchiness has stopped.

This is a great relief to me just within a month! I am beginning to feel the wonders that Jeunesse products have worked on my eczema.

With this improving progress on my eczema, I have also started to take Finiti as I now trust and believe Jeunesse products can help me in my pursuit of optimal health and eczema free!

I was introduced to Jeunesse products in May last year when my girl had just removed her cast on her right leg after a fall in school. She was suffered in pain and her leg was so red and itchy that she kept scratching it. She ended up with sore and scaly skin. I decided to apply some serum on the affected areas. To my surprise, after 10 minute, she no longer feels so itchy and the

scaly part looked smoother. She was able to sleep well throughout the whole night.

From there, I started to use the whole range of Luminesce diligently and I could feel my wrinkles and laughing lines slowly disappear. The skin are firmer and tighten than before. Even my friends could noticed the changes in me and commented that I looked more radiant. Thanks to Jeunesse.

I am a breast cancer patient. I had a surgery and chemotherapy in 2011 and was cleared by my doctors. However I was diagnosed to have a relapse in mid 2015 and it had already metastasis and Doctor couldn't do anything except to go for chemotherapy again. I am also skeptical in the first place when my friend intro Reserve to me as I was intro to many others products too. Eventually I took Reserve as I am one who dislike taking pills and I have problem swallowing too. After taking Reserve for a month for 6 packets daily, my tumors shrunk according to my doctor and another month later my cancer markers dropped tremendously. I was so happy and my doctor did not mentioned about going for chemotherapy. My whole family is so happy about my condition and we are all taking Reserve and also helping our friends and relatives to get back their health. Thank you Jeunesse

I bought a box of Reserve in support of my friend who is doing Jeunesse. I gave it to my dad to consume who is diabetic... my dad who is very sceptical of the products I passed him, surprisingly has been 'telling' me that he has finished the box of Reserve and needed to replenish the stock for him. In my recent conversation with him, he also shared with me that his visit to the GP for his regular blood test results has shown that his sugar levels have dropped to 6.1 which is a good sign! No wonder he has been 'hinting' to me whenever his box of Reserve is finishing.

My dad has never requested anything from us and if this is the only thing I can do for him and make him happy, I will continue to buy this product for my dad as a gesture of my love for my parent. I'm thankful to God who through this friend of mine has recommended Jeunesse to my family.

I got to know reserve thru a good friend kelly who shared with me that Reserve can possibly help patients suffering from parkinson as she knew my dad had parkinson 7years ago. I decided to let my dad try .

Before starting on Reserve, he took long time to walk down the stairs by himself (what takes a normal elderly 15 mins will take him half an hour) and he couldnt walk backwards like any normal people because he might just lose coordination of the limbs and fall. He always look tired n hand shaking which is a common symptom of a parkinson sufferers.

Thank God after starting on Reserve for about 2 months, he looks fresher,less shaking on his hands and he can walk downstairs by himself. Whats more amazing is he can walk backwards. Doctor could see the great improvement n ask him to go back for review six month later, so happy to see my dad's health improved! Thanks Kelly and all the awesome sharers.. I will continue to share the greatness of the products with pride.

I have been using Luminesce skin care for past 2 years. My freckles are noticeably lightened a lot and Reserve fruit blend has eased my gastric problems. I was amazed by this simple, direct and smart system that allows me to expand my online business to more than 120 countries globally. This is the platform that I'm looking for. I quit my accounting job and went on full time to focus on this business last year that brings a better and healthier life to me and my family. Cheers to Jeunesse Global!!

I have been taking Reserve for about few months it really helps a lot in improving my health. I suffer from everyday constipation, knee pain, sinus and also asthma. Little bit of walk will cause me breathlessness but by taking reserve for about 5 months all the problems I have improve a lot. I recommended my sis and aunt to take reserve for their health problems and I am glad it is

helping them too.

I used to have dyshidrotic eczema once in a while, especially after i use some concentrated essential oil or some other product. This kind of eczema is a skin condition in which blisters develop on the soles of my palms, usually itchy and sometime may be filled with fluid. After applying Reserve on the eczema area just one time, amazingly the inflammation had subsided significantly within few hours. The second time I applied (which was on the second day), the blisters had actually dried up. Then I used Luminesce Serum to repair the dry skin on my palm.

After using the LUMINESCE skincare product the specially formulated 200 growth factor has drastically reduced the appearance of my fine lines and wrinkles. The RESERVE drink also has help protect my skin against free radical damage and I am now proud to say I truly look younger and feel healthier! Try it to believe it now!

I been in a real estate sales person since 2003, The property market for past years till now up and down, once you stop working, there is no income and if you are sick also no income or still have to work. I can't be showing property till age of 75 yrs. But I see Jeunesse is a business to grow now and the future, not only just local contact market but is also global market. And it can past down to our children's or family. Also you travel for holiday or feel sick stay at home, I also passive income in your bank. 2nd I see Jeunesse items been help many people life and working with well know Doctor.

I used to have sore throat every quarter without me realising till my mum asked about it. Even the doctor has advised me to remove my tonsils but I didn't. I have been on Reserve for the past two years and about a year ago, it was again my mum who realised that I haven't been going to the doctors for my sore throat for a long time. Then I recalled ever since I was on Reserve, I rarely has sore throat again! No more antibiotics!

I used to suffer from muscle tension in my neck and upper back resulting in poor blood circulation. Often I would feel dizzy, lethargic, having poor vision and sleep disorder. I would regularly go to a chiropractor to loosen my "locked" neck and Chinese

energic, having poor vision and sleep disorder. I would regularly go to a chiropractor to loosen my locked neck and Chinese physician for acupuncture to improve blood circulation. When I was first given a sachet of Reserve to try, I was amazed by the instant boost of energy that perked me up. Since consuming 2 or 3 sachets of Reserve a day for the past five months, I am grateful all of these nagging problems have disappeared and I have not gone to see any doctors. Friends who know my conditions could see that I have become more energetic. I feel too like a super woman, being able to multi-task and achieve relatively good results for my businesses! Reserve is indeed a super food and its highly anti-oxidation properties help improve blood circulation and resolve a lot of unnecessary symptoms. I am now also consuming AM/PM as well as Finiti to reverse aging:-)

My friends whom I introduced Reserve and the whole range of Jeunesse products have also greatly benefited; diabetic patient sugar level dropped from 13.5 to 5.4, eczema condition improved, no more sinus condition . I would urge everyone to try the products to reap the benefits yourself!

### Alyssa Chee

6.5 years ago, my baby girl, J was exactly 6 months old when she contacted H1N1 virus. Given the only effective medication was Tamiflu then, my husband and I had no choice but to let my little girl take it.

Since contracting the virus, J began to have respiratory problems every 3-4 weeks, and it got worse to bronchitis and led to early pneumonia that she was requested to be admitted to hospital. It was a draining experience for us over the few years as we continued the neubiliser and asthmatic medicine treatment for her.

Later, I was introduced to Reserve by my sister. I started giving my girl Reserve, and amazingly, I noticed her neubiliser treatment extended from every 3-4 weeks to 1-2 months, and gradually she does not need any more neubiliser and asthmatic treatment

I am happy that my girl, now 7 years old, has grown up healthy, without any more respiratory complications or treatment. Thank you Reserve for the wonders you have done, and the health given back to my loved one!

Joni Gan,

I know Jeunesse through my friend Patrick. He sent some videos to about the project. I started using the Luminesce with in 2 weeks my friends see the impoverishment on my skin, so they start to join me. My brother has high sugar boold level after taking Reserve for 2 and the half weeks he went for check up. The suagar report went down. He was so happy and continue to drink

Reserve beside that he use the Luminesce too. My sister saw him dealing CNY and she said hel brother looked younger ya... Thank you Patrick for sharing with me Jeunesse products it help me and my family also built my side income. Now my husband and my children start using the Luminesce because they see results on themselves.

I used to feel very tired in the evening after I got home from work. After I started using Reserve for just 2 months. I feel my energy level has improved and I believe this product will be able to help me improve my energy level and general well being. To be honest, I was sceptical at first but after taking it for a while now. I think it may be just what I need to bring back that zest in me.

I will continue taking it to reap the full benefits of this product. Will definitely recommend This wonderful product to my friends and family after I tested it myself.

I have been taking Reserve for the past 1 year and I had so far never been sick at all. I used to be getting flu and can get easily affected by people sneezing. Now, no problems, Now taking Reserve, is like taking a morning coffee or tea in the morning. I took in the morning and sometimes in the evening. Now no problems. My late mother fall few times and her forehead swollen like tennis ball. After applying serum, am and pm, the swollen reduce and heal. It takes 1 or 2 weeks.

Last month(January2016 ) my grand nephew had a cut on his forehead while playing and hit his forehead on the edge of the cupboard. It was a very deep cut and blood was flowing out non stop, and hearing about how amazing our Serum is I immediately took out the serum which I always put in my bag to apply on his cut, amazingly the blood flow lessen and after 10 mins the blood flow was in control. My niece did not bring her son to see the doctor for stitches but instead apply serum on his wound as many times as possible thru out the day and by 10 days, the wound heal nicely.

I am born with eczema issues fingers, toes....basically everywhere. I remember mum would take to famous skin specialists to in hope to fully treat these issues. Results are always not permanent. Cause the eczema comes from within our body.

I heard about the stemcell technology and was searching around for such product. My friend shared with me about the serum.

Since i started using it i have not regret. The eczema has improved so much. I could exactly see part of my skin instead of the hard itchy rough surfaces.

Last year April, my friend got into a serious car accident. One third of his brain was damaged. Was told by Surgeon that it would be difficult for him to recover and even if he will to recover, he will become a "vegetable". He was on trachea (as his lungs were overwhelmed with phlegm so it's hard for him to breath. He would always turn pale and short of breathe). Feeding tube was also inserted as he was unable to swallow. His legs were swollen with water retention. His sugar level was high too. He was semi-paralyzed. Then October, I recommended to his wife one sachet of Reserve to be mixed slightly with water to pour into his feeding tube. To her surprised, his sugar level was back to normal. He was given two sachets of reserve since December last year. January this year, doctor took out the trachea as he could breath properly now with lesser phlegm. A couple of days ago, his wife told me that doctor will be removing his feeding tube because x-ray showed that he could swallow properly. Left part of his body which has been semi-paralyzed was also more flexible now with reserve and hospital therapy. He could recognize his family members and even write their names on a piece of papers. He also could recognize friends that visited him and even remember their names. Both his wife and I were down to tears when we heard the good news. Thank you Jeunesse for this wonderful product that could save lives in time of disasters!

Hello everyone,

A few months back, I sprained my leg and I was in pain for six months. I tried many things but the leg never recovered. Recently, I was supposed to go for a tour at Silk Road in China but the leg still hurt. But since I promised my friend to go, I had no choice but to go ahead with the trip, even with the pain.

Before I left, my god-daughter passed me ten packets of Reserve and I took a packet of Reserve a day when I'm in China. And Guess what? The pain in my leg disappeared and I was walking the entire ten days in China without any problems at all! My friend and daughter saw what happened to me and my daughter signed up immediately the moment we were back home in Singapore!

After giving birth to my son who weight 3.98kg during birth, my left leg has been giving me a lot of problems. When I sit on the floor I cannot stand up immediately. I have to take awhile to stand up and walk. As my kids grow up, my left leg got worst. Sitting on sofa or chair also need time to stand up and walk. Have seen Chinese doc to do acupuncture but not successfully. Till my daughter who is 13 years old recommended me to buy reserve for her to try (not for me to try k). She saw her piano teacher

taking it and wanted to try it so much. I got to know Jeunesse thru a workshop and bought 5 boxes of reserve that day. She was so happy. It helps her sleep well in the night and also can concentrate better in class. As for me I was surprised that after taking it, I can stand up easily without any effort and walk. Now I can spend longer hours outdoor without complaining my leg pain. Thanks to Anthea who give me this opportunity to know Jeunesse!

I had been suffering from eczema since young. Any situation can make my eczema to pop up ugly..eg. Sweat would make me crazily scratching for just a bit of pain relief, even if it makes me bloodied and scarred.

Even after years of treatment from dermatologists, TCM, and beauty parlor treatments (lots of \$\$ spent), I still woke up in bloodied bedsheets. The steroid cream recommended by dermatologists only had a timing validity of 2-3 hours.

I always wear clothings to cover my wounds and scars. I even have eczema on my scalp that is making me losing my hair.

When I applied Serum on my wounds, ... [See More](#)

### Leo Boon · Entrepreneur in Health and Wealth at Amazing Healthy Body

"What a vain old man you are!" were comments I received some 2 years ago when I underwent "facelift" to lift my eye brows and, 6 months later, my eyelids. I did it for practical (not cosmetic) reasons; my ageing and sagging forehead muscles caused my eyebrows to droop profusely and aggravated by thick folding eyelids, a third of my upper field of view was blocked by my heavy drooping eyelids (I missed seeing the blue sky yonder).

The surgery went well with some 30+ stitches to the eyebrows (and 20+ stitches to the eyelids) where much tissue and skin were removed. I could tolerate the pain, but I was concerned about the wounds' infection and healing. I increased my consumption of RESERVE (reserveratrol antioxidant) and FINITI TA-65 while applying Luminesce Serum to the wounds. Thank goodness, the wounds healed rapily. 19 months later, the eyebrow wounds disappeared without any visible scars. The eyelid wounds healed in 1 month with no sign of scars! (The photos are in my [Facebook.com/leo.boon.98](https://www.facebook.com/leo.boon.98)). I could rebut those earlier comments with "I was not vain and my surgery was not in vain. I can now view more of the beautiful world as my vertical field of view improve significantly (e.g. I can see beyond the top of my car windscreen when I drive). While I suffered some pain, the wounds healed faster than I had worried over - thanks to the revolutionary features of these cutting-edge Jeunesse products, I had 2 infection-free and rapid recoveries!"

I have been suffering from back ache since 2006. GP only gave me pain killer tablets to subdue the pain. X-ray result showed my back bone was slanted to the left. When the pain comes i will have sleepless nights. I went for many sessions of physiotherapy which did not help. I even went to TCM for acupuncture treatments and massage for few years. TCM physician informed me that my back ache will affect my weak knees which caused me to fall often.

Fortunately, in Oct 2014 my sister recommended me a box of RESERVE. I took 2 packets a day. It took me a year to see results. I realize that i can now bend my knees and i can squat down too. This is impossible for me few years ago.

I am thankful to my sister and to Jeunesse Global.

I had very bad sinus for almost 10 years, it bothered me persistently . I have tried many over the counter products as well as prescription medication from doctors. Some do provided temporary relief, however all have some degree of side-effects like drowsiness, constipation etc. The sinus infection was so bad that my eyes were itchy, swollen and inflamed for extended period. My throat felt itchy due to postnasal drip from sinus discharge. All these caused great irritation and discomfort that also affected my sleep, my mood and ability to focus on my work as well as normal daily activities. In October 2005, my friend recommended me the product Reserve from Jeunesse Global. So far It has been only 3 months since I started taking Reserve, not only has my sinus condition improved tremendously, I was surprised that my other problems have slowly disappeared, My chronic shoulder pain, sleeping problem, constipation .... no longer bother me, I feel energetic and a sense of wellbeing now. Thanks to Reserve! Love you Jeunesse!

Was diagnosed with mild high blood pressure and was put on medication. Every type of tablet the doctor gave me made my lips peeled very badly. After taking Reserve for 2 weeks, the peeling stopped. My husband doubted that it was the Reserve that healed my lips. I stopped taking Reserve for a week and the lips started to peel again. Now Reserve is part of my daily diet.

Another fantastic experience that made me believe in the great products of Jeunesse was when I burned my hands with spilled hot oil from frying shallots in a microwave oven. After applying the burn gel recommended by a pharmacist, I also applied the Luminesce serum daily immediately after the burn. My burnt hand healed completely after 2 and 1/2 weeks without leaving any scars.

Whenever I work late at night on the PC, I would experience very tired eyes the next day. Before being introduced to 'Reserve' I would need to pop many eye vitamins just to mitigate the heaviness. When I began to take Reserve (sometime up to 2 packet before bedtime) I realised the tiredness in my eyes would be much reduced and my eyes do not experience much discomfort as before. I am so glad to discover this great product that is not only effective but delicious to the tastebud too! It's also my family's favourite health supplement. Thank you Jeunesse ! And also 'Winteam' for providing all the awesome support for helping many to start a low cost work-from-home business.

I gave my 74 year old mother the serum on facial pigmentation and body renewal cream to rehydrate the skin. She feedbacks that the pigmentation on her skin lightened, she is feeling more smooth and better hydrated on facial skin, hands and legs. She is also taking Reserve to keep up her health as she is insulin-dependant for over 20 years and has been a recovered patient from mild stroke some years ago. She feels less tired nowadays.

My sister-in-law who uses Reserve said it makes her feeling less tired. On Luminesce series, she experiences improvement on facial skin and continue to use the products ever since she started her trial. She is now sharing her husband's Jeunesse account in building the business.

For my personal experience, I have some darker marks on facial complexion due to sun light exposure while not using sun screen. After using serum on the affected areas, the darker spots lighten, the immediate feeling of the products in few weeks was that the skin texture is smooth and well hydrated.

In short, the products do really deliver its results, so do the business and reward systems as well. The company not only brings back the health to one who uses the products but also the wealth to whom who builds the business on its platform. The culture is simply great - One Jeunesse One Family.

My mum and I have been using Luminesce serum and my mum is consuming Reserve for past 4 months. We notice great improvement on our skin and pigmentation lighter. My mum's health shows improvement too. My neighbours always thought my mum looks younger while others seems like catching up on age. They are surprised when my mum told them her age which is older than most of them.

My wife and I was introduced to Jeunesse range of product by my sponsor including the Reserve, Luminesce series and Zenbodi. We had both benefited from the product especially for my wife whose had lost near to 8kg in 2 months using the Zenbodi and i can see improvement in her complexion which was noticed by all her colleagues, friends and even relatives. For me, i like the reserve best as it helps to keep my body healthy which i had no fall sick since i start to take the reserve since last year November and after using the Luminesce cleansor and serum, my oily skin problem had also improved and no more acne on my face.

My wife and I have been taking Reserve for 5 months now and we can't stop taking it. It is the best antioxidant product we have taken and it's effect can be felt immediately. We used to have sore throat and catches flu when we slept late, but just a packet of Reserve and the sore throat or throat ulcer is gone immediately!

I gave Reserve to my parents when they caught flu and they are fully recovered within 2 to 3 days when it used to last for weeks!

My mother suffered from Chronic Migraine since she was in her late twenties. As she aged, her condition worsened and her symptoms include persistent numbness and tingling irritation mainly at the entire left side of her body. That's when we knew we had to seek help from the Medical Specialists.

The Neurologist whom we consulted told us that the root of her problem lies in her severe spinal cord misalignment, and that we should instead consult the Orthopaedic Surgery Department. After weighing the possibility of causing permanent physical disabilities should the surgery fails, my mother decided to live with the pain. However, the doctors warned that ignoring the treatment is not a wise move as her condition would only worsen as she continues to age. For a few years, we searched everywhere for treatment. Although some treatment offers temporary relief, most are extremely expensive.

After we stumbled across Jeunesse's Reserve, not only does my mother finally find relief from her symptoms, she now feels healthier and younger. Although she still receives treatment from a Chiropractor, in hope to align her spinal cord, it is apparent that the persistent numbness and tingling irritation disappear only after she uses the Reserve. It is only when I realize that Jeunesse's products repair human body on a stem cell level that I understand that my mother's miracle is no mere coincidence!

I used to have a very dull n problem skin and I never dare to leave home without makeups. A guy friend told me that Luminesce

skincare has great effectiveness and can see instant result even after jux 1 wash, as he uses for himself. I was scepticle initially but since it's a reco from a guy(that's rare to me), I tried the the simple n easy to use skincare. Cant forget my 1st experience, I literally scream looking at the mirror after my 1st wash.... my skin glows! Now I'm so proud that I dont have to hide my naked skin anymore. Cheers!

When I knew about Jeunesse in Dec 15 about the he stem cells & DNA repairs. 1st in my mind is for my 76yrs old mum who always complained to me her body pain,ear drum giving her noise and she felt giddy often. She visited doctors very often. I have to bring her to chinese physician twice weekly. After 2 to 3 weeks of Jeunesse Reserve and Finiti, we stop going to the Chinese physician till today. Thank you Jeunesse.

After my dad had an operation to remove a colon cancerous tumour, he had frequent bowel movements in a day & had to put on adult diapers. The doc said that it is normal & it will take about a year to stabilize but it will never become once a day like most people. However after taking 3 packets of Reserve thrive daily for about 2 months, his bowel movement had returned back to only once a day! I am also using the full Luminesce product range for about 7 months now and my facial beautician observed that my pigmentation has become lighter and pores are tighter now.

Studies shows that having skin breakouts indicates too many toxin has been accumulated in our body. My skin asthma started to show up about 2 years ago. Suffered from insomnia and my immune system has been compromised. I fall sick too often. I have tried too many derma solutions but my conditon seems to worsen. I am so glad that my friend introduced me to these amazing products of Jeunesse. Taking Reserve for 6 months now has helped my skin back to its normal supple and glowing condition. I am also now free of sleepless nights, seldom visits the doctor and my skin asthma seems to be disappearing soon now that I am also taking Finiti.

**Peter Tan** · Master Multi-tasker at SOHO Platform

Excitedly and passionately started taking Jeunesse reserve and using serum since early 2014 after hearing that both products are excellent and available here for DNA /cellular maintainence and repair .

It's a perfect combination for both "inside out "and " outside in "restoration of our aging body ,something that I have been looking high and low after having been stuck in my twilight zone eg. neither vibrant non very sick.

Personally,use to have degenerative disease and very sensitive skin condition since my early 40s due to unhealthy occupational hazards and lifestyle

According to doctor,there was no cure but need to take own vitamin complex supplement for life.

Now in my 60s ,my overall health including skin condition has vibrantly normalised .

My wife suffering from liver and high blood pressure since in the 40s has benefited from the 1 package of reserve daily too.

Now no more liver issue and continue on reduced blood pressure medication.

Since aging is an unavoidable ongoing process and the most of the foods as well as the environment today could not ensure graceful aging,it was wiser to upsize our food with anti aging products such as Jeunesse 'YES'.

Hence, We will definitely continue using Jeuesse products as health preventive measure.

Thanks Jeunesse for the timely arrival of the cutting edge technological products(YES)in this region.

Hi..i have no health problem so far..but started taking reserve for past 6 mths..interestingly, my uncle have noticed a change in my face looking vibrant n younger..so he asked me whats my secret, share with him about jeunesse and immediatly he signed up and has been taking reserve diligently for his eczema n easily tired problems, now after 3mths..he tells me he feels energetic all the time, his blood pressure under very gd range n his ezcema recovering pretty well! THis was one case i did not approach the client but they approached me after seeing a younger looking methank you jeunesse for helping people change for the better!

Jeunesse is very focussed on using the latest stem cell technology and IT technology to promote the business. This is an ecommerce business and it is the future of shopping. Jeunesse has a great ecommerce platform with global access to millions of customers. It is simple to use and promote.

If you are looking for a Plan B to wealth creation Jeunesse is the best financial vehicle to create a passive income. I see this business in anti aging and in skin and health care the ideal business opportunity to be involved in. Not only does the products improve our own well being but also those of family and friends and same time we can build a supplemental passive income for our future retirement income which we can also pass on as our legacy to the next generation.

Jeunesse Global's nutrition and skincare products have changed millions of customers lives.

Just started using the Luminesce Serum to remove my pigmentation on the face.

Luminesce is exclusive to Jeunesse and the range of skin care products are very effective especially the Instantly Ageless product! The skin is the largest organ of our bodies covering 18.5 sq feet when stretched and it regenerates every 28 days.

Since taking Reserve I find that I am more energised till 1 a.m. most nights.

Jeunesse is a great platform that you would be able to touch lives, everyday. It is so touching listening to the testimonials of cancer patients. For myself, my face condition is getting better after using the Luminesce series, the pimples and the scars just

got faded after using for 1-2 months! GREAT!
