Jeunesse Singapore

November 15 ·

By 2030, the number of Singapore residents above 40 with diabetes is projected to increase by another 200,000 from about 400,000 today. As there is no cure for diabetes, keeping it under control is crucial.

Diabetes statistics in Singapore:

Diabetes is the 10th leading cause of death in Singapore accounting for 1.7 per cent of total deaths in 2011.

400,000: Number of diabetics in Singapore in 2013. Most are aged above 40.

600,000: Projected number of diabetics by 2030.

The World Health Organization estimates that more than 346,000,000 people worldwide have diabetes.

Jeunesse RESERVE contains Resveratrol and its antioxidant, anti-inflammatory, and anti-carcinogenic properties have been well-established by science, and its benefits are thought to extend to the prevention and treatment of chronic diseases such as diabetes, cancer and Alzheimer's disease, among others.
